EDUCATIONAL DEVELOPMENTS IN SOUTH KASHMIR SINCE INDIAN INDEPENDENCE

Anchor Academic Publishing **Since the emergence of civilization, man has been marching in search of knowledge and wisdom. Various research studies have been proposed through education so that humanity, brotherhood and harmony are wedded together. Education is central for making life meaningful and purposeful. Education in India is provided by the public sector as well as the private sector, with control and funding coming from three levels: central, state, and local. Takshasila was the earliest recorded centre of higher learning in India from at least 5th century B.C. and it is debatable whether it could be regarded a university or not. The Nalanda University was the oldest university system of education in the world. Western education became ingrained into Indian society with the establishment of the British Raj. Since gaining independence, India has made considerable progress in education with reference to overall literacy, infrastructure and universal access and enrolment in schools. This book covers a wide range of important topics on the development of education**

and ist progress at National level. The author is extremely grateful to the number of authors and scholars whose material has been consulted and referred to in this book. The author would heartily welcome and acknowledge quires, suggestions and comments, both from the teachers and the students for further improvement in the next edition.

RAINFOREST

DISPATCHES FROM EARTH'S MOST VITAL FRONTLINES

Profile Books **Rainforests are the lungs of our planet - regulators of the earth's temperature and weather. They are also home to 50 per cent of the world's animals and plants - which for centuries have been the source of many of our key medicines. And yet we've all heard of their systematic destruction; the raising of trees to make way for plantations of oil palms or cattle, the disenfranchisement of indigenous peoples, and the corruption that leads to illegal logging and pollution. But this is the full story you've never heard: an in depth, wide-ranging, first-hand narrative that not only looks at the state of the world's tropical rainforests today and the implications arising from their continuing decline, but also at what is being done, and can be done in future, to protect the forests and the 1.6 billion people that depend upon them. It is inspirational, too, in its descriptions of the rainforest's remarkable birds and plants ... and its indigenous people. Rainforest is a personal story, drawing on the author's many years' experience at the frontline of the fight to save the rainforests, explaining the science and history of the campaigns, and what it has felt like to be there, amid the conflicts and dilemmas.**

A TEXTBOOK OF LEGAL STUDIES FOR CLASS XII

Goyal Brothers Prakashan **A Textbook of Legal Studies for Class XII In the last few decades, India has not only showcased itself as the world's largest democracy but also exhibited the resilience of its institutions and the fortitude of its governance benchmarks. As India pursues a leadership position in the world community, the need for a rule-of-law society has become a necessary pre-condition. A compliant and law-abiding citizenry alone can build the requisite ecosystem for a nation to surge ahead. This calls for a greater legal literacy amongst its masses to enhance their understanding of public affairs as well their entitlements and duties as citizens. In the long run, this can also potentially eradicate the ethics deficit in society. Structured training in law not only helps the youth challenge their thought process and nurture analytical and negotiation skills but also prepares them for myriad opportunities and exciting career options. No wonder, in the last few years, apart from offering the traditional career in litigation, the law has established itself into fields like public service, academics, research, public policy, journalism, and various**

other emerging streams. To cater to this burgeoning demand for trained legal professionals, India has seen a tremendous growth of institutions like the National Law Universities and many private universities offering law courses, in addition to the expansion of the existing facilities. Central Board of Secondary Education's decision to introduce 'Legal Studies' as an elective subject, in the year 2013-14 for the Class XI students and in the year 2014-15 for the Class XII students, could not have come at a better time. It is a testimony to the realisation that the introduction of an important subject like Legal Studies at an early stage can do wonders for the students who plan a career in the field of law. Even for those who may pursue other careers, their intellectual strength and the problem-solving abilities will be enhanced though the study of law. This book is a humble attempt to make a student's first interface with the law as a subject an elevating experience. Care has been taken to make the presentation of the text simple and reader-friendly. The various units of the book, while meeting the requirements of the prescribed syllabus, offer comprehensive coverage of the aspects of law that have been covered. Important legal terms have been meticulously explained with examples to help the students develop a clear understanding about them. All relevant cases have been duly cited, and it has been ensured that the text comprises the latest information about the incorporated content. PREFACE Authors are confident that the book shall be extremely useful for the students of Class XII in developing a clear understanding of the various critical facets of law. They can also benefit immensely from the tips given by the authors for preparing for the examinations and scoring well. The book also has the potential to become a foundational text in the hands of those seeking a basic understanding of the Indian legal system. Our sincere thanks to Dr. B.L. Babel, retired District and Sessions Judge and an acclaimed author of innumerable law books, and Dr. Anil Kaushik, former Dean, Faculty of Law, M.G.S. University, Bikaner, and presently, Principal, S.D. Law (P.G.) College, Sri Ganganagar, Rajasthan, for guiding us in the development of the text. Special thanks to Mr. Sanjay Sardana and Mr. Sankalp Sardana of the Manav Mangal Group of Schools for helping us develop a perspective about the students' expectations from the book. We would like to express our deep gratitude to Prof. Ramesh Arora and Mrs. Priyanka Sapra for their mentoring and consistent motivation in all our endeavours. We are deeply indebted to the publishers, Goyal Brothers Prakashan, particularly Mr. Suresh Goyal and his dedicated team for making this book a reality despite all the impediments posed by the pandemic. Their efforts in enhancing the presentation of the book are sincerely acknowledged. The authors shall also like to register their profound appreciation for the outstanding academic and research environment at the O.P. Jindal Global University, Sonipat, which helped in the conception and development of this book. In particular, the suggestions from a few students turned out to be invaluable in the development of this work, for which the authors shall remain indebted. Human efforts, howsoever ingenuous, are at best attempts

seeking excellence and are liable to suffer from infirmities. We look forward to the feedback from our readers and shall be ever so keen to learn from their views and acknowledge the same appropriately. Last but by no reckoning the least, the authors would like to thank all their friends and family members profusely for their encouragement and constant support.

ECONOMICS AND ENGINEERING OF UNPREDICTABLE EVENTS

MODELLING, PLANNING AND POLICIES

Routledge **In recent decades, the intensification of unpredictable events including the Covid-19 outbreak, Brexit, trade warfare, religion-inspired terrorism and civil wars, and climate change has resulted in serious loss of human lives and property, a decrease in biodiversity and natural hazards (with long-term negative impacts on environment), and impeded social and economic development. Economics and Engineering of Unpredictable Events: Modelling, Planning and Policies provides an integrated view of the management of unpredictable events incorporating three major perspectives: economic management, environmental planning and engineering models. Contributors from economics, planning, regional science, and engineering address key questions including; How resilient are human societies and their habitats? What should societies do to shift from being vulnerable to being more resilient? And what role should planning and policies play to protect communities and the natural environment? The chapters cover academic debates, conceptual reflections, case studies, methods, and strategy development with particular reference to mitigation and adaptation in face of unpredictable events. This book is of particular interest to readers of economic policy, urban and regional planning and engineering.**

WOMEN AND CLIMATE CHANGE IN BANGLADESH

Routledge **Bangladesh is by no means a high emitter of carbon, but it is nevertheless one of the countries most critically affected. There is a significant risk of damage to lives and livelihoods due to climate change in the form of cyclones, flooding and storm surges, and slow-onset impacts such as droughts, sea level rises and river basin erosion. Moreover, Bangladeshis are especially vulnerable as a high proportion of people live in extreme poverty. This book assesses the impact of climate change in Bangladesh, and presents the findings of a three-year, in-depth study undertaken at village level in different districts of the country. It examines national policies, contrasting them with what is actually happening at village level. It outlines the impact of climate change on livelihood strategies and health, and focuses particularly on the impact on gender relations, showing that although women have a significant role to play in helping communities cope with the effects of climate change, cultural customs and practices often work against this. The book argues for, and puts forward policy proposals for, recognising women's active contribution and supporting gender equality as a critical strategy in global adaptation**

to climate challenges.

THE EPIC OF THE BUDDHA

HIS LIFE AND TEACHINGS

Shambhala Publications **A translation of the modern Nepalese classic Winner of the Toshihide Numata Book Award in Buddhism and the Khyentse Foundation Prize for Outstanding Translation This award-winning book contains the English translation of Sugata Saurabha ("The Sweet Fragrance of the Buddha"), an epic poem on the life and teachings of the Buddha. Chittadhar Hṛdaya, a master poet from Nepal, wrote this tour de force while imprisoned for subversion in the 1940s and smuggled it out over time on scraps of paper. His consummate skill and poetic artistry are evident throughout as he tells the Buddha's story in dramatic terms, drawing on images from the natural world to heighten the description of emotionally charged events. It is peopled with very human characters who experience a wide range of emotions, from erotic love to anger, jealousy, heroism, compassion, and goodwill. By showing how the central events of the Buddha's life are experienced by Siddhartha, as well as by his family members and various disciples, the poem communicates a fuller sense of the humanity of everyone involved and the depth and power of the Buddha's loving-kindness. For this new edition of the English translation, the translators improved the beauty and flow of most every line. The translation is also supplemented with a series of short essays by Todd Lewis, one of the translators, that articulates how Hṛdaya incorporated his own Newar cultural traditions in order to connect his readership with the immediacy and relevancy of the Buddha's life and at the same time express his views on political issues, ethical principles, literary life, gender discrimination, economic policy, and social reform.**

NEIGHBOURHOODS AND NEIGHBOURLINESS IN URBAN SOUTH ASIA

SUBJECTIVITIES AND SPATIALITY

Taylor & Francis **This volume examines urban South Asia through the ideas of neighbourhood and neighbourliness. With a focus on the affective socio-spatial and sensorial experiences of non-metropolitan, small and intermediate cities, the chapters in the volume look at neighbourhoods as a key to exploring the textures of urban life. Bringing together scholars from a variety of disciplines including sociology, anthropology, urban studies, planning, and social history, the book highlights urban heterogeneity and contemporary transformations in South Asia. It discusses the linkages between urban lived spaces and social life; memory, migration, and exile; and the city and its society through practices of everyday life in neighbourhoods. With studies from Sri Lanka, Nepal, Afghanistan, Bangladesh, and India, the volume addresses a wide range of issues pertaining to urban experiences in their regional specificities and in a broader context of the Global South. This book will be useful to scholars and researchers of urban sociology, anthropology, urban studies, planning and development, social history, political studies, cultural studies, geography, and South Asian studies. It will also interest practitioners and policymakers, architects, planners, civil society organisations, and thinktanks.**

BEYOND SEVEN SEAS AND THIRTEEN RIVERS

Prabhat Prakashan **Beyond Seven Seas and Thirteen Rivers is a serio-fiction based on a hundred years old true story and the fictional story of a Naxalite rebel of the seventies of last century. The true story is about a man who lived in the nineteenth century and rebelled against the restrictive life of the society at that time and used to dream about distant foreign lands and adventures, stimulated by stories from Ramayana and**

Mahabharata. He left home as a teenager and through many adventures in the lands unknown became a renowned soldier and officer in the Brazilian Republican Army. His sketchy biography was published in a Bengali book at the turn of the century, 1899-1900, but nothing is known about him afterwards except that he died in Brazil in 1905. Born in the same year as Rabindra Nath Thakur and two years before Swami Vivekananda he remained an icon and an enigma, the only heroic-romantic character at the dawn of Indian renaissance. The fictional Naxalite rebel of the seventies also had to leave the country after many adventurous escapes, true events in the life of many young men, and reached Brazil and came to know about his predecessor a hundred years back and started searching for him. That changed his life bringing forth many perennial issues of man and society.

RESURGENT INDIA

Prabhat Prakashan **India got freedom but still we are lagging behind in comparision to other countries who also got independence in the some era as we got. We are still struggling to achieve what we should have attained much earlier. What we see on the surface of reality is the opposite of what is there on paper. We discover that we have not moved forward but pushed back. There is nothing unusual in the problems of hunger; want; health; hygiene; water supply and education. But what is unusual is that our efforts have not borne fruit because these had not been honest and sincere. 'Resurgent India' is the flight of our imagination. It encompasses the elements of science; sacrifice; god; religion; spirituality and knowledge**

and it can institutionalise a human being into god from within the common citizens and society. Nation pervades our soul; mind and heart. We have always kept this sense alive. We have neither lost sight of our culture nor shut ourselves to new ideas. This collection has the vision of a Bharat singed with the sensitive spirit of Antyodaya; moving up and fast. The 'Resurgent India' which is in your hand is the result of collective efforts. In preparing it; constructive efforts of many practitioners of word; worshippers of Saraswati and those saints who are engaged in taking Bharat Mata to the highest level have been employed.
