## STEP, MAT, TMUA: SKILLS FOR SUCCESS IN UNIVERSITY ADMISSIONS TESTS FOR MATHEMATICS

---

*Hodder Education* Stand out, showcase your ability and succeed in your university admissions test. Whether you're taking STEP, MAT or TMUA, this essential guide reveals tried-and-tested strategies for building the problem-solving skills you need to secure a high score. Containing expert advice and worked examples, followed by multiple-choice and extended questions that replicate the exams, this guide is designed to improve your understanding of the admissions tests and help to build the skills universities are looking for. - Learn to think like a university student - detailed guidance, thought-provoking questions and worked solutions show you how to advance your mathematical thinking - Improve your mathematical reasoning - practise the problem-solving skills you need with 'Try it out' activities throughout the book and end-of-chapter exercises to track progress - Build a path through every problem - our authors guide you through each type of problem so that you can approach questions confidently, think on the spot and apply your knowledge to new contexts - Maximise marks and make the most of the time you have - at the end of each chapter, our authors give advice on how to tackle questions in the most time-efficient way and help you to figure out which ones will show off your ability What are the STEP (Sixth Term Examination Paper), MAT (Mathematics Admissions Test) and TMUA (Test of Mathematics for University Admission) admissions tests? These admissions tests are used by universities as part of the application process to test problem-solving skills and identify candidates with the highest ability, motivation and ingenuity. MEI (Mathematics in Education and Industry) endorses this book and provided two of the authors. MEI is a charity and works to improve maths education, offering a range of support for teachers, including expertly written resources. OUR AUTHORS David Bedford has a PhD in Combinatorics and has been a mathematics lecturer in UK universities for over 30 years. He is also an A level examiner and has extensive experience in preparing students for mathematics admissions tests. David is the author of the Hodder 'MEI Further Mathematics: Extra Pure Maths' textbook. Phil Chaffé is the Advanced Maths Support Programme 16-19 Student Support and Problem Solving Professional Development Lead. He is the creator and lead writer for the Problem Solving Matters course which is designed to prepare students for mathematics admissions tests and is run in partnership with the Universities of Oxford, Warwick, Durham, Manchester, Bristol and Imperial College London. He is also the course designer for Imperial College's A\* in A Level Mathematics course. He is also the MEI University Sector Lead. Tim Honeywill has been teaching at King Henry VIII School, Coventry, since 2008. Before that, he was the Coventry and Warwickshire Centre Manager for the Further Mathematics Network (now the AMSP), based at the University of Warwick where he did his PhD. He leads a ten-week Problem Solving course for Year 12 students and is a presenter on both the Problem Solving Matters course and on a STEP support course for Year 13 students. Richard Lissaman has a PhD in Ring Theory, a branch of abstract algebra. He has over 10 years' experience as a mathematics lecturer in UK universities and 20 years' experience of supporting students with A level Mathematics, Further Mathematics and mathematics admissions tests.

## DR KORCZAK'S EXAMPLE

---

Set in the final, numbered, days of an orphanage in the Warsaw ghetto in 1942, this play is based on real events. It's 'alienation' device of depicting its characters through the use of dolls, further enhances our painful feeling of powerlessness. Yet, in spite of its tragic outcome, it leaves us uplifted by the power of love.

Generalist Social Work Practice, 7th edition, fully integrates core social work themes of collaboration, the strengths perspective, values and ethics, social justice and human rights, evidence-based practice, cultural competence, and policy practice. This text offers a progressive practice approach grounded in social work research, reflective of social work values, sensitive to client diversity, and applicable to work with any level of client system including individuals, families, groups, organizations, and communities. Beginning with engaging clients as partners and continuing with assessing, intervening, and evaluating from a strengths perspective, this approach offers social workers a method that fully realizes core social work values, respects client competence, and activates client resources within the context of their lives. All parts of the practice process are described in detail, connected to social work theory, illustrated with case examples, and supported with evidence from social work research. Each chapter focuses on teaching the knowledge, values, and skills reflective of the core competencies and correlated practice behaviors as described in the 2008 Educational Policy and Accreditation Standards (EPAS). ## **PRE-LEGISLATIVE SCRUTINY OF THE DRAFT APPRENTICESHIPS BILL**

---

### **REPORT, TOGETHER WITH FORMAL MINUTES**

---

*The Stationery Office* This is the Committee's scrutiny of the draft Apprenticeships Bill which was published on 16 July 2008. While putting much of the current arrangements for apprenticeships onto a statutory basis, the draft Bill provides greater flexibility to allow employers to design and bring forward for approval their own apprenticeship frameworks. The extent of this flexibility was not clear as a key document, the specification of apprenticeship standards, which will determine the core components of frameworks was not published with the draft Bill. Nor did the Government set out in detail how the National Apprenticeship Service would be resourced or organised, or how the legislation would apply in Wales. These as key omissions impeded the scrutiny process. With this in mind it was concluded that in general the legislation is justified because it has the potential to strengthen the structure for apprenticeships in England. However there was a major concern of volume at the expense of quality. The Government must ensure that the draft Bill is re-written to promote, monitor and report on the quality of apprenticeships. Without provisions underpinning quality, the legislation risks the devaluation of apprenticeships, and employers, parents and young people as well as adults will cease to see apprenticeships as a progressive route through to a future career.
