The book makes plain what has been obscure. Long before our "New Age" of Aquarius or even the environmental evangelism of "an inconvenient truth," Charles Morgan, 91 year old "Hindu preacher" and "farmer philosopher," revealed the secrets of the last days. For instance, we learn that Levi Dowling brought forth the Akashic Record and Aquarian Gospel of Jesus Christ not in the 1960s, but in the 1860s. Long before the "planned community," "open space," or "green space," Charles Morgan postulated the "city in a building." From the dust bowl to today's "drying of the west," this farmer said we farm too much and honor nature too little. This Dynamic World leads us to prophets from Moses to Edgar Cayce, thinkers from Plato to Confucius, scientists from Einstein to Hawking, and also spiritual masters like Paramahansa Yogananda, the first Hindu yogi in America and his disciple. In this book, we learn from saints like Paul and John on his isle of Patmos as well as from heavenly messengers (called by some angels, by others astral beings). We find God With Us (called by some Messiah, by others avatar). The book is a key to enlightenment on a spiritual level of existence in a planetary community for individual and worldwide salvation where we are all related and must relate to each other. This is the concept of "biorelativity." This Dynamic World calls us on a Worldwide Crusade for Biorelativity. This Dynamic World uses the "fabric of time" as a scientific basis for prophecy and the astral cycle of George King, Jeanne Dixon, and Ruth Montgomery. We embrace "good vibrations," "energy," meditation, and "yoga" but also the Word of God and the philosophies of men in a determination to take blessed action. **Dynamic of Destruction : Culture and Mass Killing in the First World War Culture and Mass Killing in the First World War OUP Oxford** On 26 August 1914 the world-famous university library in the Belgian town of Louvain was looted and destroyed by German troops. The international community reacted in horror - 'Holocaust at Louvain' proclaimed the Daily Mail - and the behaviour of the Germans at Louvain came to be seen as the beginning of a different style of war, without the rules that had governed military conflict up to that point - a more total war, in which enemy civilians and their entire culture were now 'legitimate' targets. Yet the destruction at Louvain was simply one symbolic moment in a wider wave of cultural destruction and mass killing that swept Europe in the era of the First World War. Using a wide range of examples and eye-witness accounts from across Europe at this time, award-winning historian Alan Kramer paints a picture of an entire continent plunging into a chilling new world of mass mobilization, total warfare, and the celebration of nationalist or ethnic violence - often directed expressly at the enemy's civilian population. **Dynamic Sermon Outlines Baker Publishing Group Socialist Joy in the Writing of Langston Hughes University of Missouri Press** "Explores Hughes's intellectual method and its relation to social activism. Examines his involvement with socialist movements of the 1920s and 1930s and contends that the goal of overthrowing white oppression produced a "socialist joy" expressed repeatedly in his later work, in spite of the anticommunist crusades of the cold war"--Provided by publisher. **Joy and International Relations A New Methodology Routledge** This book aims to develop new methodology for the study of international relations (IR) based on joy, informed by current thinking about posthumanism, feminist theory and positive psychology. It examines how the mechanistic-deterministic worldview derived from the Newtonian model has influenced the epistemology and methodology of IR (i.e., the idea that the world is constituted of independent fragments), and seeks ways to develop a new methodology for IR by drawing on the potential of a non-fragmented worldview. The author argues that it is this modern Western view of human beings (or societies) as isolated and separate from the world that prevents IR from finding new solutions to the questions of war and conflict. Drawing upon case studies, testimonies and examples

from film, this book instead proposes joy as an alternative methodology for studying IR, exploring the possibility of self-healing in physical and emotional trauma in extreme violent conditions. The author also discusses how posthumanism contributes to positive psychology in understanding happiness and empowerment, and demonstrates how these findings can further widen the study of IR. This book will be of much interest to students of gender studies, war and conflict studies, IR theory and critical security studies.

The Joy of the Gospel Evangelii Gaudium Image The perfect gift! A specially priced, beautifully designed hardcover edition of The Joy of the Gospel with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, The Joy of the Gospel is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of Catholicism: A Journey to the Heart of the Faith and James Martin, SJ, author of Jesus: A Pilgrimage

Love, Joy, and Sex African Conversation on Pope Francis's Amoris Laetitia and the Gospel of Family in a Divided World Wipf and Stock Publishers There is no papal document that has generated as much interest, controversy, and debate in recent times as Pope Francis's Amoris Laetitia. This document, which came out of two very divisive synods of Catholic bishops and leaders in Rome in 2014 and 2015, will probably be the most discussed document ever produced by a pope in modern Catholicism on marriage and family life. This volume has gathered seminal commentaries on Amoris Laetitia by African Catholic theologians, social scientists, and pastoral workers. They offer African theological and pastoral responses to the principles and practices proposed by Pope Francis and the Synod on the family on such contested issues as same-sex relations, divorce and remarriage, and reception and denial of Holy Communion in the church, among other divisive issues. These important essays and commentaries show the strengths and weaknesses of this papal commentary and point out the missing link in the global conversation on marriage, family, and same-sex relations. Their argument for the inclusion of African perspectives and moral traditions in the search for a third way in finding an inclusive and integrated pastoral art of accompaniment is very compelling. The authors here also call for the inclusion of Africa's own unique challenges—like polygamy, childless marriages, and the impact of migration, civil conflict, diseases, ecological and population crises, and the rights of African women—in the global discussion on marriage and family life. They also challenge uncritical clichés in world Christianity that Africa's opposition to same-sex marriages (or Western propaganda about population or birth control and contraception) are conservative, while showing diverse African conversations on these topics in the search for abundant life on this beautiful continent.

Plugged-In to the Dynamic Word Living in Faith, Love, and Hope WestBow Press We know that the Word of God is living and powerful, with the potential to dramatically impact the heart for God. The passages of the Bible enlighten and enliven us, but most of us have a limited view of how the parts of the Word relate to each other. What if we could have a comprehensive grasp of the whole of Scripture, so that we could see the big picture? What if we could see the whole illuminated by the truths that bind the parts as one book? Plugged-in to the Dynamic Word familiarizes us with the thought form and allows us to see the parts of the Bible as a united message. In this experience, we can subject our hearts to the collective impact of the Word, be more in touch with God's basic thoughts, and draw closer to the heart of God. A builder could introduce the parts of a house to a totally uninformed person, who could admire the straightness of the stud, the massiveness of the floor joist, the structure of the truss rafter, and so on. But only when he sees that each part is intended to connect to the other parts to form a house can he fully appreciate their value and joyfully look forward to having a home from the parts he originally admired. Plugged-in to the Dynamic Word shows the orderly connectivity of the parts of the Bible to portray a whole spiritual house of God's truth and grace housing His people. <http://youtu.be/lh5UBq-l74g>

The Other Side of Joy Religious Melancholy among the Bruderhof Oxford University Press This is a case study of one pietist religious group, the Bruderhof. Rubin offers compelling accounts of the lives of Bruderhof apostates who foundered over issues of faith, and relates these crises to the central tenets of Bruderhof theology, their spirituality, and community life.

The Joy of Missing Out Finding Balance in a Wired World New Society Publishers After giving up the Internet for a month, a writer shares how we can all learn from her experience and rethink our relationship with the digital world. There's no doubt that technology has overrun our lives. Over the past few decades, the world has embraced "progress" and we're living with the resultant clicking, beeping, anxiety-inducing frenzy. But a creative backlash is gathering steam, helping us cope with the avalanche of data that threatens to overwhelm us daily through our computers, tablets, and smartphones. The Joy of Missing Out considers the technologically focused life, with its impacts on our children, relationships, communities, health, work, and more, and suggests opportunities for those of us longing to cultivate a richer on- and off-line existence. By examining the connected world through the lens of her own Internet fast, author Christina Crook creates a convincing case for increasing intentionality in our day-to-day lives. Using historical data, typewritten letters, chapter challenges, and personal accounts, she invites us to explore a new way of living, beyond our steady state of distracted "connectedness." Most of us can't throw away our smartphone or cut ourselves off from the Internet. But we can all rethink our relationship with the digital world, discovering new ways of introducing balance and discipline to the role of technology in our lives. This book is a must-read for anyone wishing to rediscover quietness of mind, and seeking a sense of peace amidst the cacophony of the modern world. Praise for The Joy of Missing Out "Crook's book does a marvelous job of examining where we've gone awry and how we might begin to take ourselves and our lives back, while acknowledging the reality and importance of our wired world." —Dr. Susan Biali, MD, Psychology Today "Offers thoughtful consideration of how online communications have evolved, as well as the value we place on being ever present in a digital world, often to the detriment of personal space and quiet time. Through practical examples and directions, Crook champions developing healthier habits for a more mindful online experience." —Lori A. May, Portland Book Review

And likewise the focus of most organizational training programs, & professional seminars is chiefly upon the subjects of management & leadership. But every manager is also a follower. And it is the author's perception that most managers fail in their jobs because they are poor subordinates. They have somehow failed to please their boss in their subordinacy roles. This book is not theory. It is a hard hitting & pragmatic description of one of the most difficult, yet most challenging roles in our society...the role of being an effective (dynamic) subordinate while at the same time fulfilling an important & demanding position as a leader-manager. The book is liberally sprinkled with personal vignettes about the author's struggles & experiences as a subordinate. Since his later work years were spent in the top management position in the Department of State in Washington, some of the characters of the vignettes are people like Kennedy, Johnson & Rusk. And in all cases, the author is the one who learns the hard lessons of being an effective subordinate - which he shares in this book. To order contact: Center for Applied Behavioral Science, P.O.
