Film Studies

Critical Approaches

Oxford University Press, USA This is a guide to the study of film, covering the significant theories, debates and approaches to the subject. Contributors provide an overview of the main disciplinary approaches, explaining the concepts and methods involved in film analysis.

The Oxford Handbook of Queer Cinema

Oxford University Press "Queer media is not one thing but an ensemble of at least four moving variables: history, gender and sexuality, geography, and medium. While many scholars would pinpoint the early 1990s as marking the emergence of a cinematic movement (dubbed by B. Ruby Rich, the "new queer cinema") in the United States, films and television programs that clearly spoke to LGBTQ themes and viewers existed at many different historical moments and in many different forms. Cross-dressing, same-sex attraction, comedic drag performance: at some points, for example in 1950s television, these were not undercurrents but very prominent aspects of mainstream cultural production. Addressing "history" not as dots on a progressive spectrum but as a uneven story of struggle, writers on queer cinema in this volume stress how that queer cinema did not appear miraculously at one moment but describes currents throughout the century-long history of the medium. Likewise, while queer is an Anglophone term that has been widely circulated, it by no means names a unified or complete spectrum of sexuality and gender identity, just as the LGBTQ+ alphabet soup struggles to contain the distinctive histories, politics, and cultural productions of trans artists and genderqueer practices. Across the globe, media makers have interrogated identity and desire through the medium of cinema through rubrics that sometimes vigorously oppose the Western embrace of the pejorative term queer, instead foregrounding indigenous genders and sexualities, or those forged in the global South, or those seeking alternative epistemologies. Finally, while "cinema" is in our title, many scholars in this collection see that term as an encompassing one, referencing cinema and media in a convergent digital environment. The lively and dynamic conversations introduced here aspire to sustain further reflection as "queer cinema" shifts into new configurations"--

The Oxford Handbook of Film and Media Studies

Oxford Handbooks "The Oxford Handbooks are a major new cross-disciplinary initiative from Oxford University Press. Each volume offers a state-of-the-art survey of current thinking and research. Specially commissioned, original essays from leading international figures give critical examination to the progress and direction of debates in vital areas of scholarship. Oxford Handbooks provide scholars and graduate students with a valuable new tool for understanding a wide range of scholarly approaches toward subjects in the humanities and social sciences. The Oxford Handbook of Film and Media Studies is a major new reference work that provides the best single-volume source of original scholarship on the intersection of film and media studies available. Comprised of twenty chapters by leading scholars and industry professionals, this expansive collection yields unique, fresh perspectives on a vast array of topics across these two vibrant fields. Covering film and media in the U.S., Latin America, Asia, and the Middle East, this wide-ranging compendium surveys such topics as the changing concept of "realism" in film, the European political documentary, genre theory, and more. Also exploring recent developments in media studies, with special attention to new media, the Handbook features chapters that thoroughly examine topics as diverse as copyright, globalization, television programming, video game genres, the ideologies of media, and movie-going in India. Comprehensive, current, and in-depth--The Oxford Handbook of Film and Media Studies combines cutting-edge scholarship on cinema and media in their many forms to present an authoritative assessment of developments in the U.S. and abroad."--Publisher's website.

The Oxford Guide to the Romance Languages

Oxford University Press The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance-speaking areas, including standard, non-standard, dialectal, and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues, and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts: Parts 1 and 2 deal with the making of the Romance languages and their typology and classification, respectively; Part 3 is devoted to individual structural overviews of Romance languages, dialects, and linguistic areas, while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics, and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology, morphology, syntax, syntax and semantics, and pragmatics and discourse, respectively, while the final part contains case studies of topics in the nominal group, verbal group, and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics.

Play the Way You Feel

The Essential Guide to Jazz Stories on Film

Oxford University Press Jazz stories have been entwined with cinema since the inception of jazz film genre in the 1920s, giving us origin tales and biopics, spectacles and low-budget quickies, comedies, musicals, and dramas, and stories of improvisers and composers at work. And the jazz film has seen a resurgence in recent years--from biopics like Miles Ahead and HBO's Bessie, to dramas Whiplash and La La Land. In Play the Way You Feel, author and jazz critic Kevin Whitehead offers a comprehensive guide to these films and other media from the perspective of the music itself. Spanning 93 years of film history, the book looks closely at movies, cartoons, and a few TV shows that tell jazz stories, from early talkies to modern times, with an eye to narrative conventions and common story points. Examining the ways historical films have painted a clear picture of the past or overtly distorted history, Play the Way You Feel serves up capsule discussions of sundry topics including Duke Ellington's social life at the Cotton Club, avant-garde musical practices in 1930s vaudeville, and Martin Scorsese's improvisatory method on the set of New York, New York. Throughout the book, Whitehead brings the same analytical bent and concise, witty language listeners know from his jazz segments on NPR's Fresh Air with Terry Gross. He investigates well-known songs, traces the development of the stock jazz film ending, and offers fresh, often revisionist takes on works by such directors as Howard Hawks, John Cassavetes, Shirley Clarke, Francis Ford Coppola, Clint Eastwood, Spike Lee, Robert Altman, Woody Allen and Damien Chazelle. In all, Play the Way You Feel is a feast for film-genre fanatics and movie-watching jazz enthusiasts.

Cinema Studies: The Key Concepts

Routledge In this second edition essential guide some 150 key genres, movements, theories and production terms are explained and analysed with depth and clarity.

World Cinema

Critical Approaches

Oxford University Press on Demand This guide to international film covers areas as diverse as new German, Indian, and South American cinema. Chapters are written by experts, outlining debates in the field, and covering issues of genre and the impact of technological developments.

The Oxford Handbook of Animal Studies

Oxford University Press Part I. Animals in the landscape of law, politics, and public policy. Animal rights / Gary Francione and Anna Charlton -- Animals in political theory / Sue Donaldson and Will Kymlicka -- Animals as living property / David Favre -- The human-animal bond / James Serpell -- Animal sheltering / Leslie Irvine -- Roaming dogs / Arnold Arluke and Kate Atema -- Misothery : contempt for animals and nature, its origins, purposes, and repercussions / James B. Mason -- Continental approaches to animals and animality / Ralph Acampora -- Animals as legal subjects / Paul Waldau -- The struggle for compassion and justice through critical animal studies / Carol Gigliotti -- Interspecies dialogue and animal ethics : the feminist care perspective / Josephine Donovan -- Part II. Clark.

Film Music: A Very Short Introduction

Oxford University Press Film music is as old as cinema itself. Years before synchronized sound became the norm, projected moving images were shown to musical accompaniment, whether performed by a lone piano player or a hundred-piece orchestra. Today film music has become its own industry, indispensable to the marketability of movies around the world. *Film Music: A Very Short Introduction* is a compact, lucid, and thoroughly engaging overview written by one of the leading authorities on the subject. After opening with a fascinating analysis of the music from a key sequence in Quentin Tarantino's *Reservoir Dogs*, Kathryn Kalinak introduces readers not only to important composers and musical styles but also to modern theoretical concepts about how and why film music works. Throughout the book she embraces a global perspective, examining film music in Asia and the Middle East as well as in Europe and the United States. Key collaborations between directors and composers--Alfred Hitchcock and Bernard Herrmann, Akira Kurosawa and Fumio Hayasaka, Federico Fellini and Nino Rota, to name only a few--come under scrutiny, as do the oft-neglected practices of the silent film era. She also explores differences between original film scores and compilation soundtracks that cull music from pre-existing sources. As Kalinak points out, film music can do many things, from establishing mood and setting to clarifying plot points and creating emotions that are only dimly realized in the images. This book illuminates the many ways it accomplishes those tasks and will have its readers thinking a bit more deeply and critically the next time they sit in a darkened movie theater and music suddenly swells as the action unfolds onscreen. About the Series: Combining authority with wit, accessibility, and style, *Very Short Introductions* offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

The Oxford Handbook of American Drama

Oxford University Press This volume explores the history of American drama from the eighteenth to the twentieth century. It describes origins of early republican drama and its evolution during the pre-war and post-war periods. It traces the emergence of different types of American drama including protest plays, reform drama, political drama, experimental drama, urban plays, feminist drama and realist plays. This volume also analyzes the works of some of the most notable American playwrights including Eugene O'Neill, Tennessee Williams, and Arthur Miller and those written by women dramatists.

The Oxford Handbook of Comic Book Studies

Oxford University Press Comic book studies has developed as a solid academic discipline, becoming an increasingly vibrant field in the United States and globally. A growing number of dissertations, monographs, and edited books publish every year on the subject, while world comics represent the fastest-growing sector of publishing. *The Oxford Handbook of Comic Book Studies* looks at the field systematically, examining the history and evolution of the genre from a global perspective. This includes a discussion of how comic books are built out of shared aesthetic systems such as literature, painting, drawing, photography, and film. *The Handbook* brings together readable, jargon-free essays written by established and emerging scholars from diverse geographic, institutional, gender, and national backgrounds. In particular, it explores how the term "global comics" has been defined, as well the major movements and trends that will drive the field in the years to come. Each essay will help readers understand comic books as a storytelling form grown within specific communities, and will also show how these forms exist within what can be considered a world system of comics.

The Oxford Handbook of Film Music Studies

Oxford University Press *The Oxford Handbook of Film Music Studies* gathers two dozen original essays that chart the history and current state of interdisciplinary scholarship on music in audiovisual media, focusing on four areas: history, genre and medium, analysis and criticism, and interpretation.

Oxford Guide to Imagery in Cognitive Therapy

OUP *Oxford Imagery* is one of the new, exciting frontiers in cognitive therapy. From the outset of cognitive therapy, its founder Dr. Aaron T. Beck recognised the importance of imagery in the understanding and treatment of patient's problems. However, despite Beck's prescience, clinical research on imagery, and the integration of imagery interventions into clinical practice, developed slowly. It is only in the past 10 years that most writing and research on imagery in cognitive therapy has been conducted. *The Oxford Guide to Imagery in Cognitive Therapy* is a landmark book, which will play an important role in the next phase of cognitive therapy's development. Clinicians and researchers are starting to recognise the centrality of imagery in the development, maintenance and treatment of psychological disorders - for example, in social phobia, agoraphobia, depression, PTSD, eating disorders, childhood trauma, and personality disorder. In the fields of cognitive psychology and cognitive neuroscience, researchers are identifying the key role that imagery plays in emotion, cognition and psychopathology. *The Oxford Guide to Imagery in Cognitive Therapy* has been written both for clinicians and researchers. For clinicians, it is a user-friendly, practical guide to imagery, which will enable therapists to understand imagery phenomenology, and to integrate imagery-based interventions into their cognitive therapy practice. For researchers, it provides a state-of-the-art summary of imagery research, and points the way to future studies. Written by three well-respected CBT researcher-clinicians, it is essential reading for all cognitive therapists, who have recognised the limitations of purely 'verbal' CBT techniques, and want to find new ways to work with clients with psychological disorders.

Engaging Cinema

An Introduction to Film Studies

W. W. Norton & Company In what ways do films influence and interact with society? What social forces determine the kinds of movies that get made? How do movies reinforce—and sometimes overturn—social norms? As societies evolve, do the films that were once considered 'great' slip into obscurity? Which ones? Why? These questions, and many others like them, represent the mainstream of scholarly film studies today. In *Engaging Cinema*, Bill Nichols offers the first book for introductory film students that tackles these topics head-on. Published in a handy 'trade paperback' format, *Engaging Cinema* is inexpensive and utterly unique in the field—a perfect complement to or replacement for standard film texts.

The Oxford Handbook of Presbyterianism

Oxford Handbooks Presbyterianism emerged during the sixteenth-century Protestant Reformation. It spread from the British Isles to North America in the early eighteenth century. During the nineteenth and twentieth centuries, Presbyterian denominations grew throughout the world. Today, there are an estimated 35 million Presbyterians in dozens of countries. The *Oxford Handbook of Presbyterianism* provides a state of the art reference tool written by leading scholars in the fields of religious studies and history. These thirty five articles cover major facets of Presbyterian history, theological beliefs, worship practices, ecclesiastical forms and structures, as well as important ethical, political, and educational issues. Eschewing parochial and sectarian triumphalism, prominent scholars address their particular topics objectively and judiciously.

The Oxford Handbook of Canadian Cinema

Oxford University Press The chapters in *The Oxford Handbook of Canadian Cinema* present a rich, diverse overview of Canadian cinema. Responding to the latest developments in Canadian film studies, this volume takes into account the variety of artistic voices, media technologies, and places which have marked cinema in Canada throughout its history. Drawing on a range of established and emerging scholars from a range of disciplines, this volume will be useful to teachers, scholars, and to a general readership interested in cinema in Canada. Moving beyond the director-focused approach of much previous scholarship, this book is concerned with communities, institutions, and audiences for Canadian cinema at both national and international levels. The choice of subjects covered ranges from popular, genre cinema to the most experimental of artistic interventions. Canadian cinema is seen in its interaction with other forms of art-making and media production in Canada and at the international level. Particular attention has been paid to the work of Indigenous filmmakers, members of diasporic communities and feminist and LGBTQ artists. The result is a book attentive to the complex social and institutional contexts in which Canadian cinema is made and consumed.

The Oxford History of World Cinema

Oxford University Press Featuring nearly three thousand film stills, production shots, and other illustrations, an authoritative history of the cinema traces the development of the medium, its filmmakers and stars, and the evolution of national cinemas around the world

The Oxford Guide to Arthurian Literature and Legend

Oxford University Press The *Oxford Guide to Arthurian Literature and Legend* offers a comprehensive survey of the Arthurian legends in all their manifestations, from the earliest medieval texts to their appearances in contemporary culture. Essential reading for Arthurian scholars, medievalists, and for those interested in myth and legend.

The Oxford Handbook of International Relations

OUP Oxford The *Oxford Handbook of International Relations* offers the most authoritative and comprehensive overview to date of the field of international relations. Arguably the most impressive collection of international relations scholars ever brought together within one volume, the *Handbook* debates the nature of the field itself, critically engages with the major theories, surveys a wide spectrum of methods, addresses the relationship between scholarship and policy making, and examines the field's relation with cognate disciplines. The *Handbook* takes as its central themes the interaction between empirical and normative inquiry that permeates all theorizing in the field and the way in which contending approaches have shaped one another. In doing so, the *Handbook* provides an authoritative and critical introduction to the subject and establishes a sense of the field as a dynamic realm of argument and inquiry. The *Oxford Handbook of International Relations* will be essential reading for all of those interested in the advanced study of global politics and international affairs.

The Oxford Handbook of Biblical Studies

OUP Oxford The *Oxford Handbooks* series is a major new initiative in academic publishing. Each volume offers an authoritative and up-to-date survey of original research in a particular subject area. Specially commissioned essays from leading figures in the discipline give critical examinations of the progress and direction of debates. *Biblical studies* is a highly technical and diverse field. Study of the Bible demands expertise in fields ranging from Archaeology, Egyptology, Assyriology, and Linguistics through textual, historical, and sociological studies to *Literary Theory, Feminism, Philosophy, and Theology*, to name only some. This authoritative and compelling guide to the discipline will, therefore, be an invaluable reference work for all students and academics who want to explore more fully essential topics in *Biblical studies*.

The Oxford Handbook of Reading

Oxford Library of Psychology Writing is one of humankind's greatest inventions, and modern societies could not function if their citizens could not read and write. How do skilled readers pick up meaning from markings on a page so quickly, and how do children learn to do so? The chapters in the *Oxford Handbook of Reading* synthesize research on these topics from fields ranging from vision science to cognitive psychology and education, focusing on how studies using a cognitive approach can shed light on how the reading process works. To set the stage, the opening chapters present information about writing systems and methods of studying reading, including those that examine speeded responses to individual words as well as those that use eye movement technology to determine how sentences and short passages of text are processed. The following section discusses the identification of single words by skilled readers, as well as insights from studies of adults with reading disabilities due to brain damage. Another section considers how skilled readers read a text silently, addressing such issues as the role of sound in silent reading and how readers' eyes move through texts. Detailed quantitative models of the reading process are proposed throughout. The final sections deal with how children learn to read and spell, and how they should be taught to do so. These chapters review research with learners of different languages and those who speak different dialects of a language; discuss children who develop typically as well as those who exhibit specific disabilities in reading; and address questions about how reading should be taught with populations ranging from preschoolers to adolescents, and how research findings have influenced education. The *Oxford Handbook of Reading* will benefit researchers and graduate students in the fields of cognitive psychology, developmental psychology, education, and related fields (e.g., speech and language pathology) who are interested in reading, reading instruction, or reading disorders.

The Oxford Guide to the Transeurasian Languages

Oxford University Press, USA The *Oxford Guide to the Transeurasian Languages* provides a comprehensive account of the Transeurasian languages, and is the first major reference work in the field since 1965. The term 'Transeurasian' refers to a large group of geographically adjacent languages that includes five uncontroversial linguistic families: Japonic, Koreanic, Tungusic, Mongolic, and Turkic. The historical connection between these languages, however, constitutes one of the most debated issues in historical comparative linguistics. In the present book, a team of leading international scholars in

the field take a balanced approach to this controversy, integrating different theoretical frameworks, combining both functional and formal linguistics, and showing that genealogical and areal approaches are in fact compatible with one another. The volume is divided into five parts. Part I deals with the historical sources and periodization of the Transeurasian languages and their classification and typology. In Part II, chapters provide individual structural overviews of the Transeurasian languages and the linguistic subgroups that they belong to, while Part III explores Transeurasian phonology, morphology, syntax, lexis, and semantics from a comparative perspective. Part IV offers a range of areal and genealogical explanations for the correlations observed in the preceding parts. Finally, Part V combines archaeological, genetic, and anthropological perspectives on the identity of speakers of Transeurasian languages. The *Oxford Guide to the Transeurasian Languages* will be an indispensable resource for specialists in Japonic, Koreanic, Tungusic, Mongolic, and Turkic languages and for anyone with an interest in Transeurasian and comparative linguistics more broadly.

Studying Contemporary American Film

A Guide to Movie Analysis

Oxford University Press This text presents the most appropriate theories and methods for analyzing contemporary American cinema. Using an innovative approach to writing about individual movies, each of the main chapters examines the assumptions behind one traditional theory of film (e.g. auteurism, narratology, psychoanalysis), distills a method of analysis from it, and then analyzes a contemporary American movie. The text then goes beyond traditional theory by analyzing the same movie using a more current theory and method (e.g. new media theory, deconstruction, cognitivism).

A Companion to Early Cinema

John Wiley & Sons An authoritative and much-needed overview of the main issues in the field of early cinema from over 30 leading international scholars in the field First collection of its kind to offer in one reference: original theory, new research, and reviews of existing studies in the field Features over 30 original essays from some of the leading scholars in early cinema and Film Studies, including Tom Gunning, Jane Gaines, Richard Abel, Thomas Elsaesser, and André Gaudreault Caters to renewed interest in film studies' historical methods, with strict analysis of multiple and competing sources, providing a critical re-contextualization of films, printed material and technologies Covers a range of topics in early cinema, such as exhibition, promotion, industry, pre-cinema, and film criticism Broaches the latest research on the subject of archival practices, important particularly in the current digital context

AS Film Studies

The Essential Introduction

Taylor & Francis AS Film Studies: The Essential Introduction gives students the confidence to tackle every part of the WJEC AS level Film Studies course. The authors, who have wide ranging experience as teachers, examiners and authors, introduce students step by step, to the skills involved in the study of film. The second edition follows the new WJEC syllabus for 2008 teaching onwards and has a companion website with additional resources for students and teachers. Specifically designed to be user friendly, the second edition of AS Film Studies: The Essential Introduction has a new text design to make the book easy to follow, includes more than 100 colour photographs and is jam packed with features such as: Case studies relevant to the 2008 specification Activities on films including Little Miss Sunshine, Pirates of the Caribbean & The Descent Key terms Example exam questions Suggestions for further reading and website resources

Indian Cinema: A Very Short Introduction

Oxford University Press One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable

A Dictionary of Film Studies

OUP Oxford Written by experts in the field, this dictionary covers all aspects of film studies, including terms, concepts, debates, and movements in film theory and criticism, national, international and transnational cinemas, film history, film movements and genres, film industry organizations and practices, and key technical terms and concepts in 500 detailed entries. Most entries also feature recommendations for further reading and a large number also have web links. The web links are listed and regularly updated on a companion website that complements the printed book. The dictionary is international in its approach, covering national cinemas, genres, and film movements from around the world such as the Nouvelle Vague, Latin American cinema, the Latsploitation film, Bollywood, Yiddish cinema, the spaghetti western, and World cinema. The most up-to-date dictionary of its kind available, this is a must-have for all students of film studies and ancillary subjects, as well as an informative read for cinephiles and for anyone with an interest in films and film criticism.

The Oxford Handbook of Philosophy and Psychoanalysis

Oxford University Press Psychoanalysis is often equated with Sigmund Freud, but this comparison ignores the wide range of clinical practices, observational methods, general theories, and cross-pollinations with other disciplines that characterise contemporary psychoanalytic work. Central psychoanalytic concepts to do with unconscious motivation, primitive forms of thought, defence mechanisms, and transference form a mainstay of today's richly textured contemporary clinical psychological practice. In this landmark collection on philosophy and psychoanalysis, leading researchers provide an evaluative overview of current thinking. Written at the interface between these two disciplines, *The Oxford Handbook of Philosophy and Psychoanalysis* contains original contributions that will shape the future of debate. With 34 chapters divided into eight sections covering history, clinical theory, phenomenology, science, aesthetics, religion, ethics, and political and social theory, this *Oxford Handbook* displays the enduring depth, breadth, and promise of integrating philosophical and psychoanalytic thought. Anyone interested in the philosophical implications of psychoanalysis, as well as philosophical challenges to and re-statements of psychoanalysis, will want to consult this book. It will be a vital resource for academic researchers, psychoanalysts and other mental health professionals, graduates, and trainees.

The ACS Style Guide

A Manual for Authors and Editors

Amer Chemical Society Guidelines from ACS to help authors and editors in preparing scientific texts.

Feminism and Film

Oxford University Press, USA This book brings together carefully selected essays on feminism and film with a view to tracing major developments in theory, criticism, and practices of women and cinema from 1973 to the present day. It illuminates the powerful, if controversial role feminist research has played in the emergence of Film Studies as a discipline during these years, and reprints a variety of methods of feminist film study. As well as a wide-ranging introduction by Kaplan which sets her selection of essays in context, readers will find examples of social-role, psychoanalytic, structuralist, post-structuralist, gay and lesbian, postmodern and postcolonial feminist film criticism, prefaced by introductory notes and including further readings.

The Oxford Handbook of Adaptation Studies

Oxford University Press This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it hearkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to Frankenstein to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to Classics Illustrated, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world in which adaptation, already ubiquitous, is likely to become ever more important.

Film: A Very Short Introduction

Oxford University Press Offers a wealth of insight into the paradoxical nature of film, considering its role and impact on society in the 20th century as well as its future in the digital age. Original.

Rules for Compositors and Readers ... at the University Press, Oxford

Film/Music Analysis

A Film Studies Approach

Springer This book offers an approach to film music in which music and visuals are seen as equal players in the game. The field of Film-Music Studies has been increasingly dominated by musicologists and this book brings the discipline back squarely into the domain of Film Studies. Blending Neoformalism with Gestalt Psychology and Leonard B. Meyer's musicology, this study treats music as a cinematic element and offers scholars and students of both music and film a set of tools to help them analyse the wide ranging impact that music has in films.

The Oxford Handbook of Shakespeare

Oxford University Press Contains forty original essays.

The Oxford Handbook of Atheism

Oxford University Press This handbook is a pioneering edited volume, exploring atheism - understood in the broad sense of 'an absence of belief in the existence of a God or gods' - in its historical and contemporary expressions. It probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives and in a range of global contexts.

Hollywood Cinema

Wiley-Blackwell This extensively revised second edition offers a comprehensive introduction to Hollywood cinema, providing a fascinating account of the cultural and aesthetic significance of the world's most powerful film industry. Provides a fascinating account of Hollywood history. Examines the cultural and aesthetic significance of the world's most powerful film industry. Explores and interprets Hollywood cinema in history and in the present, in theory and in practice. Extensively revised and updated with new chapter features including box sections, further reading lists, Notes and Queries, and chapter summaries.

Documentary Film: A Very Short Introduction

Oxford University Press Documentary film can encompass anything from Robert Flaherty's pioneering ethnography Nanook of the North to Michael Moore's anti-Iraq War polemic Fahrenheit 9/11, from Dziga Vertov's artful Soviet propaganda piece Man with a Movie Camera to Luc Jacquet's heart-tugging wildlife epic March of the Penguins. In this concise, crisply written guide, Patricia Aufderheide takes readers along the diverse paths of documentary history and charts the lively, often fierce debates among filmmakers and scholars about the best ways to represent reality and to tell the truths worth telling. Beginning with an overview of the central issues of documentary filmmaking--its definitions and purposes, its forms and founders--Aufderheide focuses on several of its key subgenres, including public affairs films, government propaganda (particularly the works produced during World War II),

historical documentaries, and nature films. Her thematic approach allows readers to enter the subject matter through the kinds of films that first attracted them to documentaries, and it permits her to make connections between eras, as well as revealing the ongoing nature of documentary's core controversies involving objectivity, advocacy, and bias. Interwoven throughout are discussions of the ethical and practical considerations that arise with every aspect of documentary production. A particularly useful feature of the book is an appended list of "100 great documentaries" that anyone with a serious interest in the genre should see. Drawing on the author's four decades of experience as a film scholar and critic, this book is the perfect introduction not just for teachers and students but also for all thoughtful filmgoers and for those who aspire to make documentaries themselves. *About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.*
