How to Get It, How to Keep It, How to Get It Back If You Lose It

Hachette Books *Mojo is the moment when we do something that's purposeful, powerful, and positive and the rest of the world recognizes it. This book is about that moment--and how we can create it in our lives, maintain it, and recapture it when we need it. In his follow-up to the New York Times bestseller What Got You Here Won't Get You There, #1 executive coach Marshall Goldsmith shares the ways in which to get--and keep--our Mojo. Our professional and personal Mojo is impacted by four key factors: identity (who do you think you are), achievement (what have you done lately?), reputation (who do other people think you are--and what have you've done lately?), and acceptance (what can you change--and when do you need to just "let it go"?). Goldsmith outlines the positive actions leaders must take, with their teams or themselves, to initiate winning streaks and keep them coming. Mojo is: that positive spirit--towards what we are doing--now--that starts from the inside--and radiates to the outside. Mojo is at its peak when we are experiencing both happiness and meaning in what we are doing and communicating this experience to the world around us. The Mojo Toolkit provides fourteen practical tools to help you achieve both happiness and meaning--not only in business, but in life.*

How to Get It, how to Keep It, how to Get it Back If You Lose it PEAK

How Great Companies Get Their Mojo from Maslow Revised and Updated

John Wiley & Sons Proven principles for sustainable success, with new leadership insight PEAK is the popular, transformative guide to doing business better, written by a seasoned entrepreneur/CEO who has disrupted his favorite industry not once, but twice. Author Chip Conley, founder and former CEO of one of the world's largest boutique hotel companies, turned to psychologist Abraham Maslow's Hierarchy of Needs at a time when his company was in dire need. And years later, when the young founders of Airbnb asked him to help turn their start-up home sharing company into a world-class hospitality giant, Conley once again used the principles he'd developed in PEAK. In the decade since this book's first edition, Conley's PEAK strategy has been developed on six continents in organizations in virtually every industry. The author's foundational premise is that great leaders become amateur psychologists by understanding the unique needs of three key relationships—with employees, customers, and investors—and this message has resonated with every kind of leader and company including some of the world's best-known, from Apple to Facebook. Avid users of PEAK have found that the principles create greater loyalty and differentiation with their key stakeholders. This new second edition includes in-depth examples of real-world PEAK companies, including the author's own at Airbnb, and exclusive PEAK leadership practices that will take you—and your company's performance—to new heights. Whether you're at a startup or a Fortune 500 company, at a for-profit, nonprofit, or governmental organization, this book can help you and your people reach potential you never realized you had. Understand how Maslow's hierarchy makes for winning business practices Learn how PEAK drove some of today's top businesses to success Help employees reach their full potential—and beyond Transform the customer experience and keep investors happy The PEAK framework succeeds because it elevates the business from the inside out. These same principles apply in the boardroom, the breakroom, and your living room at home, and have proven to be the foundation of healthy, fulfilled lives. Even if you think you're doing great, you could always be doing better—and PEAK gives you a roadmap to the next level.

Work is Love Made Visible

A Collection of Essays About the Power of Finding Your Purpose From the World's Greatest Thought Leaders

John Wiley & Sons Channel happiness and find your purpose with stories from the world's leading minds *Work is Love Made Visible* offers the insights of some of the world's greatest thought leaders as they tackle one of life's most difficult treasure hunts: finding purpose. The word "purpose" is big. Very big. And heavy. It carries the weight of a lifetime of work and struggle; the weight of legacy, and the mass of days spent not doing something else. It's something we all grapple with at some point—some of us find our purpose, others spend a lifetime searching. A lucky few grow to realize they've been working their purpose all along. Most of us aren't quite that lucky; often, fulfilling your purpose requires some kind of change—career, lifestyle, habits, family—and what then? Are we selfish for the upheaval, or are we fulfilling destiny? Once we know our purpose, how do we pursue it? This book asked those very questions of people who have followed their purpose and succeeded on a global scale. Their un-distilled answers are here, lending you the wisdom of their experiences, their examples, inspiration, and motivations as they: Tackle the universal struggle with individual purpose and meaning Illustrate how personal thought patterns contribute to real-world action Move challenges into the opportunities of their lives Reveal how they arrived at their life's purpose, and what they sacrificed to get there We all want a meaningful life. We want to work together for a brighter future, we want to celebrate our differences and commit to good. We want to inspire others, nurture their talents, and help them grow. We want to look back one day on a life well-lived, and leave something behind that matters to the world. *Work is Love Made Visible* shows you how some of us have succeeded, and offers you insight and guidance so that you can do the same.

A Practical Guide to Understanding and Managing Tech Dependence

WestBow Press A West Coast college student withdraws from school at the end of his third year because his class schedule was interfering with his World of Warcraft gaming sessions. Relationships are deteriorating, and depression potentially increasing in those extensively involved in social networking. The accumulated hours of wasted human potential are staggering. In some cases, workers spend hours playing games well into the early hours of the next morning and as a result can barely function the next day. Many tell me how often they require a caffeine boost or energy drink to give them the energy to function after spending half the night playing video or online games. With full awareness of all of the benefits of technology, John Kriger takes the risk to examine the negative ways many people are using technology today. This practical examination takes nothing away from modern advances but confronts head-on the potentially negative impact of constant texting, hyper gaming, social isolation, and other potentially destructive behaviors.

Simon and Schuster For any woman who feels burned out, beaten down, or like she might break under the pressure, third-degree black belt and motivational coach of ABC's My Diet Is Better Than Yours teaches a unique brand of badassery--how to get back up no matter what life throws at you; how to level up your mind, body and spirit; and how to turn your setbacks into secret weapons. Jennifer Cassetta is a nationally recognized keynote speaker, health and empowerment coach, and a 3rd-degree black belt in Hapkido. After a brush with death on September 11th, 2001, three blocks south of the World Trade Center, and then fending off an attacker late one night months later, Jenn took a deep dive into martial arts training where she learned how to harness the power of mind, body, and spirit. Now she teaches women from colleges to corporations how to unleash their inner badass by using dojo wisdom as a metaphor for life. Whether the opponent is a financial hardship, a difficult boss, or being in a manipulative relationship, Cassetta teaches readers how to flex their mental muscle, how to rise above fears, and how to turn setbacks into superpowers. How successful people become even more successful

Profile Books Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

Masters of the Art

Mojo Rising: Masters of the Art includes stories by Nobel and Pulitzer Prize-winning author William Faulkner, Pulitzer Prize-winning author Eudora Welty, Pulitzer Prize-winning writer Tennessee Williams, Richard Wright (generally regarded as one of the top three African American writers in American history), noted Civil War historian and novelist Shelby Foote, author Willie Morris (legendary editor of Harper's Magazine in the 1960s, novelist, and journalist), American Book Award winner Ellen Gilchrist (who contributed a previously unpublished story), Stark Young, New York Times drama critic and author of "So Red the Rose," Elizabeth Spencer (graduate of Belhaven College and Vanderbilt University; University of Mississippi creative writing instructor; five-time winner of the O. Henry Award for short fiction,) and novelist and short writer Ellen Douglas, whose work has appeared in The New Yorker and in the O. Henry collection of prize stories. "As an art form, the short story has been shunted to the fringe of literary expression," says Sartoris Literary Group publisher James L. Dickerson. "We want to keep the short story alive--and the best way to do that is to provide it with a loving home. To that end we plan to publish each year an anthology of contemporary writers who are associated with the Mojo Triangle."

How To Get Your Mojo Back

This is a short guide to help anyone who wants to find that light inside of them again.

American Mojo: Lost and Found: Restoring Our Middle Class Before the World Blows by

Turner *In American Mojo: Lost and Found, Peter D. Kiernan, award-winning author of New York Times bestseller Becoming China's Bitch, focuses on America's greatest challenge—and opportunity—restoring the middle class to its full promise and potential. Our educated, skilled and motivated middle class was the cornerstone of America's postwar economic might, but the country's dynamic core has struggled and changed dramatically through the last three decades. Kiernan's extensively researched story, told through individual histories, shows how the middle class flourished under unique circumstances following World War II; and details how our middle class has been rocked and shaped by events abroad as much as at home. By excluding too many Americans, the middle class we reverently recall was fractured from the beginning. What emerges through his storytelling is a picture of middle class decline and opportunity that is fuller, more moving and profound, and ultimately more useful in terms of charting a path forward than other examinations. His unique global perspective is a vital ingredient in charting the way ahead. This new frontier thesis shows that middle class greatness is again within our grasp—if we take some powerful medicine and seize the global opportunity. America possesses the skills and talent the world needs. Americans must embrace what brought our middle class to prominence in the first place—our American Mojo—before it is too late and other countries steal the march. All that is at stake is the soul of our nation.*
