Old Manhattan Has Some Farms

Charlesbridge A clever new spin on "Old MacDonald," this fun book explores the popular trend of urban farming. From rooftop farms and gardens on Manhattan high rises to neighborhood gardens in empty lots in Atlanta to hydroponic gardens in Seattle, growing food locally has become an important part of city-dwelling life. Set to the tune of the popular children's song, this bouncy rhyming text will get everyone reading (or singing) out loud. If you're not comfortable singing aloud, download the free recording of the song created by popular children's performer Caspar Babypants (aka Chris Ballew, lead singer and songwriter for the band The Presidents of the United States of America). Six North American cities are highlighted, but included in the back matter are tips and tricks on how to alter the text so you can sing about your own hometown gardens. Back matter also includes more information about the different types of gardens introduced, additional resources, and the sheet music for the song.

Old Manhattan Has Some Farms

Ending Ageism, or How Not to Shoot Old People

Rutgers University Press Winner of the MLA Prize for Independent Scholars and the APA's Florence L. Denmark Award for Contributions to Women and Aging When the term "ageism" was coined in 1969, many problems of exclusion seemed resolved by government programs like Social Security and Medicare. As people live longer lives, today's great demotions of older people cut deeper into their self-worth and human relations, beyond the reach of law or public policy. In *Ending Ageism, or How Not to Shoot Old People*, award-winning writer and cultural critic Margaret Morganroth Gullette confronts the offenders: the ways people aging past midlife are portrayed in the media, by adult offspring; the esthetics and politics of representation in photography, film, and theater; and the incitement to commit suicide for those with early signs of "dementia." In this original and important book, Gullette presents evidence of pervasive age-related assaults in contemporary societies and their chronic affects. The sudden onset of age-related shaming can occur anywhere—the shove in the street, the cold shoulder at the party, the deaf ear at the meeting, the shut-out by the personnel office or the obtuseness of a government. Turning intimate suffering into public grievances, *Ending Ageism, Or How Not to Shoot Old People* effectively and beautifully argues that overcoming ageism is the next imperative social movement of our time. About the cover image: This elegant, dignified figure--Leda Machado, a Cuban old enough to have seen the Revolution--once the center of a vast photo mural, is now a fragment on a ruined wall. Ageism tears down the structures that all humans need to age well; to end it, a symbol of resilience offers us all brisk blue-sky energy. "Leda Antonia Machado" from "Wrinkles of the City, 2012." The Neighborhood Manhattan Forgot

Audubon Park and the Families Who Shaped It

Fordham Univ Press Audubon Park's journey from farmland to cityscape The study of Audubon Park's origins, maturation, and disappearance is at root the study of a rural society evolving into an urban community, an examination of the relationship between people and the land they inhabit. When John James Audubon bought fourteen acres of northern Manhattan farmland in 1841, he set in motion a chain of events that moved forward inexorably to the streetscape that emerged seven decades later. The story of how that happened makes up the pages of The Neighborhood Manhattan Forgot: Audubon Park and the Families Who Shaped It. This fully illustrated history peels back the many layers of a rural society evolving into an urban community, enlivened by the people who propelled it forward: property owners, tenants, laborers, and servants. The Neighborhood Manhattan Forgot tells the intricate tale of how individual choices in the face of family dysfunction, economic crises, technological developments, and the myriad daily occurrences that elicit personal reflection and change of course pushed Audubon Park forward to the cityscape that distinguishes the neighborhood today. A longtime evangelist for Manhattan's Audubon Park neighborhood, author Matthew Spady delves deep into the lives of the two families most responsible over time for the anomalous arrangement of today's streetscape: the Audubons and the Grinnells. Buoyed by his extensive research, Spady reveals the darker truth behind John James Audubon (1785-1851), a towering patriarch who consumed the lives of his family members in pursuit of his own goals. He then narrates how fifty years after Audubon's death, George Bird Grinnell (1849-1938) and his siblings

found themselves the owners of extensive property that was not yielding sufficient income to pay taxes, insurance, and maintenance. Like the Audubons, they planned an exit strategy for controlled change that would have an unexpected ending. Beginning with the Audubons' return to America in 1839, *The Neighborhood Manhattan Forgot* follows the many twists and turns of the area's path from forest to city, ending in the twenty-first century with the Audubon name re-purposed in today's historic district, a multiethnic, multi-racial urban neighborhood far removed from the homogeneous, Eurocentric Audubon Park suburb.

She is the sole provider for her mother, a farm girl who had a brief and glamorous career with the Ziegfeld Follies, and her lovely, severely disabled sister. At a nightclub, she chances to meet Dexter Styles again, and she begins to understand the complexity of her father's life, the reasons he might have vanished"--**
