### KEY=SG - MONROE WILCOX

---

**Stargate SG1-04 City of the Gods** When a Crystal Skull is discovered beneath the pyramid of the Sun in Mexico, it ignites a cataclysmic chain of events that maroons SG-1 on a dying world. Xalótcán is a brutal society, steeped in death and sacrifice, where the bloody gods of the Aztecs demand tribute from a fearful and superstitious population. But that's the least of Colonel Jack O'Neill's problems. City of the Gods *Fandemonium Books* The team is stranded on a doomed world. Approaching the Possible The World of Stargate SG-1 *ECW Press* What is it about the TV show Stargate SG-1 that makes it so popular - so different from comparable series? A comprehensive introduction for new fans and a multi-season storyline and character development reference for longterm fans. Interesting facts and sidebars for each episode uncover not only the myths and science behind the stories but the writing, directing and special effects used to tell them. With exclusive interviews with cast members, writers, directors and special effects supervisors, this is THE story of the CGI wunderkind that is SG-1. Ark Ship *Double Dragon Pub* From the Author of Stargate: SG1 - CITY OF THE GODS "Humans are no longer one species," Ryl continued, idly rolling the wine in her glass. "Some of us regressed a million years and leaped into a future that might have been, becoming Metas. On Earth, the Rhesus plague deleted a huge chunk of genetic diversity in mankind, taking with it a very special gene. As you reach out to the stars, to explore new worlds, to seek the sanctuary planet, Gaia, you will meet other species and situations that telepaths cannot deal with. A dangerous toy, Dim5 travel, for it opens you to predation. As a small gift to help you on your journey, to warn you when the path to be trodden is perhaps not the safest one, twenty-five men and women from the twentieth century were taken, adjusted slightly and delivered to you. These are the C20s." "Alright, Meta, you called them gifts. Why gift them to us?" Captain Jassom asked. "They're early warning devices." The Meta downed the last of her wine, and, meeting his eyes, added grimly, "Believe me, you're going to need them." Welcome to a world where humanity's deadliest enemy is not a plague or warmongering alien species, but an insidious adversary that attacks from within. Welcome to the Ark Ship. The story picks up where The Rhesus Factor left off-in a manner of speaking. It also takes the leap from science 'faction' into science fiction, five hundred years into the future and a humanity that has been lucky enough to have received a helping-alien-hand after the environmental mess we made of Earth. However, while attitudes and awareness of responsibility towards planet and Life Force have changed dramatically, other things-includingpolitical skulduggery-have remained the same. In other words, the stage is set for a power play of staggering proportions that could well alter the fate of the universe. And the stakes get higher yet when it turns out that the major players themselves are mere puppets: this time the battle is for mankind's very soul. Sonny Whitelaw's new novel, Ark Ship, is an amazing journey into mankind's future. However, while populating the galaxy with quirky aliens and mysterious human mutations, Whitelaw resists the temptation of turning this into a flight of fancy, and therein lies the true strength of the novel. Plus ce que change, plus ce que reste la mjme chose-the fundamental familiarity of heroes and villains, hopes and desires, joys and grievances is what allows this white-knuckle ride to crawl under your skin. Feisty heroine Avalon Davo firmly anchors the story in our time; more than that, she bridges a five hundred year gap so convincingly that you will come away from this book believing that ark ships, Metas, Masters, and Others not only could be but will be the future. -Dr. Sabine C Bauer, author of Stargate SG-1: Trial by Fire The Rhesus Factor From the author of Stargate: SG-1 - CITY OF THE GODS] The news is full of global warming speculation. The US government is under attack for its stance on greenhouse emissions yet in the background, away from the camera's eye, the real world is in decay. The Rhesus Factor is fiction, but it is up to the reader to determine just how much so, for all the issues are real the research and outcomes are happening now, yet no one seems to notice or care. Have we really reached the point of no return Coupled with the latest scientific research conducted by Washington experts, this book is closer to fact than we realise and there is very little we can do to change the future. Four Dragons *Fandemonium Limited* "It was meant to be a soft mission, something to ease Doctor Daniel Jackson back into things after his time among the Ancients-- after all, what could possibly go wrong on a simple survey of ancient Chinese ruins? As it turns out, a whole lot. After accidentally activating a Goa'uld transport ring, Daniel finds himself the prisoner of Lord Yu, the capricious Goa'uld System Lord. Meanwhile, SGI's efforts to rescue their friend are hampered by a representative of the Chinese government with an agenda of his own to follow-- and a deep secret to hide. But Colonel Jack O'Neill is in no mood for delay. He'll go to any lengths to get Daniel back-- even if it means ignoring protocol and taking matters into his own hands"--Page 4 of cover. The Rhesus Factor *Double Dragon Pub* From the author of Stargate: SG-1 - City of the Gods The news is full of global warming speculation. The US government is under attack for its stance on greenhouse emissions yet in the background, away from the camera's eye, the real world is in decay. The Rhesus Factor is fiction, but it is up to the reader to determine just how much so, for all the issues are real the research and outcomes are happening now, yet no one seems to notice or care. Have we really reached the point of no return? Coupled with the latest scientific research conducted by Washington experts, this book is closer to fact than we realise and there is very little we can do to change the future. Marine engineer Kristin Baker advises the Pacific Island nation of Vanuatu on environmentally sustainable development projects. After meeting US Navy Commander Nicholas Page, she discovers her unwitting role in the Exodus Project, a scheme to protect the West's interests in the face of global warming. But what neither know is that a stealth virus has quietly become a global pandemic; one that health authorities cannot stop. For this virus hasn't emerged from an African jungle or a remote Chinese province, it's come from within our own DNA. Welcome to The Rhesus Factor. The Rhesus Factor is terrifyingly plausible, for it not only could happen, it is happening. The extraordinary, rapid growth of the Homo sapiens population, coupled with its voracious appetite for planetary dominance and resource consumption, had put every measurable biological and chemical system on earth in a state of imbalance... With nearly 6 billion human beings already crowded onto a planet in 1994 that had been occupied by fewerthan 1.5 billion a century earlier, something had to give. That 'something' was Nature. -Laurie Garrett: The Coming Plague Cause and effect, and for every action there is an equal and opposite reaction. Those principles are commonplace and indisputable. The Rhesus Factor by Sonny Whitelaw demonstrates with painful clarity that we ignore cause and effect at our peril. Perhaps the most frightening book of recent years, Whitelaw's thriller builds an all too plausible scenario of what might happen should our ecosphere decide to apply an equal and opposite reaction to our actions. Fast-paced and grounded in solid research, the book charts not only the breakdown of ecosystems in the wake of global warming, but the breakdown of society that will be an inescapable result. It is precisely in the devastating detail of the wreckage of everyday life that the book is at its most explosive. While Joe Voter may dismiss global warming as a theory that doesn't affect him, the very real prospect of losing home, livelihood, educational facilities and medical care is bound to strike a chord. This potential for far-reaching political impact was only confirmed when a major US publisher refused to go ahead with The Rhesus Factor; opting to take a conservative stance after the controversy surrounding the movie release of The Day After Tomorrow. -Sabine C Bauer, PhD, MA, author of "Trial By Fire" Hydra *Fandemonium Limited* Colonel Jack O'Neill and the Stargate SG-1 team undertake a new mission that prompts a journey to myriad worlds in their efforts to safeguard humanity from hostile alien forces. Original. Alliances *Fandemonium Books* SG-1 wanted the technology to save Earth from the Goa'uld but the mission failed. Now Washington wants Jack O'Neill's blood and Senator Robert Kinsey is forcing the issue. The Tok'ra mission may help O'Neill, but it is very risky because it means infiltrating a Goa'uld slave breeding farm to recruit humans wiling to join the Tok'ra. The Road to Damascus *Baen Books* When a ruthless political regime led by Vittori Santorini seizes control of a planet still recovering from an alien invasion, Kafari Khristinova takes on her former colleagues to free the world from the evil Santorini. Stargate SG1 Compendium *PediaPress* STARGATE SG-1: Moebius Squared Sg1-22 *Fandemonium Books* Past imperfect Stranded in Ancient Egypt at the end of the STARGATE SG-1 episode Moebius, Jack O'Neill, Sam Carter, Teal'c and Daniel Jackson are enjoying the simple lives they've forged in the years since Ra was driven from Earth. But life never stays simple for long... Back in the twenty-first century, trouble strikes the SGC. With one of their own people snatched by renegade Tok'ra, Colonel Cameron Mitchell leads the new SG-1 on a chase through time to rescue their friend - and to protect their future. But for Carter, Daniel and Teal'c, the greatest challenge is encountering themselves - and coming to terms with the consequences of their own choices. Moebius Squared "So this..." Cam gestured to the machinery. "This can only move us backwards and forwards in our own timeline." "That's my best guess," Sam said. She pushed her bangs back out of her face. Her hair had grown out and was now caught in a ponytail at the back of her neck. "Just like Janus' puddlejumper." "I don't even want to think about that thing," Daniel said. "Or anything else to do with Janus." He winced. "Sorry," Sam said. "Sore spot." "Damn right." Daniel had only been out of the infirmary for two weeks since his latest brush with one of Janus' inventions. This one had gotten him kidnapped and electrocuted. They all spun around as the gate began to activate. "Firing positions," Cam said, crouching down beside the control panel. If someone were making a grab for Ba'al's facility... The wormhole opened and stabilized, a glittering puddle of blue. Cam's radio crackled. "SG-1, this is Stargate Command. You are to return to Earth immediately." What the...? Cam chinned his radio on. "Stargate Command, we still have a lot to do here. Colonel Carter..." "Return immediately," the voice of Sergeant Harriman said firmly. "Stargate Command has been attacked." e-Pedia: Game of Thrones (season 6) The sixth season of the fantasy drama television series Game of Thrones was ordered by HBO on April 8, 2014, together with the fifth season *e-Pedia* This carefully crafted ebook is formatted for your eReader with a functional and detailed table of contents. The sixth season of the fantasy drama television series Game of Thrones premiered on HBO on April 24, 2016, and concluded on June 26, 2016. It consists of ten episodes, each of approximately 50-60 minutes, largely of original content not found in George R. R. Martin's A Song of Ice and Fire series. Some material is adapted from the upcoming sixth novel The Winds of Winter and the fourth and fifth novels, A Feast for Crows and A Dance with Dragons. The series was adapted for television by David Benioff and D. B. Weiss. HBO ordered the season on April 8, 2014, together with the fifth season, which began filming in July 2015 primarily in Northern Ireland, Spain, Croatia, Iceland and Canada. Each episode cost over \$10 million. This book has been derived from Wikipedia: it contains the entire text of the title Wikipedia article + the entire text of all the 593 related (linked) Wikipedia articles to the title article. This book does not contain illustrations. e-Pedia (an imprint of e-artnow) charges for the convenience service of formatting these e-books for your eReader. The gods and heroes of legend walk the land, but so do monsters—and it is up to one young woman to unravel the mysteries of the past before they destroy the future. Maggie Hoskie is a Dinétah monster hunter, a supernaturally gifted killer. When a small town needs help finding a missing girl, Maggie is their last best hope. But what Maggie uncovers about the monster is much more terrifying than anything she could imagine. Maggie reluctantly enlists the aid of Kai Arviso, an unconventional medicine man, and together they travel the rez, unraveling clues from ancient legends, trading favors with tricksters, and battling dark witchcraft in a patchwork world of deteriorating technology. As Maggie discovers the truth behind the killings, she will have to confront her past if she wants to survive. Welcome to the Sixth World. Stargate SG-1 [Roc](#) When a hostile force of aliens invades Earth through the Stargate and kidnaps a female officer, Colonel Jack O'Neill emerges from retirement to hunt down the serpent god Apophis and his unearthly legions Rebellion [ROC Hardcover](#) Unable to refuse a call to arms, commando Jack O'Neil, renegade Egyptologist Daniel Jackson, and the people of Abydos begin a desperate quest for freedom one million light years away from the planet Earth. Original. Wild Sun [Uproar Books](#) On a world enslaved, the last embers of hope are fading into an unrelenting darkness. Conquered and broken, the natives are forced to ravage their own lush planet of its natural resources—all for the glory of a mysterious empire they've never seen and barely comprehend. But not all light is lost. In the heart of one young woman alone, the gods have set a flame that cannot be extinguished. Cerrin remains as fierce and unyielding as the planet itself. And her chance to strike is fast approaching. Above the skies of her home world, soldiers of the empire are welcoming their new civilian commander—a vicious nobleman blinded by hidden ambitions. When the new face of darkness turns its eyes on Cerrin, the fate of countless worlds will change forever. (Second edition: updated, new preface by the authors) The Mythology of Grimm The Fairy Tale and Folklore Roots of the Popular TV Show [Penguin](#) GET INSIDE GRIMM. NBC's hit television series Grimm pits modern detective Nick Burkhardt of the Portland Police against a cast of terrifying villains—lifted directly from the pages of classic fairytales. In the world of the show, the classic stories are actually a document of real events, and Nick himself is descended from a long line of guardians, or Grimms, charged with defending humanity from the mythological creatures of the world. From The Big Bad Wolf to Sleeping Beauty, The Mythology of Grimm explores the history and folkloric traditions that come into play during Nick's incredible battles and investigations—tapping into elements of mythology that have captured our imaginations for centuries. A Matter of Honor [Fandemonium Limited](#) On a quest to bring colleagues home, O'Neill must face his past. Vimana [Penguin Books India](#) Meant for young adult. In Endless Twilight The Forever Hero [Macmillan](#) L.E. Modesitt, Jr.'s first major work was a trilogy of SF adventure novels published as paperback originals in the 1980s: Dawn for a Distant Earth, The Silent Warrior, and In Endless Twilight. Together they form The Forever Hero. Thousands of years in the future, Earth is a desolate ruin. The first human ship to return in millennia discovers primitive remnants of humanity. And among them is a boy of immense native intelligence and determination who grows up to become the force behind a plan to make Earth flower again. A shocking novel of what could happen if the fanatical defense of the environment crossed the line into deadly terror. When environmental consultant Jack McDavid's boss is killed in a shootout near the Capitol, McDavid becomes enmeshed in a diabolical plot behind the scenes of the environmental movement. TV Guide STARGATE SG-1 Two Roads The Price You Pay A Stargate SG-1 Novel Colonel Jack O'Neill and his SG-1 team find themselves stranded on a primitive world where the inhabitants pay homage to the Goa'uld by providing their best specimens as host bodies for their young. Roswell [Fandemonium Books](#) When a Stargate malfunction throws Colonel Cameron Mitchell, Dr. Daniel Jackson, and Colonel Sam Carter back in time, they only have minutes to live. But their rescue, by an unlikely duo - General Jack O'Neill and Vala Mal Doran - is only the beginning of their problems. Relativity Future Imperfect. When SG-1 encounter the Pack - a nomadic space-faring people who have fled Goa'uld domination for generations - it seems as though a trade of technologies will benefit both sides. Paris Nights My Year at the Moulin Rouge Paris Nights: My Year at the Moulin Rouge opens with a bored twenty-seven-year old Cliff Simon staring out at the ocean from his beachfront house, wishing he was somewhere else. Gavin Mills telephones him from Paris inviting him to join him at the iconic Moulin Rouge. Cliff sells everything he owns, leaving Johannesburg, South Africa for the City of Lights. He learns that his spot at the Moulin is not guaranteed and is forced to audition. Making the grade, he is put into can can school before he is allowed into the company. His adrenaline is pumping from excitement and fear, both of which he has faced before. Taking a look back, we see twelve-year-old Cliff helming a racing dinghy in the midst of a thunderstorm on the Vaal River. His father yells at him not to be a sissy, and he brings the boat back to shore alone. We then travel to London with his family escaping the tumult of Apartheid. He trains for the Olympics, but drops out, enrolling in the South African military where he subjected to harsh treatment and name calling Fokken Jood. After a honorable discharge, he works in cabaret at seaside resorts and is recruited as a gymnast in a cabaret, where he realizes that the stage is his destiny. The memoir fast forwards to Cliff's meteoric rise at the Moulin from swing dancer to principal in Formidable. Off stage he gets into fights with street thugs, hangs out with diamond smugglers, and has his pick of gorgeous women. With a year at the Moulin to his credit, doors open for him internationally and back in South Africa. He earns a starring role in Egoli: Place of Gold, and marries his long-time girlfriend, Colette. On their honeymoon to Paris, Cliff says, Merci Paris for the best year of my life. STARGATE ATLANTIS From the Depths Stargate Atlantis The Chosen With Ancient technology scattered across the Pegasus galaxy, the Atlantis team is not surprised to find it in use on a world once defended by Dalera, an Ancient who was cast out of her society for falling in love with a human. Video Sourcebook A Guide to Programs Currently Available on Video in the Areas Of: Movies/entertainment, General Interest/education, Sports/recreation, Fine Arts, Heal [Gale Cengage](#) From classroom aids to corporate training programs, technical resources to self-help guides, children's features to documentaries, theatrical releases to straight-to-video movies, The Video Source Book continues its comprehensive coverage of the wide universe of video offerings with more than 130,000 complete program listings, encompassing more than 160,000 videos. All listings are arranged alphabetically by title. Each entry provides a description of the program and information on obtaining the title. Six indexes -- alternate title, subject, credits, awards, special formats and program distributors -- help speed research. Valhalla Although unwilling participants, SG-1 soon finds itself fighting with the Vanir against its ancient foe--the brutal giants of Jotunheim--and feasting long into the night. But when dawn arrives, the team find itself in a very different world. First Amendment [Puffin HC](#) A reporter wants answers to the mysteries of StarGate, and Col. Jack O'Neill is only too happy to oblige, by taking him through the gate and into the heart of danger In the Tub 2 STARGATE SG-1 ATLANTIS Homeworlds Employment Law for Business [McGraw-Hill/Irwin](#) Addresses law and employment decisions with a management perspective. This text explains how to approach and manage legal employment decisions, and outlines the specific legal framework in which management decisions are made. Reading Stargate SG-1 [Bloomsbury Publishing](#) In 1997, the series "Stargate SG-1" first aired on American cable television and over the course of nearly nine seasons has developed its own unique mythological superstructure. "Stargate SG-1" focuses on the dynamic relationships among the show's main characters, the four-person first-contact team: SG-1. Each week they are taken to new planets where ancient human civilizations have been seeded as slave populations by the show's arch-villains, the parasitic, body-snatching Goa'uld. The series' concerns therefore range from ancient cultures and contemporary politics, to aliens and advanced technologies, all given life with award-winning special effects and anchored by the central icon of the Stargate. "Stargate SG-1" has blossomed into a series driven by fierce fan loyalty, with lively internet discussion groups, growing 'textual poaching' in fan fiction and art, and popular annual conventions. It has also generated a spin-off, "Stargate: Atlantis". In this welcome critical celebration, contributors discuss "Stargate SG-1's" characters, cinematic techniques, its themes and its place within science fiction television and film, along with its interaction with fan fiction, its Canadian setting, its ideological framing in the American point-of-view, and the tensions between its humanistic morality and its representation of military/political objectives. There is also assessment of the currently fledgling "Stargate: Atlantis". Written for both fans and scholars, the book also includes an episode guide to the first eight seasons of "Stargate SG-1" and to the first season of "Stargate: Atlantis", as well as a glossary of terms. Stargate [Longman](#) The mysterious StarGate is 10,000 years old. When a group of soldiers go through it they travel millions of miles to a world where they have to fight to stay alive. Will they live? Will they find a way to get back to Earth, or will they die?
