Hungover The Morning After and One Man's Quest for the Cure *Penguin*

"Bishop-Stall insists that hangovers... [are] worthy of a cure. After years of dogged research around the globe, he finds one — just in time for the holidays." —Washington Post "[An] irreverent, well-oiled memoir...Bishop-Stall packs his book with humorous and enlightening asides about alcohol." —The Wall Street Journal

One intrepid reporter's quest to learn everything there is to know about hangovers, trying all of the cures he can find and explaining how (and if) they work, all so rest of us don't have to. We've all been there. One minute you're fast asleep, and in the next you're tumbling from dreams of deserts and demons, into semi-consciousness, mouth full of sand, head throbbing. You're hungover. Courageous journalist Shaughnessy Bishop-Stall has gone to the front lines of humanity's age-old fight against hangovers to settle once and for all the best way to get rid of the aftereffects of a night of indulgence (short of not drinking in the first place). Hangovers have plagued human beings for about as long as civilization has existed (and arguably longer), so there has been plenty of time for cures to be concocted. But even in 2018, little is actually known about hangovers, and less still about how to cure them. Cutting through the rumor and the myth, *Hungover* explores everything from polar bear swims, to saline IV drips, to the age-old hair of the dog, to let us all know which ones actually work. And along the way, Bishop-Stall regales readers with stories from humanity's long and fraught relationship with booze, and shares the advice of everyone from Kingsley Amis to a man in a pub.

If you answered yes to any of these questions, there’s a good chance you’re a Midwesterner—or a Midwesterner at heart. Even if you answered no, you probably know someone who held the door for you from two football fields away. He likely waved at you and said, “Hey there,” like you organized the church bar crawl together. That was a Midwesterner in the wild. We understand that your interaction was strange—but it’s likely to get stranger. Don’t wait until they stick their head in your second-floor window to invite you over for a perch fry because they climbed on your roof to clean your gutters. There’s no need to pull the pepper spray; this species is helpful by nature. And the relationship could be very symbiotic—but only if you let it happen. And that’s where this book comes into play. Inspired by my comedy tours across the Midwest and life growing up in Wisconsin, this book is an exploration into my favorite region on Earth. Some may think the Midwest is just a bunch of bland flyover states filled with less diversity than a Monsanto monoculture. But scratch that surface with your buck knife and you’ll find rich cultures and traditions proving we’re more than just fifty shades of milk. So whether you’re a born-and-bred Midwesterner looking to sharpen your skill at apologies or a costal elite visiting the in-laws for the holidays, this book will help you navigate the Midwest, with everything from the best flannel looks to dating and mating rituals (yes, casserole is involved) to climbing the corporate
