Northern Light Landscape, Photography and Evocations of the North transcript Verlag These essays confirm the continued relevance of 'north' as a site of cultural practice and artistic endeavour. If northern regions are tangible realities, the place of varied topography, light, climate, and biogeography, the location of distinct peoples and culture, typically they have been depicted through the traditions of northern landscape representation and the cultural narratives of an era. These discussions - focusing on Scotland, Northern England, Northern Europe, Siberia, the Arctic and Nordic lands - by photographic practitioners as well as theorists, explore and question this tradition, considering landscape as experience, reinterpreting notions of wilderness, emptiness and the sublime. Science and Daily Life in the Study of the Northern Lights, 1898-1928 Cambridge Scholars Publishing The world's first Northern Lights observatory is the focus of this account about everyday life and epoch-making pioneering of geophysical research on Halde Mountain in Finnmark, Norway. Inside four walls in extreme weather conditions at 9000 metres above sea level, the residents formed a class-divided mini-society with researchers, assistants, wives and maids. This book provides an insight into eventful years of the last century. Children are born, photographs and measurements of the Northern Lights are taken, the research develops, and important people die. The work conducted on Halde Mountain resulted in a geophysical institute and weather forecasting services for Northern Norway and was the basis for the foundation of Norway's most northern university. But when she arrives it is February and bitter cold, and the only one around to meet her is restless Sheriff Joe Turner, who takes her to the Spitfire Grill to help the aging Hannah Ferguson run the diner. All is gray, dismal and listless around them, and the characters are in the "winter of their lives" emotionally and spiritually. This book investigates ongoing changes in the Arctic from a landscape perspective. It examines settlements and territories of the Barents Sea Coast, Northern Norway, the Russian Kola Peninsula, Svalbard and Greenland from an interdisciplinary, design-based and future-oriented perspective. The Future North project has travelled Arctic regions since 2012, mapped landscapes and settlements, documented stories and practices, and discussed possible futures with local actors. effects of industrial and political agency and social initiatives. It provides a combined view on the built environment and urbanism, as well as the cultural and material landscapes of the Arctic. This book documents and analyzes how this historical change was achieved. This, the second of two volumes, places emphasis on allies and support for abortion provision, illustrating how the movement has relied upon an intersectional network of social movement actors, NGOs and fundraisers to maintain momentum and inclusivity. It also focuses on the reality of abortion provision. Each chapter is written by those directly involved in the long-fought battle to change abortion law - including those with personal experience of seeking abortions, activists, academics, legal experts, political actors, NGOs, and volunteers. This interdisciplinary text will be of relevance to academics and students in the disciplines of law, policy, political science, and sociology, but also to organizers and policy makers in other global contexts and across other social justice campaigns. **The Sinitic Civilization Book I A Factual History Through the Lens of Archaeology, Bronzeware, Astronomy, Divination, Calendar and the Annals iUniverse** The Sinitic Civilization A Factual History through the Lens of Archaeology, Bronzeware, Astronomy, Divination, Calendar and the Annals The book covered the time span of history of the Sinitic civilization from antiquity, to the 3rd millennium B.C. to A.D. 85. A comprehensive review of history related to the Sinitic cosmological, astronomical, astrological, historical, divinatory, and geographical developments was given. All ancient Chinese calendars had been examined, with the ancient thearchs’ dates examined from the perspective how they were forged or made up. The book provides the indisputable evidence regarding the fingerprint of the forger for the 3rd century A.D. book Shangshu (remotely ancient history), and close to 50 fingerprints of the forger of the contemporary version of The Bamboo Annals. Using the watershed line of Qin Emperor Shihuangdi’s book burning of 213 B.C., the book rectified what was the original history before the book burning, filtered out what was forged after the book burning, sorted out the sophistry and fables that were rampant just prior to the book burning, and validated the history against the records in the oracle bones, bronzeware, and bamboo slips. The book covers 95-98% and more of the contents in the two ancient history annals of The Spring Autumn Annals and The Bamboo Annals. There are dedicated chapters devoted to interpreting Qu Yuan’s poem Asking Heaven (Tian Wen), the mythical book The Legends of Mountains & Seas (Shan Hai Jing), geography book Lord Yu’s Tributes (Yu Gong), and Zhou King Muwang’s Travelogue (Mu-tian-zi Zhuan). The book has appendices of two calendars: the first anterior quarter remainder calendar (247 B.C.-104 B.C./247 B.C.-85 A.D.) of the Qin Empire, as well as a conversion table of the sexagenary years of the virtual Yin-li (Shang dynasty) quarter remainder calendar versus the Gregorian calendar, that covers the years 2698 B.C. to 2018 A.D. Book I stops about the midpoint of the 242 years covered in Confucius’ abridged book The Spring & Autumn Annals (722-481 B.C.). Book II stops at Han Emperor Zhangdi (Liu Da, reign A.D. 76-88; actual reign Aug of A.D. 75-Feb of A.D. 88), with the A.D. 85 adoption of the Sifen-li posterior quarter remainder calendar premised on reverting to the sexagenary years of the virtual Yin-li (Shang dynasty) quarter remainder calendar, a calendar disconnected from the Jupiter’s chronogram, that was purportedly invented by the Confucians on basis of Confucius’ identifying the ‘qi-lin’ divine giraffe animal and wrapping up the masterpiece The Spring & Autumn Annals two years prior to death. **Lonely Planet Norway Lonely Planet Lonely Planet Norway** is your most up-to-date advice on what to see and skip, and what hidden discoveries await you.
