APOTHEOSIS NOW

RABBIT HOLE TO THE BEYOND

Yanhao Huang Many of us are starting to become tired of this game of life. We have been comparing and striving all our life. But no matter how much success we have achieved—we are still hollow and still have found nothing fulfilling. We don't even know if happiness exists because it is no longer a living thing in our experience—it has become dead, as we only know it as a concept or memory. We have sought self-help advice, philosophies, and religious teachings to transform ourselves but have not gotten anywhere. We have made some superficial improvements—like adopting a new mindset—but our core remains the same. We are still competitive, still fearful, and we get disturbed all the time. The problem with all attempts at self-improvement is that we do not address the fundamental problem, which is: who is the “you” who needs to be improved? We do not see that the one who is making the improvement is the same one who needs to be improved. The more we try to improve, the more conflict we introduce, within and without. The more knowledge we stuff in our heads, the more we become trapped in a conceptual prison of reality. Inevitably, the more confused we get in life. The book guides the reader out of their distorted beliefs to experience reality beyond the mind. When the deeper intelligence is allowed to flourish without our mind's interference, then the game of life becomes effortless.

THE POWER OF NOW

A GUIDE TO SPIRITUAL ENLIGHTENMENT

New World Library To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, “The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death.” Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

FOR NOW

Copper Canyon Press Classic meets contemporary in James Richardson's ninth collection. Writers from Bashō to Hardy, from Merwin to Porchia, inspire meditations on everything from artichokes to cosmology that somehow morph into fables of limitation and desire. This “new poetry made the old way” takes seriously the task of lightening and illuminating our experience, and especially, of distilling it. As Richardson writes, “The road not taken also would have gotten me home.” More than sixty poems of ten lines or fewer, and two sequences of Richardson's trademark aphorisms and “ten-second essays,” are set alongside surging lyric meditations and odes. For Now celebrates nows of every length, from the sweep of cosmic evolution, to the span of a life, to the glint of dew on a cold shovel.

END THIS DEPRESSION NOW!

W. W. Norton & Company A New York Times best-selling call to arms from Nobel Prize-winning economist Paul Krugman. The Great Recession is more than four years old—and counting. Yet, as Paul Krugman points out in this powerful volley, “Nations rich in resources, talent, and knowledge—all the ingredients for prosperity and a decent standard of living for all—remain in a state of intense pain.” How bad have things gotten? How did we get stuck in what now can only be called a depression? And above all, how do we free ourselves? Krugman pursues these questions with his characteristic lucidity and insight. He has a powerful message for anyone who has suffered over these past four years—a quick, strong recovery is just one step away, if our leaders can find the “intellectual clarity and political will” to end this depression now.

ASIAN ART NOW

The Monacelli Press, LLC The remarkable phenomenon of the twenty-first-century art world is contemporary Asian art. Fueled by a newfound openness in the East, and by an economic boom that has promoted a vibrant cultural confidence, art made in Asia or by Asian artists since the 1990s has become dynamic and exciting, acknowledged and appreciated by collectors, critics, and curators. This authoritative, wide-ranging volume surveys the contemporary art of Asia, examining key issues and themes: art's relationship to history and tradition, its engagement with politics, society, and the state, its exploration of consumerism and popular culture, and its interplay with the urban environment. Artists range from the established—Nam June Paik, On Kawara, Yoko Ono, Cai Guo-Qiang, Takashi Murakami—to the emerging—Indonesian cartoon artist Wedhar Riyadi, Mongolian site-specific artist Chaolun Baatar, Pakistani graffiti artist Naiza Khan, Vietnamese-American photo artist Dinh Q. Le, and many more. Together, these artists represent the range of Asian countries, from Indonesia to Japan, Uzbekistan to South Korea, Iran to China. More than 230 sumptuous illustrations capture the full scope of the artists' practice, from calligraphy, painting, sculpture, and photography to performance, installation, video, and Internet art. Complete with comprehensive biographies, Asian Art Now is both a superb critical overview and the consummate visual reference.

ITALIANS THEN, MEXICANS NOW

IMMIGRANT ORIGINS AND THE SECOND-GENERATION PROGRESS, 1890-2000

Russell Sage Foundation According to the American dream, hard work and a good education can lift people from poverty to success in the "land of opportunity." The unskilled immigrants who came to the United States from southern, central, and eastern Europe in the late 19th and early 20th centuries largely realized that vision. Within a few generations, their descendants rose to the middle class and beyond. But can today's unskilled immigrant arrivals—especially Mexicans, the nation's most numerous immigrant group—expect to achieve the same for their descendants? Social scientists disagree on this question, basing their arguments primarily on how well contemporary arrivals are faring. In *Italians Then, Mexicans Now*, Joel Perlmann uses the latest immigration data as well as 100 years of historical census data to compare the progress of unskilled immigrants and their American-born children both then and now. The crucial difference between the immigrant experience a hundred years ago and today is that relatively well-paid jobs were plentiful for workers with little education a hundred years ago, while today's immigrants arrive in an increasingly unequal America. Perlmann finds that while this change over time is real, its impact has not been as strong as many scholars have argued. In particular, these changes have not been great enough to force today's Mexican second generation into an inner-city "underclass." Perlmann emphasizes that high school dropout rates among second-generation Mexicans are alarmingly high, and are likely to have a strong impact on the group's well-being. Yet despite their high dropout rates, Mexican Americans earn at least as much as African Americans, and they fare better on social measures such as unwed childbearing and incarceration, which often lead to economic hardship. Perlmann concludes that inter-generational progress, though likely to be slower than it was for the European immigrants a century ago, is a reality, and could be enhanced if policy interventions are taken to boost high school graduation rates for Mexican children. Rich with historical data, *Italians Then, Mexicans Now* persuasively argues that today's Mexican immigrants are making slow but steady socio-economic progress and may one day reach parity with earlier immigrant groups who moved up into the heart of the American middle class. Penguin A collection of personal writing exercises and commentary from some of today's best novelists, short story writers, and writing teachers, including Jill McCorkle, Amy Bloom, Robert Olen Butler, Steve Almond, Jayne Anne Phillips, Virgil Suarez, Margot Livesay, and more. What's the secret behind the successful and prolific careers of critically acclaimed novelists and short story writers Amy Bloom, Steve Almond, Jayne Anne Phillips, Alison Lurie, and others? Divine assistance? Otherworldly talent? An unsettlingly close relationship with the Muse? While the rest of us are staring at blank sheets of paper, struggling to come up with a first sentence, these writers are busy polishing off story after story and novel after novel. Despite producing work that may seem effortless, all of them have a simple technique for fending off writer's block: the writing exercise. In *Now Write!*, Sherry Ellis collects the personal writing exercises of today's best writers and lays bare the secret to their success. - In "The Photograph," Jill McCorkle divulges one of her tactics for handling material that takes plots in a million different directions; - National Book Award-nominee Amy Bloom offers "Water Buddies," an exercise for writers practicing their craft in workshops; - Steve Almond, author of *My Life in Heavy Metal* and *Candyfreak*, provides a way to avoiding purple prose in "The Five-Second Shortcut to Writing in the Lyric Register"; - and eighty-three more of the country's top writers disclose their strategies for creating memorable prose. Complemented by brief commentary from the authors themselves, the exercises in *Now Write!* are practical and hands-on. By encouraging writers to shamelessly steal proven techniques that have yielded books which have won National Book Awards, Pulitzers, and Guggenheim grants, *Now Write!* inspires the aspiring writer to write now.

TRUMPocalypse NOW!

SCB Distributors The controversial 2016 election of Donald Trump as the 45th president of the United States sparked a debate that promises to define the global political dialogue going forward. Behind the scenes, however, a deeper dynamic has been put into play: conspiracy theory has moved from the sideline fringe onto America's central stage. This book examines The Donald's history of creating alternative realities with "alternative facts" and "fake news" and the authentic conspiratorial points of view from which they arise. *Trumpocalypse Now!* takes a look at Trump's career as a conspiracy theory celebrity, his trafficking in such notions as birtherism, Islamofascism and 9/11, the conspiracies of the Clinton era, and the JFK assassination. It also examines the controversies of the 2016 election, including the cyberhacking of the DNC, the Russian involvement and voter fraud. Learn the parapolitical realities behind the partisan divide and the real ideological underpinnings behind the country's most controversial president.

ENLIGHTENMENT NOW

THE CASE FOR REASON, SCIENCE, HUMANISM, AND PROGRESS

Penguin **INSTANT NEW YORK TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR "My new favorite book of all time." --Bill Gates If you think the world is coming to an end, think again: people are living longer, healthier, freer, and happier lives, and while our problems are formidable, the solutions lie in the Enlightenment ideal of using reason and science. By the author of the new book, Rationality. Is the world really falling apart? Is the ideal of progress obsolete? In this elegant assessment of the human condition in the third millennium, cognitive scientist and public intellectual Steven Pinker urges us to step back from the gory headlines and prophecies of doom, which play to our psychological biases. Instead, follow the data: In seventy-five jaw-dropping graphs, Pinker shows that life, health, prosperity, safety, peace, knowledge, and happiness are on the rise, not just in the West, but worldwide. This progress is not the result of some cosmic force. It is a gift of the Enlightenment: the conviction that reason and science can enhance human flourishing. Far from being a naïve hope, the Enlightenment, we now know, has worked. But more than ever, it needs a vigorous defense. The Enlightenment project swims against currents of human nature--tribalism, authoritarianism, demonization, magical thinking--which demagogues are all too willing to exploit. Many commentators, committed to political, religious, or romantic ideologies, fight a rearguard action against it. The result is a corrosive fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation. With intellectual depth and literary flair, Enlightenment Now makes the case for reason, science, and humanism: the ideals we need to confront our problems and continue our progress.**

NINETIES TO NOW

THE EVOLUTION OF AMERICAN POPULAR CULTURE

McFarland **What is it actually like to live today? It's an era where world politics play out on Twitter, and where the gig economy has made the nine-to-five job an object of aspiration rather than dread. Rates of mental illness are soaring, inequality predominates everything and much of life is contained in our phones. The core idea of this book is that we can only understand what life is like now by comparing it to previous times to see what has changed, what is genuinely new, and what is a continuation of existing trends. Providing original analyses of a range of seminal works of 90s pop culture, this book extracts a core set of concepts--such as irony, branding, and media--that defined the 90s. It demonstrates how these concepts are expressed in both those works and in the art of today. Presenting close history in a new light, this book helps us understand today by framing it in terms of yesterday.**

NOW CONCERNING SPIRITUAL THINGS

AUTHENTIC SPIRITUALITY IN PLURALISTIC CONTEXTS

Wipf and Stock Publishers In a pluralistic world of competing truth claims, how can one discern what is truly representative of God? How can we live and communicate what is authentically "spiritual?" How do we bridge the religious impasse between believers and a post-Christendom and pluralistic context where individuals may consider themselves to be spiritual, yet are offended by the person of Jesus? Can relativism be an effective means of evaluating truth from falsehood? What role should race, gender, and socioeconomic background play in society and the church? These are just a few of the questions this study addresses in presenting a more balanced, dialogical, and biblical criterion for authentic spirituality. The insights on how to discern, live, and communicate what is authentically spiritual are significant for interreligious and ecumenical dialogue across denominations. These insights contribute a way to more effectively communicate divine truths to all, for it is conversant with various sources of knowledge about God and is accountable to feedback from these sources of truth. For example, tacit knowledge such as that derived from faith, and spiritual gifts, as well as rational, or philosophical claims to truth, along with Western, Eastern, and Southern modes of thinking, are all incorporated.

THE DAY IS NOW FAR SPENT

Ignatius Press Robert Cardinal Sarah calls *The Day Is Now Far Spent* his most important book. He analyzes the spiritual, moral, and political collapse of the Western world and concludes that "the decadence of our time has all the faces of mortal peril." A cultural identity crisis, he writes, is at the root of the problems facing Western societies. "The West no longer knows who it is, because it no longer knows and does not want to know who made it, who established it, as it was and as it is. Many countries today ignore their own history. This self-suffocation naturally leads to a decadence that opens the path to new, barbaric civilizations." While making clear the gravity of the present situation, the cardinal demonstrates that it is possible to avoid the hell of a world without God, a world without hope. He calls for a renewal of devotion to Christ through prayer and the practice of virtue.

THE URGENCY OF NOW!

BUILDING A TRUE NIGERIAN NATION

Xlibris Corporation The question of nation building has enjoyed currency in the discourse about the general development of countries around the world. Its global importance could be discerned in two different areas; nation-building as applied to efforts aimed at rebuilding a country after a war as in Bosnia, Iraq, Afghanistan, and so on; and nation-building with regard to efforts aimed at dealing with the sobering realities of failed or failing countries whose populations have been exploited, abused and mismanaged almost to the point of extinction. As can, and should be expected, Nigeria and Nigerians, at home and abroad, have not been exempt from these discourses especially in the past few years as the countrys nascent and fledging (?) democracy became embarrassingly threatened to the point of abortion within Nigeria and the international community of nations. In ones sober moments, the realisation that Nigeria is fast becoming another failed state procures rather scary thoughts.
