DYING OF HEALTH CARE

HOW THE SYSTEM HARMS AMERICANS PHYSICALLY AND FINANCIALLY, AND HOW TO CHANGE IT

Today, the debate about our health care system is raging, but it often seems too complex or politically-driven for people to navigate. There has perhaps never been a better time to share with the American public a book that explains the state of our health care in an honest, comprehensive, and relatable way. Dying of Health Care, authored by a primary care physician with nearly 40 years of experience practicing in the U.S. and U.K., provides an easy-to-understand examination of the American health care system's major problems and potential solutions. Dr. Hanna explores the all-important question facing us today: why are Americans paying much more per person for health care than those in other developed nations, but getting much less in terms of quality? Approaching this painful paradox through a clinician's eyes, Dr. Hanna first makes a careful diagnosis and then prescribes an appropriate treatment to heal our ailing system. He shares real-life examples of patients and provides insights into the minds of doctors, including how their decisions influence the costs and outcomes of treatments. Ultimately, Dr. Hanna exposes how the system harms us - even sometimes kills us - both physically and financially, and he offers innovative solutions that can work to create the quality, affordable system we deserve.

THE STRATEGIC COMMUNICATION IMPERATIVE

FOR MID- AND LONG-TERM ISSUES MANAGEMENT

Routledge *This book proposes a model for directly aligning strategic communication with organisational business planning to enable effective management of mid- to long-term organisational issues. It argues that current conceptualisations of strategic communication need to be extended to locate it more precisely within definitions of strategy and as an essential element of mid- and long-term business planning. This approach re-positions strategic issues communication in a professional practice dimension that has a specific focus on issues that do not immediately impact on an organisation's ability to achieve its day-to-day business goals. Full of contemporary examples from business, and including a thorough explanation of how the model can be applied in professional practice, the book will prove illuminating reading for scholars, students, and professionals alike.*

SAFEGUARDING COMPANIES' RIGHTS IN COMPETITION AND ANTI-DUMPING/ANTI-SUBSIDIES PROCEEDINGS

Kluwer Law International B.V. *Focusing on the rules safeguarding procedural due process in the administrative procedures of the Commission, this fully updated edition of a widely used handbook covers the four principal fields that entail enforcement of substantive competition rules: antitrust, merger, anti-dumping/antisubsidies, and State aid. Among the many practical issues raised are the following: the right of directly involved parties to bring an action before the European Courts in merger, anti-dumping/anti-subsidies, and State-aid cases; the rights of complainants in antitrust cases; the rights and obligations of beneficiaries in State-aid cases; the extent to which the right to confidential communication between lawyer and client in these cases is recognised by the European Commission and the European Courts; the right to silence to avoid self-incrimination in antitrust cases; the right to respect for confidentiality and the right to be heard during the preliminary factfinding procedure of the Commission; the obligations of an undertaking during the fact-finding procedure of the Commission; the right of access to the Commission's file; the right to a fair hearing of all the parties concerned by the Commission proceedings; and the applicability of Article 6 of the European Convention of Human Rights (ECHR) to EU antitrust procedures. Three tables consolidate briefly and comparatively the rights and the obligations of the private parties in the four proceedings, as well as their right to bring an action before the European Courts. These tables give the reader the opportunity to easily check out what is the situation in the four proceedings regarding a specific right or obligation. The author's analysis draws on all the relevant judgments of the European Courts, and the book comes with a wealth of reference material, including detailed footnotes, lists of legislation and cases in both chronological and alphabetical order, and an extensive bibliography.*

THE TAO OF SUCCESS

THE FIVE ANCIENT RINGS OF DESTINY

Penguin *A modern book of destiny and power, using the ancient principles of the Tao Te Ching. How do we begin to discover and live our destined life? How can we use the ancient, Eastern philosophy to experience more success in our lives? From Derek Lin, Taoist master and author of The Tao of Daily Life, comes this practical, systematic approach to the ancient and time-honored spiritual learning process. The Tao of Success navigates the five rings of life, which are common patterns of traditional Tao cultivation, conceptualized by the ancient sages: your spirit, your mind, your relationships, your world, and your destiny. Success is achieved by discovering and experiencing these five concentric rings, from the inside out, and not in the future but in the here and now. Using the same format that made The Tao of Daily Life a breakout Eastern wisdom bestseller, Lin draws on the power of Taoist stories to illustrate important keys, or lessons. He then offers commentary on understanding and applying that story in modern life—all aimed to help readers live out the destiny that lies within themselves. By integrating the life-altering lessons of this book into their busy lives, readers can begin to cultivate the Tao. In The Tao of Success, Lin returns with his enlightening approach to understanding, centered on story and illumination of ancient Taoist secrets for the modern beginner and the familiar student alike.*

HOW TO MAKE ALL-STARS

THE SECRETS AND TECHNIQUES THAT WILL HELP YOU MAKE THE TEAM

CreateSpace *Hey kids, do you want to know how to make all-stars for your baseball league? Or parents, do you feel like the coaches keep passing your child up? Well no more! Or coaches, want drills and ways to motivate your players to get better? Coach Andy Collins is going to tell you everything he knows from his 35 years of youth and adult coaching and watching what works and what doesn't work. It's chock-full of ideas in 86 pages. He'll cover: * How your league chooses all-stars * What all-star selectors are really looking for * 7 tried and true methods of getting better at baseball * But more importantly, little known ways to get the people picking the team to notice you * And how to beat the "politics" that seem to get in the way Year after year kids sit in the stands crying after the all-star teams are announced and they weren't one of the players that were chosen. At the same time the students I've trained do make these same all-star teams. It was then I realized I had the information that the kids in the stands and their parents and coaches were looking for. Wherever there are kids around the world that play youth baseball, there are kids that long to make the league's all-star team. Every year it's the same, kids that desperately want to have their name called out (or see it announced on the list) don't make it, and a little bit of them is hurting deep inside; and they don't know why they were not picked. Little did they know that they could have fairly accurately predicted their chances almost from day one of when the season started. And if they knew what you're about the find out, they could improve enough in skill in the eyes of the all-star selectors as to be a better player or even make the all-star team. The good news is that in this book, there is a way to learn how to make the all-star team for the next upcoming season; and if not then, the following year (if you're willing to listen and follow the advice I give). While I have written this for parents and coaches*

to learn how this process works and how they can help these youngsters achieve their dreams, this is mostly a book written for the kid who wants to make all-stars, not a book for the parent who wants their kid to make all-stars (there is a difference). And it will be in that voice that this book will be written.
