SPANISH TRANSLATED MILADY STANDARD COSMETOLOGY

Cengage Learning *Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades since our first textbook published, it has been our commitment to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not waived. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers. IN THE TIME OF THE BUTTERFLIES

Algonquin Books *It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leonidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—“The Butterflies.” In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from hair ribbons and secret crushes to gunrunning and prison torture, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human cost of political oppression.*

MILADY

Penguin *From the glittering ballrooms of 17th Century England to the dangerous intrigues of the French court, Laura L. Sullivan brings an unlikely heroine to the page, turning on its head everything we've been told about The Three Musketeers and their ultimate rival. I've gone by many names, though you most likely know me as Milady de Winter: Villainess. Seductress. A secondary player in someone else's tale. It's finally time I tell my own story. The truth isn't tidy or convenient, but it's certainly more interesting. Before you cast judgment, let me start at the beginning, and you shall learn how an innocent girl from the countryside became the most feared woman in all of Europe. Because we all know history was written by men, and they so often get things wrong.*

BRAIN RULES (UPDATED AND EXPANDED)

12 PRINCIPLES FOR SURVIVING AND THRIVING AT WORK, HOME, AND SCHOOL

Pear Press Most of us have no idea what's really going on inside our heads. Yet brain scientists have uncovered details every business leader, parent, and teacher should know—like the need for physical activity to get your brain working its best. How do we learn? What exactly do sleep and stress do to our brains? Why is multi-tasking a myth? Why is it so easy to forget—and so important to repeat new knowledge? Is it true that men and women have different brains? In *Brain Rules*, Dr. John Medina, a molecular biologist, shares his lifelong interest in how the brain sciences might influence the way we teach our children and the way we work. In each chapter, he describes a brain rule—what scientists know for sure about how our brains work—and then offers transformative ideas for our daily lives. Medina's fascinating stories and infectious sense of humor breathe life into brain science. You'll learn why Michael Jordan was no good at baseball. You'll peer over a surgeon's shoulder as he proves that most of us have a Jennifer Aniston neuron. You'll meet a boy who has an amazing memory for music but can't tie his own shoes. You will discover how: Every brain is wired differently Exercise improves cognition We are designed to never stop learning and exploring Memories are volatile Sleep is powerfully linked with the ability to learn Vision trumps all of the other senses Stress changes the way we learn In the end, you'll understand how your brain really works—and how to get the most out of it.
