There are also detailed lessons to help students learn "The Basics" that they need for each topic, as well as "The Twists" that the SAT will use to make the questions seem much more difficult than they actually are. Start with the lessons for the SAT-specific strategies so that you can learn more efficient ways to answer the questions in the packets and on the real SAT. SAT Math Packets also lists the corresponding packet for every math question on the 10 Official SAT Practice Tests released by the College Board. (The SAT Math Packets study guide has no affiliation with the College Board.) You can take the official practice tests and then use the charts in SAT Math Packets to identify your weak areas! This guide is also GREAT FOR TUTORS who are looking to supplement the official practice tests. Tutors can choose lessons that cover questions your students miss on practice exams.
