KEY=QUESTIONS - EZRA BOOKER

The Kids' Book of Questions

Workman Publishing Kids love to be asked questions almost as much as they love to ask them. And asking is important—parents know the value of having meaningful conversations with their kids, especially as family time is under continuous assault from gadgets and devices. Now the book that solves those needs is back—announcing a fresh new edition of The Kids' Book of Questions. Including subjects like the Internet, school violence, and climate change, the book remains a timeless treasure. Here is a collection of questions designed to challenge, entertain, provoke, and expand young minds. These are the questions that let kids discover how they feel; let people know what they think; raise issues that everyone loves to discuss. Gregory Stock, author of the original #1 bestselling Book of Questions, took his question-asking ways into schools and came back with over 200 questions, including Thorny dilemmas: Would you rather have a job you didn't like that paid a lot or a job you loved that paid just enough to get by? Embarrassing challenges: Would you kiss someone in front of your whole class for \$250? Provocative ideas: What things do you think your parents do just to set an example for you? Intriguing fantasies: If you could text any famous person and be sure they'd read and answer your text, who would you write to and what would you say? There is only one requirement: Give an honest answer. Then be amazed to see where one little question leads.

The Book of Questions

Revised and Updated

Workman Publishing Company The phenomenon returns! Originally published in 1987, The Book of Questions, a New York Times bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child's college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? The Book of Questions may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own.

The Kids' Question & Answer Book

Price Stern Sloan Provides answers to a variety of questions about the world around us including "Why do cats have whiskers?" "Why do birds sing?" "What are UFOs?" and others.

The Book of What If...?

Questions and Activities for Curious Minds

Simon and Schuster From the creators of the What If...? Conference comes a quirky book that encourages kids to explore and engage with the world around them by asking more than eighty wild, absurd, and thought provoking questions. What if a book didn't just tell you how to think or what to know, but rather encouraged you to think for yourself? What if there was a book that focused on asking questions instead of just answering them? The Book of What If...? does just that! What if you lived on a floating city? What if politicians were kids? What if broccoli tasted like chocolate? What if you could explore outer space? By asking these fun, open-ended questions, this book fosters greater critical thinking skills and gives kids a space to interact by breaking out a notebook to draw or write out their personal reactions, or engage in

entertaining exercises with family and friends. Plus, sidebars deepen the investigation with peer-to-peer insights, historical and current profiles, real-life examples, and more, making for unlimited learning opportunities! Divided into sections—history, people, stuff, and nature—along with four introductory texts to open up a dialogue about why it's important to be inquisitive and to always ask questions, *The Book of What If...?* is sure to be a hit with kids, teachers, and parents alike. So ask a question and let the answers lead you on an exciting journey filled with endless opportunities to learn!

Questions Children Ask and How to Answer Them

Random House *Where did I come from? What happens when you die? What's divorce?* From the moment children can formulate questions they begin to bombard their parents with "Why?" "What?" "Where" and "How?" Naturally curious they often catch us off guard leaving us unsure of how to answer their questions with an appropriate response. Fully revised and updated for the digital age, this new edition of Dr Miriam Stoppard's essential parenting manual provides age-appropriate answers to a huge range of challenging questions. Drawing from extensive research in child development and specifically on what children can handle at each age, Stoppard offers parents a foundation on which they can build their own answers as their child's understanding expands.

My First Book of Questions and Answers

Christian Focus This book explains the Christian faith to young children in bite-sized chunks. "It was a great pleasure to watch our daughter learn these answers. As usual teaching a child great truths enriched our thinking and worship." John and Noel Piper

201 Questions to Ask Your Kids

201 Questions to Ask Your Parents

Harper Paperbacks *201 Questions to Ask Your Kids* Do you have trouble talking to your kids? Does a successful conversation with your child consist of one-word responses or abrupt physical acknowledgments? Does your son or daughter get upset at the most innocent questions? Join the club. Unfortunately, communicating well with kids is something every parent desires but few achieve. We love our children, but talking to them in a meaningful manner isn't always easy. The questions in this book are designed to help. No matter what age or sex your children, no matter how many children you have, no matter how good or bad your current parent/child relationship, this simple "game" will get your family talking more. And

when you're talking--really talking about emotions and fears and attitudes--you'll be learning about each other as individuals and growing closer together as a group. An Introduction For Kids Wouldn't it be fun to find out more about what your father or mother was like when he or she was a kid? Or get to tell your parents which of their friends you think looks dorkiest? Wouldn't conversation be more interesting if you and your family traded unexpected questions and answers at dinner rather than just talked about what homework did or didn't get done? There are a lot of great things to talk about that no one ever brings up because we usually think conversation is serious rather than a way of being playful. Of course, conversation should be about serious things some of the time--some of the questions in this book are about very serious topics. But other times, questions should be asked just to create new ways to think about things, look back on our lives, or imagine what life would be like if we could design in any way we wanted. In fact, I wrote this book because I think talking can be terrific fun, and even talking to your parents and brothers or sisters can be a kind of great game. Everyone can get to know each other and laugh a lot--and be amazed from time to time. No one wins or loses, but there is an element of surprise in finding out personal information about parents--and sharing some of your ideas, daydreams, and opinions with them. My idea is to think of some of the world's most interesting questions that parents and kids could talk about and give everyone the chance to pick the ones they'd like to hear about. Each person picks a question to ask and then answers a question when his or her turn comes around. All you have to do is choose from the list under 201 Questions to Ask Your Parents and ask any question you want. Your parents can take as long or as short a time they want to answer. Any you can all discuss the topic if you like. But then they go into their section of the book and ask you questions. Some of them might not be so interesting, but others--like asking you who is the meanest kid you know--might be cool to think about and share with them. They'll learn a lot about what you think are ways kids act nasty! You can wiggle out of any two questions that don't interest you or are embarrassing--but no more than that. It's good if a question makes you squirm a little; that means you either haven't thought about it before, or you have but you haven't wanted to deal with it. But why not try out and answer? Pick a set length of time to play for--and my guess is you'll want to extend it. These questions get addictive! You can play them at the dinner table, or after dinner, or on a car trip, or anytime you feel like hearing what your parents say about something. So, this is a book about how to have interesting and often funny conversations with your family. It's a way to avoid dead, boring silences and fill the time instead with questions and answers that everyone will enjoy thinking about. I know that in my family, it is too easy for us to get stuck talking about practical things like who has to be taken where the next day. That isn't particularly fun. It doesn't let me in on what my kids are thinking, and it doesn't help my two teenagers learn things that might help them understand me a little better. An ingenious book that speaks to both parents and their kids. 201 QUESTIONS TO ASK YOUR KIDS/201 QUESTIONS TO ASK YOUR PARENTS is two books in one. Open it from one side, and it provides parents with 201 questions for their children intended to spark discussion, help reveal who their children really are, and help children think about themselves and the world in new and useful ways. Turn it over, and there are 201 questions children can ask back to

their parents. Devised as an interactive "game," this is a book that can get any family talking-really talking about facts and fears and attitudes. An ingenious book that speaks to both parents and their kids. 201 QUESTIONS TO ASK YOUR KIDS/201 QUESTIONS TO ASK YOUR PARENTS is two books in one. Open it from one side, and it provides parents with 201 questions for their children intended to spark discussion, help reveal who their children really are, and help children think about themselves and the world in new and useful ways. Turn it over, and there are 201 questions children can ask back to their parents. Devised as an interactive "game," this is a book that can get any family talking-really talking about facts and fears and attitudes.

Just Because

Candlewick Press (MA) Curious minds are rewarded with curious answers in a fantastical bedtime book by Mac Barnett and Isabelle Arsenault. Why is the ocean blue? What is the rain? What happened to the dinosaurs? It might be time for bed, but one child is too full of questions about the world to go to sleep just yet. Little ones and their parents will be charmed and delighted as a patient father offers up increasingly creative responses to his child's nighttime wonderings. Any child who has ever asked "Why?" -- and any parent who has attempted an explanation -- will recognize themselves in this sweet storybook for dreamers who are looking for answers beyond "Just because."

The Big Book of Would You Rather Questions for Kids

My Little Book of Big Questions

Prestel Junior Presents a collection of questions for young readers to go on a dreamlike wander through the boundaries of possibility and reality.

I Have a Question about Death

A Book for Children with Autism Spectrum Disorder or Other Special Needs

Jessica Kingsley Publishers Death is a difficult topic for any parent or educator to explain to a child, perhaps even more so when the child has Autism Spectrum Disorder or other Special Needs. This book is designed specifically to help children with these additional needs to understand what happens when someone dies. The first book of its kind, I Have a Question about Death uses straightforward text and images to walk children through what it means when someone dies, as well as ways they might want to react or to think about the person. Using clear illustrations throughout and with information for parents and guardians, this book is essential for families with a child aged 5-11 with Autism Spectrum Disorder or other special needs.

The Handy Answer Book for Kids (and Parents)

Visible Ink Press Kids ask the darndest things . . . and here are the answers—all in one helpful book! Anyone who has ever been a kid, raised a kid, or spent any time with kids knows that asking questions is a critical part of growing up. Kids have curious minds and they come up with some very interesting questions. But the truth is adults don't always know the answers. The Handy Answer Book for Kids (and Parents) comes to the rescue. Written with a child's imagination in mind, this easy-to-understand book is a launching pad for curious young minds and a life raft for parents at wits end. It addresses nearly 800 queries with enough depth and detail to both satisfy the curiosity of persistent young inquisitors and provide parents with a secure sense of a job well done. It'll equip every parent for those difficult, absurd, or sometimes funny questions from their kids, such as Is there life on Mars? Do rivers ever dry up? Why are there wars? Is there such a thing as a funny bone? Why do dogs bark? Why is the sky blue? Why do people have to grow old? Why do people speak different languages?

Big Book of Answers (A TIME For Kids Book)

Time For Kids The TIME For Kids Big Book of Questions series is now bigger and better than ever with this latest addition! In a great new oversized format, TIME For Kids Big Book of Answers satisfies the most curious kids with answers to the questions they commonly ask but adults can rarely answer. Questions like "How does popcorn pop?", "Where did the Titanic sink?" and "Why are our eyes different colors?" are grouped into easy-to-navigate categories such as animals, humans, history, science and sports. Colorful photos, dynamic graphics, and simple text help kids discover 1,001 amazing facts to impress their parents, teachers, friends...and anyone else who will listen! span

The Complete Book of Questions

1001 Conversation Starters for Any Occasion

Zondervan 1001 Conversation Starters for Any OccasionMost of us realize that raising questions is a powerful way to get interesting dialogue. But asking good ones can be another matter—they're not always that easy to think up! That's where The Complete Book of Questions comes in. This book is one big compilation of questions—1001 of them you can use to launch great conversations in almost any context. And many of these questions are likely to trigger other questions you may also wish to discuss. Think of this book as a tool to spark interaction—and to know and understand others, and yourself, better. The questions in The Complete Book of Questions have been divided into ten categories for easy reference as shown in the chart below. There are probably as many ways to put this book to use, as there are questions within it! So be creative. Experiment with these 1001 questions in different contexts—and be sure to make the most of the conversations that ensue!

Can a Bee Sting a Bee?

And Other Big Questions from Little People

Harper Collins In the spirit of Schott's Miscellany, The Magic of Reality, and The Dangerous Book for Boys comes Can a Bee Sting a Bee?—a smart, illuminating, essential, and utterly delightful handbook for perplexed parents and their curious children. Author Gemma Elwin Harris has lovingly compiled weighty questions from precocious grade school children—queries that have long dumbfounded even intelligent adults—and she's gathered together a notable crew of scientists, specialists, philosophers, and writers to answer them. Authors Mary Roach and Phillip Pullman, evolutionary biologist Richard Dawkins, chef Gordon Ramsay, adventurer Bear Gryllis, and linguist Noam Chomsky are among the top experts responding to the Big Questions from Little People, ("Do animals have feelings?", "Why can't I tickle myself?", "Who is God?") with well-known comedians, columnists, and raconteurs offering hilarious alternative answers. Miles above your average general knowledge and trivia collections, this charming compendium is a book fans of the E.H. Gombrich classic, A Little History of the World, will adore.

Questions, Questions

NorthSouth Books Marcus Pfister's best-selling Questions, Questions—simplified and now on sturdy board book pages—opens children's eyes to the wondrous mysteries all around them. How many shells are on the shore? Millions? Billions? Even more?

The Big Book of Questions and Answers is a family guide to the Christian Faith. It contains a wealth of activities, prayers, and Bible references. These interactive resources will bring families closer together as they learn about the Christian faith.

A More Beautiful Question

The Power of Inquiry to Spark Breakthrough Ideas

Bloomsbury Publishing USA To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

The Kids' Book of Chess
