Bradt Travel Guides The wildlife of southern Africa is the major attraction for visitors to this popular region. This guide encompasses all countries south of the Zambezi and Kuene rivers: Botswana, Lesotho, Namibia, southern Mozambique, South Africa, Swaziland, and Zimbabwe. In the same format as the acclaimed Madagascar Wildlife it provides a colorful introduction to the mammals, birds, reptiles, and other wildlife, along with advice on how to make the most of a safari and even observing wildlife in everyday settings. The sheer range of habitats spanned by this region--grasslands, wetlands, desert, and bushveld--ensures that visitors have an almost unequalled opportunity for observing species in the wild, especially when the sealife and coral reefs of the coastline that fringes on two oceans are included. Accessible, comprehensive, and beautifully illustrated with around 300 photographs, this is a travelers' companion that will appeal both to the first-time visitor and the serious naturalist.

HISTORICAL DICTIONARY OF LESOTHO

Scarecrow Press This second edition of Historical Dictionary of Lesotho covers the full scope of Lesotho's ancient, colonial, and independence eras. It gives greater emphasis to the more recent period and brings the book fully up-to-date. This is done through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on civil society, key events, leaders, governmental, international, religious, and other private organizations, policies, political movements and parties, economic elements, and many other areas that have shaped the country's trajectory. This book is an excellent access point for students, researchers, and anyone wanting to know more about Lesotho.

INTERNATIONAL HANDBOOK OF READING EDUCATION

Greenwood Publishing Group This work represents the first attempt to study how the process of learning to read is being handled in a broad cross-section of First, Second, and Third World countries. Each of the 26 chapters focuses on a specific country, and was written by an international scholar indigenous to that land. All follow the same basic pattern, and examine such issues as language, reading policy, illiteracy, the rate and diagnosis of reading disabilities, reading readiness programs, teacher qualification procedures, sources and availability of materials, the financing of reading education, and research thrusts.

EDUCATION IN SOUTHERN AFRICA

A&C Black Education in Southern Africa is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of each country in the region. With chapters covering Botswana, Lesotho, Madagascar, Mozambique, Namibia, South Africa, Swaziland and Zimbabwe, the book critically examines the development of education provision in each country as well as local and global contexts. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

FERNS OF SOUTHERN AFRICA

A COMPREHENSIVE GUIDE

Penguin Random House South Africa This comprehensive guide to the ferns of southern Africa (covering South Africa, Swaziland, Lesotho, Botswana and Namibia) throws new light on a fascinating category of plants that is little known by the general public. User-friendly and accessible, it will enable quick and sure identification of all 321 ferns known to occur in the region. Each species features a double-page spread with a full plate of photographs (including close-ups); informative line drawings where necessary; clear text descriptions; tables that highlight differences between similar-looking species; and distribution maps based on years of intensive fieldwork. In addition, there are identification keys to families, genera and species. To compile this book the authors travelled extensively and took some 30 000 photographs, even finding several new species of fern. They are all treated in this guide – some described here for the first time. This unique and beautiful volume will become the standard reference book on the ferns of southern Africa.
