Since the bicentenary of *The Wealth of Nations* in 1976, the rate of international publication markedly accelerated, significantly extending the scope of this bibliography beyond 1939. Its scope has been further enlarged via the inclusion of essays on the diffusion process while the inclusion of all works in the chronological main bibliography gives an overview of the scope of this process. The notes appended to the entries provide a running commentary to the gathering pace of publication and the entries are organised chronologically with systematic annotation throughout.

Penguin **LONGLISTED FOR THE 2022 BOOKER PRIZE** "Buzzy and enthralling ...A glorious novel about empires and erasures, husbands and wives, staggering fortunes and unspeakable misery...Fun as hell to read." —Oprah Daily "A genre-bending, time-skipping story about New York City's elite in the roaring '20s and Great Depression."—Vanity Fair "A riveting story of class, capitalism, and greed." —Esquire "Captivating."—NPR "Exhilarating." —New York Times An unparalleled novel about money, power, intimacy, and perception Even through the roar and effervescence of the 1920s, everyone in New York has heard of Benjamin and Helen Rask. He is a legendary Wall Street tycoon; she is the daughter of eccentric aristocrats. Together, they have risen to the very top of a world of seemingly endless wealth—all as a decade of excess and speculation draws to an end. But at what cost have they acquired their immense fortune? This is the mystery at the center of *Bonds*, a successful 1937 novel that all of New York seems to have read. Yet there are other versions of this tale of privilege and deceit. Hernan Diaz's *TRUST* elegantly puts these competing narratives into conversation with one another—and in tension with the perspective of one woman bent on disentangling fact from fiction. The result is a novel that spans over a century and becomes more exhilarating with each new revelation. At once an immersive story and a brilliant literary puzzle, *TRUST* engages the reader in a quest for the truth while confronting the deceptions that often live at the heart of personal relationships, the reality-warping force of capital, and the ease with which power can manipulate facts.

Adam Smith

Father of Economics

Basic Books A dazzlingly original, "remarkable" account of the life and thought of legendary economist Adam Smith (Financial Times). Adam Smith (1723-1790) is now widely regarded as the greatest economist of all time. But what he really thought, and the implications of his ideas, remain fiercely contested. Was he an eloquent advocate of capitalism and individual freedom? A prime mover of "market fundamentalism"? An apologist for human selfishness? Or something else entirely? In the tradition of *The Worldly Philosophers*, Adam Smith dispels the myths and caricatures, and provides a far more complex portrait of the man. Offering a highly engaging account of Smith's life and times, political philosopher Jesse Norman explores his work as a whole and traces his influence over two centuries to the present day. Finally, he shows how a proper understanding of Smith can help us address the problems of modern capitalism. The Smith who emerges from this book is not only the greatest of all economists but a pioneering theorist of moral philosophy, culture, and society.

The Wealth of Nations

A Translation into Modern English

Industrial Systems Research An easier-to read, moderately abridged, current language version of the 1776 classic. Adam Smith's *The Wealth of Nations* is the great pioneering study of economic growth and performance. When first published in 1776, the factory-based Industrial Revolution was only just getting underway. However, there had been steadily rising production and incomes in Britain, the North American colonies, Holland and other countries since at least the late 17th century. Smith uses basic theory, observation and documentary sources to analyze the nature and causes of economic advancement in general. The book is lengthy and wide-ranging. It examines the contributions to production of

labour, land and capital. It explains the economic importance of large buoyant markets and industrial specialization. It also shows that national wealth does not depend on economic factors alone. For example, the favourableness or otherwise of the political-legal environment for industry and commerce is everywhere a major influence on national prosperity. This is a moderately abridged current language version of the book - essentially translating the work into modern English to improve its readability and understandability. The translation is substantive but retains literalness and original word order and grammar as far as possible. The Histories of Herodotus, a Translation by George Rawlinson

Scribe Publishing Herodotus was a Greek historian who was born in the 5th century BC in what is now modern-day Bodrum in Turkey (then part of the vast Persian Empire). A contemporary of Thucydides, Socrates, and Euripides he is often called 'The Father of History', initially by no less than Cicero. Herodotus broke from the then tradition to treat history as one of investigation of facts and evidence to present a better whole. The *Histories* is the only work for which he is known to have produced a record of his inquiry on the origins of the Greco-Persian Wars; In it he deals with the lives of Croesus, Cyrus, Cambyses, Smerdis, Darius, and Xerxes and the battles of Marathon, Thermopylae, Artemisium, Salamis, Plataea, and Mycale. He expands into many cultural, ethnographical, geographical, historiographical, and areas to form a complete cultural landscape. This attention to detail helps *The Histories* remain a riveting account of this fascinating trime. Whilst some of what he wrote appears inaccurate to modern day historians Herodotus would state that he reports only what he was told. Much of what he wrote has now been confirmed as an accurate distillation of the times. Over the centuries many have translated his works. George Rawlinson was born on 23rd November 1812 at Chadlington, Oxfordshire. He was the younger brother to the eminent Assyriologist, Sir Henry Rawlinson. Rawlinson took his degree at Trinity College, Oxford in 1838. Here he also enjoyed playing cricket and was considered to have been a rare talent at the sport. In 1840 he was elected to a fellowship at Exeter College, Oxford. After being ordained in 1841 he became, from 1842 to 1846, a tutor there as well. In 1846 Rawlinson married Louisa, the daughter of Sir RA Chermiside. His progress continued to be rapid and varied in acknowledgement of his undoubted talents. In 1859 he was made a Bampton lecturer, and was Camden Professor of Ancient History from 1861 to 1889. By 1872 Rawlinson was appointed canon of Canterbury, and after 1888 he was rector of All Hallows, Lombard Street. In 1873, he was made proctor in Convocation for the Chapter of Canterbury. As a scholar he produced, either on his own or in collaboration, several works which are greatly thought of even to this day. His translation of the *History of Herodotus* (in collaboration with Sir Henry Rawlinson and Sir John Gardiner Wilkinson), 1858-60; *The Five Great Monarchies of the Ancient Eastern World*, 1862-67; which was later expanded to include *The Sixth Great Oriental Monarchy (Parthian)*, 1873; and *The Seventh Great Oriental Monarchy (Sassanian)*, 1875. Among his other works were *Manual of Ancient History*, 1869; *Historical Illustrations of the Old Testament*, 1871; *The Origin of Nations*, 1877; *History of Ancient Egypt*, 1881; *Egypt and Babylon*, 1885; *History of Phoenicia*, 1889; *Parthia*, 1893; *Memoir of Major-General Sir HC Rawlinson*, 1898. His lectures to an audience at Oxford University on the topic of the accuracy of the Bible in 1859 were published as the apologetic work *The Historical Evidences of the Truth of the Scripture Records Stated Anew* in later years. Despite this somewhat prodigious output and alongside his other clerical and family duties he contributed to the *Speaker's Commentary*, the *Pulpit Commentary*, *Smith's Dictionary of the Bible*, and various similar publications. George Rawlinson died on 7th October, 1902 in Canterbury.

London Stories

Everyman's Library "An anthology of short fiction and nonfiction about the city of London from the past four centuries, edited by historian Jerry White"--

David Golder, The Ball, Snow in Autumn, The Courilof Affair

Everyman's Library Readers everywhere were introduced to the work of Irène Némirovsky through the publication of her long-lost masterpiece, *Suite Française*. But *Suite Française* was only the coda to the brief yet remarkably prolific career of this nearly forgotten, magnificent novelist. Here in one volume are four of Némirovsky's other novels--all of them newly translated by the award-winning Sandra Smith, and all, except DAVID GOLDER, available in English for the first time. DAVID GOLDER is the novel that established Némirovsky's reputation in France in 1929 when she was twenty-six. It is a novel about greed and loneliness, the story of a self-made business man, once wealthy, now suffering a breakdown as he nears the lonely end of his life. THE COURILOF AFFAIR tells the story of a Russian revolutionary living out his last days--and his recollections of his first infamous assassination. Also included are two short, gemlike novels: THE BALL, a pointed exploration of adolescence and the obsession with status among the bourgeoisie; and SNOW IN AUTUMN, an evocative tale of White Russian émigrés in Paris after the Russian Revolution. Introduced by celebrated novelist Claire Messud, this collection of four spellbinding novels offers the same storytelling mastery, powerful clarity of language, and empathic grasp of human behavior that would give shape to *Suite Française*.

Natural Law and the Origin of Political Economy

Samuel Pufendorf and the History of Economics

Taylor & Francis Samuel Pufendorf's work on natural law and political economy was extensive and has been cited by several important figures in the history of economic thought. Yet his name is rarely mentioned in textbooks on the history of economic thought, the history of political science or the history of philosophy. In this unprecedented study, Arild Sæther sheds new light both on Pufendorf's own life and work, as well as his influence on his contemporaries and on later scholars. This book explores Pufendorf's doctrines of political economy and his work on natural law, which was translated into several major European languages. Natural Law and the Origin of Political Economy considers the influence he had on the writings on political economy of John Locke, Charles Montesquieu, Jean-Jacques Rousseau, Francis Hutcheson and Adam Smith, amongst others. If Smith can be called the father of modern economics, this book claims that Pufendorf can be called the grandfather. This volume is of great importance to those who study Pufendorf's extensive works, as well as those interested in history of economic thought, political economy and political philosophy.

The Crisis and Renewal of U.S. Capitalism

A Civilizational Approach to Modern American Political Economy

Routledge Despite the reversal of America's fortune from the triumphalism of the Roaring Nineties to the gloom of the lost decade and the Great Depression, theoretical conceptions of US capitalism have remained surprisingly unchanged. In fact, if the crisis questioned the sustainability of the US capitalist paradigm, it did not fundamentally challenge academic theorization of American political economy. This book departs from the American political economy literature to identify three common myths that have shaped our conceptualization of US capitalism: its reduction to a state-market dyad dis-embedded from societal factors; the illusion of a weak state and the synchronic conception of the US variety of capitalism. To remedy these pitfalls, the authors propose a civilizational approach to American political economy at the crossroads between cultural studies, history, sociology and political science. Drawing together contributions from a rich variety of fields (from geography to cultural studies, political science and sociology) this work sheds a new light on America's "cultural political economy" combining theoretical reflection with empirical data and offering innovative perspectives on the crisis and renewal of American capitalism.
