THE GLASS CASTLE

A MEMOIR

Simon and Schuster **Journalist Walls** grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

ANONYMOUS REX

A DETECTIVE STORY

Villard "What would the world be like if the dinosaurs hadn't gone extinct? As this very funny book shows, for one thing, L.A. would be even weirder than it is now." --Dave Barry
Vincent Rubio, a Los Angeles private investigator, is down on his luck: He's out of work. His car's been repossessed. His partner has died under mysterious circumstances. And his tail just won't stay put. Vincent is a dinosaur--a Velociraptor, to be precise. It seems the dinosaurs faked their extinction 65 million years ago and still roam the earth, disguised in convincing latex costumes that help them blend perfectly into human society. A heightened sense of smell allows the dinos to detect one another--Vincent's got an odor like a tasty Cuban cigar. When Vincent is called to investigate a two-bit case of arson at a hip dino nightclub, he discovers something much more sinister, which lures him back to New York City--the scene of his partner's death and a dangerous nexus of dinosaur and human intermingling. Will Vincent solve the mystery of his partner's death? Will a gorgeous blond chanteuse discover his true identity, jeopardizing both their lives? Will Vincent be able to conquer his dangerous addiction to basil, or will he wind up in Herba-holics Anonymous? Will he find true love, or resort to crumpled issues of Stegolicious? Somewhere between Jurassic Park and L.A. Confidential lies Eric Garcia's Anonymous Rex, one of the smartest, wittiest, and most entertaining debuts this side of the Ice Age.

CASUAL REX

A NOVEL

Villard In 1999, Eric Garcia made his mark with one of the most striking mystery debuts of the year, Anonymous Rex, hailed as a dino-mite detective yarn by People, inventive and imaginative by USA Today, and a fresh and antic comic thriller by The Seattle Times. Now, with Casual Rex, the sharpest dinosaur-detective in Los Angeles is back, funnier and grittier than ever, for the next tale in this acclaimed series. Vincent Rubio is a private eye, working the angles in Los Angeles with his partner, Ernie. They've got the usual problems bills, bum cases, woman troubles. But being dinosaurs is not a problem, as long as their latex disguises fit properly. Not all dinosaurs agree. Some have joined a mysterious back-to-basics movement led by a beautiful and beguiling Velociraptor to help dinosaurs find themselves, let their tails hang out, and roam about as they really are. When a member of this cult dies under suspicious circumstances, Vincent and Ernie must investigate, while simultaneously handling the case of the missing Mussolini the theft of a rare and priceless prosthetic penis treasured in the dinosaur community. With Casual Rex, Eric Garcia takes readers even more deeply into this warped underworld and succeeds in making it all believable. The result is a novel that is as hilarious and entertaining as it is original.

MY YOUNG LIFE

Simon and Schuster "A love song to a lost New York" (New York magazine) from novelist, essayist, and critic Frederic Tuten as he recalls his personal and artistic coming-of-age in 1950s New York City, a defining period that would set him on the course to becoming a writer. Born in the Bronx to a Sicilian mother and Southern father, Frederic Tuten always dreamed of being an artist. Determined to trade his neighborhood streets for the romantic avenues of Paris, he learned to paint and draw, falling in love with the process of putting a brush to canvas and the feeling it gave him. At fifteen, he decided to leave high school and pursue the bohemian life he'd read about in books. But, before he could, he would receive an extraordinary education right in his own backyard. "A stirring portrait...and a wonderfully raw story of city boy's transformation into a writer" (Publishers Weekly), **My Young Life** reveals Tuten's early formative years where he would discover the kind of life he wanted to lead. As he travels downtown for classes at the Art Students League, spends afternoons reading in Union Square, and discovers the vibrant scenes of downtown galleries and Lower East Side bars, Frederic finds himself a member of a new community of

artists, gathering friends, influences—and many girlfriends—along the way. Frederic Tuten has had a remarkable life, writing books, traveling around the world, acting in and creating films, and even conducting summer workshops with Paul Bowles in Tangiers. Spanning two decades and bringing us from his family's kitchen table in the Bronx to the cafes of Greenwich Village and back again, *My Young Life* is an intimate and enchanting portrait of an artist's coming-of-age, set against one of the most exciting creative periods of our time—"so thrilling...so precise in presenting a young man's preoccupation and occupation" (Steve Martin).

COSMIC DANCER

THE LIFE AND MUSIC OF MARC BOLAN

Tomahawk Press (GA) Marc Bolan, the biggest pop star in post-Beatles Britain, was haunted by the fear that he would die before his 30th birthday. He repeatedly told friends, family and colleagues that he had foreseen his own death in a car crash and that the car would be a mini. He had alluded to the tragedy in several songs and a poem in which he named the tree that would become a shrine to his grieving fans. It is said that he had also known the date of his death, gleaned from a painting, titled 'The Sixteenth of September' by the Belgian surrealist Rene Magritte which foreshadowed an iconic image on the cover of his 'The Slider' album. Whatever the truth, it is a fact that on that very date in 1977, two weeks short of his 30th birthday, Bolan's morbid prophecy was fulfilled. In this definitive new biography Paul Roland chronicles the life and music of the vibrato-voiced glam rock idol and 20th century boy who created some of the most instantly appealing and enduring songs of the 70s -- 'Ride A White Swan', 'Hot Love', 'Get It On', 'Telegram Sam', 'Children of the Revolution' and 'Solid Gold Easy Action' -- in what appears to have been a fevered rush to cheat Fate. At the peak of his popularity in 1972 the Beatles acknowledged Bolan and his group T-Rex as their natural successor and Ringo Starr directed the film that brought the fan hysteria known as T-Rextasy to a stagnant British pop scene and which was to top the DVD charts 30 years after its original release. That year the former working class Hackney mod launched his own label and continued a run of number one hits that accounted for 3.5% of the total singles sales in the UK, outselling the combined singles sales of Jimi Hendrix and The Who. But just when Bolan was at the summit of his success it all went sour. This is the incredible story of Marc Bolan's roller-coaster rise to fame and his resurrection as the self-styled 'Godfather of Punk' that promised to put him back on top until the fatal accident which cut short his life and hopes of a comeback.

RECREATING AN AGE OF REPTILES

The Crowood Press Dinosaurs and other prehistoric animals have always fascinated people but they pose vast problems for the artist. How do you go about recreating the anatomy and behaviour of a creature we've never seen? How can we restore landscapes long lost to time? And where does the boundary between palaeontology - the science of understanding fossils- and artistic licence lie? In this outstanding book, Mark Witton shares his detailed paintings and great experience of drawing and painting extinct species. The approaches used in rendering these impressive creatures are discussed and demonstrate the problems, as well as the unexpected freedoms, that palaeontological artists are faced with. The book showcases over ninety scientifically credible paintings of some of the most spectacular animals in the Earth's history, as well as many less familiar species. Mark explains how each image was created with details of the artistic process, scientific grounding and collaborations between researchers and discusses the methods and goals of palaeoartistry - the recreation of extinct animals and landscapes in art. This book will be of great interest to palaeontological artists, researchers, museum curators, dinosaur enthusiasts and fossil hunters. Superbly illustrated with 90 paintings.
