Environmental Noise and Management

Overview from Past to Present

John Wiley & Sons Environmental Noise and Management Selma Kurra, Istanbul Technical University and dBKES Engineering Ltd, Turkey A comprehensive overview of environmental noise pollution from the standpoint of environmental impact and control Environmental noise is studied, regulated and monitored by many governments and institutions, as well as forming the basis for a number of different occupations due to the adverse effects of noise exposure. Environmental Noise and Management provides a comprehensive overview of environmental noise pollution. The book begins by covering the fundamentals of noise and acoustics, major noise sources and prediction and evaluation techniques. Developments in noise measuring techniques, and mapping and improvement of legislation to control noise pollution are then discussed, and international regulations are presented. Technological advances and recent developments regarding strategy and action plans are also covered in depth. Key features: Summarizes the relevant international standards covering noise pollution and environmental engineering practice. Presents technological advances and recent developments regarding strategy and action plans. Covers developments in noise measuring techniques, prediction models, mapping and improvement of legislation to control noise pollution. Environmental Noise and Management is a comprehensive resource for researchers and graduate students who are involved in noise pollution from the standpoint of environmental impact and control.

Understanding 5G Mobile Networks

A Multidisciplinary Primer

Emerald Group Publishing Understanding 5G Mobile Networks: A Multidisciplinary Primer offers the first manageable overview of 5G for a non-technical audience, and specifically a broad, multidisciplinary survey of the spectrum and the licensing and launch of 5G networks throughout the world, distinguishing standalone 5G from non-standalone 5G.

Mentoring Millennials in an Asian Context

Talent Management Insights from Singapore

Emerald Group Publishing This book answers an important question: if mentoring research coming out of Western nations have consistently shown that mentoring millennials brings tangible benefits to the organisation in the areas of job satisfaction, organisational commitment and employee retention, would such observations be seen in an Asian context?

Why The 5 G RACE Matters

Estalontech US lobbying against Chinese firm Huawei, one of the biggest phone makers and telecommunications kit providers in the world, hit a new level this week during the phone industry's big annual conference. Around 100,000 technology vendors, carriers, and device makers head to Mobile World Congress in Barcelona every year both to strike deals and to showcase emerging technologies. This year, the conversation was dominated almost exclusively by 5G, as carriers look to introduce next-generation, superfast mobile networks. The conference was heavily sponsored by 5 G companies as most of these Telco will make their big pitch about their 5G capabilities. But looming in the background were the months of negative press about whether Huawei's equipment might to serve as backdoor option The US is worried about China's rising military and economic power. America's lobbying efforts are about more than just protecting the West's nascent 5G networks as the recent trade negotiation saw the outbreak of a rapidly escalating trade war which witness conflicting events of custom tariffs implemenation to a Tit-for-Tat retaliation and now heighten various technological trade restriction between US and all other competing countries for especially 5 G related technological based products This Trade Conflict resemble a proxy for bigger US fears about China's ambition. Citing reports on almost every newsmedia who expresses there seem no doubt China is a significant threat for the United States, they are committed to becoming a lead economic and military power in the world." Eventually the 5 G Elite from China could be in the position where it could interfere with data traffic, sharing usage, or even engaging in proactive activity to extract that information and use it for their own benefit...US Media According to a leading Telco Statistic report , there will be a total of 29 billion connected devices by 2022. "Whoever gets to dominate 5G infrastructure will become the owner of the next generation of the world's telecoms infrastructure." So WHO will come out as the Leader of the 5 G Race . Will it Matters ?

Technology Trends in Materials Management

A Systematic Review of the Use of Technology in Materials Management to Achieve Competitive Advantages

Xlibris Corporation This is a textbook about the key three pillars of Material Management; Warehousing, Procurement, and Distribution, and technology trends that being offered to improve these three functions. The book describes all activities and duties of each pillar in detail in order to let readers be familiar with the basic functions of each of them. After explaining the basic responsibilities of (Warehousing, Procurement, and Distribution), the book then moved to focus on the technology applications in each of them, bringing up all new technologies and innovations that have been developed to increase productivity in the three functions and minimize costs and errors. The author concentrated on the results that directly affect customer service, costs, productivity, quality of work, and achieving strategic objectives by implementing such technologies in Material management.

HCI International 2021 - Late Breaking Papers: Cognition, Inclusion, Learning, and Culture

23rd HCI International Conference, HCII 2021, Virtual Event, July 24–29, 2021, Proceedings

Springer Nature This book constitutes late breaking papers from the 23rd International Conference on Human-Computer Interaction, HCII 2021, which was held in July 2021. The conference was planned to take place in Washington DC, USA but had to change to a virtual conference mode due to the COVID-19 pandemic. A total of 5222 individuals from academia, research institutes, industry, and governmental agencies from 81 countries submitted contributions, and 1276 papers and 241 posters were included in the volumes of the proceedings that were published before the start of the conference. Additionally, 174 papers and 146 posters are included in the volumes of the proceedings published after the conference, as “Late Breaking Work” (papers and posters). The contributions thoroughly cover the entire field of HCI, addressing major advances in knowledge and effective use of computers in a variety of application areas.

Ride Technology Wave for Career Success

Continuous Learning Newer Technologies, Innovating and Integrating are Keys to Success

Notion Press The book is a jargon-free, compact, easy-to-grasp and handy guide for graduating students, young technology professionals, business process analysts, infrastructure engineers, designers and software programmers. It will propel you to equip yourself with newer skills and stay in demand during the fast-moving industrial revolution (IR 4.0). The impact of growing technologies, job losses due to automation and global uncertainty have been highlighted in the book. A pathway has been shown for riding the technology wave to succeed and contribute to the growth of your organisation. New jobs require working smartly using new technical skills, multi-tasking and out-of-the-box thinking. Sustenance of a job in such a scenario needs fast learning and adoption of newer skills, innovation, integration, networking and enduring alliances. The book adequately covers new technology areas related to IT trends, AI, ML Internet of Things (IoT), robotics, drones, 3-D printing, VR-AR, 5G, big data, cloud computing, cyber security and blockchain. The book recommends the readers quickly acquire new skills and adopt emerging technologies to reap early benefits.

5G

5G es la quinta generación de redes móviles, que promete velocidades de transmisión de datos hasta 20 veces superiores a las de 4G. Se espera que sea implementada a nivel mundial a lo largo de 2020 y 2021. Las principales compañías de telecomunicaciones que están desarrollando esta tecnología son NTT DoCoMo, Softbank, KDDI, Rakuten Mobile, SK Telecom y LG U+. En 2020, se espera que se implemente en Corea del Sur y en China. En 2021, se espera que se implemente en Estados Unidos, Europa y Australia. La implementación de 5G permitirá aplicaciones como realidad aumentada, vehículos autónomos y ciudades inteligentes.

Control Engineering

Основы гидравлики, водоснабжения и водоотведения

Litres Даны основные положения гидравлики, систем водоснабжения и водоотведения. Особое внимание уделено расчету совместной работы насосных станций и сетей. Приведены основы расчета водопроводной сети, элементы систем внутренней канализации. Для студентов и аспирантов строительных специальностей. Может быть полезно инженерно-техническим работникам, занимающимся вопросами расчета и эксплуатацией гидравлических систем в строительстве.

TÉCNICO en Guarda Particular de Campo, Caza y Guardapesca Marítimo

José Manuel Ferro Veiga Este curso está dirigido a los profesionales interesados por el mundo de la Seguridad Privada, así como también a todas aquellas personas interesadas en adquirir conocimientos relacionados con este ámbito. Este Curso de Guarda rural con sus dos especialidades tiene los siguientes objetivos: - Conocer el ordenamiento jurídico español de la Seguridad Privada. - Saber las diferentes leyes, reglamentos y normativas que abordan la Seguridad Privada. - Aprender las medidas a adoptar por el personal de Seguridad Privada. - Conocer los diferentes ámbitos de aplicación del personal de la Seguridad Privada. - Saber o conocer el derecho penal y procesal, al igual que los derechos del propio ciudadano. - Optimizar los recursos para ofrecer un mejor servicio y profesionalidad ante cualquier situación en colaboración con otros cuerpos y fuerzas de seguridad. - Capacitar al alumnado para desarrollar de forma satisfactoria las funciones propias de un Guarda de Caza y guarda pesca-marítimo - Facultar a los participantes para reaccionar adecuadamente ante la detección de elementos agresivos o peligrosos en el medio rural, específicamente, al cuidado y vigilancia de toda acción referente a la caza y pesca. Los guardas rurales ejercerán funciones de vigilancia y protección de personas y bienes en fincas rústicas, así como en las instalaciones agrícolas, industriales o comerciales que se encuentren en ellas. A los guardas de caza corresponde desempeñar las funciones mencionadas en el apartado anterior para los guardas rurales y, además, las de vigilancia y protección en las fincas de caza en cuanto a los distintos aspectos del régimen cinegético y espacios de pesca fluvial. Corresponde a los guardapesca marítimos desempeñar, además de las funciones previstas para los guardas rurales, las de vigilancia y protección de los establecimientos de acuicultura y zonas marítimas con fines pesqueros. Los guardas de caza y los guardapesca marítimos podrán proceder a la retirada u ocupación de las piezas cobradas y los medios de caza y pesca, incluidas armas, cuando aquéllos hubieran sido utilizados para cometer una infracción, procediendo a su entrega inmediata a las Fuerzas y Cuerpos de Seguridad competentes.

Tecnolandia

El mundo mágico de las tecnologías

Wanceulen S.L. A lo largo de la historia, las revoluciones industriales tuvieron un papel crucial influenciando el desarrollo de las sociedades y las personas. En el siglo XIX, la revolución industrial marcó a fuego la llegada del hombre entendido como una entidad sociocultural. El autor plantea con claridad la llegada de la era de las tecnologías y la explosión de un mundo digital, lo cual ha generado un crecimiento sin precedentes, dando lugar a una revolución que dio nacimiento a una sociedad nueva con protocolos universales jamás conocidos, a la que denomina Tecnolandia. Esta obra marca los detalles de la ingeniería de funcionamiento de la nueva estructura social con un lenguaje sencillo dando cuenta de cómo sobrevino una tecnología que esta al alcance de todos. Molina ofrece en Tecnolandia, una hoja de ruta para descifrar los códigos de una nueva sociedad, en donde la implementación de estas nuevas tecnologías se está manifestando sobre lo que denominaba el nacimiento de una sociedad inteligente.

Gaseous Dielectrics III

Proceedings of the Third International Symposium on Gaseous Dielectrics, Knoxville, Tennessee, U.S.A., March 7-11, 1982

Elsevier Gaseous Dielectrics III is a collection of papers presented at the Third International Symposium on Gaseous Dielectrics, held in Knoxville, Tennessee on March 7-11, 1982. This book is divided into 12 chapters, and begins with the elastic scattering of electrons in gases, particularly the measurements of differential cross sections at low energies for electrons in electron-attaching gases. The next chapters deal with the basic mechanism of gaseous dielectrics, particularly the spark formation, corona attenuation and distortion, and examples of gaseous dielectric systems. These topics are followed by discussions on the practical problems of impulse breakdown, as well as the influence of gas pressure, gap distance, field distribution, and overvoltage on the formative time lag for approximately uniform field distribution. Other chapters examine the concept of surface flashover and the decomposition, aging, and bioenvironmental effects of gaseous dielectrics. The final chapters look into their analysis, gas-insulated equipment, and the properties of hexafluorosulfide. This book will prove useful to basic scientists, engineers, and users of gaseous dielectrics.
