Slave Stealers

True Accounts of Slave Rescues: Then and Now

[Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.](#)

Biology 12

The Book of L

Springer Science & Business Media This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Her smile isn't supposed to warm my heart, and the sight of her tears isn't supposed to make want to protect her. We're not supposed to touch, let alone kiss. We definitely aren't supposed to exchange hidden stares while we're around each other. Why? Because I stand to lose everything if we're caught. But I've fallen too hard, and despite how big the risks are, I can't seem to pull away from her. None of this is supposed to happen because she's my track student...and I'm her coach.

F*cking History

111 Lessons You Should Have Learned in School

Penguin History that doesn't suck: Smart, crude, and hilariously relevant to modern life. Those who don't know history are doomed to repeat it. Too bad it's usually boring as sh*t. Enter The Captain, the ultimate storyteller who brings history to life (and to your life) in this hilarious, intelligent, brutally honest, and crude compendium to events that happened before any of us were born. The entries in this compulsively readable book bridge past and present with topics like getting ghosted, handling haters, and why dog owners rule (sorry, cat people). Along the way you'll get a glimpse of Edith Wharton's sex life, dating rituals in Ancient Greece, catfishing in 500 BC, medieval flirting techniques, and squad goals from Catherine the Great. You'll learn why losing yourself in a relationship will make you crazy--like Joanna of Castile, who went from accomplished badass to Joanna the Mad after obsessing over a guy known as Philip the Handsome. You'll discover how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you'll see why it's never a good idea to f*ck with powerful women--from pirate queens to diehard suffragettes to Cleo-f*cking-patra. People in the past were just like us--so learn from life's losers and emulate the badasses. The Captain shows you how.

Tom Kundig: Houses

Princeton Architectural Press "Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of Tom Kundig: Houses, first published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." --

Daring to Rest

Reclaim Your Power with Yoga Nidra Rest Meditation

Sounds True What if you could reboot your health, tap into your creative self, reclaim your wild nature, lead from your heart—and still feel well rested? As modern women, we're taught that we can do it all, have it all, and be it all. While this freedom is beautiful, it's also exhausting. Being a "worn-out woman" is now so common that we think feeling tired all the time is normal. According to Karen Brody, feeling this exhausted is not normal—and it's holding us back. In Daring to Rest, Brody comes to the rescue with a 40-day program to help you reclaim rest and access your most powerful, authentic self

through yoga nidra, a meditative practice that guides you into one of the deepest states of relaxation imaginable. It's time to lie down and begin the journey to waking up. Though it comes from the yogic tradition, yoga nidra doesn't look like a typical yoga class—the entire practice is done lying down. As you listen to a guided meditation, you're gently taken into complete inner stillness, effortlessly releasing into a healing state that works on both cellular and subtle body levels. With *Daring to Rest*, Brody presents a comprehensive yoga nidra program that unfolds in three phases: rest for physical exhaustion, release for mental and emotional exhaustion, and rise for tuning in to the “life purpose exhaustion” that can come when we're not in our full power. Each phase includes a downloadable yoga nidra guided meditation and supportive practices. “By directly accessing your subconscious mind, yoga nidra helps shift the long-held patterns that prevent you from stepping fully into your purpose and power,” writes Brody. “Now is the time to break the cycle of fatigue and return to your truest self—the woman you are when you're not constantly exhausted.”
