SAAB CELEBRATION

SWEDISH STYLE REMEMBERED

Pen and Sword Transport Saab has gone, but its cars and its loyal band of owners remain. In this photographic album, internationally known Saab author and commentator Lance Cole celebrates all things Saab. In a collection of over 200 photographic images accompanied by a detailed yet engaging commentary, the book delivers a record of Saab from its first car to its last. The engineering, design, and ethos of Saab's cars across the generations are captured in all their glory. The author of many Saab articles and several Saab books, this is Lance Cole's new view on Sweden's other car maker - one that really did build cars to a different standard. Saab Celebration is designed to be a memorial companion for the Saab fan. If you like Saabs, then enjoy this tribute to all things Saab.

World Health Organization This report is based on an exhaustive review of the published literature on the definitions, measurements, epidemiology, economics and interventions applied to nine chronic conditions and risk factors.

LIVER DISEASE IN CHILDREN

Cambridge University Press The fourth edition of this authoritative text covers every aspect of liver disease affecting infants, children and adolescents. As in the previous editions, it offers an integrative approach to the science and clinical practice of pediatric hepatology and charts the substantial progress in understanding and treating these diseases. All of the chapters are written by international experts and address the unique pathophysiology, manifestations and management of these disorders. This edition of the landmark text features extended coverage of viral hepatitis, metabolic liver disease, fatty liver disease and liver transplantation, including a new chapter on post-transplant care and outcomes. All of the chapters have been updated to reflect changing epidemiology and recent advances in molecular medicine and genomics. With the continued evolution of pediatric hepatology as a discipline, this text remains an essential reference for all physicians involved in the care of children with liver disease.

FUNDAMENTALS OF AIRCRAFT AND ROCKET PROPULSION

Springer This book provides a comprehensive basics-to-advanced course in an aero-thermal science vital to the design of engines for either type of craft. The text classifies engines powering aircraft and single/multi-stage rockets, and derives performance parameters for both from basic aerodynamics and thermodynamics laws. Each type of engine is analyzed for optimum performance goals, and mission-appropriate engines selection is explained. Fundamentals of Aircraft and Rocket Propulsion provides information about and analyses of: thermodynamic cycles of shaft engines (piston, turboprop, turboshaft and propfan); jet engines (pulsejet, pulse detonation engine, ramjet, scramjet, turbojet and turbofan); chemical and non-chemical rocket engines; conceptual design of modular rocket engines (combustor, nozzle and turbopumps); and conceptual design of different modules of aero-engines in their design and off-design state. Aimed at graduate and final-year undergraduate students, this textbook provides a thorough grounding in the history and classification of both aircraft and rocket engines, important design features of all the engines detailed, and particular consideration of special aircraft such as unmanned aerial and short/vertical takeoff and landing aircraft. End-of-chapter exercises make this a valuable student resource, and the provision of a downloadable solutions manual will be of further benefit for course instructors.

THE BONE THIEF

Random House A time of turmoil. A kingdom in dispute. An unlikely hero...Edward, son of Alfred the Great, has inherited the Kingdom of Wessex and achieved a precarious set of alliances through marriage and military conquest. But the alliance is uneasy and the kingdom of Mercia has more reason than most to fear the might of Wessex. Their Lord is elderly and perhaps mortally sick, and his wife fears that she does not have the power to withstand hostile takeover. She also knows too well what her neighbour is capable of - after all, King Edward is her brother. The chance to rescue St Oswald's bones, beloved patron saint, to consecrate her new church and unite the people behind her, is too good an opportunity to miss. But they are rumoured to be buried a long way north - outside Lincoln, deep in hostile territory. Her secretary, Wulfgar, groomed for the priesthood since he was a boy in the elegant cloisters of Winchester cathedral but a naïve in the ways of the wider world - is surprised to be sent on this mission. It will prove an incredibly dangerous journey, requiring resources and courage Wulfgar did not know he had, and support from surprising allies along the way including a maverick priest and a Viking adventuress whose loyalties are far from clear...
