COLD DAY IN THE SUN

LIFE IS SHORT, TAKE THE SHOT

Abrams From the author of The Last Thing You Said, a YA romance about a girl on a boys hockey team who happens to fall for the team captain. Holland Delviss wants to be known for her talent as a hockey player, not a hockey player who happens to be a girl. So, to keep her spot on the boys' varsity team, she has rules: Practice harder than anyone else, even if that means 5 A.M. training sessions. Keep a low profile, even if that means ignoring trolls calling her a distraction, a gimmick, or worse. But when her team is selected for HockeyFest, a televised statewide event, Holland becomes the lead story (Goodbye, rule #2!). Not everyone is thrilled with Holland's new fame, but there's one person who fiercely supports her, and it's the last person she expects: her bossy team co-captain, Wes. And Wes begins surprising her. He shares her passion for '80s glam metal, and his touch feels strangely electric. With the cameras set to roll, Holland is dangerously close to breaking yet another rule: No dating teammates, ever. A deeply romantic and empowering novel about shutting out the noise from the crowd, so you can listen to your heart. A Junior Library Guild Selection "A fun romp of a teen romance via an exciting hockey season, this book has all the right ingredients—a spunky, multifaceted main character, a love interest

who turns out to be a decent individual, and plenty of internal and external conflict. . . . A teenage love story steamy enough to melt the ice in the rink.” —Kirkus Reviews “A fun read that simultaneously puts the reader into the hockey world as an insider and an outsider. . . . It’s a last-act gut punch that really puts a spotlight on what female athletes have to deal with. A must-read for anyone who has had to defy expectations.” ?Booklist

NINETEEN EIGHTY-FOUR

epubli "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Saul Indian Horse is a child when his family retreats into the woods. Among the lakes and the cedars, they attempt to reconnect with half-forgotten traditions and hide from the authorities who have been kidnapping Ojibway youth. But when winter approaches, Saul loses everything: his brother, his parents, his beloved grandmother—and then his home itself. Alone in the world and placed in a horrific boarding school, Saul is surrounded by violence and cruelty. At the urging of a priest, he finds a tentative salvation in hockey. Rising at dawn to practice alone, Saul proves determined and undeniably gifted. His intuition and vision are unmatched. His speed is remarkable. Together they open doors for him: away from the school, into an all-Ojibway amateur circuit, and finally within grasp of a professional career. Yet as Saul's victories mount, so do the indignities and the taunts, the racism and the hatred—the harshness of a world that will never welcome him, tied inexorably to the sport he loves. SPORTS-RELATED CONCUSSIONS IN YOUTH

IMPROVING THE SCIENCE, CHANGING THE CULTURE

National Academies Press In the past decade, few subjects at the intersection of medicine and sports have generated as much public interest as sports-related concussions - especially among youth. Despite growing awareness of sports-related concussions and campaigns to educate athletes, coaches, physicians, and parents of young athletes about concussion recognition and management, confusion and controversy persist in many areas. Currently, diagnosis is based primarily on the symptoms reported by the individual rather than on objective diagnostic markers, and there is little empirical evidence for the optimal degree and duration of physical rest needed to promote recovery or the best timing and approach for returning to full physical activity. Sports-Related Concussions in Youth: Improving the Science, Changing the Culture reviews the science of sports-related concussions in youth from elementary school through young adulthood, as well as in military personnel and their dependents. This report recommends actions that can be taken by a range of audiences - including research funding agencies, legislatures, state and school superintendents and athletic directors, military organizations, and equipment manufacturers, as well as youth who participate in sports and their parents - to improve what is known about concussions and to reduce their occurrence. Sports-Related Concussions in Youth finds that while some studies provide useful information, much remains unknown about the extent of concussions in youth; how to diagnose, manage, and prevent

concussions; and the short- and long-term consequences of concussions as well as repetitive head impacts that do not result in concussion symptoms. The culture of sports negatively influences athletes' self-reporting of concussion symptoms and their adherence to return-to-play guidance. Athletes, their teammates, and, in some cases, coaches and parents may not fully appreciate the health threats posed by concussions. Similarly, military recruits are immersed in a culture that includes devotion to duty and service before self, and the critical nature of concussions may often go unheeded. According to Sports-Related Concussions in Youth, if the youth sports community can adopt the belief that concussions are serious injuries and emphasize care for players with concussions until they are fully recovered, then the culture in which these athletes perform and compete will become much safer. Improving understanding of the extent, causes, effects, and prevention of sports-related concussions is vitally important for the health and well-being of youth athletes. The findings and recommendations in this report set a direction for research to reach this goal.
