Confronting the Legacy of Lynching in the Twenty-First Century

Beacon Press This exploration of the effects of lynching in the U.S. speaks powerfully to us in these times that have witnessed the creation of the Legacy Museum and the National Memorial for Peace and Justice. Nearly five thousand black Americans were lynched between 1890 and 1960, and the effects of this racial trauma continue to resound. Inspired by South Africa's Truth and Reconciliation Commission, and drawing on techniques of restorative justice, Sherrilyn Ifill, president and director-counsel of the NAACP Legal Defense and Educational Fund, offers concrete ways for communities to heal. She also issues a clarion call for communities with histories of racial violence to be proactive in facing this legacy. This revised edition speaks powerfully to us in these times that have witnessed the creation of the Legacy Museum and the National Memorial for Peace and Justice in Montgomery, Alabama. e new foreword from Bryan Stevenson helps readers to better understand contemporary struggles and come to terms with the legacy of racial terror in the United States. In a new afterword, Ifill reflects on the recent strides made throughout the country to break the silence surrounding lynching and to recognize the victims of violence.Th

No Statue on the Courthouse Lawn

The Old Graybeards of Past Years Hadn't Cottoned to Such Vanities

iUniverse This is a story about two big egos with clashing agendas . A career-centered College Girl and the local Sheriff duke it out to see whose "bird perch" will be first to grace the Courthouse Lawn . Like a Princess-kissed Frog in the fairy tale, Brad Bonner, a hometown jock that flunked his SAT test, is drawn into the bare knuckles brawl by the sexy, overachieving girl and darn near gets himself killed three times in "Her Royal Service" . It's all settled by a Catch 22 battle between two National Guard Units that puts the Governor in the Guinness Book of Records and creates another shameful "Point of Interest" for Arkansas tourists to gawk at.

The Ten Commandments on the Courthouse Lawn and Elsewhere

The U.S. Supreme Court recently heard two Ten Commandments cases, one from Kentucky and one from Texas. Shortly before agreeing to hear these cases the Court refused to grant certiorari in *Glassroth v. Moore*, the controversial case involving a Ten Commandments monument weighing more than 5000 pounds that the former chief justice of Alabama, Roy Moore, placed in the rotunda of the Alabama Supreme Court building. At the heart of all three cases is a conflict over the meaning of the First Amendment.

A Perilous Path

Talking Race, Inequality, and the Law

The New Press A no-holds-barred, red-hot discussion of race in America today from some of the leading names in the field, including the bestselling author of *Just Mercy* This blisteringly candid discussion of the American dilemma in the age of Trump brings together the head of the NAACP Legal Defense Fund, the former attorney general of the United States, a bestselling author and death penalty lawyer, and a star professor for an honest conversation the country desperately needs to hear. Drawing on their collective decades of work on civil rights issues as well as personal histories of rising from poverty and oppression, these leading lights of the legal profession and the fight for racial justice talk about the importance of reclaiming the racial narrative and keeping our eyes on the horizon as we work for justice in an unjust time. Covering topics as varied as “the commonality of pain,” “when lawyers are heroes,” and the concept of an “equality dividend” that is due to people of color for helping America brand itself internationally as a country of diversity and acceptance, Ifill, Lynch, Stevenson, and Thompson also explore topics such as “when did ‘public’ become a dirty word” (hint, it has something to do with serving people of color), “you know what Jeff Sessions is going to say,” and “what it means to be a civil rights lawyer in the age of Trump.” Building on Stevenson’s hugely successful *Just Mercy*, Lynch’s national platform at the Justice Department, Ifill’s role as one of the leading defenders of civil rights in the country, and the occasion of Thompson’s launch of a new center on race, inequality, and the law at the NYU School of Law, *A Perilous Path* will speak loudly and clearly to everyone concerned about America’s perpetual fault line.

A Deed So Accursed

Lynching in Mississippi and South Carolina, 1881-1940

University of Virginia Press From the end of Reconstruction to the onset of the civil rights era, lynching was prevalent in developing and frontier regions that had a dynamic and fluid African American population. Focusing on Mississippi and South Carolina because of the high proportion of African Americans in each state during "the age of lynching," Terence Finnegan explains lynching as a consequence of the revolution in social relations--assertiveness, competition, and tension--that resulted from emancipation. A comprehensive study of lynching in Mississippi and South Carolina, *A Deed So Accursed* reveals the economic and social circumstances that spawned lynching and explores the interplay between extralegal violence and political and civil rights. Finnegan's research shows that lynching rates depended on factors other than caste conflict and the interaction of race and southern notions of honor. Although lynching supported the ends of white supremacy, many mobs lynched more for private retaliation than for communal motives, which explains why mobs varied greatly in size, organization, behavior, and purpose. The resistance of African Americans was vigorous and sustained and took on a variety of forms, but depending on the circumstances, black resistance could sometimes provoke rather than deter lynching. Ultimately, Finnegan shows how out of the tragedy of lynching came the triumph of the civil rights movement, which was built upon the organizational efforts of African American anti-lynching campaigns.

The Lynching of Matthew Williams and the Politics of Racism in the Free State

JHU Press Complicating historical narratives associated with the history of lynching in the city of Salisbury, *The Silent Shore* explores the immediate and lingering effect of Williams's death on the politics of racism in the United States, the Black community in Salisbury, the broader Eastern Shore, the state of Maryland, and the legacy of "modern-day lynchings."

In the Courthouse's Shadow

The Lynching of George Carter in Paris, Kentucky

In 1901, a Black man was hung from the handsome arched gate that welcomed visitors to the Bourbon County courthouse, a massive French-Renaissance edifice with a bell tower soaring 113 feet into the sky. The courthouse had cast a shadow over the town square for more than two decades, presiding over justice and injustice alike. It muffled the thunderous applause after a political speech, the auctioneer's rhythmic chant, the joyous chatter of court-day festivities, and the deafening silence of a body swaying in the cold early morning air. Who was George Carter? What led to the lynching? What was the aftermath? In *In the Courthouse's Shadow* answers these questions and asks a few more. As we continue to struggle with unequal justice in this country, George Carter's story is a reminder of the price we have paid for failing to address racial challenges that have been a part of this nation since its founding.

Lynched

The Victims of Southern Mob Violence

UNC Press Books On July 9, 1883, twenty men stormed the jail in Morehouse Parish, Louisiana, kidnapped Henderson Lee, a black man charged with larceny, and hanged him. Events like this occurred thousands of times across the American South in the late nineteenth and early twentieth centuries, yet we know scarcely more about any of these other victims than we do about Henderson Lee. Drawing on new sources to provide the most comprehensive portrait of the men and women lynched in the American South, Amy Bailey and Stewart Tolnay's revealing profiles and careful analysis begin to restore the identities of--and lend dignity to--hundreds of lynching victims about whom we have known little more than their names and alleged offenses. Comparing victims' characteristics to those of African American men who were not lynched, Bailey and Tolnay identify the factors that made them more vulnerable to being targeted by mobs, including how old they were; what work they did; their marital status, place of birth, and literacy; and whether they lived in the margins of their communities or possessed higher social status. Assessing these factors in the context of current scholarship on mob violence and reports on the little-studied women and white men who were murdered in similar circumstances, this monumental work brings unprecedented clarity to our understanding of lynching and its victims.

African Americans Confront Lynching

Strategies of Resistance from the Civil War to the Civil Rights Era

Rowman & Littlefield This book examines African Americans' strategies for resisting white racial violence from the Civil War until the assassination of Martin Luther King, Jr., in 1968 and up to the Clinton era. Christopher Waldrep's semi-biographical approach to the pioneers in the anti-lynching campaign portrays African Americans as active participants in the effort to end racial violence rather than as passive victims. In telling this more than 100-year-old story of violence and resistance, Waldrep describes how white Americans legitimized racial violence after the Civil War, and how black journalists campaigned against the violence by invoking the Constitution and the law as a source of rights. He shows how, toward the end of the nineteenth century and into the twentieth, anti-lynching crusaders Ida B. Wells and Monroe Work adopted a more sociological approach, offering statistics and case studies to thwart white claims that a black propensity for crime justified racial violence. Waldrep describes how the NAACP, founded in 1909, represented an organized, even bureaucratic approach to the fight against lynching. Despite these efforts, racial violence continued after World War II, as racists changed tactics, using dynamite more than the rope or the gun. Waldrep concludes by showing how modern day hate crimes continue the lynching tradition, and how the courts and grass-roots groups have continued the tradition of resistance to racial violence. A rich selection of documents helps give the story a sense of immediacy. Sources include nineteenth-century eyewitness accounts of lynching, courtroom testimony of Ku Klux Klan victims, South Carolina senator Ben Tillman's 1907 defense of lynching, and the text of the first federal hate crimes law.

Redeeming Justice

From Defendant to Defender, My Fight for Equity on Both Sides of a Broken System

Convergent Books “A moving and beautifully crafted memoir.”—SCOTT TUROW “A daring act of justified defiance.”—SHAKA SENGHOR “Nothing less than heroic.”—JOHN GRISHAM He was seventeen when an all-white jury sentenced him to prison for a crime he didn't commit. Now a pioneering lawyer, he recalls the journey that led to his exoneration—and inspired him to devote his life to fighting the many injustices in our legal system. Seventeen years old and facing nearly thirty years behind bars, Jarrett Adams sought to figure out the why behind his fate. Sustained by his mother and aunts who brought him back from the edge of despair through letters of prayer and encouragement, Adams became obsessed with our legal system in all its damaged glory. After studying how his constitutional rights to effective counsel had been violated, he solicited the help of the Wisconsin Innocence Project, an organization that exonerates the wrongfully convicted, and won his release after nearly ten years in prison. But the journey was far from over. Adams took the lessons he learned through his incarceration and worked his way through law school with the goal of helping those who, like himself, had faced our legal system at its worst. After earning his law degree, he worked with the New York Innocence Project, becoming the first exoneree ever hired by the nonprofit as a lawyer. In his first case with the Innocence Project, he argued before the same court that had convicted him a decade earlier—and won. In this illuminating story of hope and full-circle redemption, Adams draws on his life and the cases of his clients to show the racist tactics used to convict young men of color, the unique challenges facing exonerees once released, and how the lack of equal representation in our courts is a failure not only of empathy but of our collective ability to uncover the truth. Redeeming Justice is an unforgettable firsthand account of the limits—and possibilities—of our country's system of law.

Blood at the Root: A Racial Cleansing in America

W. W. Norton & Company “Gripping and meticulously documented.”—Don Schanche Jr., Washington Post Forsyth County, Georgia, at the turn of the twentieth century, was home to a large African American community that included ministers and teachers, farmers and field hands, tradesmen, servants, and children. But then in September of 1912, three young black laborers were accused of raping and murdering a white girl. One man was dragged from a jail cell and lynched on the town square, two teenagers were hung after a one-day trial, and soon bands of white “night riders” launched a coordinated campaign of arson and terror, driving all 1,098 black citizens out of the county. The charred ruins of homes and churches disappeared into the weeds, until the people and places of black Forsyth were forgotten. National Book Award finalist Patrick Phillips tells Forsyth's tragic story in vivid detail and traces its long history of racial violence all the way back to antebellum Georgia. Recalling his own childhood in the 1970s and '80s, Phillips sheds light on the communal crimes of his hometown and the violent means by which locals kept Forsyth “all white” well into the 1990s. In precise, vivid prose, Blood at the Root delivers a “vital investigation of Forsyth's history, and of the process by which racial injustice is perpetuated in America” (Congressman John Lewis).

A Shot in the Moonlight

How a Freed Slave and a Confederate Soldier Fought for Justice in the Jim Crow South

Little, Brown Spark The sensational true story of George Dinning, a freed slave, who in 1899 joined forces with a Confederate war hero in search of justice in the Jim Crow south. “Taut and tense. Inspiring and terrifying in its timelessness.”(Colson Whitehead, Pulitzer Prize-winning author of The Underground Railroad) Named a most anticipated book of 2021 by O, The Oprah Magazine Named a “must-read” by the Chicago Review of Books One of CNN's most anticipated books of 2021 After moonrise on the cold night of January 21, 1897, a mob of twenty-five white men gathered in a patch of woods near Big Road in southwestern Simpson County, Kentucky. Half carried rifles and shotguns, and a few tucked pistols in their pants. Their target was George Dinning, a freed slave who'd farmed peacefully in the area for 14 years, and who had been wrongfully accused of stealing livestock from a neighboring farm. When the mob began firing through the doors and windows of Dinning's home, he fired back in self-defense, shooting and killing the son of a wealthy Kentucky family. So began one of the strangest legal episodes in American history — one that ended with Dinning becoming the first Black man in America to win damages after a wrongful murder conviction. Drawing on a wealth of never-before-published material, bestselling author and Pulitzer Prize finalist Ben Montgomery resurrects this dramatic but largely forgotten story, and the unusual convergence of characters — among them a Confederate war hero-turned-lawyer named Bennett H. Young, Kentucky governor William O'Connell Bradley, and George Dinning himself — that allowed this unlikely story of justice to unfold in a time and place where justice was all too rare.

Newton's Mill

The Town That Almost Forgot Christmas

With the continuing controversy over the placement of religious, mostly Christian, symbols on Government property this book deals with a small town, Newton's Mill, and it's attempts to deal with that situation. Mayor G.D. Steward is caught between both sides of the issue when the City Council results in a tie vote regarding the placement of a traditional Nativity Set on the courthouse lawn. The book covers the week between the Tuesday night tie vote in the council and the next Tuesday when the Mayor must render his decision. During that week the Mayor is subjected to pressures from both sides of the issue. But it is the impact of a new arrival in town, a man named Gabriel, that forces him to face his concerns and reservations about the whole Nativity. During the week the newcomer also has a profound effect on many of the townspeople. It is not until the night before the meeting, after a long week of soul searching, that the Mayor finally solidifies his feelings as to whether Newton's Mill will be the town that forgot Christmas.

The Essential Kerner Commission Report

Liveright Publishing Recognizing that an historic study of American racism and police violence should become part of today's canon, Jelani Cobb contextualizes it for a new generation. The Kerner Commission Report, released a month before Martin Luther King Jr.'s 1968 assassination, is among a handful of government reports that reads like an illuminating history book—a dramatic, often shocking, exploration of systemic racism that transcends its time. Yet Columbia University professor and New Yorker correspondent Jelani Cobb argues that this prescient report, which examined more than a dozen urban uprisings between 1964 and 1967, has been woefully neglected. In an enlightening new introduction, Cobb reveals how these uprisings were used as political fodder by Republicans and demonstrates that this condensed edition of the Report should be essential reading at a moment when protest movements are challenging us to uproot racial injustice. A detailed examination of economic inequality, race, and policing, the Report has never been more relevant, and demonstrates to devastating effect that it is possible for us to be entirely cognizant of history and still tragically repeat it.

The Sea We Swim In: How Stories Work in a Data-Driven World

W. W. Norton & Company A practical guide to "narrative thinking," and why it matters in a world defined by data. In *The Sea We Swim In*, Frank Rose leads us to a new understanding of stories and their role in our lives. For decades, experts from many fields—psychologists, economists, advertising and marketing executives—failed to register the power of narrative. Scientists thought stories were frivolous. Economists were knee-deep in theory. Marketers just wanted to cut to the sales pitch. Yet stories, not reasoning, are the key to persuasion. Whether we're aware of it or not, stories determine how we view the world and our place in it. That means the tools of professional storytellers—character, world, detail, voice—can unlock a way of thinking that's ideal for an age in which we don't passively consume media but actively participate in it. Building on insights from cognitive psychology and neuroscience, Rose shows us how to see the world in narrative terms, not as a thesis to be argued or a pitch to be made but as a story to be told. Leading brands and top entertainment professionals already understand the vast potential of storytelling. From Warby Parker to Mailchimp to *The Walking Dead*, Rose explains how they use stories to establish their identity and turn ordinary people into fans—and how you can do the same.

Building Peace in America

Rowman & Littlefield Publishers America may not be at war, but it is not at peace. Recent public and political rhetoric have revealed the escalation of a pervasive and dangerous "us versus them" ideology in the United States. This powerful book is motivated by the contributors' recognition of continuing structural violence and injustice, which are linked to long-standing systems of racism, social marginalization, xenophobia, poverty, and inequality in all forms. Calls to restore America's greatness are just the most recent iteration of dehumanizing language against minority communities. The violation of the civil and human rights of vulnerable groups presents a serious threat to American democracy. These deeply rooted and systemic inequities have no easy solutions, and the destructive nature of today's conflicts in America threaten to impede efforts to build peace, promote justice, and inspire constructive social change. Acknowledging the complexity of building peace in the United States, this volume represents the first step in envisioning a more just, peaceful country—from the grassroots to the highest levels of leadership. The editors have brought together a diverse group of scholars, conflict resolution practitioners, civil society leaders, community peacebuilders, and faith leaders who are committed to pro-social change. Collectively, they examine how best to understand the current issues, deescalate destructive public rhetoric, undermine the "us versus them" polarity, and support those currently working for positive change. Together, the contributors share experiences and perspectives on the past, present, and future of peacebuilding; develop a vision for how we can collectively respond in our communities, campuses, and congregations; and catalyze action during this pivotal moment in America.

His trial was a Roman circus. The chief gladiators were two great legal giants of the century. Like two bull elephants locked in mortal combat, they bellowed and roared imprecations and abuse. The Content of Our Character is neither "liberal" nor "conservative," but an honest, courageous look at America's most enduring and wrenching social dilemma.
