University Press of Kentucky " With a foreword by James Randi Paranormal investigator Joe Nickell has spent more than thirty years solving the world's most perplexing mysteries. This new casebook reveals the secrets of the Winchester Mystery House, the giant Nazca drawings of Peru, the Shroud of Turin, the "Mothman" enigma, the Amityville Horror house, the vicious goatsucking El Chupacabras, and numerous other "unexplainable" paranormal phenomena. Nickell has traveled far and wide to solve cases, which include a weeping icon in Russia, the elusive Bigfoot-like "yowie" in Australia, the reputed power of a headless saint in Spain, and an "alien hybrid" in Germany. He has gone undercover—often in disguise—to reveal the tricks of those who pretend to talk to the dead, accompanied a Cajun guide into a Louisiana swamp in search of a fabled monster, and gained an audience with a voodoo queen. Superstar psychic medium John Edward, pet psychic Sonya Fitzpatrick, evangelist and healer Benny Hinn, and many other well-known figures have found themselves under Nickell's careful scrutiny. The Mystery Chronicles examines more than three dozen intriguing mysteries. Nickell uses a hands-on approach and the scientific method to steer between the extremes of mystery mongering and debunking. His investigative skills have won him both acclaim and controversy during his long career as one of the world's foremost paranormal investigators.

### A PARANORMAL KITTEN COZY MYSTERY

---

Independently Published An unconventional sleuth - a meditating Sufi psychic with no control over her powers - a paranormal kitten - a dead body. Will Riza be able to figure out the killer before it is too late? I recognized "John Doe" the moment the coroner pulled him out of the morgue's fridge. If only I could also figure out why he had desperately been calling me a few days before he took his one-way trip to oblivion. Or so I thought . . . until his ghost returned to haunt me in my meditation sessions. Hello, I am Riza Strong, a twenty-three-year-old occasional psychic, and my visions of the dead person are giving me a terrible time. Until recently, the only good thing in my life was perhaps my cute kitten, Misty. And I am lucky to have great mentors at the Odd Puzzle Club - a bunch of genius retired ladies who love solving puzzles. After being fired recently from an FBI internship, all I wanted to do was to sit back and relax in my Boston area apartment. Unlike most psychics, who actually know how to handle their powers, my powers have a life of their own. Others can meet ghosts, can have visions whenever they touch objects. I have no control over when my powers work, and no idea why do I have them. Now, faced with a dead body in an unfamiliar State border town, I have to figure out how to convince the police that the man was murdered, as well as exonerate him and find the murderer before the case is closed forever or I am kicked out of the town. My visions just come and go. And they are not helping at all! Saving John Doe is the first in "The Occasional Psychic Cozy Mysteries" series. If you like cute fluffy animals, a small town with a lot of secrets, and murders paired with exotic dishes and caffeine, then you'll love the first installment in Riza Strong's Occasional Psychic Cozy Mysteries.

## INTUITION

---

---

### ITS POWERS AND PERILS

---

Yale University Press How reliable is our intuition? How much should we depend on gut-level instinct rather than rational analysis when we play the stock market, choose a mate, hire an employee, or assess our own abilities? In this engaging and accessible book, David G. Myers shows us that while intuition can provide us with useful—and often amazing—insights, it can also dangerously mislead us. Drawing on recent psychological research, Myers discusses the powers and perils of intuition when: • judges and jurors determine who is telling the truth; • mental health workers predict whether someone is at risk for suicide or crime; • coaches, players, and fans decide who has the hot hand or the hot bat; • personnel directors hire new employees; • psychics claim to be clairvoyant or to have premonitions; • and much more.

### **A BIOGRAPHICAL DICTIONARY WITH BIBLIOGRAPHIES**

---

McFarland **Claimants of paranormal abilities have always attracted controversy and fascination, and sometimes rigorous study by scientists. Charles Bailey, an Australian medium,**

was seemingly able to materialize different objects—animate and inanimate—under conditions which made it difficult to conceive how they could have been normally produced. Sumitra Singh, a woman of Northern India who in 1984 became subject to epileptic-type seizures, claimed to be possessed by spirits of the dead. Franck Kluski was a Polish poet, banker and physical medium who specialized in both human and animal materializations. This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun, each accompanied by a bibliography listing the primary sources consulted. The primary focus is on those claimed psychics who have figured prominently in the history of the subject, though some lesser-known figures are included to show how rich, varied, and colorful that history has been. The aim throughout is to present each case as fairly and dispassionately as the facts allow, with a particular eye for accuracy in details and presentation. The approach is historical, not apologetic or accusatory, making the work ideally suited as a permanent reference.

### THE HAPPY FOOLS

---

Createspace Independent Publishing Platform A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting assignment. What happens to the FIA and to the success of the worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind. Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful, gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Eurian and his unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change our lives. The underlying prerequisite of being happy is to avoid stress and the unknown. Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world

problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields?

Field of Dreams meets An Affair to Remember on a mystical train ride. Infused with a magical realism and spirituality that is missing from most books, this is a truly touching novel that opens our eyes to the sometimes supernatural forces that mysteriously and unexpectedly give us glimpses of heaven while providing healing and hope. With an endearing urge to touch readers in a way that few novels can, author Douglas Folsom does an excellent job of making readers actually experience the underlying message in his heartwarming tale. Genre: Magical Realism, Mystery, Romance, Spiritual. Tone: Heartwarming, Inspirational, Romantic, and Nostalgic.

[Independently Published](#) **Two female students at a community college have died during finals week, and the college and the city of North Bend want answers. With no witnesses to the crime and no obvious signs of foul play, these disturbing occurrences may be nothing more than unusual coincidences. The sheriff's office and medical examiner have their hands full as they try to find logical explanations for the deaths. Detective Kate Pierce begins to show signs of physical distress whenever she's near the bodies, and further research leads her to believe she could be experiencing psychic transference-she's feeling the same symptoms these students did when they took their last breaths. Kate is determined to be heard, and when the shocking results of the toxicology reports are revealed, she and her colleagues know they're headed down the right path. There can be only one answer and only one person involved-they just have to prove it. When another student goes missing and is soon found dead, the case breaks wide open, and the final showdown between Kate and the suspect puts her transference theory to the ultimate test. \* All books are standalone stories but since characters carry over, they are best read in chronological order.
