Createspace Independent Publishing Platform **Genevieve Rodriguez is less than thrilled when her older brother's best friend, Deo, runs off and marries Whit, the girl who doesn't even deserve him. At least that's what Gen believes. And so what if everyone thinks it's just a stupid crush? She's had a thing for Deo for as far back as she can remember. Freshly heartbroken and downright annoyed, Genevieve is also one 'D' away from getting kicked out of school. In other words, life could be better for the rowdy, youngest Rodriguez sibling. Her only hope of passing physics is her quiet, nerdy tutor, Adam. Adam isn't her type at all. He's too quiet, too polite, and he'd rather stare at lab charts than bother to notice the bustier top so sexy, it turned the head of every guy in a five-mile radius. When Adam tells Genevieve that he won't be back after winter break because his visa is about to expire, the words drop out of her spontaneous, heartbroken mouth before she has the time to think... "Marry me." Thinking it's a joke, Adam gives Genevieve a firm no. But when the joke turns into something more, all bets are off and all limits are broken. Adam may not notice a perfect bustier, but he can't resist a good argument. And Genevieve has been arguing to get exactly what she wants her entire life. This is the third book in the LENGTHS companion series. You do not have to read the previous two books to follow along with this story, however, the characters do overlap in each book.**

Good and Cheap

Eat Well on \$4/Day

[Workman Publishing Company](#) **A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.**

Equity, Growth, and Community

What the Nation Can Learn from America's Metro Areas

Univ of California Press In the last several years, much has been written about growing economic challenges, increasing income inequality, and political polarization in the United States. Addressing these new realities in America's metropolitan regions, this book argues that a few lessons are emerging: first, inequity is bad for economic growth; second, bringing together the concerns of equity and growth requires concerted local action; and third, the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and to address the challenges of economic restructuring and social divides.

Salt Sugar Fat

How the Food Giants Hooked Us

Signal From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). Salt Sugar Fat is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

Slavery and the British Country House

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

Critical Foundations in Young Adult Literature: Challenging Genres

[Sense Publishers](#) Young Adult literature, from *The Outsiders* to *Harry Potter*, has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty-first century. With the rise of mega blockbuster films based on these books in recent years, the young adult genre is being co-opted by curious adult readers and by Hollywood producers. However, while the genre may be getting more readers than ever before, Young Adult literature remains exclusionary and problematic: few titles feature historically marginalized individuals, the books present heteronormative perspectives, and gender stereotypes continue to persist. Taking a critical approach, *Young Adult Literature: Challenging Genres* offers educators, youth librarians, and students a set of strategies for unpacking, challenging, and transforming the assumptions of some of the genre's most popular titles. Pushing the genre forward, Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media.

Autistic Community and the Neurodiversity Movement

Stories from the Frontline

[Springer Nature](#) This open access book marks the first historical overview of the autism rights branch of the neurodiversity movement, describing the activities and rationales of key leaders in their own words since it organized into a unique community in 1992. Sandwiched by editorial chapters that include critical analysis, the book contains 19 chapters by 21 authors about the forming of the autistic community and neurodiversity movement, progress in their influence on the broader autism community and field, and their possible threshold of the advocacy establishment. The actions covered are legendary in the autistic community, including manifestos such as “Don’t Mourn for Us”, mailing lists, websites or webpages, conferences, issue campaigns, academic project and journal, a book, and advisory roles. These actions have shifted the landscape toward viewing autism in social terms of human rights and identity to accept, rather than as a medical collection of deficits and symptoms to cure.

A History of the Behavioral Therapies

Founders' Personal Histories

For those interested in the behavioral and cognitive movement, this book is a must have since it is the only book to have chronicled the individual histories of the founders of the applied behavioral movement before they are lost forever.

Told through Gutle's intimate journals, revealed across decades--from the French Revolution through personal tragedies and triumphs--The First Mrs. Rothschild paints a rich and intimate tapestry of family drama, world-changing history, and one woman's steadfast strength.

A Toast to the Good Times

CreateSpace It's the eve before Christmas Eve, and all that twenty-three-year-old Landry has on the agenda for the holiday is moping in the bar that he left everything behind to open. And he's got plenty to mope about. He found his girlfriend treating herself to a little holiday delight with his best friend; He hasn't seen his family in over a year- since he alienated them all and ended up spending a night in jail; And he may have just ruined the perfect, uncomplicated thing he had going with his platonically hot roommate, Mila. Drinks all around! But when he gets a call from his sister, Paisley, begging him to make it home for a huge announcement, he tosses aside his better judgment, (or, what's left of it after that last round of drinks) and hops on the first train back home to Jersey. But home for the holidays isn't all mugs of cocoa and fireside chats with his family. Landry left the people he loves the most high and dry when he fled to Boston and spent all of his inheritance...the inheritance money that he was supposed to use to help save his family's floundering bar. His dad will hardly look at him, his ex is maybe stalking him, his sister has dropped a bombshell on the family, and a flame from the past catches his eye. When Landry's present and near past collide, it only further complicates things. Landry thought he was leaving all of his problems behind when he left his family in New Jersey. But he comes home to find out that problems, like family, never go away. And sometimes facing the past with the help of someone who's fearless about the future is the only way to move on. Cheers?
