**THE ULTIMATE DIRECTORY TO FREE EBOOK PROMOTION**

---

Createspace Independent Publishing Platform Market your eBook to websites averaging 66.5 Million visitors per month! This comprehensive directory provides a database empowering you to market your eBook to over 150 unique sites absolutely FREE. Stop wasting time with obsolete lists, old domain names, and places that now charge for advertising. Begin marketing your eBook to the masses now! After completing my first book, I soon realized that the real work involved securing book exposure that drove traffic to my title and, ultimately, sales. Like most of you, my marketing fund might buy the Grande Meal at Taco Bell, but it was not going to turn many heads. When I started searching for cheap alternatives, I stumbled upon multiple websites claiming to have lists of places that will market my eBook for free by listing it with their website, blog, twitter followers, newsletter, or daily email. However, when I attempted to follow the links, many took me to obsolete pages, old domain names, or places that now charged for advertising. Frustrated with that process, I began building my own list of vetted sites that were live, currently accepting book submissions, and providing a chance for my book to get some downloads. This directory does not purport to provide a master class in eBook marketing techniques (there are plenty of those types of books), but simply provides an advertising database giving you over 150 places to market your eBook for \$0 (few to none of those!). That's a great start to your marketing campaign. Some of the sites are quite small and focused, while others are massive behemoths of potential. Whatever your topic, you will find some tremendous options for marketing your eBook.
