Sarny

Laurel Leaf Many readers of *Nightjohn* have wanted to know what happened to Sarny, the young slave whom *Nightjohn* taught to read. Here is Sarny's story, from the moment she leaves the plantation in the last days of the Civil War, suddenly a free woman in search of her sold-away children. Her search takes her to New Orleans and the home of the mysterious and remarkable Miss Laura. Like *Nightjohn*, Miss Laura changes Sarny's life, and she helps Sarny pass *Nightjohn*'s gift on to new generations. This riveting saga follows Sarny until her last days in the 1930s and gives readers a panoramic view of America in a time of trial, tragedy, and hoped-for change.

Research in Education Leading Schools to Success Constructing and Sustaining High- Performing Learning Cultures

SAGE Publications What's missing in education reform in the United States? The answer is leadership; specifically, the ability of school and district leaders to construct and continually nurture a culture of sustained high performance. A true leader needs to have not only a vision of the desired culture, but the skills and information necessary to make that vision a reality. Providing a combined 70 years of classroom and administrative experience, renowned authors James Guthrie and Patrick Schuermann offer a practice-based approach, grounded in research and theory, to achieving and maintaining an atmosphere of success in schools through effective leadership.

The Leader in Me How Schools and Parents Around the World are Inspiring Greatness, One Child at a Time

Simon and Schuster Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

A Match on Dry Grass

Community Organizing as a Catalyst for School Reform

Oxford University Press The persistent failure of public schooling in low-income communities constitutes one of our nation's most pressing civil rights and social justice issues. Many school reformers recognize that poverty, racism, and a lack of power held by these communities undermine children's education and development, but few know what to do about it. A Match on Dry Grass argues that community organizing represents a fresh and promising approach to school reform as part of a broader agenda to build power for low-income communities and address the profound social inequalities that affect the education of children. Based on a comprehensive national study, the book presents rich and compelling case studies of prominent organizing efforts in Chicago, New York City, Los Angeles, Denver, San Jose, and the Mississippi Delta. The authors show how organizing groups build the participation and leadership of parents and students so they can become powerful actors in school improvement efforts. They also identify promising ways to overcome divisions and create the collaborations between educators and community residents required for deep and sustainable school reform. Identifying the key processes that create strong connections between schools and communities, Warren, Mapp, and their collaborators show how community organizing builds powerful relationships that lead to the transformational change necessary to advance educational equity and a robust democracy.

A More Beautiful Question

The Power of Inquiry to Spark Breakthrough Ideas

Bloomsbury Publishing USA To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

Murder and Madness

The Myth of the Kentucky Tragedy

University Press of Kentucky The “Kentucky Tragedy” was early America’s best known true crime story. In 1825, Jereboam O. Beauchamp assassinated Kentucky attorney general Solomon P. Sharp. The murder, trial, conviction, and execution of the killer, as well as the suicide of his wife, Anna Cooke Beauchamp—fascinated Americans. The episode became the basis of dozens of novels and plays composed by some of the country’s most esteemed literary talents, among them Edgar Allan Poe and William Gilmore Simms. In *Murder and Madness*, Matthew G. Schoenbachler peels away two centuries of myth to provide a more accurate account of the murder. Schoenbachler also reveals how Jereboam and Anna Beauchamp shaped the meaning and memory of the event by manipulating romantic ideals at the heart of early American society. Concocting a story in which Solomon Sharp had seduced and abandoned Anna, the couple transformed a sordid murder—committed because the Beauchamps believed Sharp to be spreading a rumor that Anna had had an affair with a family slave—into a maudlin tale of feminine virtue assailed, honor asserted, and a young rebel’s revenge. *Murder and Madness* reveals the true story behind the murder and demonstrates enduring influence of Romanticism in early America.
