**The Kids' Book of Questions** *Workman Publishing* Kids love to be asked questions almost as much as they love to ask them. And asking is important—parents know the value of having meaningful conversations with their kids, especially as family time is under continuous assault from gadgets and devices. Now the book that solves those needs is back—announcing a fresh new edition of **The Kids' Book of Questions**. Including subjects like the Internet, school violence, and climate change, the book remains a timeless treasure. Here is a collection of questions designed to challenge, entertain, provoke, and expand young minds. These are the questions that let kids discover how they feel; let people know what they think; raise issues that everyone loves to discuss. Gregory Stock, author of the original #1 bestselling **Book of Questions**, took his question-asking ways into schools and came back with over 200 questions, including Thorny dilemmas: Would you rather have a job you didn't like that paid a lot or a job you loved that paid just enough to get by? Embarrassing challenges: Would you kiss someone in front of your whole class for \$250? Provocative ideas: What things do you think your parents do just to set an example for you? Intriguing fantasies: If you could text any famous person and be sure they'd read and answer your text, who would you write to and what would you say? There is only one requirement: Give an honest answer. Then be amazed to see where one little question leads. **The Book of Questions Revised and Updated** *Workman Publishing Company* The phenomenon returns! Originally published in 1987, **The Book of Questions**, a *New York Times* bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child's college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? **The Book of Questions** may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own. **The Little Book of Big Questions** *Allen & Unwin* A book that tries to answer all the big questions about life, death and the universe - a mixture of science and philosophy put in simple terms that 10- to 12-year-olds can understand. **Questions Children Ask and How to Answer Them** *Random House* Where did I come from? What happens when you die? What's divorce? From the moment children can formulate questions they begin to bombard their parents with "Why?" "What?" "Where" and "How?" Naturally curious they often catch us off guard leaving us unsure of how to answer their questions with an appropriate response. Fully revised and updated for the digital age, this new edition of Dr Miriam Stoppard's essential parenting manual provides age-appropriate answers to a huge range of challenging questions. Drawing from extensive research in child development and specifically on what children can handle at each age, Stoppard offers parents a foundation on which they can build their own answers as their child's understanding expands. **Twenty Questions for Kids** *Univ Games* Players get twenty clues to help them guess a person, place, or thing. A guessing game based on a popular board game. **Questions for Kids A Book to Discover a Child's Imagination and Knowledge** This collection of 1,000 stimulating questions is designed to inspire young minds. Questions such as What is the most important part of your body? What would you do if you were scared of someone at school? Does skin color make people smart or dumb? serve as catalysts for thought-provoking discussions between adults and children. **201 Questions to Ask Your Kids** **201 Questions to Ask Your Parents** *Harper Paperbacks* **201 Questions to Ask Your Kids** Do you have trouble talking to your kids? Does a successful conversation with your child consist of one-word responses or abrupt physical acknowledgments? Does your son or daughter get upset at the most innocent questions? Join the club. Unfortunately, communicating well with kids is something every parent desires but few achieve. We love our children, but talking to them in a meaningful manner isn't always easy. The questions in this book are designed to help. No matter what age or sex your children, no matter how many children you have, no matter how good or bad your current parent/child relationship, this simple "game" will get your family talking more. And when you're talking--really talking about emotions and fears and attitudes--you'll be learning about each other as individuals and growing closer together as a group. **An Introduction For Kids** Wouldn't it be fun to find out more about what your father or mother was like when he or she was a kid? Or get to tell your parents

which of their friends you think looks dorkiest? Wouldn't conversation be more interesting if you and your family traded unexpected questions and answers at dinner rather than just talked about what homework did or didn't get done? There are a lot of great things to talk about that no one ever brings up because we usually think conversation is serious rather than a way of being playful. Of course, conversation should be about serious things some of the time--some of the questions in this book are about very serious topics. But other times, questions should be asked just to create new ways to think about things, look back on our lives, or imagine what life would be like if we could design in any way we wanted. In fact, I wrote this book because I think talking can be terrific fun, and even talking to your parents and brothers or sisters can be a kind of great game. Everyone can get to know each other and laugh a lot--and be amazed from time to time. No one wins or loses, but there is an element of surprise in finding out personal information about parents--and sharing some of your ideas, daydreams, and opinions with them. My idea is to think of some of the world's most interesting questions that parents and kids could talk about and give everyone the chance to pick the ones they'd like to hear about. Each person picks a question to ask and then answers a question when his or her turn comes around. All you have to do is choose from the list under 201 Questions to Ask Your Parents and ask any question you want. Your parents can take as long or as short a time they want to answer. Any you can all discuss the topic if you like. But then they go into their section of the book and ask you questions. Some of them might not be so interesting, but others--like asking you who is the meanest kid you know--might be cool to think about and share with them. They'll learn a lot about what you think are ways kids act nasty! You can wiggle out of any two questions that don't interest you or are embarrassing--but no more than that. It's good if a question makes you squirm a little; that means you either haven't thought about it before, or you have but you haven't wanted to deal with it. But why not try out and answer? Pick a set length of time to play for--and my guess is you'll want to extend it. These questions get addictive! You can play them at the dinner table, or after dinner, or on a car trip, or anytime you feel like hearing what your parents say about something. So, this is a book about how to have interesting and often funny conversations with your family. It's a way to avoid dead, boring silences and fill the time instead with questions and answers that everyone will enjoy thinking about. I know that in my family, it is too easy for us to get stuck talking about practical things like who has to be taken where the next day. That isn't particularly fun. It doesn't let me in on what my kids are thinking, and it doesn't help my two teenagers learn things that might help them understand me a little better. An ingenious book that speaks to both parents and their kids. 201 QUESTIONS TO ASK YOUR KIDS/201 QUESTIONS TO ASK YOUR PARENTS is two books in one. Open it from one side, and it provides parents with 201 questions for their children intended to spark discussion, help reveal who their children really are, and help children think about themselves and the world in new and useful ways. Turn it over, and there are 201 questions children can ask back to their parents. Devised as an interactive "game," this is a book that can get any family talking--really talking about facts and fears and attitudes. My First Book of Questions Easy Answers to Hard Questions Children Ask *Cartwheel Books* Includes sixty questions which are alphabetically arranged and illustrated covering various topics such as nature, technology, personal relations, and cultural customs. Highlights Book of Science Questions that Children Ask *Highlights* The Book of What If...? Questions and Activities for Curious Minds *Simon and Schuster* From the creators of the What If...? Conference comes a quirky book that encourages kids to explore and engage with the world around them by asking more than eighty wild, absurd, and thought provoking questions. What if a book didn't just tell you how to think or what to know, but rather encouraged you to think for yourself? What if there was a book that focused on asking questions instead of just answering them? The Book of What If...? does just that! What if you lived on a floating city? What if politicians were kids? What if broccoli tasted like chocolate? What if you could explore outer space? By asking these fun, open-ended questions, this book fosters greater critical thinking skills and gives kids a space to interact by breaking out a notebook to draw or write out their personal reactions, or engage in entertaining exercises with family and friends. Plus, sidebars deepen the investigation with peer-to-peer insights, historical and current profiles, real-life examples, and more, making for unlimited learning opportunities! Divided into sections--history, people, stuff, and nature--along with four introductory texts to open up a dialogue about why it's important to be inquisitive and to always ask questions, The Book of What If...? is sure to be a hit with kids, teachers, and parents alike. So ask a question and let the answers lead you on an exciting journey filled with endless opportunities to learn! New Questions and Answers About Dinosaurs *StarWalk Kids Media* Dinosaurs have captured the imagination of nearly every child--and most adults, too. But did you know there are about 350 different kinds of dinosaurs and that new ones are found every year? And did you know that several kinds of dinosaur bones were recently found in Alaska? How dinosaurs lived in such a cold, dark climate is still a mystery. Would You Rather for Kids Over 500 Fun Questions to Play with for Long Car Rides! Perfect for fans of Raina Telgemeier and Gene Luen Yang, *New Kid* is a timely, honest graphic novel about starting over at a new school where diversity is low and the struggle to fit in is real, from award-winning author-illustrator Jerry Craft. Seventh grader Jordan Banks loves nothing more than drawing cartoons about his life. But instead of sending him to the art school of his dreams, his parents enroll him in a prestigious private school known for its academics, where Jordan is one of the few kids of color in his entire grade. As he makes the daily trip from his Washington Heights apartment to the upscale Riverdale Academy Day School, Jordan soon finds himself torn between two worlds—and not really fitting into either one. Can Jordan learn to navigate his new school culture while keeping his neighborhood friends and staying true to himself? This middle grade graphic novel is an excellent choice for tween readers, including for summer reading. *New Kid* is a selection of the Schomburg Center's Black Liberation Reading List. What is the best time to do things? Who is the most important one? What is the right thing to do? Nikolai knows that he wants to be the best person he can be, but often he is unsure if he is doing the right thing. So he goes to ask Leo, the wise turtle. But it is Nikolai's own response to a stranger's cry for help that leads him directly to the answers he is looking for. *Jon J Muth* combined his studies of Zen with his love for Tolstoy to create this profound, yet simple book about compassion and living in the moment. *My First Book of Questions and Answers Christian Focus* This book explains the Christian faith to young children in bite-sized chunks. **Parenting Beyond Belief- Abridged Ebook Edition On Raising Ethical, Caring Kids without Religion** *AMACOM Div American Mgmt Assn* Foreword by Michael Shermer, Ph.D. Contributors include Penn Jillette, Julia Sweeney, and Dr. Donald B. Ardell This is an abridged edition of the print classic. It does not include essays by Richard Dawkins or Stephen Law. Please consult the print edition for these essays. It's hard enough to live a secular life in a religious world. And bringing up children without religious influence can be even more daunting. Despite the difficulties, a large and growing number of parents are choosing to raise their kids without religion. In *Parenting Beyond Belief*, Dale McGowan celebrates the freedom that comes with raising kids without formal indoctrination and advises parents on the most effective way to raise freethinking children. With advice from educators, doctors, psychologists, and philosophers as well as wisdom from everyday parents, the book offers tips and insights on a variety of topics, from "mixed marriages" to coping with death and loss, and from morality and ethics to dealing with holidays. Sensitive and timely, *Parenting Beyond Belief* features reflections from such freethinkers as Mark Twain, Bertrand Russell, and wellness guru Dr. Don Ardell that will empower every parent to raise both caring and independent children without constraints. **The New Kid's Question and Answer Book Questions Kids Ask about Nature, Science and the Environment** *Maple Tree Press* Provides answers to a variety of questions about the world around us including "How do animals carry their babies?" "How much milk does a cow give in a day?" "What is the ozone layer?" and others.
