The Hound of the Baskervilles [epubli](#) This is Book 5 of the series "The Chronological Sherlock Holmes". "The Hound of the Baskervilles" is the third of the four crime novels written by Sir Arthur Conan Doyle featuring the detective Sherlock Holmes. Originally serialised in "The Strand Magazine" from August 1901 to April 1902, it is set largely on Dartmoor in Devon in England's West Country and tells the story of an attempted murder inspired by the legend of a fearsome, diabolical hound of supernatural origin. Sherlock Holmes and his companion Dr. Watson investigate the case. This was the first appearance of Holmes since his intended death in "The Final Problem", and the success of "The Hound of the Baskervilles" led to the character's eventual revival. In 2003, the book was listed as number 128 of 200 on the BBC's The Big Read poll of the UK's "best-loved novel." Many of the Baskerville family have died mysteriously. People say that they were killed by a devil-like creature, the hound of the Baskervilles! Can that be true? And can Sherlock Holmes save the new owner of Baskerville Hall from a terrible death? **The Hound of the Baskervilles Another Adventure of Sherlock Holmes, with "The Adventure of the Speckled Band"** [Broadview Press](#) The Hound of the Baskervilles (1901-02) is Arthur Conan Doyle's most celebrated Sherlock Holmes adventure. At the end of the yew tree path of his ancestral home, Sir Charles Baskerville is found dead. Close by are the footprints of a gigantic hound. Called to investigate, Holmes seems to face a supernatural foe. In the tense narration of the detective's efforts to solve the crime, Conan Doyle meditates on late Victorian and early twentieth-century ideas of ancestry and atavism, the possible biological determination of criminals, the stability of the British landed classes, and the place of the supernatural. Historical documents included with this fully-annotated Broadview edition help contextualize the novel's debates and reveal its cultural and literary significance as a supreme instance of early detective fiction. Also included is the Conan Doyle short story "The Adventure of the Speckled Band." **The Hound of Baskervilles Sherlock Holmes 5** The Hound of the Baskervilles was written in 1901, eight years after Sir Arthur Conan Doyle had already 'killed off' Sherlock Holmes in his story, "The Final Problem." After of The Hound of the Baskervilles proved such a great success, though, Doyle decided to bring the character back to life in 1903, with the story "The Adventure of the Empty House." Luckily, "The Final Problem" contained enough gaps that Doyle could plausibly claim that Sherlock Holmes had faked his own death. The novel was published in serial form from 1901 to 1902, in the Strand. It is the third out of four novels which Doyle would write about Holmes. It continues to enjoy much success today, and is considered by some Sherlock Holmes scholars to be Doyle's best work. The most recent such reinvention of this story can be seen in the BBC series *Sherlock*, although this retelling very much differs from the original novel. Doyle was inspired to write the novel after staying with his friend, Bertram Fletcher Robinson, in 1901. He named the character Sir Henry Baskerville after Robinson's gardener, named Harry Baskerville. Doyle had met Robinson on a return voyage from South Africa, and Robinson, a correspondent for the *Daily Express*, told him about a legend from his home region of Devon, England. Later, Doyle would write to his publisher that he felt he needed Robinson's name to appear next to his own. "I can answer for the yarn being all my own in my own style without dilution, since your readers like that. But he gave me the central idea and the local colour, and so I feel his name must appear," Doyle wrote. Robinson showed Doyle the moor, now known as Dartmoor, upon which the story is based. It is the largest open space in the southern region of England. In a letter to his mother, Mary, Doyle commented that the moor was "a great place, very sad & wild, dotted with the dwellings of prehistoric man, strange monoliths and huts and graves." The atmosphere of a place uninhabited by man is pervasive in the story, and marks a difference from many of Doyle's other Sherlock Holmes stories, insofar as it is set in the country rather than in London. **SHERLOCK HOLMES The Hound of the Baskervilles (Dover Graphic Novel Classics)** [Courier Corporation](#) Provides a graphic novel adaptation of the classic in which Sherlock Holmes sets out to discover the reason behind the strange murders at Baskerville Hall. **The Leavenworth Case** [Graphic Arts Books](#) One of New York City's richest retirees is found dead in his library, making his family and closest friends the focus of the investigation. In graphic novel format. **The Hound of the Baskervilles (Sherlock Holmes #5) (Annotated)** *The Hound of the Baskervilles* is the third of the crime novels written by Sir Arthur Conan Doyle featuring the detective Sherlock Holmes. Dr. James Mortimer asks Sherlock Holmes for advice following the death of his friend, Sir Charles Baskerville. Sir Charles was found dead on the grounds of his Devonshire estate, Baskerville Hall. Mortimer now fears for Sir Charles's nephew and sole heir, Sir Henry Baskerville, who is the new master of Baskerville Hall. The death was attributed to a heart attack, but Mortimer is suspicious, because Sir Charles died with an expression of horror on his face, and Mortimer noticed "the footprints of a gigantic hound" about 50 yards from where Sir Charles lay dead. The Baskerville family has supposedly been under a curse since the era of the English Civil War when ancestor Hugo Baskerville allegedly offered his soul to the devil for help in abducting a woman and was reportedly killed by a giant spectral hound. Sir Charles believed in the curse and was apparently fleeing from something in fright when he died. The primary mystery involves the death of Sir Charles Baskerville at his estate in the beautiful countryside of Devon, but interestingly, the author also includes a number of mini-mysteries which I found engaging and helped keep my interest throughout. In fact, the story commenced with a mini-mystery involving the identity of the owner of a walking cane left in Holmes' office. Dr. Watson produced a very sound analysis of what type of person the owner might be by observing such things as wear and tear and bite marks on the cane itself. However, after Watson's seemingly brilliant observations - Holmes then proceeded to critically tear apart Watson's assumptions and arguments, piece by piece, until the poor man's position was totally and irrevocably obliterated. This seems to be a bit of a theme - if I was Dr. Watson, not sure I'd hang around with a bloke like Sherlock. Yet, despite this condescending treatment, Dr. Watson seems to have almost a sycophantic relationship with Sherlock. It must be said though, Sherlock Holmes is a very impressive character. His lines of reasoning and modus operandi are always logical and altogether brilliant. To me, his powers of deduction always seemed to be sensible, he used very linear arguments and despite the red herrings lying about the place - he made complete sense. The narration by Dr. Watson is a great tool used by the author to not only explain what was going on but to re-empathise parts of the narrative that may be a bit too complex (for my addled brain anyway), but he also used instruments such as Dr. Watson's written reports to Holmes, to further cement the plot into the readers mind. **The Hound of the Baskervilles (Sherlock Holmes #5)**

The rich landowner Sir Charles Baskerville is found dead in the park of his manor surrounded by the grim moor of Dartmoor, in the county of Devon. His death seems to have been caused by a heart attack, but the victim's best friend, Dr. Mortimer, is convinced that the strike was due to a supernatural creature, which haunts the moor in the shape of an enormous hound, with blazing eyes and jaws. In order to protect Baskerville's heir, Sir Henry, who's arriving to London from Canada, Dr. Mortimer asks for Sherlock Holmes' help, telling him also of the so-called Baskervilles' curse, according to which a monstrous hound has been haunting and killing the family males for centuries, in revenge for the misdeeds of one Sir Hugo Baskerville, who lived at the time of Oliver Cromwell. **The Hound of the Baskervilles - A Sherlock Holmes Graphic Novel** Andrews UK

DEMON DOGS. PHANTOM CANINES FROM HELL. THEY DO EXIST! One nearly scared to death eyewitness proclaimed after the beast loomed in front of him: "It was the biggest bloody 'dog' I have ever seen in my life!" Legends of black dogs and phantom hounds are widespread throughout the United Kingdom as well as in the United States. Though presented in novelized form, Sherlock Holmes creator Sir Arthur Conan Doyle based his most popular detective thriller on true accounts of a mysterious black beast with blazing red eyes who is said to have attacked those crossing the moors. Some were lucky to have gotten away with their lives. Perhaps there are others who disappeared and their bodies were not accounted for. Who can say for certain? In addition to presenting the number one classic detective thriller of all time in its unabridged, fully illustrated, form, this work goes way beyond the boundaries of fiction into the realm of the supernatural. Today's top paranormal researcher's delve into stories of the bloody beast who comes in various sizes and apparently even has the ability to shape shift into a more hideous creature when cornered. As England's leading cryptozoologist, Nick Redfern, points out, "There is one important factor to remember: Conan Doyle did not invent Britain's phantom, fiery-eyed hounds. He merely brought them to the attention of the public in spectacularly entertaining style. In reality, the creature had been prowling around the British countryside for centuries; and particularly so Dartmoor - the fictional home of the world's most famous hound of horror in all its awful glory." According to Redfern the same area the imaginary Sherlock Holmes conducted his investigation around, is also, in reality, rife with ancient tales and legends of a group of diabolical and unholy creatures known as the Wisht Hounds - fearsome devil-dogs with glowing eyes and large fangs. "They are said to have a taste for both human flesh and human souls, and ride with the Devil himself, as he crosses the windswept wilds of Dartmoor late at night - and atop a headless, black horse, no less." According to legend, the Wisht Hounds inhabit the nearby Wistman's Woods - a sacred grove where, in centuries past, ancient druids held pagan rituals in honor of a veritable multitude of old Earth gods and goddesses. Here are dozens of accounts of devilish, gruesome, repugnant "monsters" - some of whom stand eight feet tall - who are said to be Satan's watch dogs protecting the portals to another dimension or realm where no mortal should be made to tread! **DRACULA (Dover Graphic Novel Classics)** Courier Corporation This abridged, easy-to-read, and illustrated version of the granddaddy of all the modern vampire stories offers a gripping journey into the past, recounting a Victorian-era struggle against an ancient form of evil. **The Hound of the Baskervilles** Ratna Sagar P Limited The Baskerville family curse tells of how a terrifying, supernatural hound roams the moors around Baskerville Hall and preys on members of the family in revenge for a terrible crime committed by one of their ancestors. It would be hard to nominate a more well-known character in English literature than that of the austere analytical detective Sherlock Holmes, created by Arthur Conan Doyle in the late 1880s. Holmes, alongside his friend and biographer Dr. John Watson, appeared in two initial novels and dozens of short stories serialized in popular magazines, attracting a devoted, almost fanatical following which continues to this day. *The Hound of the Baskervilles*, serialized in 1901-1902, was the third novel featuring Holmes and Watson. Sherlock Holmes is consulted in his Baker Street apartment by Dr. Mortimer, a physician now living on the fringes of

Dartmoor. He gives Holmes and Watson an account of a centuries-old legend, in which a hell-hound slaughtered the debauched heir of the Baskerville family who had been in lecherous pursuit of an innocent maiden across the moor. The same hound is reputed to have harrowed several of the subsequent heirs to the estate. This ancient story might be dismissed as mere fancy, but for the fact that the elderly Sir Charles Baskerville recently died in very mysterious circumstances, apparently fleeing in terror from something which came from the moor. Dr. Mortimer is concerned that the new heir, Sir Henry, just returned from Canada, may be at risk from this supernatural beast. Holmes is intrigued, but being too busy to go himself, sends Dr. Watson to accompany Sir Henry to the ancestral home on Dartmoor and to report anything suspicious. The Hound of the Baskervilles is arguably the best, and certainly the most popular, of Doyle's novels featuring his iconic detective. It has been translated into almost every language in the world and been the basis of dozens of movies (starting as early as 1914), radio plays and comic books. If you like Sherlock Holmes, you absolutely cannot miss this edition of the book. It's a masterpiece to read and collect along with your favorite books. Holmes predicts the appearance of James Mortimer, owner of the found object and a convenient entrée into the baffling curse of the Baskervilles. **The Hound of the Baskervilles The Sherlock Holmes Illustrated Series - Volume 5 Sherlock's Home The Empty House** [Andrews UK Limited](#) 1903 saw The Adventure of The Empty House and the return of Sherlock Holmes to 221b Baker Street where he explains the deception of his death at the Reichenbach Falls to his faithful friend Dr John Watson. 2012 sees The Crime of The Empty House where the former home of Sir Arthur Conan Doyle, Undershaw, lies in disrepair and the threat of being destroyed forever. Commissioned by Sir Arthur Conan Doyle himself, Undershaw was witness to the creation of many of his most famous works, including The Hound of the Baskervilles and The Return of Sherlock Holmes. It is a building deserving preservation for the British nation, and indeed the world, for all time. Sadly, the building is currently under threat from the property developers who wish to divide the house into 3 separate units and build a further 5 alongside. Planning permission for development has already been approved by Waverley Borough Council. The Undershaw Preservation Trust (UPT), with Mark Gatiss [BBC Sherlock] as Patron, is dedicated to the preservation and protection of this important literary building and are campaigning to get this decision overturned, so the house can be restored to its original glory and enjoyed as the single dwelling Sir Arthur Conan Doyle intended it to be. This book is a collection of short Sherlock Holmes stories and poems written by fans from around the world in support of the Save Undershaw campaign - even the cover has been designed by fans. Royalties from the book go towards the UPT to preserve this wonderful house for future generations of Doyleans, Sherlock Holmes enthusiasts and literary fans of all kinds. More information on the Save Undershaw campaign can be found on their website: www.saveundershaw.com. **The Hound of the Baskervilles Annotated** We owe The Hound of the Baskervilles (1902) to Arthur Conan Doyle's good friend Fletcher "Bobbles" Robinson, who took him to visit some scary English moors and prehistoric ruins, and told him marvelous local legends about escaped prisoners and a 17th-century aristocrat who fell afoul of the family dog. Doyle transmogrified the legend: generations ago, a hound of hell tore out the throat of devilish Hugo Baskerville on the moonlit moor. Poor, accursed Baskerville Hall now has another mysterious death: that of Sir Charles Baskerville. Could the culprit somehow be mixed up with secretive servant Barrymore, history-obsessed Dr. Frankland, butterfly-chasing Stapleton, or Selden, the Notting Hill murderer at large? Someone's been signaling with candles from the mansion's windows. Nor can supernatural forces be ruled out. Can Dr. Watson--left alone by Sherlock Holmes to sleuth in fear for much of the novel--save the next Baskerville, Sir Henry, from the hound's fangs? Many Holmes fans prefer Doyle's complete short stories, but their clockwork logic doesn't match the author's boast about this novel: it's "a real Creeper!" What distinguishes this particular Hound is its fulfillment of Doyle's great debt to Edgar Allan Poe--it's full of ancient woe, low moans, a Grimpen Mire that sucks ponies to Dostoyevskian deaths, and locals digging up Neolithic skulls without next-of-kins' consent. "The longer one stays here the more does the spirit of the moor sink into one's soul," Watson realizes. "Rank reeds and lush, slimy water-plants sent an odour of decay ... while a false step plunged us more than once thigh-deep into the dark, quivering mire, which shook for yards in soft undulations around our feet ... it was as if some malignant hand was tugging us down into those obscene depths." About the Series: The University of Life Library was founded to publish a uniform collection of beautiful, heirloom-quality volumes of the great works of politics, philosophy, economics, science and fiction, the reading of which could provide all people not only with great enjoyment but, at minimal expense, with the benefits of a traditional, classical education. The Library's titles are chosen to illustrate, reinforce, and promote further inquiry into those concepts and values that originated in the civilizations of ancient Greece and Rome and, being expanded and improved-upon by the greatest minds of Europe and the Americas over many centuries, particularly during the Enlightenment, form the bedrock of Western civilization. Being the embodiment of the virtues enabling the creation of the United States of America, that nation most influenced by the Enlightenment's illumination, and founded upon its precepts, each title opens with an illustration of Columbia, based on John Gast's iconic 1872 painting, American Progress. Additionally, each title is illustrated with related scenes. We hope our editions can provide entertainment, education and inspiration to the young and mature alike. We strive to provide a collection of well-loved, widely-varied works that will take pride of place on the bookshelves of families and businesses for generations

I stood upon the hearth-rug and picked up the stick which our visitor had left behind him the night before. It was a fine, thick piece of wood, bulbous-headed, of the sort which is known as a "Penang lawyer." Just under the head was a broad silver band nearly an inch across. "To James Mortimer, M.R.C.S., from his friends of the C.C.H.," was engraved upon it, with the date "1884." It was just such a stick as the old-fashioned family practitioner used to carry-dignified, solid, and reassuring. "Well, Watson, what do you make of it?" Holmes was sitting with his back to me, and I had given him no sign of my occupation. "How did you know what I was doing? I believe you have eyes in the back of your head." "How did you know what I was doing? I believe you have eyes in the back of your head." "I think," said I, following as far as I could the methods of my companion, "that Dr. Mortimer is a successful, elderly medical man, well-esteemed since those who know him give him this mark of their appreciation." **English Readers: the Hound of the Baskervilles** English Readers Level 3 Sir Charles Baskerville is dead.
