#### MUSIC AND MUSICAL THOUGHT IN EARLY INDIA

University of Chicago Press Offering a broad perspective of the philosophy, theory, and aesthetics of early Indian music and musical ideology, this study makes a unique contribution to our knowledge of the ancient foundations of India's musical culture. Lewis Rowell reconstructs the tunings, scales, modes, rhythms, gestures, formal patterns, and genres of Indian music from Vedic times to the thirteenth century, presenting not so much a history as a thematic analysis and interpretation of India's magnificent musical heritage. In Indian

culture, music forms an integral part of a broad framework of ideas that includes philosophy, cosmology, religion, literature, and science. Rowell works with the known theoretical treatises and the oral tradition in an effort to place the technical details of musical practice in their full cultural context. Many quotations from the original Sanskrit appear here in English translation for the first time, and the necessary technical information is presented in terms accessible to the nonspecialist. These features, combined with Rowell's glossary of Sanskrit terms and extensive bibliography, make *Music and Musical Thought in Early India* an excellent introduction for the general reader and an indispensable reference for ethnomusicologists, historical musicologists, music theorists, and Indologists.

#### BEHIND THE CURTAIN

---

---

#### MAKING MUSIC IN MUMBAI'S FILM STUDIOS

---

Oxford University Press Beginning in the 1930s, men and a handful of women came from India's many communities--Marathi, Parsi, Goan, North Indian, and many others--to Mumbai to work in an industry that constituted in the words of some, "the original fusion music." They worked as composers, arrangers, assistants, and studio performers in one of the most distinctive popular music and popular film cultures on the planet. Today, the songs played by Mumbai's studio musicians are known throughout India and the Indian diaspora under the popular name "Bollywood," but the musicians themselves remain, in their own words, "behind the curtain"--the anonymous and unseen performers of one of the world's most celebrated popular music genres. Now, Gregory D. Booth offers a compelling account of the Bollywood film music industry from the perspective of the musicians who both experienced and shaped its history. In a rare insider's look at the process of musical production from the late 1940s to the mid 1990s, before the advent of digital recording technologies, Booth explains who these unknown musicians were and how they came to join the film music industry. On the basis of a fascinating set of first-hand accounts from the musicians themselves, he reveals how the day-to-day circumstances of technology and finance shaped both the songs and the careers of their creator and performers. Booth also unfolds the technological, cultural, and industrial developments that led to the enormous studio orchestras of the 1960s-90s as well as the factors which ultimately led to their demise in contemporary India. Featuring an extensive companion website with video interviews with the musicians themselves, *Behind the Curtain* is a powerful, ground-level view of this globally important music industry.

#### SACRED AND SECULAR MUSICS

---

---

#### A POSTCOLONIAL APPROACH

---

Bloomsbury Publishing How does the sacred/secular opposition explain itself in the context of musical production? This volume traces this binary as it frames Western Classical music and Indian Classical music in the 18th and 19th centuries, laying the ground for a contemporary exploration of what is ostensibly sacred music in South Asia. Offering a potent critique of musicological knowledge-making, Virinder S. Kalra explores examples of South Asian musics in various domains and traverses a new cartography of music in which the

sacred and the secular overlap. Drawing on examples which include Qawwali, kirtan and popular devotional genres, Sacred and Secular Musics offers new empirical material, as well as new insights into conceptualising religion and music, and the ways in which music performs sacredness and secularity across the contested India-Pakistan border in the region of Punjab. Through its deconstruction of the sacred/secular opposition, Sacred and Secular Musics explores the relationship of religion and music to wider questions of religion and politics. Its postcolonial approach brings Asia into the Western sacred/secular opposition, and provides a set of analytical tools - a language and range of theories - to allow further exploration of non-western religious music.

### RISHI KAPOOR UNCENSORED

---

[HarperCollins](#) Son of a famous father. Father of a famous son. I am the hyphen between them. Only, Rishi Kapoor was and is so much more. Few actors in Hindi cinema have had this sort of a career arc: from the gawky adolescent pining for his schoolteacher (Mera Naam Joker, 1970) to the naughty ninety-year-old (Kapoor & Sons, 2016), Rishi Kapoor has regaled audiences for close to fifty years. He won a National Award for his debut, became an overnight sensation with his first film as a leading man (Bobby, 1973), and carved a niche for himself with a string of romantic musical blockbusters in an era known for its angst-ridden films. He was the youth icon that is still the toast of the satellite TV circuit. The songs he lip-synced are the bread and butter of all radio stations even today. Then there was the second coming after a brief hiatus in the 1990s - as one of the finest actors in mainstream Hindi cinema with powerhouse performances in films like Do Dooni Chaar, D-Day, Agneepath and others. Characteristically candid, Rishi Kapoor brings Punjabi brio to the writing of Khullam Khulla. This is as up close and personal a biography as any fan could have hoped for. He writes about growing up in the shadow of a legendary father, skipping school to act in Mera Naam Joker, the workings of the musical hits of the era, an encounter with Dawood Ibrahim, his heroines (their working relationship, the gossip and the frisson that was sometimes real), his approach to his craft, his tryst with clinical depression, and more. A foreword by Ranbir Kapoor and a stirring afterword by Neetu Singh bookend the warmest, most dil se biography an Indian star has ever penned.

## SAHIR LUDHIANVI - THE PEOPLE'S POET

---

[HarperCollins](#) Sahir Ludhianvi is probably the only songwriter in Hindi films whose poetry was accepted in its purest form and incorporated as a film song. So great was his stature as an Urdu poet that he never had to mould his poetry to suit the demands of film songwriting; instead, producers and composers adapted their requirements to his poetry. His songs in films like Pyaasa, Naya Daur and Phir Subah Hogi have attained the status of classics. This exhaustive biography traces the poet's rich life, from his troubled childhood and his equally troubled love relationships, to his rise as one of the pre-eminent personalities of the Progressive Writers Movement and his journey as lyricist through the golden era of Hindi film music, the 1950s and 1960s.

### TANTRIC AND DEVOTIONAL SONGS FROM COLONIAL BENGAL

---

[Oxford University Press on Demand](#) This book offers the first English translation of a body of highly esoteric, mystical poetry and songs associated with the Khartabhajas, a Bengali sect

devoted to Tantrism. The period from the late 18th to the early 19th century, during which these lyrics were written, was an era of change, experimentation, and transition from the older medieval styles to the new literary forms of "modern" Bengal. The highly original songs presented here are an important part of this transitional period, reflecting the search for new literary forms and experimentation in new poetic styles.

#### **SEMIOSIS IN HINDUSTANI MUSIC**

Motilal Banarsidass Publ. For thousands of years music in India has been considered a signifying art. Indian music creates and represents meanings of all kinds, some of which extend outwardly to the cosmos, while others arise inwardly, in the refined feelings which a musical connoisseur experiences when listening to it. In this book the author explores signification in Hindustani classical music along a two-fold path. Martineq first constructs a theory of musical semiotics based on the sign-theories of Charles Sanders Peirce. He then applies his theory to the analysis of various types of Hindustani music and how they generate significations. The author engages such fundamental issues as sound quality, raga, tala and form, while advancing his unique interpretations of well-known semiotic phenomena like iconicity, metalanguage, indexicality, symbolism, Martinez's study also provides deep insight into semiotic issues of musical perception, performance, scholarship, and composition. An specially innovative and extensive section of the book analyzes representations in Hindustani music in terms of the Indian aesthetic theory of rasa. The evolution of the rasa system as applied to musical structures is traced historically and analyzed semiotically. In the light of Martinez's theories, Hindustani music reveals itself to be both a delightfully sensuous and highly sophisticated system of acoustic representations.
