Teaching History with Big Ideas

Cases of Ambitious Teachers

R&L Education In the case studies that make up the bulk of this book, middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas. Framing a teaching unit around a question such as 'Why don't we know anything about Africa?' offers both teacher and students opportunities to explore historical actors, ideas, and events in ways both rich and engaging. Such an approach exemplifies the construct of ambitious teaching, whereby teachers demonstrate their ability to marry their deep knowledge of subject matter, students, and the school context in ways that fundamentally challenge the claim that history is 'boring.'

Washington's Farewell Address to the People of the United States, 1796

The Influence of Sea Power Upon History, 1660-1783

Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.

WHITE MAN'S BURDEN

This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

The World Revolution of Westernization

The Twentieth Century in Global Perspective

Oxford University Press on Demand Theodore H. Von Laue's stunningly original and controversial book approaches the dynamics of twentieth-century history from an entirely new perspective by proposing that the little-understood historic process known as the world revolution of Westernization has caused the global violence and warfare of this century. Accounting for world wars, the rise of communism and fascism, decolonization, Third World dictatorships, and contemporary terrorism, Von Laue describes the twin processes of the expansion of Western power and the emergence of global interdependence. His journey through the twentieth century begins in the 1870s with the British raj in India; includes the colonization of Africa, the communist and fascist "counter-revolutions," the Great Depression, Stalinism and Hitler's unleashing of World War II, and the post-war emergence of the United States as the foremost superpower; and ends with the nuclear arms race, the most dangerous of all global tensions. As a challenging history of the contemporary age, this book will make readers think more globally and compassionately about the complex issues that threaten our peace and survival as we prepare to enter the twenty-first century.
