### Pre-Incident Indicators of Terrorist Incidents

### The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct

*DIANE Publishing* This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

### Driving with a Teenage Brain

### A State Trooper's Notes on How to Stay Alive

*Createspace Independent Publishing Platform* A common-sense driving book for teenagers, which recognizes and addresses the difference between the teen brain and that of an adult. Parents, investing in this book for your teen will teach them how to survive while learning to drive rather than becoming another teenage statistic. It won't teach them how to parallel park, make a three-point turn or how to pass a written test. They can easily learn these skills elsewhere. This book will provide the tools for your teen to recognize and avoid hazardous situations and unsafe drivers. It will show them how to train their inexperienced, teenage brains to make safe, split-second decisions when life-threatening events occur. In this book I have shared the knowledge gained over many years of driving, to help keep your teen alive while driving. Now help them to understand and apply this knowledge. Don't just give them this book. Make sure they read it. Quiz them on it, especially the chapter on Defensive Driving. Reviews by Law Enforcement Professionals "Investigating traffic accidents - especially those resulting in death or serious physical injury - is one of the most difficult jobs facing a police officer. When those accidents involve young or inexperienced drivers, the task is especially agonizing. With an emphasis upon driver safety, this very comprehensive book is an excellent resource for teenagers and parents alike, and I highly recommend it!" Daniel Carlson - Captain, Assistant Director of Training, New York State Police, Ret. Rich, thanks for letting me review your book. It's obvious you put a lot of effort into it, drawing on your unique experiences. I especially liked your personal stories and all of your common sense, practical advice! You have provided an informative life-saving guide for everyone hoping to avoid a motor vehicle accident. I am confident you will make better, more thoughtful drivers with your insights. Each of my own grandchildren will be receiving a copy of this book as they prepare to get behind the wheel and hit the road. Excellent job! Lars Jarvie - Chief of Police, City of Mesa, Arizona, Ret. Richard Kasper has developed a common-sense guide for those who don't always use a great deal of common sense. I wish that this book existed when my sons were learning to drive. Nicely done! Ben Wolfinger - Sheriff, Kootenai County, Idaho Great information even for me, an old retired cop of 34 years. Having raised five children and worked with youth in Boy Scouts and church activities, I can attest that, while they are wonderful people, teenagers act like teenagers. The information in this book may save a teen's life. Thanks for writing this, Rich. I will share it with my kids. Gordon H. Gartner - Chief of Police, Town of Payson, Arizona, Ret.

## The Coming Man from Canton

### Chinese Experience in Montana, 1862-1943

*U of Nebraska Press* In **The Coming Man from Canton** Christopher W. Merritt mines the historical and archaeological record of the Chinese immigrant experience in Montana to explore new questions and perspectives. During the 1860s Chinese immigrants arrived by the thousands, moving into the Rocky Mountain West and tenaciously searching for prosperity in the face of resistance, restriction, racism, and armed hostility from virtually every ethnic group in American society. As second-class citizens, Chinese immigrants remained largely insular and formed their own internal governments as well as labor and trade networks, typically establishing communities apart from the main towns. Chinese miners, launderers, restaurant keepers, gardeners, railroad laborers, and other workers became a separate but integral part of the American experience in the Intermountain West. Although Chinese immigrants constituted more than 10 percent of the Montana Territory's total population by 1870, the historical records provide a biased and narrow perspective, as they were generally written by European American community members. Merritt uses the statewide Montana context to show the diversity of Chinese settlements that has often been neglected by archival studies. His research highlights how the legacy of the Chinese in Montana is, or is not, reflected in modern Montana identity and how scholars, educators, professionals, and the public can alter the existing perception of this population as the "other" and perceive it instead an integral part of Montana's past.

## Intelligence-led Policing

### The New Intelligence Architecture

"Intelligence in today's policing environment must adapt to the new realities presented by terrorism and conventional crimes. These new realities require increased collaboration in information gathering and intelligence sharing. ... Intelligence-led policing is a collaborative enterprise based on improved intelligence operations and community-oriented policing and problem solving, which the field has considered beneficial for many years. To implement intelligence-led policing, police organizations need to reevaluate their current policies and protocols. Intelligence must be incorporated into the planning process to reflect community problems and issues. Information sharing must become a policy, not an informal practice. Most important, intelligence must be contingent on quality analysis of data. The development of analytical techniques, training, and technical assistance needs to be supported. ... This document identifies four levels of intelligence capabilities for state and local agencies. At each level, steps can be taken to help agencies incorporate intelligence-led policing strategies. These steps include adopting mission statements, writing intelligence policies and procedures, participating in information sharing, establishing appropriate security, and adopting legal safeguards to protect the public's privacy and civil liberties."--Executive Summary.

### A Field Guide to Monkeywrenching

### A Cowboy Detective

### A True Story of Twenty-Two Years with a World-Famous Detective Agency

*U of Nebraska Press* After years of cowboying, Charles A. Siringo had settled down to store-keeping in Caldwell, Kansas, when a blind phrenologist, traveling through, took the measure of his "mule head" and told him that he was "cut out" for detective work. Thereupon, Siringo joined the Pinkerton National Detective Agency in 1886. **A Cowboy Detective** chronicles his twenty-two years as an undercover operative in wilder parts of the West, where he rode with the lawless, using more stratagems and guises than Sherlock Holmes to bring them to justice and escaping violent death more often than Dick Tracy. He survived the labor riots at Coeur d'Alene, Idaho, in 1892 (his testimony helped convict eighteen union leaders), hounded moonshiners in the Appalachians, and chased Butch Cassidy's Wild Bunch. Once described as "a small wiry man, cold and steady as a rock" and "born without fear," Charlie Siringo became a favorite of high-ups in the Pinkerton organization. Nevertheless, the Pinkertons, ever sensitive to criticism, went to court to block publication of Siringo's book. Frank Morn, in his introduction to this Bison Books edition, discusses the changes that resulted from two years of litigation. Finally published in 1912 without Pinkerton in the title or the text, **A Cowboy Detective** has Siringo working for the "Dickensen Detective Agency" and meeting up with the likes of "Tim Corn," whom every western buff will recognize. The deeper truth of Siringo's book remains. As J. Frank Dobie wrote, "His cowboys and gunmen were not of Hollywood and folklore. He was an honest reporter."

## Implementation and Outcomes of Fare-free Transit Systems

*Transportation Research Board* The purpose of this synthesis was to document the past and current experiences of public transit agencies that have planned, implemented, and operated fare-free transit systems. The report concentrates on public transit agencies that are either direct recipients or sub-recipients of federal transit grants and provide fare-free service to everyone in their service area on every mode they provide. The report will be of interest to transit managers and staffs, small urban and rural areas, university, and resort communities, as well as stakeholders and policy makers at all levels who would be interested in knowing the social benefits and macro impacts of providing affordable mobility through fare-free public transit. A review of the relevant literature was conducted for this effort. Reports provide statistics on changes in levels of ridership associated with fare-free service. White papers or agency reports identified by the topic panel or discovered through interviews with fare-free transit managers were also reviewed. Through topic panel input, Internet searches, listserv communications, and APTA and TRB sources, the first comprehensive listing of public transit agencies that provide fare-free service in the United States was identified. A selected survey of these identified public transit agencies yielded an 82% response rate (32/39). The report offers a look at policy and administrative issues through survey responses. Five case studies, achieved through interviews, represent the three types of communities that were found to be most likely to adopt a fare-free policy: rural and small urban, university dominated, and resort communities.

## A Book-lover's Holidays in the Open

*Binker North* A Book-Lover's Holidays in the Open is a classic literary work by Teddy Roosevelt which describes the US president's adventures in the great American outdoors. The man should have youth and strength who seeks adventure in the wide, waste spaces of the earth, in the marshes, and among the vast mountain masses, in the northern forests, amid the steaming jungles of the tropics, or on the deserts of sand or of snow. He must long greatly for the lonely winds that blow across the wilderness, and for sunrise and sunset over the rim of the empty world. His heart must thrill for the saddle and not for the hearthstone. He must be helmsman and chief, the cragsman, the rifleman, the boat steerer. He must be the wielder of axe and of paddle, the rider of fiery horses, the master of the craft that leaps through white water. His eye must be true and quick, his hand steady and strong. His heart must never fail nor his head grow bewildered, whether he face brute and human foes, or the frowning strength of hostile nature, or the awful fear that grips those who are lost in trackless lands.

## Cogewea, the Half Blood

## A Depiction of the Great Montana Cattle Range

*U of Nebraska Press* One of the first known novels by a Native American woman, Cogewea (1927) is the story of a half-blood girl caught between the worlds of Anglo ranchers and full-blood reservation Indians; between the craven and false-hearted easterner Alfred Densmore and James LaGrinder, a half-blood cowboy and the best rider on the Flathead; between book learning and the folk wisdom of her full-blood grandmother. The book combines authentic Indian lore with the circumstance and dialogue of a popular romance; in its language, it shows a self-taught writer attempting to come to terms with the rift between formal written style and the comfort-able rhythms and slang of familiar speech.

## The Late Great Planet Earth

*Zondervan* The impact of The Late Great Planet Earth cannot be overstated. The New York Times called it the "no. 1 non-fiction bestseller of the decade." For Christians and non-Christians of the 1970s, Hal Lindsey's blockbuster served as a wake-up call on events soon to come and events already unfolding -- all leading up to the greatest event of all: the return of Jesus Christ. The years since have confirmed Lindsey's insights into what biblical prophecy says about the times we live in. Whether you're a church-going believer or someone who wouldn't darken the door of a Christian institution, the Bible has much to tell you about the imminent future of this planet. In the midst of an out-of-control generation, it reveals a grand design that's unfolding exactly according to plan. The rebirth of Israel. The threat of war in the Middle East. An increase in natural catastrophes. The revival of Satanism and witchcraft. These and other signs, foreseen by prophets from Moses to Jesus, portend the coming of an antichrist . . . of a war which will bring humanity to the brink of

destruction . . . and of incredible deliverance for a desperate, dying planet.

## The Cambridge History of Native American Literature: Volume 1

*Cambridge University Press* Native American literature has always been uniquely embattled. It is marked by divergent opinions about what constitutes authenticity, sovereignty, and even literature. It announces a culture beset by paradox: simultaneously primordial and postmodern; oral and inscribed; outmoded and novel. Its texts are a site of political struggle, shifting to meet external and internal expectations. This Cambridge History endeavors to capture and question the contested character of Indigenous texts and the way they are evaluated. It delineates significant periods of literary and cultural development in four sections: "Traces & Removals" (pre-1870s); "Assimilation and Modernity" (1879-1967); "Native American Renaissance" (post-1960s); and "Visions & Revisions" (21st century). These rubrics highlight how Native literatures have evolved alongside major transitions in federal policy toward the Indian, and via contact with broader cultural phenomena such, as the American Civil Rights movement. There is a balance between a history of canonical authors and traditions, introducing less-studied works and themes, and foregrounding critical discussions, approaches, and controversies.

*CreateSpace* This analysis sought to identify trends in mortality and examine relationships among data elements. To this end, data were collected on firefighter fatalities between 1990 and 2000. (For further information, see the "Methodology" section or the Appendix.) Using this analysis, better targeted prevention strategies can be developed in keeping with the USFA's goal to reduce firefighter deaths 25 percent by 2005. In contrast to the annual USFA firefighter fatality reports, this analysis allowed for comparisons over time to determine any changes in firefighter mortality, with a depth of scrutiny not present in earlier analyses.

## Idaho State Parks

*Images of America* Idaho's state parks have been called the "jewels" of the Gem State. The story of how those jewels came to be involves political intrigue, much resistance, some philanthropy, and a touch of irony. Sen. Weldon B. Heyburn famously said that state parks were "always a political embarrassment." Idaho's first state park was named after him. Today, Idaho's 30 state parks host five million people a year. Visitors come to boat, camp, bike, climb, hike, fish, and make memories in the great outdoors. This book tells the story of Idaho's diverse state parks--from Priest Lake in Idaho's panhandle to Bear Lake in the southeast corner of the state--through a wealth of historical photographs. A variety of parks are featured, including ones that were lost, found, or never came to fruition.

### The Silent Brotherhood

### Inside America's Racist Underground

*Free Press* **A chilling inside story of America's racist underground—the most heinous domestic terror group in our nation's history. Two courageous investigative journalists deliver an insider's account of the "silent brotherhood"—the most dangerous radical-right hate group to surface since the Ku Klux Klan. They claim to be patriots, as American as apple pie, but they are this nation's deadly brotherhood—hate groups that package their alienation against the federal government under such names as the Aryan Nation, the Order, and other white supremacist militias. The group attracts seemingly average citizens with their call for pride in race, family, and religion and their mission to save white Christian America. They spout anti-black, anti-Semitic, neo-Nazi rhetoric, and their grievances have festered into full-blown paranoia and a call for an all-out race war. The Silent Brotherhood reveals in terrifying detail how the group became criminals and assassins in their effort to establish an Aryan homeland.**
