Dante and the Making of a Modern Author

[Cambridge University Press](#) **Leading scholar Albert Russell Ascoli traces the metamorphosis of Dante Alighieri - minor Florentine aristocrat, political activist and exile, amateur philosopher and theologian, and daring experimental poet - into Dante, author of the Divine Comedy and perhaps the most self-consciously 'authoritative' cultural figure in the Western canon. The text offers a comprehensive introduction to Dante's evolving, transformative relationship to medieval ideas of authorship and authority from the early Vita Nuova through the unfinished treatises, The Banquet and On Vernacular Eloquence, to the works of his maturity, Monarchy and the Divine Comedy. Ascoli reveals how Dante anticipates modern notions of personalized, creative authorship and the phenomenon of 'Renaissance self-fashioning'. Unusually, the book examines Dante's career as a whole offering an important point of access not only to the Dantean oeuvre, but also to the history and theory of authorship in the larger Italian and European tradition.**

The Dragon and the Mouse

[Nuinui](#) **A children's book that, wrapped in the warm embrace of gently water-coloured pages, will take them on the amazing adventures of two unforgettable characters. Gideon is a tiny yet fearless mouse, who dreams of great adventures; Paco is an easy-going dragon who is as big as a hill, but has a soul as innocent as a baby's. Gideon would love to win the flying race, an important sporting event in the valley; and he would like to do it by riding a magnificent dragon... Meeting Paco changes his life and transforms his dream into reality. AUTHOR: Marco Furlotti is an illustrator and author of children's books. His passion for storytelling and illustration are expressed through images imbued with energy and humour.**

Century of the Child

Growing by Design, 1900-2000

[The Museum of Modern Art](#) **Did the twentieth century live up to what Swedish design reformer and social theorist Ellen Key, writing in 1900, envisaged as "the century of the child" ? This book, produced in conjunction with a major exhibition at The Museum of Modern Art, takes both its title and its launching point from Key's landmark book, which presaged the coming century as a period of intensified focus on and progressive thinking about the rights, development, and well-being of children. It tracks the fascinating confluence between the cultures of modern design and childhood, through an introductory essay by Juliet Kinchin, sixty-five short essays, and more than four hundred illustrations. The resulting kaleidoscopic narrative of innovative ideas, practitioners, and artifacts examines individual and collective visions for the material world of children, from utopian dreams for the citizens of the future to the dark realities of political conflict and exploitation. Despite being the focus of intense concern and profound thought, children remain one of the most underrepresented subjects in the historical analysis of modern design. To address this lacuna, this book surveys more than one hundred years of school architecture, playgrounds, toys and games, educational materials, children's hospitals and safety equipment, nurseries, furniture, animation, propaganda, advertising, books, and clothing. The outstanding projects that emerge illuminate how progressive design has enhanced the physical, intellectual, and emotional development of children and, conversely, how models of children's play and pedagogy have informed experimental design thinking. As protean beings and elastic ideological symbols, children help us to mediate between the ideal and real: they propel our thoughts forward. But as we look back, they also reveal important new dimensions of modernism in the twentieth century.**
