BLOCKCHAIN CHICKEN FARM

AND OTHER STORIES OF TECH IN CHINA'S COUNTRYSIDE

FSG Originals A New York Times Book Review Editors' Choice "A brilliant and empathetic guide to the far corners of global capitalism." --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's

many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

JOEY GREEN'S CLEANING MAGIC

2,336 INGENIOUS CLEANUPS USING BRAND-NAME PRODUCTS

Rodale Books From the guru of discovering extraordinary uses for brand-name products come brand-new ways to make cleaning, organizing, and decluttering quick, easy, and a lot more fun The public is endlessly fascinated by quirky and offbeat uses for their favorite products and, this time around, Joey Green tackles household chores with his pantry full of cleaning power. Green's easy and effortless tips and tricks show how to scrub, deodorize, shine, and remove stains with products already in the house. While Green's suggestions may sound implausible, they are, in fact, highly effective. Most products on the market today are a complex mix of lubricants, abrasives, and cleansers, giving these brand-name products plenty of power to clean, dissolve, and fix in the most unexpected ways. Joey Green's Cleaning Magic offers clever ways to make household items do double duty, like using a slice of Wonder Bread to clean up tiny shards of glass from a kitchen floor—just pat it flat against the floor and toss it away—and wiping away the gunk from the bottom of an iron with Purell. This practical, useful, funny, and entertaining volume includes thousands of incredibly simple ways to clean up every room (and dusty corner) in the house.

COLLIER'S

DWELL

At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.
