technological age, computer literacy is important for everyone, and now learning the basics is easier than ever. This title engages students by combining a unique teaching approach with rich companion media. Creating Business Value with Information Technology: Challenges and Solutions Challenges and Solutions IGI Global Questions on the business value of information technology (IT), which have been raised by managers and researchers for the last decade, are not settled yet. Firms invest in IT to improve their business performance. However, some firms fail to improve their business performance while others succeed. The overall value of IT varies enormously from firm to firm. Computerization does not automatically create business value, but it is one essential component that should be coupled with organizational changes such as new strategies, new business processes, and new organizational structure. Creating Business Value with Information Technology: Challenges and Solutions aims to solicit the studies that yield significant new insights into the business value of IT. Index to American Reference Books Annual Information Technology for Management Digital Strategies for Insight, Action, and Sustainable Performance Wiley "Information Technology for Management" by Turban, Volonino, and Wood engages students with up-to-date coverage of the most important IT trends today. Over the years, this leading IT textbook had distinguished itself with an emphasis on illustrating the use of cutting edge business technologies for achieving managerial goals and objectives. The 10th Edition continues this tradition with coverage of emerging trends in Mobile Computing and Commerce, IT virtualization, Social Media, Cloud Computing and the Management and Analysis of Big Data along with advances in more established areas of Information Technology. Resources in Education Kirk-Othmer Concise Encyclopedia of Chemical Technology, 2 Volume Set John Wiley & Sons This is an easily-accessible two-volume encyclopedia summarizing all the articles in the main volumes Kirk-Othmer Encyclopedia of Chemical Technology, Fifth Edition organized alphabetically. The book also contains 5 Mock tests designed exactly as per the latest pattern of IIFT. The book also contains a General Awareness Question Bank containing 100+ MCQ's involving current issues similar to the ones asked in the actual exam. 10th European Conference on Information Systems Management ECISM 2016 Academic Conferences and publishing limited Wills Trusts & Estates, Tenth Edition Aspen Publishing Hailed as one of the best casebooks in legal education, the text combines interesting cases, thoughtful analysis, notes, images, and a clear organization for an excellent teaching tool. Retaining the late Jesse Dukeminier's blend of wit, erudition, and playfulness, the Tenth Edition uses cartoons, illustrations, case documents, and photographs to provide visual commentary that augments the wide-ranging cases and other readings. Sidebars on relevant but unique persons, places, and events provide thought-provoking and fascinating context. This casebook is not only fun to read, but fun for professors to teach. New to the Tenth Edition: All new section on electronic or digital wills and the emerging case law that has begun to accept them All new section on trust decanting, now recognized in 25 states, with attention to the breadth of statutory and case law treatments of decanting Reworked coverage of same-sex marriage in light of Obergefell v. Hodges and refreshed treatment of inheritance rights for cohabiting unmarried partners Updated and expanded coverage of wealth and income inequality Refreshed treatment, with updated case law, on undue influence Attention to new case law and statutory developments in will execution and reformation of wills for mistake Revised and clarified coverage of revocable trusts and other nonprobate transfers and the difficult relationship of state wealth transfer law with federal pension law Updated treatment of trust fiduciary law, including new case law and statutory developments on directed trusts, waiver of fiduciary duties, and trust investment law Revised treatment of creditor rights to beneficial interests in trust, with attention to choice-of-law rules and growing statutory recognition of self-settled asset protection trusts Wills, Trusts, and Estates, Tenth Edition Aspen Publishing Wills, Trusts, and Estates The TOGAF® Standard, 10th Edition - Leader's Guide Van Haren This document is a TOGAF Series Guide: The TOGAF Leader's Guide to Establishing and Evolving an EA Capability. It has been developed and approved by The Open Group, and is part of the TOGAF Standard, 10th Edition. Written for the Enterprise Architecture Capability Leader, the person who is tasked to lead the effort to establish or evolve an Enterprise Architecture Capability, the Leader's Guide presents advice on establishing an Enterprise Architecture Capability that aligns to a set of requirements and expectations that are specific to each enterprise. It proposes an approach for the standing-up and enhancement of an enterprise's Enterprise Architecture Capability, based upon established best practices. This approach follows a configured path through the TOGAF Architecture Development Method (ADM). This document: • Introduces key topics of concern • Defines the terms related to the topic • Shows the terms that are related to an EA Capability • Discusses what the Leader needs to know • Describes what the Leader should do with this knowledge It covers the following topics: • An introduction to the topic, including an assessment of the state of EA, definitions, and key concepts used in the Guide • A narrative that is a companion to the TOGAF ADM, that leads the reader through a series of topics and related steps to assist in stepping back from the current operational context to seek a broader perspective • How to adopt an EA Capability, including the preparation and initiation activities required to establish or enhance the EA Capability • A mapping of how the TOGAF ADM can be used for architecting and establishing an EA Capability Green Separation Processes Fundamentals and Applications John Wiley & Sons This timely book is the first to provide a comprehensive overview of all important aspects of this modern technology with the focus on the "green aspect". The expert authors present everything from reactions without solvents to nanostructures for separation methods, from combinatorial chemistry on solid phase to dendrimers. The result is a ready reference packed full of valuable facts on the latest developments in the field - high-quality information

otherwise widely spread throughout articles and reviews. From the contents: * Green chemistry for sustainable development * New synthetic methodologies and the demand for adequate separation processes * New developments in separation processes * Future trends and needs It is a "must-have" for every researcher in the field. Cross-Disciplinary Approaches to Action Research and Action Learning IGI Global The complexity of 21st century lifestyle makes collaborative research and learning essential for all of the population, both in well-resourced and socio-economically challenged regions. Cross-Disciplinary Approaches to Action Research and Action Learning is an advanced reference source including the latest scholarly research on the examination of the development of a community practice of research in order to improve problem solving in various fields. Upon purchase, you'll gain instant access to this eBook. Time limit The eBooks products do not have an expiry date. You will continue to access your digital ebook products whilst you have your Bookshelf installed. Strategic Human Resource Management Formulating and Implementing HR Strategies for a Competitive Advantage CRC Press The concept of strategic human resource management has developed widely in the last couple of years, especially because of the impact of human resources on the competitiveness of organizations. The development of human resource strategies involves taking into account their multiple mutual dependencies and the fact that they must be vertically integrated with the business strategy. These strategies define the intentions and plans related to the overall organizational considerations, such as organizational competitiveness, effectiveness or image, and to more specific aspects of human resources management, such as resourcing, motivating, valuating, learning and development, reward and employee relations. Strategic management of human resources provides a large perspective on the way

critical issues or success factors related to people can be addressed and how different concepts of strategic decisions are made, with long-term impacts on the behavior and success of the organization. The fundamental objective of human resource strategic management is to generate strategic capabilities by ensuring that the organization has the high-qualified, committed and well-motivated employees it needs to achieve and sustain the competitive advantage. The emergence of strategic human resource management (SHRM) is influenced by global competition and the corresponding search for sources of a sustainable competitive advantage. SHRM has achieved its prominence because it provides a means by which business firms can enhance the competitiveness and promote managerial efficiency. It facilitates the development of human capital that meets the requirements of a competitive business strategy, so that organizational goals and the mission of the organization will be achieved. The HRM system is defined as "a set of distinct but interrelated activities, functions and processes that are directed at attracting, developing, and maintaining (or disposing of) a firm's human resources." Many agree that HRM is the most effective tool which contributes to the creation of human capital, and in turn, contributes to organizational performance and the competitive advantage. This book puts emphasis on understanding the role of HRM between organizations and people and provides an analytical approach toward encompassing HRM, employment relations, and organizational behavior. As a management discipline, HRM draws insights, models and theories from cognate disciplines and applies them to real-world settings. Further, this book discusses how current theoretical perspectives and frameworks (e.g., those related to strategic competitiveness, knowledge management, learning organization, communities of practice, etc.) can be applied by reflective practitioners to create an eco-friendly organizational culture. Sport Science and Studies in Asia Quantum Computation and Quantum Information Cambridge University Press First-ever comprehensive introduction to the major new subject of quantum computing and quantum information. Handbook of Research on New Media Literacy at the K-12 Level: Issues and Challenges Issues and Challenges IGI Global Provides comprehensive articles on significant issues, methods, and theories currently combining the studies of technology and literacy. How Computers Work The Evolution of Technology Pearson Education Explains the structure and functions of microprocessors, hard drives, disk drives, tape drives, keyboards, CD-ROM, multimedia sound and video, serial ports, mice, modems, scanners, LANs, and printers. Your Career: How To Make It Happen Cengage Learning Packed with innovative resources readers can use now and throughout their careers, best-selling YOUR CAREER: HOW TO MAKE IT HAPPEN, 8e delivers a comprehensive, step-by-step guide to finding and keeping a job. Both empowering and encouraging, the book effectively breaks the daunting prospect of marketing oneself to prospective employers into a manageable process. Each chapter provides practical advice and actions that readers can apply to their own situation and goals. Guided activities for each part of the process help students build a strong foundation for current and future job searches, teaching them how to stand out from the crowd and be a strong candidate for jobs in a career field for which they are well suited and will enjoy. Ideal for a course on Professional/Career Development, Job Search, Resume Writing, and Interviewing, YOUR CAREER, 8e offers thorough coverage of career self-assessment, employer research, job search/interviewing, self-marketing, and career building strategies. The text also contains extensive instructions and examples of market-driven electronic, traditional, and Web resumes and cover letters. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. NAVS Animal Action Report Quantifiers in Action Generalized Quantification in Query, Logical and Natural Languages Springer Science & Business Media The database industry is a multi-billion, world-wide, all-encompassing part of the software world. Quantifiers in Action: Generalized Quantification in Query, Logical and Natural Languages introduces a query language called GQs—Generalized Quantification in Query. Most query languages are simply versions of First Order Logic (FOL). GQs are an extension of the idea of quantifier in FOL. GQs are a perfect example of a practical theory within databases. This book provides a brief background in logic and introduces the concept of GQs, and then develops a query language based on GQs. Using Query Language with Generalized Quantifiers, the reader explores the efficient implementation of the concept, always a primary consideration in databases. This professional book also includes several extensions for use with documents employing question and answer techniques. Designed for practitioners and researchers within the database management field; also suitable for advanced-level students in computer science. Risk and Choice in Maternity Care An International Perspective Elsevier Health Sciences This title is directed primarily towards health care professionals outside of the United States. This book explores the complex interrelationship between risk and choice in maternity care, taking a close look at how "high" and "low" risk are defined and what impact this has on a woman's ability to exercise informed choices throughout pregnancy. It offers an international collaboration that highlights different perspectives on debated issues, with chapters on maternity care in the UK, United States, Australia, and Ireland contributed by midwives, obstetricians, risk management experts, and sociologists. The aim of this book is to illustrate the changing reality of risk management as it relates to maternity care, and to highlight risk management concerns that may limit the choices available to pregnant women. Clarifies how applications of risk affect the choices pregnant women are able to exercise. Locates pregnancy risk considerations within the overall scheme of risk management. Analyzes practitioners' responses to the requirements of risk management. Presents risk management and choice from the risk manager's perspective, providing an understanding of risk as a "macro concept" in health care. Highlights medico-legal opinions on exercising choice, underscoring the need for accurate information and the ability to make informed decisions. Two chapters examine women's perspectives on risk labeling and the impact this has on choice - one in which the concept of safety within maternity care is discussed, and one in which the views of women with defined risk factors are explored and their ability to make choices is evaluated. Two chapters written by health service risk managers discuss the differences between an inner-city approach and a rural approach to the debate surrounding risk and choice. Discusses midwifery's focus on "normality" in childbirth and considers how this viewpoint

affects the risk dialogue, including a chapter on clinical trends in maternity care. An obstetric perspective on risk refutes criticisms of obstetricians as being more likely to impose risk labels and limit choices by discussing how risks and choices are presented and considered within obstetric care. Explores the debate surrounding a woman's right to have a home birth in Ireland, in light of its risk management climate. Two chapters discuss the collaboration between service users, midwives, and obstetricians in Australia regarding the organization and delivery of maternity care, as well as the views concerning risk among indigenous Australians. Perspectives from nurse-midwives in the U.S. discuss the complex relationships among nurse-midwives, obstetricians, and pregnant women with regard to choice, including views on risk within immigrant communities. An Occupational Therapist's Guide to Home Modification Practice SLACK Incorporated Occupational therapists require skills to access the daily living skills of their clients. This book uses a transactional approach to examine the home environment and the client. Current and future needs are assessed and this book addresses concerns and suggests solutions which will assist in helping the client remain in their own home.
