Choral-Orchestral Repertoire

A Conductor's Guide

Rowman & Littlefield Publishers Choral-Orchestral Repertoire: A Conductor's Guide offers an expansive compilation of choral orchestral works from 1600 to the present. Synthesizing Jonathan Green's earlier six volumes on this repertoire, this edition updates and adds to the over 750 oratorios, cantatas, choral symphonies, masses, secular works for large and small ensembles, and numerous settings of liturgical and biblical texts for a wide variety of vocal and instrumental combinations. Each entry includes a brief biographical sketch of the composer, approximate duration, text sources, performing forces, currently available editions, and locations of manuscript materials, as well as descriptive commentary, discography, and bibliography. Unique to this edition are practitioner's evaluations of the performance issues presented in each score. These include the range, tessitura, and nature of each solo role, and a determination of the difficulty of the choral and orchestral portions of each composition. There is also a description of the specific challenges, staffing, and rehearsal expectations related to the performance of each work. Choral-Orchestral Repertoire: A Conductor's Guide is an essential resource for conductors and students of conducting as they search for repertoire appropriate to their needs and the abilities of their ensembles.

The Musical Shape of the Liturgy

"Professor William Mahrt of Santford Univeristy and the Church Music Association of America has written a sweeping book--one that it is at once scholarly and practical--on that most controversial topic of music and the liturgy. He provides an over-whelming argument that every parish must have high standrads for liturgical music and he makes the full case for Gregorian chant as the model and the ideal of that liturgical music." - back cover

Tonal Space in the Music of Antonio Vivaldi

Indiana University Press **"The book combines theory and practice, discussing the theoretical aspects and practical realization of the arrangement of tonal space in terms of their contemporary reception. Brover-Lubovsky's approach is therefore directed toward a study of the musical repertory mapped onto the canvas of contemporary musical thought, including theory, pedagogy, reception, and aesthetics. Tonal Space in the Music of Antonio Vivaldi is a substantial contribution to a better understanding of Vivaldi's individual style, while illuminating wider processes of stylistic development and of the diffusion of artistic ideas in the eighteenth century."--BOOK JACKET.**

Christian Anarchism

A Political Commentary on the Gospel (Abridged Edition)

Andrews UK Limited Christian anarchism has been around for at least as long as “secular” anarchism. Leo Tolstoy is its most famous proponent, but there are many others, such as Jacques Ellul, Vernard Eller, Dave Andrews or the people associated with the Catholic Worker movement. They offer a compelling critique of the state, the church and the economy based on the New Testament.

Historical Dictionary of Choral Music

Scarecrow Press The Historical Dictionary of Choral Music focuses on choral music and practice in the Western world from the medieval era to the 21st century. This is done through a chronology, introduction, bibliography, and over 1000 cross-referenced dictionary entries on important composers, genres, conductors, institutions, styles, and technical terms of choral music.

The Armed Man

A Mass for Peace

Boosey and Hawkes Commissioned for the millennium by the Royal Armouries and dedicated to the victims of the Kosovo crisis, this work is a contemporary example of a mass based on the 15th-century French song L'Homme Arme (The Armed Man). The complete work sets sacred and secular texts including Tennyson, Kipling, The Koran and the Hindu Mahabharata within the framework of the Christian mass.

The Vivaldi Compendium

Boydell Press The Vivaldi Compendium will serve as the most reliable and up-to-date source of quick reference on the composer Antonio Vivaldi and his music. This takes the form of a dictionary listing persons, places, musical works and many other topics connected with Vivaldi; its alphabetically arranged entries are copiously cross-referenced so as to guide the reader towards related topics. The Vivaldi Compendium also provides a gateway to further reading. This is achieved via an extensive bibliography, to which reference is made in most of the dictionary entries. These two sections are complemented by an article-length biography of the composer and a carefully organized list of his works. Knowledge about Vivaldi and his music is still advancing at an incredible rate - many discoveries occurred while the book was in preparation - and every effort has been made to ensure that The Vivaldi Compendium represents the latest in Vivaldi research, drawing on the author's close involvement with Vivaldi and Venetian music over four decades. MICHAEL TALBOT is Emeritus Professor of Music at the University of Liverpool and a Fellow of the British Academy. He is known internationally for his studies of late-baroque Italian music, which include recent books on Vivaldi's chamber cantatas (2003) and the same composer's fugal writing (2007).

Tonus Peregrinus: The History of a Psalm-tone and its use in Polyphonic Music

The History of a Psalm-tone and its use in Polyphonic Music

Ashgate Publishing, Ltd. Mattias Lundberg investigates the historical role of a deviant psalm-tone, the tonus peregrinus, focusing on its applications in polyphonic music within all major branches of Western liturgy. Throughout the remarkably persistent tradition of applying this melody to polyphony, from the ninth century right up to the twenty-first, coeval music theory is able to shed light on the problems it has posed to modal and tonal practice at various historical stages. The musical settings studied hold up a mirror to the general development of psalmody, concerning practices of organum, diverse regional forms of fauxbourdon, cantus firmus composition, free imitation, parody, fugue, quodlibet, monody, and many other compositional techniques where the unique features of the psalm-tone have necessitated modification of existing practices. The conclusions drawn reveal a musico-liturgical tradition that was not in real danger of extinction until the general decline of Western liturgy that followed in the eighteenth century, at which point the historiography of the tonus peregrinus became a factor stimulating scholarly and musical interest in its alleged pre-Christian origins. Lundberg demonstrates that the succession of works based on the tonus peregrinus often preserved a distinctly conservative musical and theological conception even during periods of drastic liturgical reform.

The world of El Cid

Chronicles of the Spanish Reconquest

Manchester University Press Makes available, for the first time in English translation, four of the principal narrative sources for the history of the Spanish kingdom of León-Castile during the eleventh and twelfth centuries. Three chronicles focus primarily upon the activities of the kings of León-Castile as leaders of the Reconquest of Spain from the forces of Islam, and especially upon Fernando I (1037-65), his son Alfonso VI (1065-1109) and the latter's grandson Alfonso VII (1126-57). The fourth chronicle is a biography of the hero Rodrigo Díaz, better remembered as El Cid, and is the main source of information about his extraordinary career as a mercenary soldier who fought for Christian and Muslim alike. Covers the fascinating interaction of the Muslim and Christian worlds, each at the height of their power. Each text is prefaced by its own introduction and accompanied by explanatory notes.

The Oratorio in Venice

Routledge This study fills a gap in general histories of the oratorio. The number of oratorio performances given in Venice from 1662-1809 was huge, yet the contribution of the city to the history of the genre is often overlooked. Denis and Elsie Arnold examine the fortunes of the genre in Venice, beginning with the arrival of the Oratorians in c.1660 and their establishment at the church of S. Maria della Consolazione (the Fava). The book charts the early success of oratorios by Legrenzi and Pallavicino in the latter part of the seventeenth century, the fallow years from c.1700-1740, and the great revival of interest in oratorio from the 1740s through to 1770 with works by Scalabrini, Jommeli, Galuppi and Bertoni. The volume features a list of all the oratorios given in Venice from 1662-1809. It also includes a list of singers which helps us to date a great deal of Venetian church music of the period.

Psalms

Psalms 107-150

Baker Books The Boice Commentary series combines careful scholarship and clear communication in a verse-by-verse and section by section reading of various biblical texts.

Combining thoughtful interpretation with contemporary insight for daily living, James Montgomery Boice explains the meaning of the text and relates the text's concerns to the church, Christianity, and the world in which we live. Whether used for devotions, preaching, or teaching, this authoritative and thought-provoking series will appeal to a wide range of readers, from serious Bible students to interested laypersons. "The psalms themselves," says Boice, "speak so powerfully to the hurts, fears, disappointments, faith, hope, and spiritual aspirations of God's people." This third and final volume in the Psalms collection explores the psalms known as the "Songs of Ascent" (135-150), which deal with the theme of worship-teaching us what true worship is and when and how we should praise God.
