### Powerful Teaching

### Unleash the Science of Learning

John Wiley & Sons Unleash powerful teaching and the science of learning in your classroom Powerful Teaching: Unleash the Science of Learning empowers educators to harness rigorous research on how students learn and unleash it in their classrooms. In this book, cognitive scientist Pooja K. Agarwal, Ph.D., and veteran K-12 teacher Patrice M. Bain, Ed.S., decipher cognitive science research and illustrate ways to successfully apply the science of learning in classrooms settings. This practical resource is filled with evidence-based strategies that are easily implemented in less than a minute—without additional prepping, grading, or funding! Research demonstrates that these powerful strategies raise student achievement by a letter grade or more; boost learning for diverse students, grade levels, and subject areas; and enhance students' higher order learning and transfer of knowledge beyond the classroom. Drawing on a fifteen-year scientist-teacher collaboration, more than 100 years of research on learning, and rich experiences from educators in K-12 and higher education, the authors present highly accessible step-by-step guidance on how to transform teaching with four essential strategies: Retrieval practice, spacing, interleaving, and feedback-driven metacognition. With Powerful Teaching, you will: Develop a deep understanding of powerful teaching strategies based on the science of learning Gain insight from real-world examples of how evidence-based strategies are being implemented in a variety of academic settings Think critically about your current teaching practices from a research-based perspective Develop tools to share the science of learning with students and parents, ensuring success inside and outside the classroom Powerful Teaching: Unleash the Science of Learning is an indispensable resource for educators who want to take their instruction to the next level. Equipped with scientific knowledge and evidence-based tools, turn your teaching into powerful teaching and unleash student learning in your classroom.

## Boy Overboard

**Penguin Group Australia** A story of adventure, ball control and hope. Jamal and Bibi have a dream. To lead Australia to soccer glory in the next World Cup. But first they must face landmines, pirates, storms and assassins. Can Jamal and his family survive their incredible journey and get to Australia? Sometimes, to save the people you love, you have to go overboard.

## Ditch That Textbook

### Free Your Teaching and Revolutionize Your Classroom

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In **Ditch That Textbook**, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. **Ditch That Textbook** is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

## No Promises in the Wind (DIGEST)

Penguin From the Newbery Award-winning author of *Across Five Aprils* and *Up a Road Slowly* comes a tale of a brave young man's struggle to find his own strength during the Great Depression. "A powerfully moving story."—Chicago Daily News In 1932, American's dreams were simple: a job, food to eat, a place to sleep, and shoes without holes. But for millions of people these simple needs were nothing more than dreams. At fifteen years of age, Josh has to make his own way through a country of angry and frightened people. This is the story of a young man's struggle to find a life for himself in the most turbulent of times.

## More Tools for Teaching Content Literacy

## The Writing Revolution

### A Guide to Advancing Thinking Through Writing in All Subjects and Grades

John Wiley & Sons "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

## Motivation in Online Education

Springer This work explores and explicates learner motivation in online learning environments. More specifically, it uses a case-study approach to examine undergraduate students' motivation within two formal and separate online learning contexts. In doing so, it recognizes the mutually constitutive relationship of the learner and the learning environment in relation to motivation. This is distinctive from other approaches that tend to focus on designing and creating motivating environments or, alternatively, concentrate on motivation as a stable learner characteristic. In particular, this book identifies a range of factors that can support or undermine learner motivation and discusses each in detail. By unraveling the complexity of learner motivation in such environments, it provides useful guidelines for teachers, instructional designers and academic advisors tasked with building and teaching within online educational contexts.

## Classroom Instruction that Works with English Language Learners

ASCD Language has always been the medium of instruction, but what happens when it becomes a barrier to learning? In this book, Jane Hill and Kirsten Miller take the reenergized strategies from the second edition of Classroom Instruction That Works and apply them to students in the process of acquiring English. New features in this edition include \* The Thinking Language Matrix, which aligns Bloom's taxonomy with the stages of language acquisition and allows students at all levels to engage in meaningful learning. \* The Academic Language Framework, an easy-to-use tool for incorporating language-development objectives into content instruction. \* Suggestions for helping students develop oral language that leads to improved writing. \* Tips for Teaching that emphasize key points and facilitate instructional planning. Whether your students are learning English as a second language or are native English speakers who need help with their language development, this practical, research-based book provides the guidance necessary to ensure better results for all.
