THE MODERN DANCE OF DEATH

THE LINACRE LECTURE 1929

Cambridge University Press **The Modern Dance of Death** by Peyton Rous was originally delivered as the Linacre lecture for the year 1929 at the University of Cambridge. The purpose of the lecture was to discuss the manner in which humankind's relationship to physical ailments and the attendant risks of death had altered in the four hundred years since Thomas Linacre's time. As Rous saw it, 'From the moment that the body becomes a going concern it must fight for its integrity. Its Dance with Death begins long before birth and never ceases throughout the lengthening period of what we call health. Everything coming in contact with it shapes its destiny.'

ADVERSARIES OF DANCE

FROM THE PURITANS TO THE PRESENT

University of Illinois Press Whether in the private parlor, public hall, commercial "dance palace," or sleazy dive, dance has long been opposed by those who viewed it as immoral--more precisely as being a danger to the purity of those who practiced it, particularly women. In *Adversaries of Dance*, Ann Wagner presents a major study of opposition to dance over a period of four centuries in what is now the United States. Wagner bases her work on the thesis that the tradition of opposition to dance "derived from white, male, Protestant clergy and evangelists who argued from a narrow and selective interpretation of biblical passages," and that the opposition thrived when denominational dogma held greater power over people's lives and when women's social roles were strictly limited. Central to Wagner's work, which will be welcomed by scholars of both religion and dance, are issues of gender, race, and socioeconomic status. "There are no other works that even begin to approach this definitive accomplishment." --Amanda Porterfield, author of *Female Piety in Puritan New England*

THE DANCE OF DEATH

THE DANCE OF DEATH

DigiCat William Herman's "The Dance of Death" is a fictional general literature. The author . An excerpt from the preface of the book read thus "On this score he is not disposed to be greatly troubled; and for these reasons: Firstly—he feels that he is performing a duty; secondly—he is certain that his sentiments will be endorsed by hundreds upon whose opinion he sets great value; thirdly—he relieves his mind of a burden that has oppressed it for many years; and fourthly—as is evident upon the face of these pages..."

MIGRATION, MODERNITY AND TRANSNATIONALISM IN THE WORK OF JOSEPH CONRAD

Bloomsbury Publishing Examining the notion of migration and transnationalism within the life and work of Joseph Conrad, this book situates the multicultural and transnational characters that comprise his fiction while locating Conrad as a subject of the Russian state whose provenance is Polish, but whose identity is that of a merchant sailor and English country gentleman. Conrad's characters are often marked by crossings - changes of nation, changes of culture, changes of identity - which refract Conrad's own cultural transitions. These crossings not only subjectivise the experience of the migrant through the modern complexities of technology and speed, but also through cross-cultural encounters of food and language. Collectively, these essays explore the experience of the migrant as exile; the inescapable intermeshing of migration, modernity and transnationalism as well as Conrad's own global and multicultural outlook. Conrad's work writes across historical, political and ethnic borders speaking to a transnational reality that continues to have relevance today.

BERLIN SOLDIER

THE EXPLOSIVE MEMOIR OF A 12 YEAR-OLD GERMAN BOY CALLED UP TO FIGHT IN THE LAST WEEKS OF THE SECOND WORLD WAR

The History Press This book is an explosive memoir of a 17 year old German boy called up to fight in the last weeks of the Second World War. This is a teenager's vivid account of his experiences as a conscript during the final desperate weeks of the Third Reich, during which he experienced training immediately behind the front line east of Berlin, was caught up in the massive Soviet assault on Berlin from the Oder, retreated successfully and then took part in the fight for the western suburb of Spandau, where he became one of the only two survivors of his company of seventeen year-olds.

THE DANCE OF DEATH IN LATE MEDIEVAL AND RENAISSANCE EUROPE

ENVIRONMENTAL STRESS, MORTALITY AND SOCIAL RESPONSE

Routledge This volume investigates environmental and political crises that occurred in Europe during the late Middle Ages and the early Modern Period, and considers their effects on people's lives. At this time, the fragile human existence was imagined as a 'Dance of Death', where anyone, regardless of social status or age, could perish unexpectedly. This book covers events ranging from cooling temperatures and the onset of the Little Ice Age, to the frequent occurrence of epidemic disease, pest infestations, food shortages and famines. Covering the mid-fourteenth to mid-seventeenth centuries, this collection of essays considers a range of countries between Iceland (to the north), Italy (to the south), France (to the west) and the westernmost parts of Russia (to the east). This wide-reaching volume considers how deeply climate variability and changes affected and changed society in the late medieval to early modern period, and asks what factors, other than climate, interfered in the development of environmental stress and socio-economic crises. This book will be of great interest to students and scholars of Environmental and Climate History, Environmental Humanities, Medieval and Early Modern History and Historical Geography, as well as Climate Change and Environmental Sciences.

SATAN IN THE DANCE HALL

REV. JOHN ROACH STRATON, SOCIAL DANCING, AND MORALITY IN 1920S NEW YORK CITY

Scarecrow Press Satan in the Dance Hall explores the overwhelming popularity of social dancing and its close relationship to America's rapidly changing society in the 1920s. The book focuses on the fiercely contested debate over the morality of social dancing in New York City, led by moral reformers and religious leaders like Rev. John Roach Straton. Fed by the firm belief that dancing was the leading cause of immorality in New York, Straton and his followers succeeded in enacting municipal regulations on social dancing and moral conduct within the more than 750 public dance halls in New York City. Ralph G. Giordano conveys an easy to read and full picture of life in the Jazz Age, incorporating important events and personalities such as the Flu Epidemic, the Scopes Monkey Trial, Prohibition, Flappers, Gangsters, Texas Guinan, and Charles Lindbergh, while simultaneously describing how social dancing was a hugely prominent cultural phenomenon, one closely intertwined with nearly every aspect of American society from the Great War to the Great Depression. With a bibliography, an index, and over 35 photos, Satan in the Dance Hall presents an interdisciplinary study of social dancing in New York City throughout the decade.

BECKETT AND MODERNISM

Springer This book of collected essays approaches Beckett's work through the context of modernism, while situating it in the literary tradition at large. It builds on current debates aiming to redefine 'modernism' in connection to concepts such as 'late modernism' or 'postmodernism'. Instead of definitively re-categorizing Beckett under any of these labels, the essays use his diverse oeuvre - encompassing poetry, criticism, prose, theatre, radio and film - as a case study to investigate and reassess the concept of 'modernism after postmodernism' in all its complexity, covering a broad range of topics spanning Beckett's entire career. In addition to more thematic essays about art, history, politics, psychology and philosophy, the collection places his work in relation to that of other modernists such as T. S. Eliot, James Joyce, Wyndham Lewis, Gertrude Stein and Virginia Woolf, as well as to the literary canon in general. It represents an important contribution to both Beckett studies and modernism studies.

HANS HOLBEIN THE YOUNGER

A GUIDE TO RESEARCH

Taylor & Francis A comprehensive annotated bibliography of texts relating to the Northern European artist, with an historiographic essay on various aspects of Holbein's reception. This is volume 2 in the ARTISTS RESOURCE MANUALS series.

MAKING MUSIC FOR MODERN DANCE

COLLABORATION IN THE FORMATIVE YEARS OF A NEW AMERICAN ART

Oxford University Press Making Music for Modern Dance traces the collaborative approaches, working procedures, and aesthetic views of the artists who forged a new and distinctly American art form during the first half of the 20th century. The book offers riveting first-hand accounts from innovative artists in the throes of their creative careers and provides a cross-section of the challenges faced by modern choreographers and composers in America. These articles are complemented by excerpts from astute observers of the music and dance scene as well as by retrospective evaluations of past collaborative practices. Beginning with the careers of pioneers Isadora Duncan, Ruth St. Denis, and Ted Shawn, and continuing through the avant-garde work of John Cage for Merce Cunningham, the book offers insights into the development of modern dance in relation to its music. Editor Katherine Teck's introductions and afterword offer historical context and tie the artists' essays in with collaborative practices in our own time. The substantive notes suggest further materials of interest to students, practicing dance artists and musicians, dance and music history scholars, and to all who appreciate dance.

MARKING MODERN MOVEMENT

DANCE AND GENDER IN THE VISUAL IMAGERY OF THE WEIMAR REPUBLIC

University of Michigan Press Imagine yourself in Weimar Germany: you are visually inundated with depictions of dance. Perusing a women's magazine, you find photograph after photograph of leggy revue starlets, clad in sequins and feathers, coquettishly smiling at you. When you attend an art exhibition, you encounter Otto Dix's six-foot-tall triptych *Metropolis*, featuring Charleston dancers in the latest luxurious fashions, or Emil Nolde's watercolors of Mary Wigman, with their luminous blues and purples evoking her choreographies' mystery and expressivity. Invited to the Bauhaus, you participate in the Metallic Festival, and witness the school's transformation into a humorous, shiny, technological total work of art; you costume yourself by strapping a metal plate to your head, admire your reflection in the tin balls hanging from the ceiling, and dance the Bauhaus' signature step in which you vigorously hop and stomp late into the night. Yet behind the razzle dazzle of these depictions and experiences was one far more complex involving issues of gender and the body during a tumultuous period in history, Germany's first democracy (1918-1933). Rather than mere titillation, the images copiously illustrated and analyzed in *Marking Modern Movement* illuminate how visual artists and dancers befriended one another and collaborated together. In many ways because of these bonds, artists and dancers forged a new path in which images revealed artists' deep understanding of dance, their dynamic engagement with popular culture, and out of that, a possibility of representing women dancers as cultural authorities to be respected. Through six case studies, *Marking Modern Movement* explores how and why these complex dynamics occurred in ways specific to their historical moment. Extensively illustrated and with color plates, *Marking Modern Movement* is a clearly written book accessible to general readers and undergraduates. Coming at a time of a growing number of major art museums showcasing large-scale exhibitions on images of dance, the audience exists for a substantial general-public interest in this topic. Conversing across German studies, art history, dance studies, gender studies, and popular culture studies, *Marking Modern Movement* is intended to engage readers coming from a wide range of perspectives and interests.

CANCER ASSOCIATED VIRUSES

Springer Science & Business Media The acknowledgment that viruses are potent biological factors in driving many cancers have seen a dramatic upsurge in recent years in large part to the success of the human papilloma virus vaccine against invasive cervical carcinomas and followed by the awarding of the noble prize in medicine in 2008 to Dr. Harald zurHausen who identified the link between papilloma virus and cervical cancers. Over the last few years there have been some volumes addressing different aspects of viruses and cancers and to some extent focusing on the DNA viruses, more specifically the human DNA viruses. This proposed volume will attempt to review and address the major gaps in current knowledge in DNA viruses as well as RNA viruses bringing a historical perspective of where studies began to a more recent molecular approach and vaccine successes in tumor viruses. We will also cover other known oncogenic viruses associated cancers in other mammals in addition to humans.

THE DANCE OF DEATH IN THE MIDDLE AGES

IMAGE, TEXT, PERFORMANCE

Brepols Pub Elina Gertsman's multifaceted study introduces readers to the imagery and texts of the Dance of Death, an extraordinary subject that first emerged in western European art and literature in the late medieval era. Conceived from the start as an inherently public image, simultaneously intensely personal and widely accessible, the medieval Dance of Death proclaimed the inevitability of death and declared the futility of human ambition. Gertsman inquires into the theological, socio-historic, literary, and artistic contexts of the Dance of Death, exploring it as a site of interaction between text, image, and beholder. Pulling together a wide variety of sources and drawing attention to those images that have slipped through the cracks of the art historical canon, Gertsman examines the visual, textual, aural, pastoral, and performative discourses that informed the creation and reception of the Dance of Death, and proposes different modes of viewing for several paintings, each of which invited the beholder to participate in an active, kinesthetic experience.

CHESS AND THE DANCE OF DEATH

Plume Books

SHAKESPEARE AND COMPLEXITY THEORY

Taylor & Francis In this new monograph, Claire Hansen demonstrates how Shakespeare can be understood as a complex system, and how complexity theory can provide compelling and original readings of Shakespeare's plays. The book utilises complexity theory to illuminate early modern theatrical practice, Shakespeare pedagogy, and the phenomenon of the Shakespeare 'myth'. The monograph re-evaluates Shakespeare, his plays, early modern theatre, and modern classrooms as complex systems, illustrating how the lens of complexity offers an enlightening new perspective on diverse areas of Shakespeare scholarship. The book's interdisciplinary approach enriches our understanding of Shakespeare and lays the foundation for complexity theory in Shakespeare studies and the humanities more broadly.

LEGACIES OF TWENTIETH-CENTURY DANCE

Wesleyan University Press Lynn Garafola has written some of the most influential historical studies & criticism in the field of dance. This volume offers a selection of her essays & reviews that together document the extraordinary transformation of dance, especially ballet, since the early 20th century.
