The Tell-Tale Heart

Lindhardt og Ringhof Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. Edgar Allan Poe's short story 'The Tell-Tale Heart' - an analysis

GRIN Verlag Pre-University Paper from the year 2012 in the subject English - Literature, Works, grade: 1,0, , language: English, abstract: This Seminararbeit shall deal with the short story 'The Tell-Tale Heart' by one of the most famous American writers, Edgar Allan Poe. In the following pages, one will firstly be introduced to the author and his historical background, the American Romantic Movement with the subgenres Dark Romanticism and Gothic fiction. Afterwards, the short story will be analyzed regarding its content, literary devices and linguistic means, especially in the end. Furthermore, I wanted to think out of the box and therefore included a personal diagnosis regarding the narrator's psychological disorders. Rounding up this paper, I rewrote the short story by looking at it from a different perspective - my piece is told by the old man who is assassinated and can thereby answer some questions that have so far remained insoluble.

The Great War, The Waste Land and the Modernist Long Poem

Bloomsbury Publishing The Great War, The Waste Land and the Modernist Long Poem explores how cultural responses to the trauma of the First World War found expression in the form of the modernist long poem. Beginning with T.S. Eliot's The Waste Land, Oliver Tearle reads that most famous example of the genre in comparison with lesser known long poems, such as Hope Mirrlees's Paris: A Poem, Richard Aldington's A Fool I' the Forest and Nancy Cunard's Parallax. As well as presenting a new history of this neglected genre, the book examines the ways in which the modernist long poem represented the seminal literary form for grappling with the crises of European modernity in the wake of World War I.

The Masque of the Red Death

Phoemixx Classics Ebooks The Masque of the Red Death Edgar Allan Poe - The story is said in the most enthralling manner that it makes it very interesting as well as introspective. Even though it appears to be very literal but the crux of the matter is all about the inevitability of death. The prince thought that with his power and position he could defy the plague that caused death in his kingdom. But eventually even he is not spared because on the figurative level it is not a plague but death itself, that does not spare anyone. Prince Prospero's intentions and preparations did not stand a chance when death decided to take him on.

MS. Found in a Bottle

Lindhardt og Ringhof A representative of Poe's tales of the sea, "Ms. Found in a Bottle" follows the writer's infatuation with the horrific and unknown forces around us. An avid reader just like his creator, the narrator finds solace within books and ancient lore, thus testing the limits of one's imagination, and at the same time paving the road for further exploration of the unknown. Poe's otherworldly narrative could easily fall in the same category as the sea voyages and tribulations described by later authors such as Herman Melville and Joseph Conrad. Montana 1948

A Novel

Milkweed Editions The tragic tale of a Montana family ripped apart by scandal and murder: "a significant and elegant addition to the fiction of the American West" (Washington Post). In the summer of 1948, twelve-year-old David Hayden witnessed and experienced a series of cataclysmic events that would forever change the way he saw his family. The Haydens had been pillars of their small Montana town: David's father was the town sheriff; his uncle Frank was a war hero and respected doctor. But the family's solid foundation was suddenly shattered by a bombshell revelation. The Hayden's Sioux housekeeper, Marie Little Soldier, tells them that Frank has been sexually assaulting his female Indian patients for years—and that she herself was his latest victim. As the tragic fallout unravels around David, he learns that truth is not what one believes it to be, that power is abused, and that sometimes one has to choose between loyalty and justice. The narrative situation in Poe's "The Tell-Tale Heart". An illustration

of the captivating effect

GRIN Verlag Essay from the year 2020 in the subject American Studies - Literature, grade: 1,3, University of Hamburg, language: English, abstract: This paper focuses on the captivating effect of the autodiegetic narration and which significant differences would occur throughout "The Tell-Tale Heart", if the narrator would be outside the diegesis, not a part of the story world (also called heterodiegetic narration). Therefore, the beginning starts with a closer interpretation of the narrator's character and their motives to plan the crime. Furthermore, the historical and literary context of The Tell-Tale Heart contributes to the argumentation. Followed by the context, the term paper includes a brief analysis of mad narrators in fiction. All arguments contain the information of several secondary sources. The conclusion provides an overview over the crucial arguments made in the main body of the paper and ultimately combines the interpretations in a final statement. The narrator in Edgar Allan Poe's The Tell-Tale Heart is perhaps the most striking feature of the short story. Although the protagonist declares his sanity right in the beginning of the story, the reader before long learns about the evident mental illness of the narrator. After all, their insanity and madness result in the murder of the old man. It is the feeling of paranoia, surveillance and nervousness that ultimately leads to the crime. The protagonist, however, evidently cannot be trusted and appears more and more unreliable. So what is merely imagination and what is truly genuine in The Tell-Tale Heart?

In certain instances they would flank, or, like a body-guard quite surround some superior figure of their own class, moving along with them like Aldebaran among the lesser lights of his constellation.

The Man of the Crowd

Lindhardt og Ringhof "The Man of the Crowd" is a story that deals with the influence of the big city upon the ordinary person. Obsessed with categorization, the protagonist feels baffled by his inability to piece together the situation in front of him. Moving from a state of contemplation and categorization, to a heightened state of mental pressure and desire to prove even further, Poe's protagonist embarks on a journey through London darkest streets and godforsaken slums. The story is a perfect example of what happens when our rational thoughts are replaced by the delirious and altered perceptions of the world that lies beyond the ordinary one. The Fall of the House of Usher

Phoemixx Classics Ebooks The Fall of the House of Usher Edgar Allan Poe - Roderick Usher is ill, but not due to any normal causes. When the narrator of the story arrives at the House of Usher, he finds that all is not well in the old ancestral home. The house itself appears to be almost alive, and the illness of Madeline, Roderick's sister, is not all it seems. The Fall of the House of Usher by Edgar Allan Poe is a classic short story first in 1839, and was memorably adapted for film by Roger Corman in 1960. The Fall of the House of Usher is in the opinion of many scholars Poe's most famous work of prose. This unsettling macabre work is viewed as a masterpiece of American Gothic literature. Indeed, as in many of his tales, Poe borrows much from the Gothic tradition. Still, as G. R. Thomson writes in his Introduction to Great Short Works of Edgar Allan Poe: "the tale has long been hailed as a masterpiece of Gothic horror; it is also a masterpiece of dramatic irony and structural symbolism." The Fall of the House of Usher has also been criticized for being too formulaic. Poe was criticized for following his own patterns established in works like Morella and Ligeia using stock characters in stock scenes and situations. Repetitive themes like an unidentifiable disease, madness, and resurrection are also criticized. However, there is speculation that Poe used a real-life incident as the basis for his story: the entombment of two lovers at Usher House in Boston, whose bodies were discovered when the house was demolished in 1800. Scholars speculate that Poe, who was an influence on Herman Melville, inspired the character of Ahab in Melville's novel

Moby-Dick. John McAleer maintained that the idea for "objectifying Ahab's flawed character" came from the "evocative force" of Poe's The Fall of the House of Usher. In both Ahab and the house of Usher, the appearance of fundamental soundness is visibly flawed by Ahab's livid scar, and by the fissure in the masonry of Usher.

Hop - frog

Strelbytskyy Multimedia Publishing "Hop-Frog" (originally "Hop-Frog; Or, the Eight Chained Ourang-Outangs") is a short story by American writer Edgar Allan Poe, first published in 1849. The title character, a person with dwarfism taken from his homeland, becomes the jester of a king particularly fond of practical jokes. Taking revenge on the king and his cabinet for the king's striking of his friend and fellow dwarf Trippetta, he dresses the king and his cabinet as orangutans for a masquerade. In front of the king's guests, Hop-Frog murders them all by setting their costumes on fire before escaping with Trippetta. Critical analysis has suggested that

Poe wrote the story as a form of literary revenge against a woman named Elizabeth F. Ellet and her circle. Edgar Allan Poe is also famous for such works as "The Raven", "The Cask of Amontillado", "The Fall of the House of Usher", "The Masque of the Red Death", "The Pit and the Pendulum", "The Murders in the Rue Morgue", "The Tell-Tale Heart", "The Gold-Bug", "The Black Cat", "The Facts in the Case of M. Is there an unreliable narrator in Edgar Allan Poe's "The Tell-Tale Heart"?

GRIN Verlag Essay from the year 2007 in the subject English Language and Literature Studies - Literature, grade: 1,3, Ruhr-University of Bochum, language: English, abstract: Edgar Allan Poe's short story "The Tell-Tale Heart" is not a

“whodunit - we know right from the start who the murderer is.” (Benfey 29). The narrator describes in detail how he prepares and commits the murder of an old man, he lives together with. All of the time he “bases his plea upon the assumption that madness is incompatible with systematic action” (Robinson 94) and emphasises that he is not mad. “His plot is motiveless” (Hoffman 227), he only murders the old man because of his “Evil Eye” (Poe 278) and hides his dismembered body under the roofs of his room. After that he welcomes three police officers in the house and allows them to search the house. He still feels safe because he has perfectly hidden all indications for the deed. But then his own madness makes him go crazy, he thinks to hear the beating of the old mans heart so loud that it will betray him and finally he makes a confession of the murder. The reader does not get to know much about the narrator of this story, he never learns his name, his job, in what town he lives (Benfey 32). There are various texts which try to explain this or the narrators trains of thought. This paper is meant to analyse the general kind of narrator, if there is an unreliable narrator or not and find proofs for the assumptions made.

Literature and Science as Modes of Expression

Springer Science & Business Media On the 25th anniversary of the founding of the Boston Studies series in 1985, Cohen, Elkana, and Wartofsky wrote in another preface such as this that the time had come for establishing institutions supporting a vision to which the series had been devoted since its inception, namely that of a more broadly conceived, interdisciplinary study of the history and philosophy of science: In recent years it has become evident that, in addition to serious and competent disciplinary work on the specifics of the History of Science, the Philosophy of Science and the Sociology of Science, there is now a growing need to develop a problem oriented approach which no longer distinguishes between these three specialties in a cut and dried way. Since the time has come for such an approach, the institutional tools should be provided. A way to do so would be . . . to organize colloquia and to publish good papers stemming from these, without attempting to organize the papers under the separate rubrics of History of Philosophy or Sociology of Science; and moreover to consider it natural that any fundamental issue of the foundations of the sciences, or their place in a culture and the way they are institutionalized in the societal web, is still our concern, no matter whether we are a professional scientist, historian or philosopher who deals with the problem (p. vii).
