Compasito

Manual on Human Rights Education for Children

Council of Europe Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The

book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.

Studies in Islamic Mysticism

Professor Nicholson examines the life, work and teaching of three of the most important of the early Súfís. These great mystics were almost legendary figures whose tombs became holy shrines. Súfism, as Professor Nicholson suggests, lies at the heart both of the religious philosophy and the popular religion of Islam.

Coping with the Seasons

A Cognitive Behavioral Approach to Seasonal Affective Disorder, Therapist Guide

Oxford University Press Seasonal affective disorder (SAD) affects a significant number of individuals, with an even greater percentage of population suffering from a milder version of the "winter blues." Cognitive-behavioral therapy (CBT) has long been recognized as an effective treatment for depression and now there is evidence that CBT can also benefit those with SAD. The group program outlined in this therapist guide tailors CBT for depression to the special needs of the SAD population. It can be easily adapted for use in individual therapy, as well as be combined with light therapy. This therapist guide details twelve sessions to be completed over a six-week period. It gives step-by-step instruction for session activities and discussion. SAD-specific examples, sample dialogues, and diagrams help illustrate the points to be covered. Participants are provided with psychoeducation to further their understanding and awareness of SAD. They learn techniques to reduce symptoms, such as pleasant activity scheduling and cognitive restructuring. By increasing the amount of pleasant activities and changing thoughts and beliefs to be more adaptive, participants reverse the downward spiral of

inactivity, negative thoughts and beliefs, and depressed mood. Relapse prevention helps participants maintain their gains and prepare for future winter seasons. With proven CBT techniques and a strong focus on SAD, this guide is a valuable addition to the clinician's toolbox. A chapter on group logistics and an appendix with fidelity checklists will assist clinicians in successfully implementing the program. Home practice is an important part of the program and the corresponding workbook includes forms for each session. TreatmentsThatWork™ represents the gold standard of behavioral healthcare interventions! · All programs have been rigorously tested in clinical trials and are backed by years of research · A prestigious scientific advisory board, led by series Editor-In-Chief David H. Barlow, reviews and evaluates each intervention to ensure that it meets the highest standard of evidence so you can be confident that you are using the most effective treatment available to date · Our books are reliable and effective and make it easy for you to provide your clients with the best care available · Our corresponding workbooks contain psychoeducational information, forms and worksheets, and homework assignments to keep clients engaged and motivated · A companion website (www.oup.com/us/ttw) offers downloadable clinical tools and helpful resources · Continuing Education (CE) Credits are now available on select titles in collaboration with PsychoEducational Resources, Inc. Integrating Immigrants in Europe Research-Policy Dialogues

Springer This open access book explores how research and policymaking in the field of migrant integration have developed historically and how this interrelationship plays out in the strongly politicised climate of opinions on migration in Europe. It features interdisciplinary theoretical contributions as well as original empirical studies on research-policy dialogues at both the EU and country level. The chapters study not only how the dialogue between research and policy is structured (such as advisory bodies, research agencies, and ad-hoc committees), but also how these dialogues affect policymaking and the development of migrant integration research itself as well. The analysis reveals profound changes in the dialogue structures associated with the research-policy nexus in the domain of migrant integration. On the one hand, dialogue structures have become more ad-hoc, often established in response to distinct political events or to specific problems. On the other, politicisation has not thwarted all efforts to develop more institutionalised dialogue structures between producers and users of knowledge. In addition, research has contributed to policymaking in very different ways in various European countries. This edited volume is unique in this effort to reflect on the impact of research-policy dialogues both on the development of migrant integration policies as well as on migrant integration research. It will be of

importance to scholars in this field as well as to policymakers and other stakeholders involved in migrant integration policymaking.

Operation Dark Heart

Spycraft and Special Ops on the Frontlines of Afghanistan -- and The Path to Victory

Macmillan On Friday, August 13, 2010, just as St. Martin's Press was readying its initial shipment of this book, the Department of Defense contacted us to express its concern that our publication of Operation Dark Heart could cause damage to U.S. national security. After consulting with our author, we agreed to incorporate some of the government's changes into a revised edition of his book while redacting other text he was told was classified. The newly revised book keeps our national interests secure, but this highly qualified warrior's story is still intact. Shaffer's assessment of successes and failures in Afghanistan remains dramatic, shocking, and crucial reading for anyone concerned about the outcome of the war. "While I do not agree with the edits in many ways, the DoD redactions enhance the reader's understanding by drawing attention to the flawed results created by a disorganized and heavy handed military intelligence bureaucracy." —Lt. Col. Anthony Shaffer Lieutenant Colonel Anthony Shaffer had run intelligence operations for years before he arrived in Afghanistan. He was part of the "dark side of the force"---the shadowy elements of the U.S. government that function outside the bounds of the normal system. His group called themselves the Jedi Knights and pledged to use

the dark arts of espionage to protect the country from its enemies. Shaffer's mission to Afghanistan, however, was unlike any he had ever experienced before. There, he led a black-ops team on the forefront of the military efforts to block the Taliban's resurgence. They not only planned complex intelligence operations to beat back the insurgents, but also played a key role in executing those operations---outside the wire. They succeeded in striking at the core of the Taliban and their safe havens across the border in Pakistan. For a moment Shaffer saw us winning the war. Then the military brass got involved. The policies that top officials relied on were hopelessly flawed. Shaffer and his team were forced to sit and watch as the insurgency grew---just across the border in Pakistan. This wasn't the first time he had seen bureaucracy stand in the way of national security. He had participated in Able Danger, the aborted intelligence operation that identified many of the future 9/11 terrorists but failed to pursue them. His attempt to reveal the truth to the 9/11 Commission would not go over well with his higher-ups. Operation Dark Heart tells the story of what really went on-- and what went wrong--in Afghanistan. Shaffer witnessed firsthand the tipping point, when what seemed like certain victory turned into failure. Now, in this book, he maps out a way that could put us on the path to winning the war.

Arabs Without God

CreateSpace In Arab countries, openly declaring a disbelief in God is a shocking and sometimes dangerous thing to do. Many have been imprisoned for it, some have been forced into exile and others threatened with execution. And yet, in a region where the influence of religion is almost inescapable, growing numbers are claiming a right to believe - or disbelieve - as they see fit. Social media have given them a voice and the uprisings that toppled Arab dictators have emboldened them to speak out. In this groundbreaking book, journalist Brian Whitaker looks at the factors that lead them to abandon religion and the challenges they pose for governments and societies that claim to be organised according to the will of God.

Never Coming Back

Simon and Schuster A harrowing and unforgettable thriller that has taken Sweden and Britain by storm—a twisted plot of revenge and tragedy by a writer whose edgy and gritty style evokes Henning Mankell and Hakan Nesser. Mike Zetterberg lives with his wife Ylva

and their daughter in a house just outside Helsingborg in Sweden. One evening, Ylva don't come home as expected. Mike passes it off as a drink with a work friend, but when she's still missing the next day, he starts to worry. As Mike battles suspicion from the police and his own despair, he is unaware that Ylva is still alive, just a stone's throw from his own home. Ylva has been drawn into a twisted plot of revenge and tragedy that leads back into her and her abductors' shared past. Given the sudden and mysterious circumstances of her disappearance, Mike becomes the chief suspect. But what no one knows is that she's being held hostage in the cellar of the house across the street. A secret camera has been set up in her own home and Ylva can only watch her family on the screen. They cannot see her - and they most certainly cannot hear her scream... Hans Koppel's tale of horrific tragedy and brutal revenge has obsessed readers across Scandinavia for the past year, now in English for the first time.

Sacred and Profane Beauty

The Holy in Art

Oxford University Press on Demand Gerardus van der Leeuw was one of the first to attempt a rapprochement between theology and the arts, and his influence continues to be felt in what is now a burgeoning field. *Sacred and Profane* is the fullest expression of his pursuit of a theological aesthetics, surveying religion's relationship to all the arts -- dance, drama, literature, painting, sculpture, architecture, and music. This edition makes this seminal work, first published in Dutch in 1932, newly available. A new foreword by Diane Apostolos-Cappadona analyzes the continuing relevance of van der Leeuw's thought. Van der Leeuw's impassioned and brilliant investigation of the relationship between the holy and the beautiful is founded upon the conviction that for too long the religious have failed to seriously contemplate the beautiful, associating it as they do with the kingdom of sensuality and impermanence. Similarly it has been alien to literati and aesthetes to reflect upon the holy, for they choose to consider this physical world to be permanent, and therefore to be glorified through beauty alone. In truth, as van der Leeuw undertakes to show in *Sacred and Profane Beauty*, the holy has never been absent from the arts, and the arts have never been unresponsive to the holy. Whether one considers the Homeric epics, the dancing Sivas and Vedic poems, the sacred wall paintings of ancient Egypt, the primitive mask, or the range of sacred arts developed out of Latin and Byzantine Christianity, primordial creation in the arts was always directed toward the symbolization and interpretation of the holy. The fact that in our day this original connection is obscured and the artistic impulse is more generally regarded as wholly individualistic and autonomous does not contradict van der Leeuw's thesis; indeed, the breakdown of the unity of the holy and the arts is central to his thesis. Van der Leeuw was the rare thinker who combined profundity of insight, grace of style, and a willingness to take daring intellectual chances. In *Sacred and Profane*, he describes each of the arts in its original unity with the religious and then analyzes its historical disjunction and alienation. After a penetrating investigation of the structural elements within the arts which illumines a crucial dimension of the religious experience, van der Leeuw points toward the reemergence of an appropriate theological aesthetics on which a reunification of the arts could be founded.

Eco-Economy

Building an Economy for the Earth

Routledge In 1543, Polish astronomer Nicolaus Copernicus challenged the view that the sun revolved around the earth, arguing instead that the earth revolved around the sun. His paper led to a revolution in thinking. In Lester Brown's brilliant and invigorating account of the industrial economy, he shows how a rethink of its fossil fuel-based, throwaway ethos is necessary to ensure that it works with, not against, the natural environment. The issue now is whether the environment is part of the economy or the economy is part of the environment. Brown argues the latter, pointing out that treating the environment as part of the economy has produced an economy that is destroying its natural support systems. One of the foremost experts on the new economic opportunities, Brown shows the vast economic potential and environmental gains that exist from eliminating the waste and destruction of current consumption. He describes how the global economy can be restructured to make it compatible with the earth's ecosystem so that economic progress can continue, with high standards of living and secure employment for all, while conserving resources and restoring the environment. In the new economy, wind farms replace coal mines, hydrogen-powered fuel cells replace internal combustion engines, and cities are designed for people, not cars. Eco-Economy is a map of how to get from here to there. It is an essential guide to the economy of the 21st century and will be compelling reading for business readers and environmentalists alike looking for ways to build a better future.

The Paradox of Liberation

Secular Revolutions and Religious Counterrevolutions

Yale University Press Many of the successful campaigns for national liberation in the years following World War II were initially based on democratic and secular ideals. Once established, however, the newly independent nations had to deal with entirely unexpected religious fierceness. Michael Walzer, one of America's foremost political thinkers, examines this perplexing trend by studying India, Israel, and Algeria, three nations whose founding principles and institutions have been sharply attacked by three completely different groups of religious revivalists: Hindu militants, ultra-Orthodox Jews and messianic Zionists, and Islamic radicals. In his provocative, well-reasoned discussion, Walzer asks why these secular democratic movements have failed to sustain their hegemony: Why have they been unable to reproduce their political culture beyond one or two generations? In a postscript, he compares the difficulties of contemporary secularism to the successful establishment of secular politics in the early American republic—thereby making an argument for American exceptionalism but gravely noting that we may be less exceptional today.

American Sacred Space

Indiana University Press In a series of pioneering studies, this book examines the creation—and the conflict behind the creation—of sacred space in America. The essays in this volume visit places in America where economic, political, and social forces clash over the sacred and the profane, from wilderness areas in the American West to the Mall in Washington, D.C., and they investigate visions of America as sacred space at home and abroad. Here are the beginnings of a new American religious history—told as the story of the contested spaces it has inhabited. The contributors are David Chidester, Matthew Glass, Edward T. Linenthal, Colleen McDannell, Robert S. Michaelsen, Rowland A. Sherrill, and Bron Taylor.

Good People in an Evil Time

Portraits of Complicity and Resistance in the Bosnian War

Other Press, LLC In the 1990s Svetlana Broz, granddaughter of former Yugoslav head of state Marshal Tito, volunteered her services as a physician in war-torn Bosnia. She discovered that her patients were not only in need of medical care, but that they urgently had a story to tell, a story suppressed by nationalist politicians and the mainstream media. What Broz heard compelled her to devote herself over the next several years to the collection of firsthand testimonies from the war. These testimonies show that ordinary people can and do resist the murderous ideology of genocide even under the most terrible historical circumstances. We are introduced to Mile Plakalovic, a magnificent humanist, who drove his taxi through the streets of Sarajevo, picking the wounded up off the sidewalk and delivering food and clothing to young and old, even when the bombing was at its worst. We meet Velimir Milosevic, poet, who traveled with an actor and entertained children as they hid in basements to avoid the bombing and gunfire, and we hear the stories of countless others who put themselves in grave danger to help others, regardless of ethnic background. Faced with a world in which unspeakable crimes not only went unpunished but were rewarded with glory, profit, and power, the Bosnians of all faiths who testify in this book were starkly confronted with the limits and possibilities of their own ethical choices. Here, in their own words they describe how people helped one another across ethnic lines and refused the myths promoted by the engineers of genocide. This book refutes the stereotype of inevitable natural enmities in the Balkans and reveals the responsibility of individual actions and political manipulations for the genocide; it is a searing portrait of the experience of war as well as a provocative study of the possibilities of resistance and solidarity. The testimonies reverberate far beyond the frontiers of the former Yugoslavia. This compelling book is essential reading for anyone who wants to understand the reality on the ground of the ethnic conflicts of the late twentieth and the twenty-first centuries.

Infiltration

Zoland Books, Incorporated Young Israeli Army conscripts with minor disabilities, such as heart murmurs and epilepsy, are sent for basic training. Some come from large cities, some from kibbutzim; some were born in the land that would become Israel, some are new immigrants from Eastern Europe or Arab countries. Set in the 1950's when Israel had been a nation for just a few years and its very existence was under constant threat, Infiltration tells the story of one platoon's experience, a group of soldiers who represent all Israelis, their hopes and ideals, their struggles and deep internal divisions. Melabbes is determined to stay separate, self-contained from the rigid routines and power plays of military life. Avner is a reckless romantic whose mother worked for the families of the wealthier, Ashkenazi recruits known as "the Jerusalemites." Alon is a proud and patriotic kibbutznik; Miller, a German survivor of the concentration camps; and Micky, a famous soccer player who only recently discovered his physical defect, a heart murmur. Though Infiltration is set in a time and place some fifty years in the past, it is a universal story of loss of innocence, a monumental novel that exposes the darker side of the military process of making men out of boys.

International Code on Religious Freedom

College Prowler, Inc The International Code on Religious Freedom encompasses the widest possible collection of international texts on the matter. They are grouped under three indexes, namely: a) index by GO's (United Nations, International Labour Organization, UNESCO, Council of Europe, European Union, Organization of American States, OSCE, African Union); b) index by "juridical source" (binding and non-binding international instruments); and c) chronological index. It also includes, as far as Islam is concerned, the "Cairo Declaration on Human Rights in Islam" and "The Arab Charter on Human Rights", as well as, insofar as Asia is concerned, "The Seoul Recommendation on Democracy and Tolerance" and "The Asian Human Rights Charter". Besides international instruments, the Code also presents the relevant elements of the case-law of the European and Inter-American Courts of Human Rights, with a direct bearing on the matter at issue, in such a way that the practical problems raised, and the solutions thereto, may be known by both specialists and non-legal readers. The Code thus becomes a source of useful and indispensable consultation for all those interested in studying the theme, and of recurrent importance. The ultimate purpose of the International Code on Religious Freedom by Professor Michelangelo Scalabrino is to foster a better understanding of what is meant by "religious freedom" in the domain of the International Law of Human Rights. It is hoped that the aforementioned Code may also serve as a source of inspiration for representatives of States and entities of the civil society, as well as for leaders of religious faiths, in devising and assessing what they could or should do, in order to favour mutual respect for, and a spirit of tolerance and a better understanding of, each other's beliefs, to the ultimate benefit of all human beings and their religious faiths.
