Since its release in 1992, it has been used by churches and small groups to help raise up devoted disciples of Christ. Group members who work through the program will lay a solid foundation for a lifelong walk with God. While small groups may be formed for a variety of purposes, the goal of this curriculum is for groups to produce disciples—fully devoted followers of Christ—by studying God's Word in community. To this end, the goal of the study is to produce disciples who walk with God, have a personal relationship with Jesus, and live in step with the Holy Spirit. It is also to produce believers who live the Word in all areas of life and contribute to the work that God is doing in the local church. Ultimately, the goal is to develop believers who impact the world and are prepared and eager to spread the good news of Christ to others. This material will help develop these attributes in group members. Each lesson includes group Bible study and discussion questions in addition to devotions, reflections, and personal study for use by individuals between the group sessions. **Top Notch Allyn & Bacon** Top Notch 1B contains Units 6-10 from the Top Notch 1 Student's Book plus the corresponding Workbook units. In this book, Janine Bray-Mueller has encapsulated some key lessons on pricing, learned during her career as a freelancer. In a competitive market, pricing is problematic, particularly in uncertain economic times. Establishing a sustainable business relies on charging enough to pay not just for immediate living expenses, but also to update and extend your teaching skills, and cover costs such as holidays, sickness and pension provision. Understanding why many teachers are trapped in a position of underearning is the first step to escape. Many teachers can be their own worst enemy if they lack self-confidence or undervalue their skills. Familiarity with local market conditions and competitors' prices is important, but the 'going rate' is not necessarily an appropriate rate to charge. Janine explains how to balance your business on three pillars: consultancy (one-to-one teaching), training (seminar workshops) and leverage (information products). This concept will enable you to build up a sustainable teaching business. Various pricing strategies are described with advice on how to select those which are appropriate for different types of products, services and customers. Specialisation is a key strand in establishing a sustainable level of pricing. You may be under constant pressure to discount prices, but Janine makes clear the dangers in doing so. She also deals with when and how to increase prices to avoid a return to underearning. Value-based pricing is an approach which Janine has applied very successfully to freelance teaching, and this is explained fully with valuable practical advice on how it can give you a more flexible approach to pricing. Pricing Matters is full of careful explanations of key business concepts and practical advice on applying them in the context of freelance work. Step by step instructions are given on how to identify both your personal and business costs. With the aid of this book, you can calculate your available teaching time, so that you can establish your resentment number and price range. The worksheets and checklists included will help you to clarify your strategy and position yourself in the market. Janine presents effective ways to manage pricing in an entertaining way and makes them both meaningful and memorable for the freelance teacher. Her book contains all you need to know to overcome your demons, price your teaching services effectively and establish a financially sound career which is sustainable in the long-term. **Explanations for "The Official SAT Study Guide" Questions Detailed Explanations for the Answers for Every Question Henry**
