## The Use of Compensatory Strategies by Dutch Learners of English

Walter de Gruyter GmbH & Co KG Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that

seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts.

IOS Press People go traveling for two reasons: because they are searching for something, or they are running from something. Katie's world is shattered by the news that her headstrong and bohemian younger sister, Mia, has been found dead at the bottom of a cliff in Bali. The authorities say that Mia jumped—that her death was a suicide. Although they'd hardly spoken to each other since Mia suddenly left on an around-the-world trip six months earlier, Katie refuses to accept that her sister would have taken her own life. Distraught that they never made peace, Katie leaves her orderly, sheltered life in London behind and embarks on a journey to find out the truth. With only the entries in Mia's travel journal as her guide, Katie retraces the last few months of her sister's life and—page by page, country by country—begins to uncover the mystery surrounding her death. . . . Weaving together the exotic settings and suspenseful twists of Alex Garland's *The Beach* with a powerful tale of familial love in the spirit of Rosamund Lupton's *Sister, Swimming at Night* is a fast-paced, accomplished, and gripping debut novel of secrets, loss, and forgiveness.

## Asplund

**Gingko Press Inc** This monograph, originally published by Gingko Press in 1986, sold more than 25,000 copies worldwide and is the definitive work on Asplund. Asplund became the dominant representative of the Scandinavian classicism which marked the twenties, known as 'Swedish Grace'. He then became the leading light of functionalism, but soon moved from stereotyped modernism to a traditionally based architecture. His influence today is felt far afield. Asplund remains at the focal point of architectural debates. This groundbreaking work includes essays by Kenneth Frampton, Stuart Wrede, Elias Cornell, and is published with photos, drawings and plans.
