KEY=GUIDE - DEVAN MARSHALL

Bone

Hachette Books *"We were a family of three girls. By Chinese standards, that wasn't lucky. In Chinatown, everyone knew our story. Outsiders jerked their chins, looked at us, shook their heads. We heard things." In this profoundly moving novel, Fae Myenne Ng takes readers into the hidden heart of San Francisco's Chinatown, to the world of one family's honor, their secrets, and the lost bones of a "paper father." Two generations of the Leong family live in an uneasy tension as they try to fathom the source of a brave young girl's sorrow. Oldest daughter Leila tells the story: of her sister Ona, who has ended her young, conflicted life by jumping from the roof of a Chinatown housing project; of her mother Mah, a seamstress in a garment shop run by a "Chinese Elvis"; of Leon, her father, a merchant seaman who ships out frequently; and the family's youngest, Nina, who has escaped to New York by working as a flight attendant. With Ona and Nina gone, it is up to Leila to lay the bones of the family's collective guilt to rest, and find some way to hope again. Fae Myenne Ng's luminous debut explores what it means to be a stranger in one's own family, a foreigner in one's own neighborhood--and whether it's possible to love a place that may never feel quite like home.*

Steer Toward Rock

Hyperion "The woman I loved wasn't in love with me; the woman I married wasn't a wife to me. Ilin Cheung was my wife on paper. In deed, she belonged to Yi-Tung Szeto. In debt, I also belonged to him. He was my father, paper too." Steer Toward Rock, Fae Myenne Ng's heartbreaking novel of unrequited love, tells the story of the only bachelor butcher at the Universal Market in San Francisco. Jack Moon Szeto--that was the name he bought, the name he made his life by--serves the lonely grass widows whose absentee husbands work the farmlands in the Central Valley. A man who knows that the body is the only truth, Jack attends to more than just their weekly orders of lamb or beef. But it is the free-spirited, American-born Joice Qwan with whom Jack falls in love. A woman whose life is guided by more than simple pain, Joice hands out towels at the Underground Bathhouse and sells tickets at the Great Star Theatre; her mother cleans corpses. Joice wants romance and she wants to escape Chinatown, but Jack knows that she is his ghost of love, better chased than caught. It is the 1960s and while the world is on the edge of an exciting future, Jack has not one grain of choice in his life. When his paper wife arrives from China he is forced to fulfill the last part of his contract and to stand before the law with the woman who is to serve as mistress to his fake father. Jack has inherited a cruel cultural legacy. A man with no claim to the past, his only hope is to make a new story for himself, one that includes both Joice and America. Not since Bone, Fae Myenne Ng's highly praised debut novel, has a work so eloquently revealed the complex loyalties of Chinese America. Steer Toward Rock is the story of a man who chooses love over the law, illuminating a part of U.S. history few are aware of, but one that has had echoing effects for generations.

Ceramics and Print

University of Pennsylvania Press *Printmaking techniques have long been used in the pottery industry, but until comparatively recently ceramicists have tended to view the use of these techniques with disdain. Attitudes are changing rapidly now, however, as makers continue to explore creative possibilities while working with ceramic materials. In this book, Paul Scott briefly discusses the history of ceramics and print, and then concentrates on the techniques used by contemporary ceramicists. These include: screen printing, both transfer decoration and working directly onto clay; photographic processes; sponge printing; stamped ware; linocuts; prints from plaster slabs; and other printmaking techniques. For this new edition Ceramics and Print has been significantly expanded and treats recent developments in the use of the photocopier, laser printer, and computer-generated prints. Many of the illustrations are new, and color images now replace almost all of the earlier black-and-white photographs. The book, groundbreaking in its original publication, has in the Second Edition been brought up to date and should add considerably to the knowledge of this exciting and popular medium.*

But when their mum is lost in the snowy wastes, the stage is set for a novel in two voices: a frantic story of seeking and finding which shrieks with nail-biting tension. Ceramic Transfer Printing

Herbert Press This book is going to be one of the first in our exciting new ceramic series, which offers more space for both images and text, giving a more modern and contemporary feel to the books. This book is aimed at those in ceramics who wish to move into print and transfers, a very exciting area which has enormous scope for creativity. Ceramic transfers or decals are one of the prime methods of decorating industrially made ceramics. They also offer exciting creative potential for studio-based artists or designer-makers. A ceramic transfer is traditionally made by printing ceramic ink onto a special paper and allows pictures, patterns or text to be transferred onto ceramic forms - 2D and 3D. Importantly, print can achieve distinct aesthetic effects on ceramics that are not possible by using other decoration methods such as hand painting. Drawing on over twenty years of experience, Kevin Petrie offers a focused analysis of the potential of ceramic transfer printing as a creative medium. The specific materials and techniques for making versatile screen-printed ceramic transfers are explained in detail - from the 'low tech' to the more sophisticated. Other approaches by artist researchers are also brought together in this book and recent developments with digital transfers appraised. A range of case studies shows the potential and diversity of approach in this area, which extends beyond ceramics to include printing on enamel, metal and glass.

Collection of Drawings by White Bread - Volume 2

Surreal Encounters of the Unconsciouc Mind

Independently Published This book is a legacy to our children and grandchildren..However, since they have not been incarnated on this Earth yet, it is our pleasure to share it with the reader!Dear reader, The journey you are about to embark on is of an abstruse nature. In front of you is a collection of imaginative drawings or comic strips, if you will. These visions have been summoned from the unconscious and subconscious mind of my husband. All of the drawings were drawn in a matter of minutes with both his left and right hand (both brain hemispheres) simultaneously. The surreal images appear on paper as some sort of auto-drawing, where the subject/theme/dreamscape of the drawing is not premeditated. It is drawing in the moment, while the pen is gliding over the paper..(no pencils, no erasing, no pausing to think.) Pure stream of (un)consciousness; instant mind to paper.The original drawings were created by him in black ink on white paper, to later be scanned into the computer and colored digitally by moi. It has become a collaborative work of two minds working together. The characters hidden in the book are unique, have a life and a world of their own and are inviting you to take a holiday in their realm. Lose your sense of time and urgency getting lost in reverie. Find the hidden riddles and questions each vision postulates. Get lost in a dreamworld, where the surreal and abstract reign whilst all the rules of conventional art and aesthetic are parodied. Let the characters and their environments tickle your own imagination while you watch the them live similar lives to ours: they wander, they wonder, they are confused and pensive, they get angry and fall in love, they have their own dreams within dreams...they are just like us but just a bit strange and silly. They wear their emotions and thoughts on their visages. Their appearances merge with their thoughts. Inner space and outer space are married on paper.Welcome to our world! the White Bread coup!

Codi's Journey

An Inspiring and Heartwarming Story about an Amazing Best Friend

Spiritsimple Enterprises L.L.C. Early in his relationship with his beloved Border Collie, Jeff Maziarek had a sense that "beneath the fur" there was a sentient being with far deeper insights into life than commonly thought. And, in their last year together some mystical events completely confirmed the accuracy of that feeling. In Codi's Journey, Jeff describes these events within the context of an inspiring and heartfelt narrative illustrating the very challenging circumstances Codi faced during her final 12 months. Any dog owner who has ever shared stories about the "humanness" of their pet, as well as any adult who has ever loved & lost a beloved animal companion, will surely find this work captivating. To provide even greater depth into Codi's story, Jeff details how this feisty canine became a part of his family. He likewise shares many engaging anecdotes about her personality and several of her more memorable adventures over the years. A charming photo gallery with 42 captioned images further brings Codi to life, featuring snapshots from the night she arrived as a 10-week-old puppy to the final week of her life. "Codi's story is one told with great heart; you will care about this dog as you think about your own dogs. Anyone who has ever loved and lost canine companions will definitely identify with this work." - Steve Dale, syndicated radio host: WGN Radio; "Pet World;" syndicated columnist, USA Weekend Contributing Editor "This book captures the dynamics of being a pet owner and the guilt, grief, and commitment that many pet owners go through in loving and losing a pet. As someone who has "been there," it was reassuring that I am not the only one to feel those things, to do whatever it took to save them and, when the time came, to let them go. Any book that can stir laughter as well as tears is a wonderful story. Codi's Journey is awesome." - Terri Wernert, Great Lakes Border Collie Rescue "I've experienced the extraordinary love and grievous loss that comes when we're lucky enough to share our lives with amazing creatures. Codi's Journey tells that story with candor, joy & tears. Since they cannot stay long, our four-legged kids teach so much about the importance of honoring each and every moment we're given with them, a lesson we might do well to apply elsewhere. A friend once told me that dogs are angels sent down to look after us. Codi's Journey affirms that belief" - Catherine Crier, Author, Former Judge, Award-Winning Journalist, and TV Broadcaster "For anyone who has experienced a spiritual canine connection, Codi's Journey is a must read. It's a touching tribute to a man's search for a very special pup and the heart-warming life journey they shared." - Eugenia Last, Internationally Syndicated Astrologist and Author "This is a remarkable story of a man's best friend and the powerful bond between dog and owner that will make you laugh, as you read about Codi's playful way of teaching wisdom, and cry as man & friend prepare for the next steps in life's great journey. It is a definite "must-read" for dog lovers who have lost a dear canine friend." - Pete Koerner, author of "The Belief Formula" Author's Personal Note: My foremost intention with this work is to share an authentic story with two key messages. First, that our pets actually are "sages with fur" with a far greater understanding of life (and us) than commonly thought. Second, that it's perfectly normal to feel intense & long-lasting grief at the loss of a pet. This is particularly so when that animal served as an adult's primary companion for years. In this regard, I sincerely want any reader who also has experienced such a loss to know that someone truly does understand the sadness and emptiness they felt when their beloved pet passed on. Finally, it's my hope that such readers come to understand how important it is to fully process their feelings of grief by really feeling them rather than keepin

The approach is based on the empowering effect of working with people in a way that allows them to meet their real needs, by approaching conflict positively and constructively.
