*CreateSpace* **CHOOSING A CAREER SHOULD BE AN interesting, eye-opening experience. You are entering a time when you will have to make big decisions about the future direction of your life. You owe it to yourself to get them right. The fact that you have chosen to read this report is a good sign that you are headed in the right direction. It is also an indication that you want a career defined by challenge, service and adventure. You will definitely find it with the United States Coast Guard, America's "fifth armed service" and the lead agency in the Department of Homeland Security. The Coast Guard is one of the hardest-working federal agencies, and one that is held in very high esteem by the American people it serves. Coasties get respect. The Coast Guard is the fifth largest federal armed service, after the Army, Navy, Air Force and Marine Corps. The Coast Guard is only about the same size as the New York City Police Department - both services have about 40,000 full-time personnel. In recent years, the NYPD has actually become smaller because crime in New York City has decreased. The Coast Guard has grown larger because the kind of crime it deals with has increased. The Coast Guard is a military organization, however it devotes most of its efforts to conducting law enforcement missions. The Coast Guard is unique in this regard because the other military services are prohibited by law from engaging in law enforcement. Operating under Title 10 of the United States Code, the Coast Guard can enforce laws, as well as conduct military operations for the Department of Defense or directly under the command of the President. The Coast Guard also maintains a robust search-and-rescue capability, protects the marine environment, and provides aids to navigation. It is also the lead agency in the Department of Homeland Security, the federal department created after the terrorist attacks of September 11, 2001. Coasties get respect because they work very hard and have many missions that are vital to the safety and security of the United States. If you like what you read in this report, your next stop should be the nearest Coast Guard recruiting station. The service's needs change constantly, and only a recruiter can give you the latest scoop on what kind of jobs are available and where. Remember, by just talking to a recruiter you incur no obligation. You are not committed to join the Coast Guard until you sign a contract. So visit a recruiting station, pick up a few brochures, and chat with the experts.**

## HOW NAZI PROPAGANDA WORKS

---

---

---

## DIVIDE AND CONQUER: THE STORY OF NAZI TERROR

---

*Independently Published* The "Divide and Conquer" pamphlet published by the U.S. Office of War Information (O.W.I.) in 1942 is a unique example of government attempts to warn Americans during World War II about the dangers of Nazi propaganda and to help them identify and guard against enemy disinformation. The instructional brochure, transcribed and republished by the Cold War Radio Museum for the first time in several decades with an extensive introduction by international journalist, broadcaster, writer and propaganda expert Ted Lipien, also offers interesting lessons for today's propaganda wars with their clandestine and overt operations undertaken by authoritarian governments of countries such as Russia and China to influence and subvert U.S. political and electoral system. "He knows that prejudice in any form plays his game," the wartime guide to Nazi propaganda warned Americans about Hitler's motives. "Before Hitler attacks any country, his agents carefully sow seeds of hate and disunity, turning people against their own governments, governments against their allies, class against class." It could have been easily a comment on the current aims of the Kremlin's propaganda or the behavior of some politicians, both foreign and domestic, who engage in fear mongering and subversion of democratic elections. Ted Lipien shows how this expose of Nazi propaganda is still highly relevant for today's information wars. In 1942 Americans received the warning that Hitler wanted "To destroy our national unity [and] create unrest in all groups of the population." The alert was undoubtedly timely and based on solid evidence although it was less obvious that such Nazi subversion was producing the desired effect of changing American minds as it did when used against some of the European nations. In America, Hitler's propaganda was said to be "trying to set capital against labor, White against Negro, Catholic against Protestant, Christian against Jew." The warnings about Hitler's intentions were true, but there was little evidence presented in the U.S. government pamphlet mailed out to American households that Nazi propaganda was achieving its ends among Americans. Similarities with some of today's propaganda, however, are immediately apparent in the 1942 brochure and make for a very interesting and enlightening reading of this historical document reprinted for the first time in many years. In the first months of the war with Japan and Nazi Germany, the Roosevelt Administration became concerned about Japanese and German propaganda attempting to influence American public opinion. In articles reminiscent of some of the media reporting on Russian interference in the 2016 presidential election campaign, Americans were told that German and Japanese propaganda radio broadcasts were interfering with the U.S. electoral process. Even though the "Divide and Conquer" pamphlet was strictly about resisting the influence of Nazi ideology, it still offers valuable lessons for identifying attempts at interference from any ideological perspective and any government or media source. This includes the Russian State now headed by an ex-KGB officer President Vladimir Putin. He has shown himself to be an expert in the use of propaganda, disinformation and subversion. Many of the Nazi propaganda techniques described in this booklet have not changed and are now being used with the help of new digital technologies against the United States and other democratic nations. Ultimately, there was not much difference between the evils of Fascism and Communism and their respective propaganda. While "Divide and Conquer" presented and warned against only one type of propaganda, we can still draw today many valuable lessons from this 1942 U.S. government document.

## KNIGHTS ON THE FRONTIER

---

### THE MOORISH GUARD OF THE KINGS OF CASTILE (1410-1467)

---

*BRILL* The kings of Castile maintained a personal cavalry guard through much of the fifteenth century, consisting of practicing Muslims and converts to Christianity. This privileged Muslim elite provides an interesting case-study to propose new theories about voluntary conversion from Christianity to Islam in the Iberian Peninsula, as well as the ways of assimilation of such a group into the local and courtly environments where they lived thereafter. Other subjects involved are the transformation of royal armies from feudal companies to regimented, professional forces including a well-trained cavalry, which in Castile was formed partly by these knights. Their descendants had to endure the changing policies conveyed by Isabel and Fernando, which increased discriminatory habits towards converts in Castilian society.

### **DISPATCHES ON THE AMERICAN OCCUPATION**

---

*University of Michigan Press* "David Enders has a stunning independent streak and the courage to trust his own perceptions as he reports from outside the bubble Americans have created for themselves in Iraq." ---Joe Sacco, author of *Safe Area Gorazde* "Baghdad Bulletin takes us where mainstream news accounts do not go. Disrupting the easy clichés that dominate U.S. journalism, Enders blows away the media fog of war. The result is a book that challenges Americans to see through double speak and reconsider the warfare being conducted in their names." ---Norman Solomon, author of *War Made Easy: How Presidents and Pundits Keep Spinning Us to Death* "Journalism at its finest and on a shoestring to boot. David Enders shows that courage and honesty can outshine big-budget mainstream media. Wry but self-critical, Baghdad Bulletin tells a story that a few of us experienced but every journalist, nay every citizen, should read." ---Pratap Chatterjee, Managing Editor and Project Director, CorpWatch "Young and tenacious, Dave Enders went, saw, and wrote it down. Here it is-a well-informed and detailed tale of Iraq's decline under American rule. Baghdad Bulletin offers tragic politics, wacky people, and keen insights about what really matters on the ground in Iraq." ---Christian Parenti "I wrote my first piece for Baghdad Bulletin after visiting the mass graves at Al-Hilla in 2003. The Baghdad Bulletin was essential reading in the first few months after the end of the war. I handed that particular copy to Prime Minister Tony Blair. I am only sorry that I cannot read it anymore. David Enders and his team were brave, enterprising, and idealistic." ---Rt. Hon. Ann Clwyd, member of the British Parliament Baghdad Bulletin is a street-level account of the war and turbulent postwar period as seen through the eyes of the young independent journalist David Enders. The book recounts Enders's story of his decision to go to Iraq, where he opened the only English-language newspaper completely written, printed, and distributed there during the war. Young, courageous, and anti-authoritarian, Enders is the first reporter to cover the war as experienced by ordinary Iraqis. Deprived of the press credentials that gave his embedded colleagues access to press conferences and officially sanitized information, Enders tells the story of a different war, outside the Green Zone. It is a story in which the struggle of everyday life is interspersed with moments of sheer terror and bizarre absurdity: wired American troops train their guns on terrified civilians; Iraqi musicians prepare a recital for Coalition officials who never show; traveling clowns wreak havoc in a Baghdad police station. Orphans and intellectuals, activists and insurgents: Baghdad Bulletin depicts the unseen complexity of Iraqi society and gives us a powerful glimpse of a new kind of warfare, one that coexists with-and sometimes tragically veers into-the everyday rhythms of life.

## **EVERYDAY PEOPLE**

---

### **PROFILES FROM THE GARDEN STATE**

---

*Rutgers University Press* In this time of ever-shorter news stories telling us everything that's wrong with the world, it's a nice change of pace to read about someone like Felix Addeo, who takes time out of his busy schedule to teach middle school kids what it's like to be an accountant. Or biomedical engineer Lois Ross, who twice a year leads a group of volunteers to clean up a local pond. These are just two of the ordinary, yet extraordinary, people profiled in this collection of feature articles by New Jersey reporter Al Sullivan. Through richly detailed stories--a kind of writing that has all but disappeared from our local newspapers--about small-town people in extraordinary situations, Sullivan depicts the characters that enliven life in the Garden State. While his stories always have a strongly local feel, each contains an element of the universal that draws in readers whose interest lies not in a specific location, but in the

diverse experiences and stories of people who live in and shape a community. Sullivan has written about people from nearly every walk of life, from minister to prostitute, from jail warden to undercover cop. *Everyday People* takes readers to the funeral of AIDS activist Ronald West, Jr., and to the office of James Delson, owner and operator of Jersey City's Toy Soldier Company. You'll follow Sullivan from the Hoboken workshop of violin maker Jon Van Kouwenhoven to the rooftops that are the "office" of chimney sweep Ron Simpson. You'll go on a ride with the Glen Ridge Volunteer Ambulance Squad and along the Hackensack River with Captain Bill Sheehan, founder of the Hackensack Estuary and River Tender's Corporation, which monitors the river's ecology. You don't have to live in New Jersey to recognize the people in Sullivan's stories. They are the librarians and tax assessors, attorneys and hotdog vendors, firefighters and bee keepers, poets and politicians, that make every American town special. In *Everyday People*, Sullivan records their stories for us all to read and remember.

### TALES FOR A WINTER'S NIGHT

---

*Chicago Review Press* This work brings together eight Arthur Conan Doyle mystery classics. When first gathered into one volume in 1908, the book was entitled *Round the Fire Stories*, since the author recommended that they be read ideally "round the fire upon a winter's night." According to Barzun & Taylor in *A Catalogue of Crime*, "As one reads 'The Man with the Watches,' 'The Lost Special,' 'The Jew's Breastplate,' 'The Black Doctor' and the rest, one marvels again at Doyle's natural gift of storytelling and one relishes his ingrained habit of giving clues, even when they serve narrative and are not to be used for ratiocination. These stories are worth reading even around a radiator."

### THEATER AS METAPHOR

---

*Walter de Gruyter GmbH & Co KG* The papers of the present volume investigate the potential of the metaphor of life as theater for literary, philosophical, juridical and epistemological discourses from the Middle Ages through modernity, and focusing on traditions as manifold as French, Spanish, Italian, German, Russian and Latin-American.

### DEFENDER OF THE OLD GUARD

---

---

#### JOHN BRICKER AND AMERICAN POLITICS

---

"This first biography of one of the leading conservative figures of the twentieth century traces the roots of John Bricker's ideology in his formative years as a boy growing up on an Ohio farm and examines his political career as governor, vice presidential candidate, and senator." "Bricker was exceptionally popular with Ohio voters, winning the governorship three consecutive times by increasingly larger majorities. After his 1944 campaign for the Republican presidential nomination fell short, he accepted the vice presidential slot on the ticket with Thomas E. Dewey. During two subsequent Senate terms, Bricker continued to develop his reputation as a national leader of the Republican Old Guard. His politics were so staunchly conservative that he was considered one of the nation's most consistent and dedicated opponents of the liberalism of the New Deal and Fair Deal administrations." "In the early 1950s, Bricker proposed a controversial amendment to the U.S. Constitution that addressed many conservative grievances against Roosevelt's and Truman's foreign policies. The long and acrimonious battle over the Bricker amendment, which was eventually defeated, split the Republican party and contributed to the end of Bricker's political career." "Based on Bricker's papers and several other manuscript collections, Davies's lively biography offers an insightful portrait of a politician who embodied conservative reaction to the sweeping changes of his time."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. ### THE CONFEDERATE STATES ARMY PROVOST GUARD

---

*Baton Rouge : Louisiana State University Press* In this book, the author draws from more than four hundred primary sources to detail the workings of the Confederate States Army Provost Guard. Sanctioned by the Articles of War in 1861 to

**assist the South in the establishment of discipline over the vast numbers of hurriedly organized and untrained soldiers, the provost system became one of the most highly praised and controversial components of the Confederate army. It was charged with marshalling the South's available resources for war while simultaneously accommodating the region's marked predisposition toward individualism and against any semblance of a strong central government.**
