KEY=NUTSHELL - CASSIUS ALEJANDRO

ETHEL THE CONFESSOR'S NUTSHELL HISTORIES

(FOR GROWN UPS)

Do you find history tedious, uninspiring, dry? Fret not, you are not alone. Luckily Ethel the Confessor feels your pain and has written, just for you, a quick and easy run-down of some of the big scary moments that happened in those far off days of yore. For the first time Ethel's six bite-sized, easy to digest Kindle e-books are available as a paperback compilation for you to binge or nibble as you wish. Containing the low-down on: The Norman Conquest, The Six Wives of Henry VIII, Magna Carta, The Black Death, The Princes in the Tower, and the Tower of London, in words we can all understand. (I should warn you now, some of them are rude - Ethel has strong opinions.) Now you can go and face the pub quiz or your child's homework with your head held high. Job. Well and Truly. Done

STRONGBOW

THE NORMAN INVASION OF IRELAND

The O'Brien Press The coming of the Normans to Ireland from 1169 is a pivotal moment in the country's history. It is a period full of bloodthirsty battles, both between armies and individuals. With colourful personalities and sharp political twists and turns, Strongbow's story is a fascinating one. Combining the writing style of an award-winning novelist with expert scholarship, historian Conor Kostick has written a powerful and absorbing account of the stormy affairs of an extraordinary era.

A WARGAMER'S GUIDE TO 1066 AND THE NORMAN CONQUEST

Casemate Publishers This is one of the first titles in an exciting new series of guides for wargamers. Taking one of the most pivotal and famous episodes in British military history, it gives a wargamers perspective of the dramatic events of 1066 and the Norman conquest up to around 1070, and advice on how to recreate these on the gaming table. Advice is given on factors to consider when choosing an appropriate set of commercially available rules, or devising your own, to best suit the scale and style of battle you want and capture the flavor of the period. The relevant ranges of figures and terrain pieces and buildings are also reviewed. Analysis of the forces involved, organization, tactics and strategies will help with building your armies and there are interesting scenarios included. Whether this is a new period for you, or you are looking to refresh your existing interest in the period, this handy guide is sure to hold much if interest for you.

THE NORMAN CONQUEST

THE BATTLE OF HASTINGS AND THE FALL OF ANGLO-SAXON ENGLAND

Simon and Schuster A riveting and authoritative history of the single most important event in English history: The Norman Conquest. An upstart French duke who sets out to conquer the most powerful and unified kingdom in Christendom. An invasion force on a scale not seen since the days of the Romans. One of the bloodiest and most decisive battles ever fought. This new history explains why the Norman Conquest was the most significant cultural and military episode in English history. Assessing the original evidence at every turn, Marc Morris goes beyond the familiar outline to explain why England was at once so powerful and yet so vulnerable to William the Conqueror's attack. Morris

writes with passion, verve, and scrupulous concern for historical accuracy. This is the definitive account for our times of an extraordinary story, indeed the pivotal moment in the shaping of the English nation.

IVANHOE

A ROMANCE

THE ECCLESIASTICAL REVIEW

MAGNA CARTA IN 20 PLACES

The History Press The only book to tell Magna Carta's story through places associated with it, through England and France to the United States. The Magna Carta has undergone an extraordinary journey from the palaces and villages of England, through the castles and towns of France, via the Middle East, and ending in the United States today. Along the way, the book dispels the popular notions that King John was an unredeemed tyrant, the baron's champions of civil liberty, and that Magna Carta was the foundation of democracy and universal freedom. The true story is much more intriguing than a simple fiction of good defeating evil, and the author tries to answer one of the great mysteries about the Charter: why today is it much more enthusiastically revered in America than it is in the country of its origin? But myths can be powerful. And the account of how this largely technical medieval document became an inspiration to those who have struggled over centuries to win democracy and freedom under the law reveals a great deal about our need for symbols and our inclination to believe what we want to believe.

THE IMPACT OF THE NORMAN CONQUEST

Krieger Publishing Company Since the Norman Conquest wrought a transformation in the personnel of the English aristocracy, this book lays particular stress on changes or continuities in feudal organization, aristocratic land holding, and military institutions. The question of evolution versus revolution in these areas has given rise to an intense historical controversy: Did the Normans transform England or was their coming merely an episode in the development of British traditions? Contemporary and modern appraisals of the period are presented in this text.

INADEQUATE

THE SYSTEM FAILING OUR TEACHERS AND YOUR CHILDREN

John Catt Educational The world of education is in a state of failure. Our teachers are quitting in droves, their natural passion for education stifled. Your children are being let down by a system unfit for our rapidly-changing world, leaving them wholly unprepared to survive the age of AI and automation. Pulling no punches, education technologist and entrepreneur Priya Lakhani OBE outlines how badly we have failed, and who is to blame. With a foreword from Robert Halfon MP, Chair of the Education Select Committee, Priya charts a course for a brighter future. From feeble government reforms to growing mental health crises, Priya leaves no stone unturned in exposing the Inadequate state of education.

THE RULE OF LAW, ECONOMIC DEVELOPMENT, AND CORPORATE GOVERNANCE

Edward Elgar Publishing Grounded in history and written by a law professor, this book is a scholarly yet jargon-free explanation of the differences between the common and civil law concepts of the rule of law, and details how they developed out of two different cultural views of the relationships between law, individuals, and government. The author shows how those differences lead to differences in economic development, entrepreneurship, and corporate governance.

LOST IN CHANGE

CAUSES AND PROCESSES IN THE LOSS OF GRAMMATICAL ELEMENTS AND CONSTRUCTIONS

John Benjamins Publishing Company While research on language change has formulated robust empirical generalisations about processes and motivations underlying the emergence and spread of linguistic elements, their decline and loss is less well understood. So far a systematic investigation into the processes and motivations of decline and loss in language change is lacking. This book is a first step towards remedying this state of affairs. It brings together a varied set of empirical investigations into decline and loss, spanning morphology, syntax and the lexicon, in different languages. Their authors apply diverse methodologies and represent different theoretical approaches. On the basis of this broad span of studies, authors and editors propose generalisations related to decline and loss and assess similarities and differences with processes and motivations of emergence and spread. The book aims to inspire and provide hypotheses for further studies of decline and loss. It will appeal to historical linguists and others interested in language change.

TEACHING THE HISTORY OF THE ENGLISH LANGUAGE

Modern Language Association The study of the history of the English language (HEL) encompasses a broad sweep of time and space, reaching back to the fifth century and around the globe. Further, the language has always varied from place to place and continues to evolve today. Instructors face the challenges of teaching this vast subject in one semester and of engaging students with unfamiliar material and techniques. This volume guides instructors in designing an HEL course suited to their own interests and institutions. The essays consider what subjects of HEL to include, how to organize the course, and what textbook to assign. They offer historical approaches and those that are not structured by chronology. Sample assignments provide opportunities for students to conduct original research, work with archives and digital resources, and investigate language in their communities. The essays also help students question notions of linguistic correctness.

UNDERSTANDING GREAT EXPECTATIONS

A STUDENT CASEBOOK TO ISSUES, SOURCES, AND HISTORICAL DOCUMENTS

Greenwood Publishing Group After 140 years, *Great Expectations* is still one of the West's most admired, read and studied works of fiction. This casebook of primary documents, collateral readings and essays brings to life both Dickens' masterpiece and the social issues reflected in it. Newlin has collected significant primary sources on the question, "What is a 'Gentleman'?" and on the dilemma of Victorian women, supplying extracts from the writings of Lord Chesterfield, Anthony Trollope, and Harold Laski, as well as long passages from Mary Wollstonecraft's 1792 *A Vindication of the Rights of Women*, and John Stuart Mill's 1861 *The Subjection of Women*. The work also covers blacksmithing and crime and punishment in early 19th century England, the transportation of convicts, and the state of the London theatre during the period. There are first-hand accounts of life on prison ships and the travails and opportunities facing transportees in Australia. Essays and original materials on class distinctions, with demographic data from the 1812 Census, and on the feminist movement, point up the socioeconomic hierarchies and strata that characterized the early Industrial Revolution and subsequent Victorian society. Other documents depict physical settings such as the Marsh County and the Thames, and Bow Street in London. This collection of sources will help broaden students' understanding of *Great Expectations* and places it within its historical context.

CONSTRUCTIONALIZATION AND CONSTRUCTIONAL CHANGES

Oxford University Press This book develops an approach to language change based on construction grammar in order to reconceptualize grammaticalization and lexicalization. The authors show that language change proceeds by micro-steps involving every aspect of grammar including pragmatics and discourse functions. A new and productive approach to historical linguistics.

UTOPIA

Open Road Media The classic political satire about an imaginary ideal world by one of the Renaissance's most fascinating

figures. Named after a word that translates literally to “nowhere,” Utopia is an island dreamed up by Thomas More, a devout Catholic, English statesman, and Renaissance humanist who would be canonized as a saint centuries after he was executed for choosing God over king. More’s novel introduces us to Utopia’s society and its customs. It is a place of no private property and no lawyers; of six-hour workdays and simple ways; and, intriguingly, of a combination of values that blend the traditional with the highly controversial, from euthanasia to married priests to slavery. Remarkably thought-provoking, it is a novel that asks us to question what makes a perfect world—and whether such a thing is even possible.
