Oakland Noir Akashic Books "Wonderfully, in Akashic's Oakland Noir, the stereotypes about the city suffer the fate of your average noir character—they die brutally." —San Francisco Chronicle In the wake of San Francisco Noir, Los Angeles Noir, and Orange County Noir—all popular volumes in the Akashic Noir Series—comes the latest**

California installment, *Oakland Noir*. Masterfully curated by Jerry Thompson and Eddie Muller (the “Czar of Noir”), this volume will shock, titillate, provoke, and entertain. The diverse cast of talented contributors will not disappoint. *Oakland Noir* offers stories by Nick Petrulakis, Kim Addonizio, Keenan Norris, Keri Miki-Lani Schroeder, Katie Gilmartin, Dorothy Lazard, Harry Louis Williams II, Carolyn Alexander, Phil Canalin, Judy Juanita, Jamie DeWolf, Nayomi Munaweera, Mahmud Rahman, Tom McElravey, Joe Loya, and Eddie Muller. “From the Oakland hills to the heart of downtown, each story brings Oakland to life.” —San Jose Mercury News “Oakland is a natural for the series, with its shadowy crimes and disgruntled cops.” —Zoom Street Magazine “San Francisco’s grittier next-door neighbor gets her day in the sun in 16 new stories in this tightly curated entry in Akashic’s *Noir* series. The hardscrabble streets of Oakland offer crime aplenty . . . Thompson and Muller have taken such pains to choose stories highlighting Oakland’s diversity and history that the result is a volume rich in local culture as well as crime.” —Kirkus Reviews

*Canonical Theism A Proposal for Theology and the Church* Wm. B. Eerdmans Publishing *Canonical Theism* is a post-Protestant vision for the renewal of both theology and church. The editors call for the retrieval and redeployment of the full range of materials, persons, and practices that make up the canonical heritage of the church, including scripture, doctrine, sacred image, saints, sacraments, and more. The central thesis of the work is that the good and life-giving Holy Spirit has equipped the church with not only a canon of scripture but also with a rich canonical heritage of materials, persons, and practices. However, much of the latter has been ignored or cast aside. This unplumbed resource of canonical heritage waits for the church to rediscover its wealth. With a bold set of thirty theses, the authors chart and defend that mine of opportunity. They then invite the entire church to explore the benefits of their discoveries. This ambitious book offers insights to be integrated into the church body, renewing the faith that nourished converts, created saints, and upheld martyrs across the years.

*The Vidur-gita Sri Satguru Publications Alphabeatz Graffiti Alphabets from A to Z* Promopress Graffiti writing was born in the streets of Philadelphia in the late 1960s. But it was in New York in the early 1970s that it became a full-fledged urban art, gradually taking over the landscape of the city, from its walls to its subway cars. This is a writing manual, a detailed examination of how graffiti writers have developed the twenty-six letters of the alphabet. It includes the contribution of ten of the international scene’s most talented creators answer Woshe’s questions about matters that include their practice, their relationship with letters and their backgrounds. It includes a map of New York with the sites where the most important graffiti are located.

*Promoting Biodiversity in Food Systems* CRC Press Biodiversity of the food system is crucial for food production and loss of biodiversity is a pressing issue. This book focuses on biodiversity’s crucial role in food systems, health and well-being, and fate of the natural environment. It provides practical recommendations on

how proper food systems can sustain a healthier planet and protect biodiversity. Sections provide a comprehensive understanding of the urgent need for promoting biodiversity-promoting food systems that help maintain planetary boundaries that are at risk; mimic the natural processes of highly integrated ecosystems; and improve human/planetary health while providing a wholesome and sufficient food supply.

**Blue Legalities The Life and Laws of the Sea** Duke University Press Books The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, *Blue Legalities* explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, *Blue Legalities* questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors. Industry case studies are used throughout the book to illustrate possible applications and scenarios. *Packaging for Sustainability* draws on the expertise of researchers and industry practitioners to provide information on business benefits, environmental issues and priorities, environmental evaluation tools, design for environment, marketing strategies, and challenges for the

future. 1001 Arabian Nights at the Burj Al Arab Project Management Casebook Project Management Institute Each of the cases provides new and unique challenges that have been mastered by the practice of project management. Readers will be able to apply the knowledge learned from this casebook in their work. The cases enable readers to see how and why projects are used in a wide variety of organizational settings in contemporary life. Readers are exposed to both successful and not-so-successful project management practices. The case-study approach encourages reader participation and active learning, and provides the opportunity to learn something of the real world of project management. It is essential in the curricula of project management training for both undergraduate and graduate students, as well as for continuing education, consulting, and in-house company training programs. The cases were chosen for their importance in discussing the fundamentals of project management. Most contain descriptions of actual projects, and each is followed by a series of questions to guide readers' analysis of the article to maximize the learning process.

**Monet The Early Years**  
**Kimbell Art Museum** The first comprehensive examination of the painter's formative years, tracing the evolution of Monet's early style and personal ambitions that drove the rest of his career This elegant volume is the first to be devoted to the young genius of Claude Monet (1840-1926). Bringing together the greatest paintings from his early career including his first Salon-exhibited work, the Kimbell Art Museum's "La Pointe de la Heve at Low Tide"; "Dejeuner sur l'Herbe (Luncheon on the Grass)" and "The Magpie" from the Musee d'Orsay; and "The Green Wave" and "La Grenouillere" from the Metropolitan Museum of Art it features essays by distinguished scholars, focusing on the evolution of Monet's own distinctive mode of painting. Through the 1860s, the young painter absorbed and transformed a variety of influences, from the lessons of the Barbizon school and his mentor Boudin to the challenges posed by his friends Manet, Pissarro, Renoir, and Sisley. Artistic innovation and personal ambition shaped the work of the celebrated impressionist painter from the very start of his long and illustrious career.

With the development of new treatment strategies and rapid advancement of radiation technology, it is crucial for radiation oncologists to maintain and refine their knowledge and skills. Dedicated exclusively to adult CNS radiation oncology, this textbook explores CNS tumors ranging from the common to the esoteric as well as secondary cancers of metastatic origin. The first half of the book is organized anatomically: tumors of the brain, spinal cord, leptomeninges, optic pathway, ocular choroid, and skull base. The second half covers primary CNS lymphoma, rare CNS tumors, metastatic brain disease, vascular conditions of the CNS, radiation-associated complications, and radiation modalities. Each chapter provides guidance on treatment field design, target delineation, and normal critical structure tolerance constraints in the context of the disease being treated. Learning objectives, case studies, and Maintenance of Certification Self-Assessment Continuing Medical Education-style questions and answers are incorporated throughout the book. This is an ideal guide for radiation oncologists, residents, and fellows, but medical students may also find value in the text.
