faces. Set in Monte Carlo and featuring an international cast of intriguing characters, the hunt for the deranged perpetrator remains gripping and unsettling, possibly even more so after the killer's identity is revealed and the detectives must close in on their target before he strikes again.

Protective Coatings

Film Formation and Properties

Springer This book focuses on characterization of organic coatings by different testing methods and understanding of structure formation and materials properties. The knowledge of protective organic coatings and current test methods is based largely on empirical experience. This book aims at explaining the coating property changes during film drying and curing in terms of chemical and physical transformations. Current test methods are reviewed with emphasis on understanding their physical basis and expressing the test results in terms of comparable physical quantities. In general, this book provides readers a deeper understanding of the binder design, coating film formation process, properties build-up, appearance and defect formation, and automotive paint application. It also suggests manifold ways to improving the coatings performance. This book is designed for coating professionals to gain deeper understanding of characterization techniques and to select the right ones to solve their coating problems. It is ideal for both experienced and early career scientists and engineers. Also, it is useful for graduate students in the general area of protective coatings.

Keeper of the Mountains

The Elizabeth Hawley Story

Rocky Mountain Books Ltd Beginning in 1946, Elizabeth Hawley worked for Fortune magazine as a researcher. Shortly thereafter, she left both her job and the United States itself to travel the world, and thus began her lifelong attraction to the exotic and remote sovereign state of Nepal. In the years

that followed, she began reporting on the political and cultural events taking place in her adopted homeland for the likes of Reuters and Time Inc., letting the world in on the strange community of mountaineers, pilgrims and politicians who were descending on Kathmandu, whether in search of adventure, enlightenment or prestige. Despite the fact that Elizabeth Hawley has never climbed a mountain or visited the hallowed grounds of Everest base camp, she has become the most important record keeper and inspirational authority figure regarding the expeditions, stories, feats, scandals and disasters in the Nepal Himalaya. Now 90 years of age, she has commanded the respect of such legendary personalities as Edmund Hillary, Reinhold Messner, Chris Bonington, Tomaž Humar and Ed Viesturs. With production under way on a film examining her life and legacy, it is likely that Hawley will continue to hold a special place in the hearts and minds of all visitors looking to experience the legend and grandeur of the world's most celebrated mountain landscape.

The Outlaws

Arktos It is November 1918. Germany has just surrendered after four years of the most savage warfare in history. It is teetering on the brink of total social and economic collapse, and the German people now lie at the mercy of new, liberal politicians who despise everything Germany once stood for. The Communists are rioting in the streets, threatening to topple the new government in Weimar and bring about their own revolution. The frontline soldiers are returning from the hell of the war to find an unrecognizable land, the principles and traditions they had sacrificed so much to defend now the stuff of mockery. The narrator of *The Outlaws*, a 16-year-old military cadet, is too young to have served in the trenches, but feels the sting of this betrayal no less than they. Since Germany's armies have been all but disbanded, he joins the paramilitary Freikorps - groups of veterans who refuse to lay down their arms, and who have pledged to stop the Communists - and begins fighting, first in the streets of Germany's cities, and then in the Baltic states, defending Germany's eastern frontiers from Communist subversion while ignoring the calls to disengage by the meek politicians at home. After months of intense fighting abroad, the Freikorps soldiers return to settle scores with their enemies in Germany, dreaming of a nationalist counter-revolution, and, their trigger fingers still itchy, fix their sights on bringing down the hated new government once and for all... *The Outlaws* is a chronicle of the experiences of the men who fought in the Freikorps, but it is also an adventure and a war story about an entire generation of soldiers who loved their homeland more than peace and comfort, and who refused to accept defeat at any price. "What we wanted we did not know; but what we knew we did not want. To force a way through the prisoning wall of the world, to march over burning fields, to stamp over ruins and scattered ashes, to dash recklessly through wild forests, over blasted heaths, to push, conquer, eat our way through

towards the East, to the white, hot, dark, cold land that stretched between ourselves and Asia - was that what we wanted? I do not know whether that was our desire, but that was what we did. And the search for reasons why was lost in the tumult of continuous fighting." - p. 65 Ernst von Salomon (1902-1972) was one of the writers of the German Conservative Revolution of the 1920s. Like the narrator of *The Outlaws*, he was a military cadet at the end of the First World War, and joined the Freikorps, participating in many of the events described in the book, including the assassination of Foreign Minister Walther Rathenau, for which he was imprisoned. He went on to write many books and film scripts.

Liar Moon

Bitter Lemon Press Praise for Ben Pastor's *Lumen*: "Pastor's plot is well crafted, her prose sharp. . . . A disturbing mix of detection and reflection."—Publishers Weekly "Rivets the reader with its twist of historical realities. A historical piece, it faithfully reproduces the grim canvas of war. A character study, it captures the thoughts and actions of real people, not stereotypes."—The Free Lance-Star "And don't miss *Lumen* by Ben Pastor. . . . An interesting, original, and melancholy tale."—Literary Review Italy, September 1943. The Italian government switches sides and declares war on Germany. The north of Italy is controlled by the fascist puppets of Germany; the south liberated by Allied forces fighting their way up the peninsula. Having survived hell on the Russian front, Wehrmacht major and aristocrat Baron Martin von Bora is sent to Verona. He is ordered to investigate the murder of a prominent local fascist: a bizarre death threatening to discredit the regime's public image. The prime suspect is the victim's twenty-eight-year-old widow Clara. Haunted by his record of opposition to SS policies in Russia, Bora must watch his step. Against the backdrop of relentless anti-partisan warfare and the tragedy of the Holocaust, a breathless chase begins. Ben Pastor, born and now back in Italy, lived for thirty years in the United States, working as a university professor in Vermont. The first in the Martin Bora series, *Lumen*, was published by Bitter Lemon Press in May 2011.

Dynamical Systems V

Bifurcation Theory and Catastrophe Theory

Springer Science & Business Media Bifurcation theory and catastrophe theory are two well-known areas within the field of dynamical systems. Both are studies of smooth systems, focusing on properties that seem to be manifestly non-smooth. Bifurcation theory is concerned with the sudden changes that occur in a system when one or more parameters are varied. Examples of such are familiar to students of differential equations, from phase portraits. Understanding the bifurcations of the differential equations that describe real physical systems provides important information about the behavior of the systems. Catastrophe theory became quite famous during the 1970's, mostly because of the sensation caused by the usually less than rigorous applications of its principal ideas to "hot topics", such as the characterization of personalities and the difference between a "genius" and a "maniac". Catastrophe theory is accurately described as singularity theory and its (genuine) applications. The authors of this book, previously published as Volume 5 of the Encyclopaedia, have given a masterly exposition of these two theories, with penetrating insight.

Le Roman D'un Jeune Homme Pauvre; Comedie en Cinq Actes

From Catastrophe to Chaos: A General Theory of Economic Discontinuities

Volume I: Mathematics, Microeconomics, Macroeconomics, and Finance

Springer Science & Business Media From Catastrophe to Chaos: A General Theory of Economic Discontinuities presents and unusual perspective on economics and economic analysis. Current economic theory largely depends upon assuming that the world is fundamentally continuous. However, an increasing amount of economic research has been done using approaches that allow for discontinuities such as catastrophe theory, chaos theory, synergetics, and fractal geometry. The spread of such approaches across a variety of disciplines of thought has constituted a virtual intellectual revolution in recent years. This book reviews the applications of these approaches in various subdisciplines of economics and draws upon past economic thinkers to develop an integrated view of economics as a whole from the perspective of inherent discontinuity.

The Matriarch

Penguin Random House New Zealand Limited In keeping with his commitment to revisit his first five pieces of fiction, Witi Ihimaera has

reworked the original text of this much-loved classic. The matriarch is a woman of intelligence, wit, beauty and ruthlessness, and has become a mythical figure through her fight to repossess the land and sustain her people against the ravages wrought by the Pakeha. Priestess of the Ringatu faith, she has been virtually a law unto herself. In his search for the truth behind the legends surrounding the matriarch, his grandmother, Tama Mahana delves deeper and deeper into Maori history and lore to understand the mysterious sources of her power and ambition. Witi Ihimaera's prose is at turns lyrical and spare, sensuous and savage. Weaving fact with fiction, this remarkable odyssey into New Zealand history is a novel of stunning imaginative power. Also available as an eBook Winner of the Wattie Book of the Year, 1986 Runner-up for the Commonwealth Writers' Prize, 1987 'Witi Ihimaera's uncompromising masterwork . . . A profound and spellbinding character study' - New Zealand Herald

Eating Culture

An Anthropological Guide to Food, Second Edition

University of Toronto Press From ingredients and recipes to meals and menus across time and space, this highly engaging overview illustrates the important roles that anthropology and anthropologists play in understanding food and its key place in the study of culture. The new edition, now in full colour, introduces discussions about nomadism, commercializing food, food security, and ethical consumption, including treatment of animals and the long-term environmental and health consequences of meat consumption. New feature boxes offer case studies and exercises to help highlight anthropological methods and approaches, and each chapter includes a further reading section. By considering the concept of cuisine and public discourse, *Eating Culture* brings order and insight to our changing relationship with food.

Can New Labour Deliver?

Ghost Light

A Novel

Farrar, Straus and Giroux 1907 Edwardian Dublin, a city of whispers and rumors. At the Abbey Theatre W. B. Yeats is working with the talented John Synge, his resident playwright. It is here that Synge, the author of *The Playboy of the Western World* and *The Tinker's Wedding*, will meet an actress still in her teens named Molly Allgood. Rebellious, irreverent, beautiful, flirtatious, Molly is a girl of the inner-city tenements, dreaming of stardom in America. Witty and watchful, she has dozens of admirers, but it is the damaged older playwright who is her secret passion despite the barriers of age, class, education, and religion. Synge is a troubled, reticent genius, the son of a once prosperous landowning family, a poet of fiery language and tempestuous passions. Yet his life is hampered by conventions and by the austere and God-fearing mother with whom he lives. Scarred by a childhood of immense loneliness and severity, he has long been ill, but he loves to walk the wild places of Ireland. The affair, sternly opposed by friends and family, is turbulent, sometimes cruel, and often tender. 1950s postwar London, an old woman walks across the city in the wake of a hurricane. As she wanders past bomb sites and through the forlorn beauty of wrecked terraces and wintry parks, her mind drifts in and out of the present as she remembers her life's great love, her once dazzling career, and her travels in America. Vivid and beautifully written, Molly's swirling, fractured narrative moves from Dublin to London via New York with luminous language and raw feeling. *Ghost Light* is a story of great sadness and joy—a tour de force from the widely acclaimed and bestselling author of *Star of the Sea*.

Street Foods

Urban Food and Employment in Developing Countries

Oxford University Press on Demand Street foods are sold in almost every country in the world. Many urban and rural people depend on them for one

or more meals each day. This book explores this world of entrepreneurs in developing countries. When all of the participants in the delivery are counted, including local farmers, food processors, and street vendors, one realizes the enormous size of this "industry." Research conducted by the authors with vendors, local community leaders, and public health officials, worked not only to collect data, but to raise the hygiene of the food that is sold.

The Life of a Painter

The Autobiography of Gino Severini

In 1906 the Italian futurist painter Gino Severini arrived in Paris with no money, no name, and very few acquaintances, only to become a key protagonist in the artistic and literary circles that would spearhead the modernist movement. His autobiography from this period, translated for the first time into English, tells the story of the Parisian art world he knew so well, and offers a unique account of the individuals and ideas that created modernism. Here we encounter painters and sculptors such as Matisse, Picasso, Modigliani, Braque, Gris, Dufy, Léger, Delaunay, Duchamp, Lipchitz, and De Chirico; the literary figures Marinetti, Paul Fort, Apollinaire, Cocteau, Reverdy, and Jarry; and also the philosopher and writer Maritain, composers Eric Satie and Igor Stravinsky, and the impresario of the Ballets Russes, Sergei Diaghilev. Severini shared their experiences in the studios, galleries, and cafés of Montmartre and Montparnasse, and re-creates the passionate debates that animated those gatherings. We witness not only the maturing of Severini's art and aesthetic theory but also the intellectual and political turbulence that brought forth a wealth of approaches to art in the first two decades of this century, including futurism, cubism, surrealism, constructivism, dadaism, and metaphysical painting. Beginning with an honest, humorous description of his financially ill-fated family in Tuscany, Severini goes on to describe the triumphs and mistakes of his adolescence in the Roman art scene, where he fraternized with Balla and Boccioni. His down-to-earth tone pervades his anecdotes and assessments of the Parisian art world, enabling a casual reader to grasp the many issues at stake. As Severini's status as an important painter gains widespread recognition, this autobiography serves as a valuable resource for critics and a thoroughly delightful, engaging account for anyone interested in learning more about this artist who sheds new light on many of the crucial movements of the century.

Rome and the Barbarians

The Birth of a New World

Skira - Berenice The definitive book on the controversial relationship between Roman civilisation and the barbarian populations between the 1st and the 6th centuries A.D. It is now a well-recognized fact that during the Roman Empire, tens of millions of Germans crossed its border. Germanic mercenaries served loyally under Julius Caesar, first as auxiliaries, later as legionaries, while some reached important military ranks. Today it is accepted that without the contribution of the Germans, it would have been difficult for the Roman Empire to last as long as it did. But how did Rome repay the northern barbarians for their almost total availability? This scholarly and accessible volume attempts to provide an answer to this historical puzzle.

Slow Motion Riot

A Mystery

Open Road Media A New York probation officer locks horns with a brutal drug dealer in this “gripping” Edgar Award winner from a New York Times-bestselling author (Library Journal). As a probation officer in a city plagued by drugs, murders, and corruption, Steven Baum supervises marginal criminals—not dangerous enough for prison, but too damaged to go totally free. He watches them, keeps them in line, and once in a long while, helps one improve his life. The job is a vicious grind, but Steven is good at it, and he is about to be rewarded with a transfer to active duty. But first he has to deal with Darryl King. A small-time dealer with big aspirations, Darryl is the kind of thug who makes probation officers want to quit. Although the boy terrifies him, Steven holds out hope for helping him turn his life around. What he doesn’t know is that Darryl is a cop-killer—and his troubles have only just begun. This ebook features an illustrated biography of Peter Blauner including rare photos and never-before-seen documents from the author’s personal collection.

Hiroshige

Taschen America Llc Hiroshige's Edo: Master of Japanese ukiyo-e woodblock prints "Some of the greatest prints in the history of art." -The Wall Street Journal, New York Utagawa Hiroshige (1797-1858) was one of

the last great artists in the ukiyo-e tradition. Literally meaning "pictures of the floating world", ukiyo-e refers to the famous Japanese woodblock print genre that originated in the 17th century and is practically synonymous with the Western world's visual characterization of Japan. Though Hiroshige captured a variety of subjects, his greatest talent was in creating landscapes of his native Edo (modern-day Tokyo) and his most famous work was a series known as "100 Famous Views of Edo" (1856-1858). This book provides an introduction to his work and an overview of his career. About the Series: Each book in TASCHEN's Basic Art series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions

The Antichrist

Peter Owen Publishers Long out of print in English, this dizzying hybrid of novel, essay, and polemic has less to do with religion than with what Roth sees as the disintegrating moral fabric of the modern world Written while Roth was in exile from Germany and his native Austria following the rise of Nazism, this work was composed in cafés across free Europe after all his works in German went up in flames. Such events no doubt influence the apocalyptic tones of The Antichrist's protagonist, J.R., a journalist hired by an inscrutable media mogul hellbent on exposing evidence of the "Antichrist" throughout the world. This mission leads J.R. to authoritarian political regimes such as Red Earth (the Soviet Union) but also other poisonous terrains like The Land of Shadows (Hollywood)—it becomes all too clear that it is Roth's mission to chart the whole of civilization's slide into moral and political chaos. But herein lies the
