Sniper on the Eastern Front Pen & Sword Josef "Sepp" Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honored with the award of the Knight's Cross. An Austrian conscript, after qualifying as a machine gunner he was drafted to the southern sector of the Russian Front in July 1942. Wounded at Voroshilovsk, he experimented with a Russian sniper-rifle while convalescing and so impressed his superiors with his proficiency that he was returned to the front on his regiment's only sniper specialist. In this sometimes harrowing memoir, Allerberger provides an excellent introduction to the commitment in field craft, discipline and routine required of the sniper, a man apart. There was no place for chivalry on the Russian Front. Away from the film cameras, no prisoner survived long after surrendering. Russian snipers had used the illegal explosive bullet since 1941, and Hitler eventually authorized its issue in 1944. The result was a battlefield of horror. Allerberger was a cold-blooded killer, but few will find a place in their hearts for the soldiers of the Red Army against whom he fought. **Sniper on the Eastern Front The Memoirs of Sepp Allerberger, Knight's Cross** Pen and Sword Josef Sepp Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honoured with the award of the Knights Cross. His firsthand account of his wartime service gives a graphic insight into his lethal skill with a rifle and into the desperate fight put up by Soviet forces to defend Leningrad. He also records how, during the three-year siege, close members of this family died, including his wife and two sons, as well as many of his comrades in arms. He describes these often-terrible events with such honesty and clarity that his memoir is remarkable. Pilyushin, who lived in Leningrad with his family, was already 35 years old when the war broke out and he was drafted. He started in the Red Army as a scout, but once he had demonstrated his marksmanship and steady nerve, he became a sniper. He served throughout the Leningrad siege, from the late 1941 when the Wehrmacht's advance was halted just short of the city to its liberation during the Soviet offensive of 1944. His descriptions of grueling front-line life, of his fellow soldiers and of his sniping missions are balanced by his vivid recollections of the protracted suffering of Leningrad's imprisoned population and of the grief that was visited upon him and his family. His gripping narrative will be fascinating reading for any one who is keen to learn about the role and technique of the sniper during the Second World War. It is also a memorable eyewitness account of one man's experience on the Eastern Front. **Sniper on the Eastern Front The Memoirs of Sepp Allerberger, Knight's Cross** Pen & Sword Josef "Sepp" Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honoured with the award of the Knight's Cross. An Austrian conscript, after qualifying as a machine gunner he was drafted to the southern sector of the Russian Front in July 1942. This book is a rare first-hand account by a ruthlessly efficient German sniper of life and death during the bitter conflict that followed the Nazi invasion of Russia. **Blood Red Snow The Memoirs of a German Soldier on the Eastern Front** Frontline Books Günter Koschorrek wrote his illicit diary on any scraps of paper he could lay his hands on, storing them with his mother on infrequent trips home on leave. The diary went missing, and it was not until he was reunited with his daughter in America some forty years later that it came to light and became Blood Red Snow. The author's excitement at the first encounter with the enemy in the Russian Steppe is obvious. Later, the horror and confusion of fighting in the streets of Stalingrad are brought to life by his descriptions of the others in his unit — their differing manners and techniques for dealing with the squalor and death. He is also posted to Romania and Italy, assignments he remembers fondly compared to his time on the Eastern Front. This book stands as a memorial to the huge numbers on both sides who did not survive and is, some six decades later, the fulfilment of a responsibility the author feels to honour the memory of those who perished. **Red Army Sniper A Memoir on the Eastern Front in World War II** Casemate Publishers 'I did not regard myself as a slacker. Even in childhood I taught myself to carry out tasks entrusted conscientiously and carefully. In war, it is no secret that the casual don't survive'. Yevgeni Nikolaev was one of Russia's leading snipers of World War II and his memoir provides an unparalleled account of front-line action in crucial theaters of war. Nikolaev is credited with a remarkable 324 kills and his wartime service included time in the siege of Leningrad in 1941/1942. His memoir is not a neutral, apolitical account. Far from it. Nikolaev asserts, for example, that Finland attacked Russia. As a member of the NKVD, it is not

surprising that his memoir full of historical misinterpretation and justification of the agency's actions. Equally, Nikolaev is dismissive of his Nazi opponents. On several occasions, he discusses his Nazi counterparts as bandits and scum, and implores the reader to take a look, fellows, at the beast of a bastard I've laid low. In vivid, arresting recollections he paints his actions in a saintly heroic light. He describes the comfort of the German foxholes, wired with telephone connections, relative to the Russians who fasted without food or water awaiting the moment for a perfect shot. He claims the Russian soldier was a moral warrior, killing only with head or heart shots. In addition to describing details of his kills, Nikolaev explains how his life was saved when an explosive rifle bullet struck a watch that he kept in his jacket pocket. His life was saved by a surgeon who extracted all the watch parts.

Girl with a Sniper Rifle An Eastern Front Memoir Simon and Schuster In this vivid first-hand account we gain unique access to the inner workings of Stalin's Central Women's Sniper School, near Podolsk in Western Russia. Luliia was a dedicated member of the Komsomol (the Soviet communist youth organisation) and her parents worked for the NKVD. She started at the sniper school and eventually became a valued member of her battalion during operations against Prussia. She persevered through eight months of training before leaving for the Front on 24th November 1944 just days after qualifying. Joining the third Belorussian Front her battalion endured rounds of German mortar as well as loudspeaker announcements beckoning them to come over to the German side. Luliia recounts how they would be in the field for days, regularly facing the enemy in terrifying one-on-one encounters. She sets down the euphoria of her first hit and starting her "battle count" but her reflection on how it was also the ending of a life. These feelings fade as she recounts the barbarous actions of Hitler's Nazi Germany. She recalls how the women were once nearly overrun by Germans at their house when other Red Army formations had moved off and failed to tell them. She also details a nine-day stand-off they endured encircled by Germans in Landsberg.

Sniper Ace From Eastern Front to Siberia Casemate Publishers Throughout World War II, German snipers were obliged to carry a 'Scharfschützen Buch' which recorded every kill. Each success noted had to be verified by a witness and signed by a superior officer. The journal of Sutkus is one of only a few such books to have survived the war. It records more than 200 kills, placing him as one of the war's most successful snipers. A large part of his journal is reproduced for the first time here.

Lady Death The Memoirs of Stalin's Sniper Simon and Schuster "Arguably the finest account of sniping during World War II." – Adrian Gilbert, author of *Challenge of Battle*. "Undoubtedly literature's most remarkable account of sniper action." – Charles W. Sasser, former US Army Special Forces soldier and author of *One Shot–One Kill* Lyudmila Pavlichenko was one of the most successful – and feared – female snipers of all time. When Hitler launched Operation Barbarossa in June 1941 she left her university studies to join the Red Army. Ignoring offers of positions as a nurse she became part of Soviet Russia's elite group of female snipers. Within a year she had 309 confirmed kills, including 29 enemy sniper kills. Renowned as the scourge of German soldiers, she was regarded as a key heroic figure for the war effort and, in 1942, on Stalin's personal orders, she travelled as part of a Soviet delegation to the West, fundraising in Canada, Great Britain and the USA. Dubbed 'Lady Death', she spoke out about gender equality in the Red Army and made the case for the USA to continue the fight against the Nazis in Europe. The folk singer Woody Guthrie wrote a song about her exploits – 'Miss Pavlichenko' – and she visited the White House, where she formed an unlikely but long-lasting friendship with Eleanor Roosevelt. In November 1942 she visited Coventry and accepted donations of £4,516 from Coventry workers to pay for three X-ray units for the Red Army. She also visited a Birmingham factory as part of her fundraising tour.

Eastern Front Sniper The Life of Matthäus Hetzenauer Casemate Publishers *Eastern Front Sniper* is a long overdue and comprehensive biography of one of World War II's most accomplished snipers. Mathus Hetzenauer, the son of a Tyrolean peasant family, was born in December 1924. He was drafted into the Mountain Reserve Battalion 140 at the age of 18 but discharged five months later. He received a new draft notice in January 1943 for a post in the Styrian Truppenbungplatz Seetal Alps where he met some of the best German snipers and learned his art. Hetzenauer went on to fight in Romania, Eastern Hungary and in Slovakia. As recognition for his more than 300 confirmed kills he was awarded on the Knight's Cross of the Iron Cross on April 17, 1945. After nearly five years of Soviet captivity Mathus Hetzenauer returned to Austria on January 10, 1950. He lived in the Tyrol's Brixen Valley until his death on 3 October of 2004.

Stormtrooper on the Eastern Front Fighting with Hitler's Latvian SS Pen and Sword Following the conquest of his native Latvia by the Nazis, the author was given the stark choice: service in the SS or forced labor in a slave camp. So he 'volunteered' to fight for the Nazis. He describes his training and how he became an instructor before being sent into Russia. He nearly perished during the terrible winter of 1943-44 being wounded and finding himself with his friend lying dead on top of him. As the tide turned and the Russians advanced remorselessly through. He was wounded twice more and awarded the Iron Cross for bravery. With German resistance collapsing, the author had to flee for his life – capture by the Russians meant almost certain death. He surrendered to the Americans but describes the neglect he suffered at their hands. Unable to return to Latvia now occupied by the Russians, he became a Displaced Person eventually settling in the UK.

In the Hell of the Eastern Front The Fate of a Young Soldier During the Fighting in Russia in WW2 Frontline Books A Nazi infantryman recalls the horrors of combat against the Soviet Union in this WWII memoir as told to his son. Friedrich "Fritz" Sauer was posted to the Eastern Front in 1942. A soldier in the 132nd Infantry Division, he was deployed in Hitler's grand invasion of Russia. But instead of the swift knockout blow the Germans had anticipated, Operation Barbarossa ground on for almost four years. Sent first to the Crimea and then the region around Leningrad, Fritz experienced horrors of all kinds. In this memoir, Fritz recalls losing his best friend to a sniper, rescuing the body of a fallen comrade from No Man's Land, enduring Soviet tank assaults, and his own wounding during a counterattack. Fritz was later transferred to a tank assault regiment where, on a mission to contact another unit, he lost his way in the snow. After sheltering with a farmer's family, Fritz headed west to flee the advancing Red Army. His subsequent journey home took many twists and turns.

Eastern Inferno The Journals of a German Panzerjäger on the Eastern Front, 1941-43 Casemate "Remarkable personal journals . . . revealing the combat experience of the German-Russian War as seldom seen before . . . a harrowing yet poignant story" (*Military Times*). Hans Roth was a member of the anti-tank panzerjäger battalion, 299th Infantry Division, attached to the Sixth Army, as the invasion of Russia began. As events transpired, he recorded the tension as the Germans deployed on the Soviet frontier in June 1941. Then, a firestorm broke loose as the Wehrmacht tore across the front, forging into the primitive vastness of the East. During the Kiev encirclement, Roth's unit was under constant attack as the Soviets desperately tried to break through the German ring. At one point, after the enemy had finally been beaten, a friend serving with the SS led him to a site—possibly Babi Yar—where he witnessed civilians being massacred. After suffering through a brutal winter against apparently endless Russian reserves, his division went on the offensive again when the Germans drove toward Stalingrad. In these journals, attacks and counterattacks are described in you-are-there detail. Roth wrote privately, as if to keep himself sane, knowing his honest

accounts of the horrors in the East could never pass Wehrmacht censors. When the Soviet counteroffensive of winter 1942 begins, his unit is stationed alongside the Italian 8th Army, and his observations of its collapse, as opposed to the reaction of the German troops sent to stiffen its front, are of special fascination. Roth's three journals were discovered many years after his disappearance, tucked away in the home of his brother. After his brother's death, his family discovered them and sent them to Rosel, Roth's wife. In time, Rosel handed down the journals to Erika, Roth's only daughter, who had emigrated to America. Roth was likely working on a fourth journal before he was reported missing in action in July 1944. Although his ultimate fate remains unknown, what he did leave behind, now finally revealed, is an incredible firsthand account of the horrific war the Germans waged in Russia. **Red Road From Stalingrad**

Recollections of a Soviet Infantryman Pen and Sword Mansur Abdulin fought in the front ranks of the Soviet infantry against the German invaders at Stalingrad, Kursk and on the banks of the Dnieper. This is his extraordinary story. His vivid inside view of a ruthless war on the Eastern Front gives a rare insight into the reality of the fighting and into the tactics and mentality of the Soviet army. In his own words, and with a remarkable clarity of recall, he describes what combat was like on the ground, face to face with a skilled, deadly and increasingly desperate enemy. **At Leningrad's Gates The Combat Memoirs of a Soldier with Army Group North** Casemate "A first-rate memoir" from a German soldier who rose from conscript private to captain of a heavy weapons company on the Eastern Front of World War II (City Book Review). William Lubbeck, age nineteen, was drafted into the Wehrmacht in August 1939. As a member of the 58th Infantry Division, he received his baptism of fire during the 1940 invasion of France. The following spring, his division served on the left flank of Army Group North in Operation Barbarossa. After grueling marches amid countless Russian bodies, burnt-out vehicles, and a great number of cheering Baltic civilians, Lubbeck's unit entered the outskirts of Leningrad, making the deepest penetration of any German formation. In September 1943, Lubbeck earned the Iron Cross First Class and was assigned to officers' training school in Dresden. By the time he returned to Russia, Army Group North was in full-scale retreat. In the last chaotic scramble from East Prussia, Lubbeck was able to evacuate on a newly minted German destroyer. He recounts how the ship arrived in the British zone off Denmark with all guns blazing against pursuing Russians. The following morning, May 8, 1945, he learned that the war was over. After his release from British captivity, Lubbeck married his sweetheart, Anneliese, and in 1949, immigrated to the United States where he raised a successful family. With the assistance of David B. Hurt, he has drawn on his wartime notes and letters, Soldatbuch, regimental history, and personal memories to recount his four years of frontline experience. Containing rare firsthand accounts of both triumph and disaster, At Leningrad's Gates provides a fascinating glimpse into the reality of combat on the Eastern Front. **The White Sniper Simo Häyhä** Casemate The remarkable story of the Finnish marksman nicknamed "White Death" by the Red Army for his record number of confirmed kills. Simo Häyhä is the most famous sniper in the world. During the Winter War fought between Russia and Finland from 1939 to 1940, he had 542 confirmed kills with iron sights, a record that still stands today. A man of action who spoke very little, Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from corporal to second lieutenant, and he was awarded the Cross of Kollaa. For sniping, Simo Häyhä only ever used his own M/28-30 rifle. Eventually, his luck ran out, and Simo received a serious head wound on March 6, 1940, though he subsequently recovered. The White Sniper fully explores Simo Häyhä's life, his exploits in the Winter War, the secrets behind his success, including character and technique, and also includes a detailed look at his rifle itself. There are appendices on the basics of shooting, the impact of fire on the battlefield, battles on the Kollaa Front during the Winter War, and a list of ranked snipers of the world. "No matter how many books on sniping you have read, this must be added to your list if you are serious about shooting." —GunMart **Soldat Reflections of a German Soldier, 1936-1949** Dell Publishing Company The wartime diaries of German soldier who fought in almost every major campaign reveal a full range of experiences, from getting caught up in Hitler's rise to power to spending five years in a Russian prison camp. Reprint. K. **Notes of a Russian Sniper** Frontline 'As a sniper, I've killed more than a few Nazis. I have a passion for observing enemy behaviour. You watch a Nazi officer come out of a bunker, acting all high and mighty, ordering his soldiers every which way, and putting on an air of authority. The officer hasn't got the slightest idea that he only has seconds to live.' Vassili Zaitsev's account of the hell that was Stalingrad is moving and harrowing. This was a battle to the death - fighting street by street, brick by brick, living like rats in a desperate struggle to survive. Here, the rules of war were discarded and a psychological war was being waged. In this environment, the sniper was king - an unseen enemy who frayed the nerves of brutalised soldiers. Zaitsev volunteered to fight at Stalingrad in 1942. His superiors recognized quickly his talent, and made him a sniper. He adapted his hunting skills to the ruins of the city, watching his prey with nerves of steel. In his first 10 days, Zaitsev killed 40 Germans. He achieved at least 225 kills and the tactics he developed are still being studied. Zaitsev was used a symbol of Russian resistance against the Nazis. His exploits, including a famous 'duel' with a Nazi sniper, remain the stuff of legend. His account is absorbing to anyone interested in World War II and seeing how one person could survive in the most extreme of conditions. **Mortar Gunner on the Eastern Front. Volume II Russia, Hungary, Lithuania, and the Battle for East Prussia** Greenhill Books Returning to his old unit, the grenade launcher, in May 1944, he experienced the heavy defensive battles in Romania as a platoon commander and from August 1944 in East Prussia and Lithuania. After being transferred by ship from Memel to Königsberg in late 1944, he took part in the battles for Ostprussen in the winter of 1944/1945. Constantly exposed to the attacks of Russian bombers and fighter planes and severely wounded by shrapnel on the leg, he manages, with the help of a Russian volunteer and a horse-drawn vehicle from Balga to Rosenberg, from there by ship transport via Pillau to ?winouj?cie and by train to Schwerin. Fleeing the impending Russian imprisonment to the west, he falls into American captivity on 3 May 1945 and is released in July 1945 in the home. Memories of a corporal and platoon commander in the grenade launcher 1943-1945 **Panzer Commander The Memoirs of Colonel Hans von Luck** Dell A stunning look at World War II from the other side... El Alamein, Kasserine Pass, Poland, Belgium, Normandy on D-Day, the disastrous Russian front--von Luck fought there with some of the best soldiers in the world. German soldiers. combat against numerically superior Soviet forces during World War II, by a charismatic Belgian writer and politician turned Waffen SS front-line infantryman. In a laudatory review appearing in an official US Army Department magazine, US Army Brigadier General John C. Bahnsen wrote: "The pace of the writing is fast; the action is graphic, and a warrior can learn things from reading this book. I recommend its reading by students of the art of war. It is well worth the price." Here is the epic story of the Walloon Legion, a volunteer Belgian unit of the World War II pan-European SS force, as told by the legendary figure whose unmatched frontline combat experience and literary talent made him the premier spokesman for his fallen comrades. Captures the grit, the terror and the glory of Europe's crusade against Communism in absorbing prose. Includes fascinating first-person descriptions of Hitler, Himmler and other Third Reich personalities. Degrelle vividly describes how he and his comrades endured danger, privation and torrents of shot and shell -- on the sun-baked steppes of Ukraine, at the foothills of the Caucasus, in the depths of bone-chilling winter, through the stinking mud and the flaming hell of Cherkassy, and across the rolling plains of Estonia and the Pomeranian lake country. You'll learn what moved the 35-year-old Degrelle -- a brilliant intellectual and his country's most colorful political leader -- to enlist as a private in the volunteer legion he himself organized to join with Third Reich Germany and its allies in their titanic fight against the Bolshevik enemy." **At Hitler's Side The Memoirs of Hitler's Luftwaffe Adjutant 1937-1945** Frontline Books "An intimate glimpse into the decision-making process of the Nazi military leadership" from a Luftwaffe aide at Hitler's side until the last days in Berlin (Library Journal). Nicolaus von Below was a 29-year-old pilot when Goering selected him for the position of Hitler's Luftwaffe adjutant. He was with Hitler at every stage as the Second World War unfolded. His observations tell of Hitler's responses to momentous events as well as military decisions and policy-making at headquarters. Published for the first time in English, this is a superb historical source describing life in Hitler's inner circle, relied upon by Gitta Sereny in her biography of Albert Speer. The book provides fascinating insight into how Hitler planned the invasions of Poland and Russia; what he thought of Britain and America; why he placed his faith in the V-1 and V-2 projects; how others dealt with him; and much more. Von Below was present at the assassination attempt in July 1944, and records the effect on Hitler and his followers. He was also the last of Hitler's close military entourage to emerge from the bunker alive, eventually imprisoned as a material witness at Nuremberg. "Sure to become an important memoir for those studying the Nazi war machine."—Publishers Weekly "Indispensable."—Ian Kershaw, author of *Hitler: A Biography* **800 Days on the Eastern Front A Russian Soldier Remembers World War II** Litvin's stark, candid memoir focuses on his more than two years of service in the Red Army during its war with Germany. Originally written in 1962 and recently revised through extended interviews between author and translator, the result is a gripping account--in a straightforward, matter-of-fact tone--of the trials and tribulations of being a common Soviet soldier on the Eastern Front during World War II. **Panzers on the Eastern Front General Erhard Raus and His Panzer Divisions in Russia, 1941-1945** Greenhill Books/Lionel Leventhal General Erhard Raus was one of the German Army's finest panzer generals and a leading exponent of blitzkrieg in the east. German panzers were witnesses to the incredible onslaught that was the first few months of Barbarossa, then the gradual strengthening of Russian resistance, counterattack and, ultimately, the long and drawn-out German retreat. Raus and his panzers were tested in every conceivable tactical situation and, inevitably, Raus became highly versed in all aspects of mobilized warfare. This account by Erhard Raus, edited by leading Eastern Front expert Peter G. Tsouras, concentrates on German efforts to relieve Stalingrad. Raus, as commander of 6th Panzer Division, was in the thick of this bitter action, urging his panzers forward in a massive effort to break the Soviet strangle-hold. These journals were originally written to brief the US Army at the height of the Cold War. **Until the Eyes Shut Memories of a Machine Gunner on the Eastern Front, 1943-45** Independently Published "The rulers' mistakes are paid for with the blood of the people. This is shown in history both recent and ancient, time and time again. It was no different of an Austrian mountain farmer's son who was thrown into the carnage of the Eastern Front. He was in the prime of his youth, and the German Reich was already close to losing the war. In ripe old age, he remembers those dark hours that have haunted him throughout his life. Manning his machine gun in merciless struggles with a superior enemy, or fighting for survival in brutal close combat, reduced to basest instincts. He also remembers the rock-solid comradeship with his mountain troop, the unexpected gestures of humanity, and an insane destructiveness at a time when the world was out of joint. This ruthless, honest, and touching real-life account of a simple frontline soldier serves as a reminder to stand up for peace at all times, and to despise war. Until the eyes shut..."--Amazon.com **The Battle of Korsun-Cherkassy The Encirclement and Breakout of Army Group South, 1944** Casemate A primary source account of the WWII Battle of Korsun-Cherkassy written by a Nazi commander who survived the Soviet victory. In 1943, the tide began to turn against Germany on the Eastern Front. Their summer offensive, Operation Citadel, was a failure. The Red Army's Dnieper-Carpathian Offensive was pushing back on Germany's Army Group South in a war of attrition. By October, Kiev was liberated, and the Soviets had reached the Dnieper River in Ukraine. After sudden attacks by the 1st and 2nd Ukrainian Fronts, the Russians achieved a major encirclement of six German divisions, a total of 60,000 soldiers, in a pocket near the Dnieper River. A dramatic weeks-long battle ensued. After a failed attempt led by Erich von Manstein to break into the pocket from the outside, the trapped German forces focused their efforts on escape. Abandoning equipment and wounded soldiers, the survivors rejoined the surrounding panzer divisions. Beginning with the German retreat to the Dnieper in 1943, Generalleutnant von Vormann chronicles the battle and describes the psychological effects of the brutal combat. As one of the few primary source materials that exists on the subject, this volume is of significant historical interest. **The Forgotten Soldier** Potomac Books, Inc. The illustrated edition of the classic German WWII autobiography **Campaign in Russia The Waffen SS on the Eastern Front** Noontide Press This book offers a detailed account of a soldier's life on the eastern front in the former USSR. He became a chronicler, a historian, a storyteller who turns the extremes of the war in the Pacific—the terror, the camaraderie, the banal and the extraordinary—into terms we mortals can grasp."—Tom Hanks **NEW YORK TIMES BESTSELLER** In *The Wall Street Journal*, Victor Davis Hanson named *With the Old Breed* one of the top five books on epic twentieth-century battles. Studs Terkel interviewed the author for his definitive oral history, *The Good War*. Now E. B. Sledge's acclaimed first-person account of fighting at Peleliu and Okinawa returns to thrill, edify, and inspire a new generation. An Alabama boy steeped in American history and enamored of such heroes as George Washington and Daniel Boone, Eugene B. Sledge became part of the war's famous 1st Marine Division—3rd Battalion, 5th Marines. Even after intense training, he was shocked to be thrown into the battle of Peleliu, where "the world was a nightmare of flashes, explosions, and snapping bullets." By the time Sledge hit the hell of Okinawa, he was a combat vet,

still filled with fear but no longer with panic. Based on notes Sledge secretly kept in a copy of the New Testament, *With the Old Breed* captures with utter simplicity and searing honesty the experience of a soldier in the fierce Pacific Theater. Here is what saved, threatened, and changed his life. Here, too, is the story of how he learned to hate and kill—and came to love—his fellow man. “In all the literature on the Second World War, there is not a more honest, realistic or moving memoir than Eugene Sledge’s. This is the real deal, the real war: unvarnished, brutal, without a shred of sentimentality or false patriotism, a profound primer on what it actually was like to be in that war. It is a classic that will outlive all the armchair generals’ safe accounts of—not the ‘good war’—but the worst war ever.”—Ken Burns **Soviet Sniper The Memoirs of Roza Shanina** Casemate Publishers Described as the ‘unseen terror of East Prussia’, Soviet World War II sniper, Roza Shanina was celebrated for her remarkable shooting accuracy and astonishing bravery. Volunteering for military service after the death of her brother in 1941, she fought her way to the frontline and became a key player in a number of major battles. With 59 confirmed Nazi kills, she became the first servicewoman of the 3rd Belorussian Front to receive the Order of Glory. Although it was strictly forbidden within the Soviet military to keep a combat diary, Shanina managed to maintain hers throughout the last 4 months of her life. In it, she describes the hardships, triumphs, mundanities and extremities of war, the relationships formed and the comrades lost. Translated into English for the first time, the diary is a rare insight into the complexities of what it was to be both a sniper and a woman on the frontline and stands as a testament to Shanina’s humor, determination, extraordinary courage and indefatigable spirit. **American Sniper The Autobiography of the Most Lethal Sniper in U.S. Military History** Harper Collins The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood’s blockbuster, Academy-Award nominated movie. “An amazingly detailed account of fighting in Iraq—a humanizing, brave story that’s extremely readable.” — PATRICIA CORNWELL, New York Times Book Review “Jaw-dropping...Undeniably riveting.” —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him “The Legend”; meanwhile, the enemy feared him so much they named him al-Shaitan (“the devil”) and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle’s masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time. **Adventures in My Youth A German Soldier on the Eastern Front 1941-45** Helion and Company The personal memoir of a Nazi soldier, from joining the German Army in 1941 through his time as a Panzer on the Eastern Front. Originally written only for his daughter, Armin Schedierbauer’s *Adventures in My Youth* chronicles his time as a soldier during World War II. As an infantry officer with the 252nd Infantry Division, German Army, Schedierbauer saw four years of combat on the Eastern Front. After joining his unit during the winter of 1942, he was wounded six times and had firsthand experience of the Soviet offensives in the summer of 1944 and January 1945. While fighting in East Prussia, he was captured by the Soviets and not released until 1947. Schedierbauer was only twenty-one years old when the war ended, and his memoir recollects the experiences he went through as a young man on the front. **Panzer Ace The Memoirs of an Iron Cross Panzer Commander from Barbarossa to Normandy** Pen and Sword Richard Freiherr von Rosen was a highly decorated Wehrmacht soldier and outstanding panzer commander. His memoirs are richly illustrated with contemporary photographs, including key confrontations of World War II. After serving as a gunlayer on a Pz.Mk.III during Barbarossa, he led a Company of Tigers at Kursk. Later he led a company of King Tiger panzers at Normandy and in late 1944 commanded a battle group (12 King Tigers and a flak Company) against the Russians in Hungary in the rank of junior, later senior lieutenant (from November 1944, his final rank.) Only 489 of these King Tiger tanks were ever built. They were the most powerful heavy tanks to see service, and only one kind of shell could penetrate their armor at a reasonable distance. Every effort had to be made to retrieve any of them bogged down or otherwise immobilized, which led to many towing adventures. The author has a fine memory and eye for detail. His account is easy to read and not technical, and adds substantially to the knowledge of how the German Panzer Arm operated in the Second World War. **Avenging Angels Young Women of the Soviet Union's WWII Sniper Corps** MacLehose Press Beginning in 1942, with the Eastern Front having claimed the lives of several million Soviet soldiers, Stalin's Red Army began drafting tens of thousands of women, most of them in their teens or early twenties, to defend against the Nazi invasion. Some volunteered, but most were given no choice, in particular about whether to become a sniper or to fill some other combat role. After a few months of brutal training, the female snipers were issued with high-powered rifles and sent to the front. Almost without exception, their first kill came as a great shock, and changed them forever. But as the number of kills grew, many snipers became addicted to their new profession, some to the point of becoming depressed if a “hunt” proved fruitless. Accounts from the veterans of the female sniper corps include vivid descriptions of the close bonds they formed with their fellow soldiers, but also the many hardships and deprivations they faced: days and days in a trench without enough food, water, or rest, their lives constantly at risk from the enemy and from the cold; burying their friends, most of them yet to leave their teenage years; or the frequent sexual harassment by male officers. Although many of these young women were killed, often on their first day of combat, the majority returned from the front, only to face the usual constellation of trials with which every war veteran is familiar. Some continued their studies, but most were forced to work, even as they also started families or struggled to adjust to life as single parents. Nearly all of them were still in their early twenties, and despite the physical and mental scars left by the war, they had no time for complaints as the Soviet Union rebuilt following the war. Drawing on original interviews, diaries, and previously unpublished archival material, historian Lyuba Vinogradova has produced an unparalleled quilt of first-person narratives about these women's lives. This fascinating document brings the realities and hardships faced by the Red Army's female sniper corps to life, shedding light on a little-known aspect of the Soviet Union's struggles against Hitler's war machine. **The Sniper Anthology Snipers of the Second World War** Frontline For the first time, leading Second World War authors from around the world have collaborated on a definitive anthology of the greatest snipers of the war. From the sharpshooters of the American Civil War to Navy SEAL Chris Kyle, military snipers are legendary for their marksmanship and effectiveness in battle. The specialized role of the sniper developed among the ranks of the British Army over the course of World War I. As Martin Pegler shows in this wide-ranging study, the technique of sniping adapted rapidly to the conditions of static warfare that prevailed through much of the conflict. Pegler's account follows the development of sniping from the early battles of 1914, through the trench fighting and the attritional offensives of the middle years, to the renewed open warfare of 1918. Focusing on the British and German sniping war on the western front, Pegler also looks at how snipers operated at Gallipoli, Salonika, and on the Eastern Front. He also covers sniper training, fieldcraft, and counter-sniping measures in detail. *Sniping in the Great War* includes a full reference section detailing the sniping rifles of the period and assessing their effectiveness in combat. Also featured are vivid memoirs and eyewitness accounts that offer insight into the lethal skill of Great War snipers and their deadly trade. **Blood and Soil The Memoir of A Third Reich Brandenburg** Greenhill Books 'The author is a sympathetic narrator and he has told his story... with genuine verve and style... [His] South Tyrolean origins, and his role in the Brandenburg Division make the book very distinctive.' Roger Moorhouse. The Brandenburgers were Hitler's Special Forces, a band of mainly foreign German nationals who used disguise and fluency in other languages to complete daring missions into enemy territory. Overshadowed by stories of their Allied equivalents, their history has largely been ignored, making this memoir all the more extraordinary. First published in German in 1984, de Giampietro's highly personal and eloquent memoir is a vivid account of his experiences. In astonishing detail, he delves into the reality of life in the unit from everyday concerns and politics to training and involvement in Brandenburg missions. He details the often foolhardy missions undertaken under the command of Theodor von Hippel including the June 1941 seizure of the Duna bridges in Dunaburg and the attempted capture of the bridge at Bataisk where half of his unit were killed. Translated into English for the first time, this is a unique insight into a fascinating slice of German wartime history, both as an account of the Brandenburgers and within the very particular context of the author's South Tyrolean origins. Given the very perilous nature of their missions very few of these specially trained soldiers survived the Second World War and much knowledge of the unit has been lost forever. Widely regarded as the predecessor of today's special forces units, this fascinating account brings to life the Brandenburg Division and its part in history in vivid and compelling detail. **Northwest Africa Seizing the Initiative in the West** The assault on North Africa on 8 November 1942 led to a bitter conflict that finally culminated in the defeat of the Axis forces in Tunisia seven months later. The campaign was, for the U.S. Army, a school in coalition warfare and an introduction to enemy tactics.
