Catholic Women Writers A Bio-bibliographical Sourcebook Greenwood Publishing Group* *Women have been writing in the Catholic tradition since early medieval times, yet no single volume has brought together critical evaluations of their works until now. The first reference of its kind, Catholic Women Writers provides biographical, critical, and bibliographical entries on 64 Catholic women writers from around the world and across the centuries. Each entry is written by an expert contributor and is designed to acquaint the reader with the author, her major works, her Catholic and women's themes, and her critical reception. An introductory essay places the authors in the context and tradition of Catholic writing, and a selected, general bibliography lists works for further reading. From praying in an early American synagogue to performing Mormon healing rituals to debating cremation, Volume 1 explores faith through action from Colonial times through the nineteenth century. The documents and essays consider the religious practices of average people--praying, singing, healing, teaching, imagining, and persuading. Some documents are formal liturgies while other texts describe more spontaneous religious actions. Because religious practices also take place in the imagination, dreams, visions, and fictional accounts are also included. Accompanying each primary document is an essay that sets the religious practice in its historical and theological context--making this volume ideal for classroom use and accessible to any reader. The introductory essays explain the various meanings of religious practices as lived out in churches and synagogues, in parlors and fields, beside rivers, on lecture platforms, and in the streets. Religions of the United States in Practice offers a sampling of religious perspectives in order to approximate the living texture of popular religious thought and practice in the United States. The history of religion in America is more than the story of institutions and famous people. This anthology presents a more nuanced story composed of the everyday actions and thoughts of lay men and women. Creed I A Course on Catholic Belief, Parish Annotated Edition: Keystone Parish Edition William H Sadlier Incorporated* **Famine Irish and the American Racial State Taylor & Francis** *Accounts of Irish racialization in the United States have tended to stress Irish difference. Famine Irish and the American Racial State takes a different stance. This interdisciplinary, transnational work uses an array of cultural artifacts, including novels, plays, songs, cartoons, government reports, laws, sermons, memoirs, and how-to manuals, to make its case. It challenges the claim that the Irish "became white" in the United States, showing that the claim fails to take into full account the legal position of the Irish in the nineteenth-century US state - a state that deemed the Irish "white" upon arrival. The Irish thus not only fitted into the US racial state; they helped to form it. Till now, little heed has been paid to the state's role in the Americanization of the Irish or to the Irish role in the development of US state institutions. Distinguishing American citizenship from American nationality, this volume journeys to California to analyze the means by which the Irish gained acceptance in both categories, at the expense of the Chinese. Along the way, it contests ideas that have taken hold within American studies. One is the notion that the Roman Catholic Church operated outside of the power structure of the nineteenth-century United States. On the contrary, Famine Irish and the American Racial State argues, the Irish-led corporate Catholic Church became deeply imbricated in US state structures. Its final chapter discusses a radical, transnational, Irish tradition that offers a glimpse at a postnational future. According to the official Catholic teaching, sex education is the duty of the parents, yet many parents still struggle to convey the facts of life to their children in a natural and inspiring way. Applying traditional Catholic principles to very practical questions, Fr. Sattler explains what parents should tell their children, when and how they should tell it, what moral and psychological dangers they must avoid, and what questions they should anticipate. His conversational and down to earth style provides parents with the confidence and practical wisdom to fulfill their role as their children's primary teachers of the facts of life.
