Physics for Poets

The Lure of the Dark Side

Satan and Western Demonology in Popular Culture

Routledge Demons, devils, spirits and vampires are present throughout popular Western culture in film, music and literature. Their religious significance has only recently begun to be explored. 'The Lure of the Darkside' brings together the work of some of the most important and creative scholars in the field of Biblical and Religious Studies. The essays explore demonology in popular culture from a range of perspectives: Satanism within contemporary music; the relationship between hymn and horror film; the career of Hannibal Lecter; the portrayal of Satan in films about Christ; and spiritual perversion in the Harry Potter Stories. This fresh and ground-breaking volume will be of interest to students of religious studies and theology, as well as literary and popular culture.

Murach's Android Programming (2nd Edition)

Mike Murach & Associates This book teaches anyone with a basic understanding of Java how to develop Android apps at a professional level, using Android Studio. To start, it shows how to use Android Studio to code, test, and debug a Tip Calculator app for a smartphone or tablet. Then, it expands upon this app to show must-have Android skills such as working with layouts, widgets, events, themes, styles, menus, preferences, and fragments. Next, this book presents two more apps that illustrate Android skills you'll use every day, such as working with threads, files, adapters, intents, services, notifications, broadcast receivers, SQLite databases, content providers, and app widgets. Finally, this book presents an app that uses the Google Maps API and shows you how to submit your finished apps to the Google Play store. The real-world apps let you see how the skills you're learning work together, and they illustrate how and when you'd use each skill.

Project Planning and Control Using Primavera

Eastwood Harris Pty Ltd This book is a user guide and training manual written for Project Management Professionals who wish to learn how to set up a database and plan and control projects using Primavera P6 with or without Resources and Roles. The book is aimed at: 1. Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor supplied user manual. This book may be customized to meet your requirements, please contact the author for details. This book is a PMI Approved course. REPs may apply to have this course licensed to them. 2. Training organizations requiring a training manual to run their own training courses. 3. People who wish learn the software but are unable to attend a training course but find the software reference manual hard going. This book is an update of the authors Primavera Version 6.2 book and contains more chapters including Global Change, Multiple Project Scheduling, Managing the Enterprise Environment, Resource Optimization and Leveling. It has been written using the Construction and Engineering version but may be used by any industry and covers Versions 4 to 7. The book is packed with screen shots, constructive tips and contains workshops with solutions at the end of each chapter for the reader to practice the skills taught.

College Repository

A Holocene Prehistoric Sequence in the Egyptian Red Sea Area

The Tree Shelter

Leuven University Press Egyptian Prehistory Monographs 7The prehistory of the Eastern Desert of Egypt is not well understood. A Holocene Prehistoric Sequence in the Egyptian Red Sea Area is an important contribution to our knowledge of the Epi-Palaeolithic, Neolithic, and Predynastic occupation of the area. It presents the results of an excavation of a small rock shelter near Quseir, Egypt, which is one of the rare stratified sites in the Eastern Egyptian desert. The stratigraphic sequence starts around 8000 B.C.E. and continues until about 5000 B.C.E. The archaeological material attests clear connections with the Nile Valley and the Western Desert during the wet Holocene period. Topics covered in the book include the site's lithics and ceramics, microwear analysis of the lithic artifacts, and the woody vegetation of the Neolithic period.

Human Genetics

From Molecules to Medicine

Lippincott Williams & Wilkins Core genetics text for medical students in their 1st or 2nd year. Unique in its organ system approach, this textbook teaches concepts in medical genetics by exploring disease entities within the context of the organ system in which they most frequently present. TOP 30 genetic conditions covered in a tear-out apple flap or C2. Section on information from a patient and family's point of view helps teach students about key obstacles for patients suffering from severe genetic conditions. Adapted from a successful German text published by Springer.

Exploring C

Cheese It!

Start Making Cheese at Home Today

Fox Chapel Publishing A guide to making forty eight types of cheese from your own home, plus seventy five recipes to transform your creations into delicious dishes. Just a short decade ago “American cheese” meant orange individually wrapped slices. In the rural renaissance of the new century, many Americans have discovered the world of real cheese for the first time. From warm, milky mozzarella and handcrafted goat cheese to complicated Monterey Jack and Gorgonzola, cheese makers and cheese lovers have a broad range of delicious fromage to explore and enjoy. For all of the adventurous cheese lovers who want to make the leap to cheese makers, Cheese It! reduces the mysteries of transforming a couple of gallons of milk into a couple of pounds of delicious cheese. Artisanal cheese maker and author Cole Dawson leads the whey for beginners through the art and science of cheese making, including detailed advice on milk, coagulants and curds, equipment, safety, and more. Fresh Cheese for Today Begin with homemade butter, cream cheese, and sour cream, and then dip into the perfect starter: soft unripened cheeses such as paneer, Chèvre, feta, mascarpone, and ricotta. Discover the brine bath and make everyone’s favorite stretched cheese-mozzarella-as well as scamorza, Mexican Asadero, and provolone. Hard Cheeses Made Easy Enter the great aged beauties of the cheese world, Parmesan (Parmigiano-Reggiano) and Pecorino Romano from the north and south of Italy. Create fondue beyond compare with your own Swiss Gruyère and climb to the top of Montasio, the Alpine cousin of Asiago. Moving On to Semi-Hard Cheese Cover salting, pressing, and molding curds; the processes of aging and air-drying; and waxing techniques. Try your hand at the mighty Cheddar and its many variations; then move beyond Cheddar to Cantal, Monterey Jack, Cotswold, Caerphilly, and Caciotta. Learn how to wash curds and produce your own Colby, Gouda, and Edam. Mold on Your Molds Learn about washing rinds, the aging process, and the introduction of good bacteria. Make Muenster, Brick, Raclette, Tilsit, and Taleggio at home, plus bloomy rind favorites Camembert, Brie, Chaource, and Crottin. Tackle stinky blue cheeses such as Stilton, Roquefort, Fourme d’Ambert, and Gorgonzola.

Life Eternal

Little, Brown Books for Young Readers Renée Winters has changed. When she looks in the mirror, a beautiful girl with an older, sadder face stares back. Her condition has doctors mystified, but Renée can never reveal the truth: she died last May, and was brought back to life by the kiss of her Undead soul mate, Dante Berlin. Now, her separation from Dante becomes almost unbearable. His second life is close to an end, and each passing day means one less that she will spend with the boy who shares her soul.

Topics in Survey Sampling

Springer Science & Business Media The aim of this book is to make a comprehensive review on some of the research topics in the area of survey sampling which has not been covered in any book yet. The proposed book aims at making a comprehensive review of applications of Bayes procedures, Empirical Bayes procedures and their ramifications (like linear Bayes estimation, restricted Bayes least square prediction, constrained Bayes estimation, Bayesian robustness) in making inference from a finite population sampling. Parimal Mukhopadhyay is Professor at the Indian Statistical Institute (ISI), Calcutta. He received his Ph.D. degree in Statistics from the University of Calcutta in 1977. He also served as a faculty member in the University of Ife, Nigeria, Moi University, Kenya, University of South Pacific, Fiji Islands and held visiting positions at University of Montreal, University of Windsor, Stockholm University, University of Western Australia, etc. He has to his credit more than fifty research papers in Survey Sampling, some co-authored, three text books on Statistics and three research monographs in Survey Sampling. He is a member of the Institute of Mathematical Statistics and an elected member of the International Statistical Institute.

Xi Jinping: The Backlash

Penguin Group Australia Xi Jinping has transformed China at home and abroad with a speed and aggression that few foresaw when he came to power in 2012. Finally, he is meeting resistance, both at home among disgruntled officials and disillusioned technocrats, and abroad from an emerging coalition of Western nations that seem determined to resist China's geopolitical and high-tech expansion.

With the United States and China at loggerheads, Richard McGregor outlines how the world came to be split in two.

Figure Study Made Easy

Subject Covered: The human figure is a three dimensional structure of solid blocks having weight and to draw it convincingly you must learn how to create an illusion of solid form on a two dimensional sheet of paper. The topics in this book are arranged conveniently in step by step sequential chapters, which will show you how to capture the spirit and evolution of the figure. This will streamline your thoughts and result in capturing the essence of the figure in the shortest time. The approach of this book is based on teachings of the great masters of this subject which resulted in figured drawings of unforgettable strength and beauty. This book explains all the necessary guidelines towards the proper study of the human figure. Whether you want to learn figure drawing as a hobby or make a career out of it, the simple instructions in this book will help you in achieving that goal. Remember the key to successful drawing of the human figure is to practise one concept at a time.

Ebony Eyes

Genesis Press, Inc. Corie Rickman's parents have always indulged her, but chafing under their protective care, she chooses to marry a man from the wrong side of the tracks. After one too many beatings from her husband, she leaves him and starts her life over. Unfortunately for her, she knows too much about her ex's illegal activities, and now he's gunning for her. Undercover cop Laine Tanizaki is out to avenge his partner's death. He meets Corie while trying to bring down a ring of drug dealers. The attraction is instant, but the deceptions begin almost as quickly. Can they survive both Corie's murderous ex and the weight of their own lies?

Professional Android™ Application Development

John Wiley & Sons A hands-on guide to building mobile applications, Professional Android Application Development features concise and compelling examples that show you how to quickly construct real-world mobile applications for Android phones. Fully up-to-date for version 1.0 of the Android software development kit, it covers all the essential features, and explores the advanced capabilities of Android (including GPS, accelerometers, and background Services) to help you construct increasingly complex, useful, and innovative mobile applications for Android phones. What this book includes An introduction to mobile development, Android, and how to get started. An in-depth look at Android applications and their life cycle, the application manifest, Intents, and using external resources. Details for creating complex and compelling user interfaces by using, extending, and creating your own layouts and Views and using Menus. A detailed look at data storage, retrieval, and sharing using preferences, files, databases, and Content Providers. Instructions for making the most of mobile portability by creating rich map-based applications as well as using location-based services and the geocoder. A look at the power of background Services, using threads, and a detailed look at Notifications. Coverage of Android's communication abilities including SMS, the telephony APIs, network management, and a guide to using Internet resources. Details for using Android hardware, including media recording and playback, using the camera, accelerometers, and compass sensors. Advanced development topics including security, IPC, advanced 2D / 3D graphics techniques, and user-hardware interaction. Who this book is for This book is for anyone interested in creating applications for the Android mobile phone platform. It includes information that will be valuable whether you're an experienced mobile developer or making your first foray, via Android, into writing mobile applications. It will give the grounding and knowledge you need to write applications using the current SDK, along with the flexibility to quickly adapt to future enhancements.

Murach's C# 2015

This book gets you off to a fast start by showing you how to use Visual Studio 2015, C# 6.0, and the .NET 4.6 classes to develop Windows Forms applications. Next, it shows you the best techniques for developing object-oriented applications. Then, it shows you how to handle data a must in business development using data sources, ADO.NET code, and the Entity Framework for database data and LINQ for data structures like arrays and collections. Along the way, it gives you the core C# and Visual Studio skills that you need to develop any C# application whether for Windows, the web, or mobile devices. In short, No other core C# book teaches you so much, so fast, or so thoroughly.

The Gnostic Empire Strikes Back

An Old Heresy for the New Age

[Presbyterian & Reformed Publishing Company](#)

The Purple Violet of Oshaantu

[Waveland Press](#) Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

Achtung-Panzer!

The Development of Armoured Forces, Their Tactics and Operational Potential

[Arms & Armour](#) This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Murach's Java Servlets and JSP

[Mike Murach & Associates Incorporated](#) Provides information on using servlets and JavaServer Pages to create Web applications that use the MVC pattern.

THEORY AND METHODS OF SURVEY SAMPLING

[PHI Learning Pvt. Ltd.](#) This is a comprehensive exposition of survey sampling useful both to the students of statistics for the course on sample survey and to the survey statisticians and practitioners involved in consultancy services, marketing, opinion polls, and so on. The text offers updated review of difficult classical techniques of survey sampling, besides covering prediction-theoretic approach of survey sampling and nonsampling errors. NEW TO THIS EDITION Two new chapters—Nonparametric Methods of Variance Estimation (Chapter 19) and Analysis of Complex Surveys (Chapter 20)—have been added. These would greatly benefit the readers. KEY FEATURES □ Covers concepts of unequal probability sampling. □ Provides problems of making inference from finite population using tools of classical inference. □ Describes nonsampling errors including Randomised Response Techniques. □ Gives over 70 worked-out examples and more than 120 problems and solutions. □ Supplies live data from India and Sweden—in examples and exercises. What the Reviewer says: This is a very comprehensive modern text on survey sampling with a strong slant towards theoretical results. The book is an excellent reference book and would be a good graduate level sampling text for a course with an emphasis on sampling theory. — JESSE C. ARNOLD, Virginia Polytechnic Institute and State University

No Flowers Required

[Entangled: Brazen](#) Flower shop owner Alexa Conroy had it all before the recession hit and her customers fled to cheaper shopping grounds. Desperate to make ends meet, she sells her dream home and moves into the rundown apartments above her shop. When she spots six feet of sexy distraction—complete with muscles, piercings, and tattoos—ripping up flooring, Alexa knows the karmic windfall she's due just landed on her doorstep. And the attraction's definitely not one-sided. Dillon James, reluctant heir to the corporation about to foreclose on Alexa's shop, is not about to jeopardize their scorching

chemistry by admitting he's not the building's handyman. But with only weeks until her business goes under and his identity is revealed, Dillon must find a way to show Alexa that "cooperation" isn't a dirty word, help her save the shop from his brother's greed, and convince her that he's not the enemy...or risk losing the only woman who's seen the real him. Each book in the Love Required series is STANDALONE: * No Dress Required * No Flowers Required * No Romance Required * No Promises Required

Murach's ASP.NET Core MVC

Mike Murach and Associates, Incorporated If you know the basics of C# and HTML/CSS, you're ready to learn how to build ASP.NET Core MVC web apps the way the professionals do. This book covers all the essentials: the MVC pattern, Bootstrap for responsive design, routing, Razor views, model binding, data validation, EF (Entity Framework) Core for database handling, dependency injection, xUnit and Moq for unit testing, Identity for authentication, and more. It gets you going right away with a subset of basic skills, then builds on those skills so you'll soon be developing real-world web apps. Along the way, you get dozens of practical coding examples that help you apply what you've just learned and show how all the parts work together. And when you're done, this book does double duty as the best on-the-job reference that money can buy.

Inked Magic

Penguin From the New York Times bestselling author of Healer's Choice comes the story of a woman with the power of touch. Skin doesn't lie to her. It is her gift, sometimes her curse. She feels what others felt, and sees the things held in their memories... With the touch of her palms to the skin of a crime victim, San Francisco tattoo artist Etaín can see the faces of the guilty and draw them. Changeling elf but unaware of it, at odds with her police captain father and FBI agent brother, magic and gift have put her in the path of two compelling men. Cathal Dunne, the son of an Irish mob boss, needs Etaín's help finding the rapists who left his cousin for dead. Eamon, a powerful elf lord, is determined to make her his consort-wife. Her gift once made permanence impossible when it came to a lover. Now, as she approaches the transition to fully Elven, her survival depends on keeping two. One of the men is willing to share her. The other isn't-until the search for a sexual predator turns deadly, and only by paying magic's price will there be any future at all.

Interference

How Organized Crime Influences Professional Football

Open Road Media A shocking exposé of widespread corruption and mob influence throughout the National Football League—on the field, in the owners' boxes, and in the corporate suites According to investigative journalist Dan E. Moldea, for decades the National Football League has had a strong and unspoken understanding with a dangerous institution: organized crime. In his classic exposé, *Interference*, Moldea bares the dark, sordid underbelly of America's favorite professional team sport, revealing a nest of corruption that the league has largely ignored since its inception. Based on intensive research and in-depth interviews with coaches, players, mobsters, bookies, gamblers, referees, and league officials—including some of the sport's all-time greats—the author's shocking allegations suggest that the betting line is firmly in the hands of the mob, who occasionally manipulate the on-field action for maximum profit. *Interference* chronicles a long-standing history of gambling, drugs, and extortion, of point-shaving and game-fixing, and reveals the eye-opening truth about numerous gridiron contests where the final results were determined even before the kickoff. Moldea exposes the mob connections of many of the team owners and their startling complicity in illegal gambling operations, while showing how NFL internal security has managed to quash nearly every investigation into illegality and corruption within the professional football world before it could get off the ground. Provocative, disturbing, and controversial, *Interference* is a must-read for football fans and detractors alike, offering indisputable proof that what's really happening on the field, in the locker room, and behind the scenes is a whole different ball game.

The Thing in the Forest (Storycuts)

[Random House Leaves rustle underfoot in a dark wood: two little girls, extracted from their homes in wartime London, encounter something terrifying in a forest. Later when they meet as grown women, they realise the experience has coloured their lives. A dark tale about the nature of stories themselves. Part of the Storycuts series, this short story was originally published in the collection Little Black Book of Stories.](#)

Dreams of Difference, Songs of the Same

The Musical Moment in Film

[U of Minnesota Press Musical spectacles are excessive and abstract, reconfiguring time and space and creating intense bodily responses. Amy Herzog's engaging work examines those instances where music and movement erupt from within more linear narrative frameworks. The representational strategies found in these films are often formulaic, repeating familiar story lines and stereotypical depictions of race, gender, and class. Yet she finds the musical moment contains a powerful disruptive potential. Dreams of Difference, Songs of the Same investigates the tension and the fusion of difference and repetition in films to ask, How does the musical moment work? Herzog looks at an eclectic mix of works, including the Soundie and Scopitone jukebox films, the musicals of French director Jacques Demy, the synchronized swimming spectacles of Esther Williams, and an apocalyptic musical by Taiwanese director Tsai Ming-liang. Several refrains circulate among these texts: their reliance on clichés, their rewriting of cultural narratives, and their hallucinatory treatment of memory and history. Drawing on the philosophical work of Gilles Deleuze, she explores all of these dissonances as productive forces, and in doing so demonstrates the transformative power of the unexpected.](#)

New Testament Theology

[InterVarsity Press The culmination of a lifetime of study, this comprehensive New Testament theology brings out the rich variety of New Testament thought while demonstrating its inner unity. New Testament theology, maintains Donald Guthrie, centers on Jesus Christ—his person, work and mission—and is unified by repeated emphasis on the fulfillment of Old Testament promise, community, the Spirit and the future hope. An extended introduction surveys the history, nature and method of New Testament theology and sets forth the distinctive of Guthrie's synthetic approach. Guthrie then examines New Testament thought under the thematic headings of God, man and his world, Christology, the mission of Christ, the Holy Spirit, the Christian life, the church, the future, the New Testament approach to ethics, and Scripture. Within each chapter he explores the synoptic Gospels, the Johannine literature, Acts, Paul, Hebrews, the remaining Epistles and Revelation. Marked by scholarly rigor and thoroughness, this volume is a standard reference and text, reflecting mature conservative scholarship at its best. Note: Because this ebook file is large, please allow a little extra time to download.](#)

Osteoporosis

The Bone Thief

The Ha-Ha

A Novel

Hachette UK Howard Kapostash has not spoken in thirty years. The small repertory of gestures and simple sounds that he uses to communicate lead most people to assume he is disturbed. No one understands that Howard is still the same man he was before his tragic injury. But when he agrees to help an old girlfriend by opening his home to her nine-year-old son, the presence of this nervous, resourceful boy in his life transforms Howard utterly. He is afforded a rare glimpse of life outside his shell? With all its exuberant joys and crushing sorrows.

The Biopolitics of Gender

Oxford University Press, USA This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.
