### Theory, Practice, and Community Development

[Routledge](#) For many scholars, the study of community and community development is at a crossroads. Previously dynamic theories appear not to have kept pace with the major social changes of our day. Given our constantly shifting social reality we need new ideas and research that pushes the boundaries of our extant community theories. Theory, Practice, and Community Development stretches the traditional boundaries and applications of well-established community development theory, and establishes new theoretical approaches rooted in new disciplines and new perspectives on community development. Expanded from a special issue of the journal Community Development, Theory, Practice, and Community Development collects previously published and widely cited essays, as well as new theoretical and empirical research in community development. Compiled by the editors of Community Development, the essays feature topics as varied as placemaking, democratic theory and rural organizing. Theory, Practice, and Community Development is vital for scholars and practitioners coming to grips with the rapidly changing definition of community.

### Betrayal in the City

### A Play

[East African Publishers](#) **Betrayal in the City**, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.

### Blossoms of the Savannah

[Longhorn Kenya](#) **Blossoms of the Savannah** is the story of two sisters, Taiyo and Resian, who are on the verge of womanhood and torn between their personal ambitions and the humiliating duty to the Nasila tradition. Relocation to their rural home heralds a cultural alienation born of their refusal to succumb to female genital mutilation and early marriages. In pursuit of the delicate and elusive socio-economic cultural balance in Nasila, Ole. Kaelo, the girls' father is ensnared by a corrupt extortionist. To extricate himself he sends his daughters into a flat-spin labyrinth from which they have to struggle to escape.

### The Caucasian Chalk Circle

[Bloomsbury Publishing](#) **Brecht** projects an ancient Chinese story onto a realistic setting in Soviet Georgia. In a theme that echoes the Judgment of Solomon, two women argue over the possession of a child. Thanks to the unruly judge, Azdak (one of Brecht's most vivid creations) natural justice is done and the peasant Grusha keeps the child she loves, even though she is not its mother. Written while Brecht was in exile in the United States during the Second World War, The Caucasian Chalk Circle is a politically charged, much-revived and complex example of Brecht's epic theatre. This new Student Edition contains introductory commentary and notes by Kristopher Imbriggota from the University of Puget Sound, US,

offering a much-needed contemporary perspective on the play. The introduction covers: - narrative structure: play about a play within a play ("circle") - songs and music - justice and social systems - context: Brecht, exile, WWII, socialism - notions of collective and class - fable and story adaptation, folk fairy tale

## Benefiting from Basic Education, School Quality and Functional Literacy in Kenya

[Elsevier](#) Studies of the retention of literacy and numeracy by adults who have only obtained primary schooling have given little encouragement to the belief that the cognitive effects of schooling are enduring for many school leavers. How these findings can be reconciled with the claims made for the importance of schooling as an instrument of social and economic change is the subject of investigation in this volume. The cognitive outcomes of literacy acquisition and secular schools in coastal Kenya are the focus of this ethnographic study, which stresses the relevance of an international understanding of the particular problems and dilemmas that face the educational systems of individual countries.

[World Scientific Publishing Company](#) This lively introductory text exposes the student in the humanities to the world of discrete mathematics. A problem-solving based approach grounded in the ideas of George Pólya are at the heart of this book. Students learn to handle and solve new problems on their own. A straightforward, clear writing style and well-crafted examples with diagrams invite the students to develop into precise and critical thinkers. This book illustrates how to spot invalid arguments, to enumerate possibilities, and to construct probabilities. It also presents case studies to students about the possible detrimental effects of ignoring these basic principles.
